Showcase

Item #	Description	Used
218460	Scott #10f variety, Facit 9IIv1C4a Carmine [40 pen ROULETTE IV, STAMP TYPE II] Used with VF+ appearance and nearly FULL TEETH; only a couple of tooth tips missing. Examples of Roulette IV are rare; examples with completely perfect teeth may not be known (Finnish expert Kaj Hellman once commented that this example may be the nicest in existence): Facit prices full teeth, but Norma does not. However, this example is STAMP TYPE II (cut in right side of bottom of crown; see Facit) which makes it a major rarity; both Facit and Norma indicate that the price of a Stamp Type II example (of even the most common roulette) should be tripled! In addition to the overall excellent quality, it has a full NYSLOTT June 1867 cancellation. Accompanied by a 1991 Mikko Ossa certificate stating, in his typical extremely strict and blunt fashion, that "The stamp has short teeth and some teeth have breaks [i.e. creases on teeth]. The stamp is not repaired." However, it is obvious from the appearance of the stamp that the quality is much nicer than that description suggests. The stamp was in the "Michigan" collection built by an American who lived in Finland in the 1950s-60s; he obtained many of his stamps from such eminent Finnish philatelists as E.A. Hellman. I acquired the stamp in 1991 and have since sold it twice and then repurchased the entire collections of the clients to whom I sold it. Also accompanied by a 2006 Jay Smith photo certificate with lifetime guarantee.	5000.00

Select Stamps

Item #	Description	Price	NH	Mint	Used
237351	5 [1860 10 kopek Roulette I] Used VF with ample margins. This example has Facit "LK" spacing (1.6 mm horizontally and 2.3 mm vertically), the scarcest type on the Roulette I stamps (Facit 2013 value SEK 600 = US\$96). Attractive centering, neat HELSINGFORS and pen-cross cancellations, and only two teeth partially missing. Unusually attractive.	---	---	---	69.00
236194	8 [1870 10 penni, Ordinary Paper, Roulette III] Used with overall VF appearance, VF centering, and only one tooth missing. An unusually nice example. This particular number is underappreciated by the catalogs -- undamaged examples are very hard to find.	---	---	---	135.00
236692	8a [1866 10 penni Roulette II, ordinary paper] Used F-VF+ with just a couple of the usual tooth problems. Wonderful, sharp and well-centered, JAKOBSTAD "arc" style 14 July 1875 cancellation. Scarce so attractive!	---	---	---	155.00
237355	9 [1866 20 penni Roulette III] Used F-VF+, attractive centering. The Grayish Blue Thin Paper (Facit #8v2C3a) with Strong Blue ink shade (greenish, but not the Greenish Blue). Only looks like one tooth missing, but there are a couple other tooth problems under magnification. Very light cancellation. Attractive.	---	---	---	26.00
236696	10b [1866 40 penni Roulette II, ordinary paper] Used F-VF with a couple of the usual tooth problems. Unusually light red color. Attractive.	---	---	---	35.00
236698	10c [1866 40 penni Roulette II, ribbed paper] Used Fine with the usual tooth problems. Neat, light, blue cancellation. Nice color. Looks nice. Always a very sought after stamp. [Note: Ribbed paper is always hard to see. For best re-	---	---	---	---

232812	12 [5p Laid Paper, Roulette III] Mint no gum (as usual). Attractive centering. Couple teeth missing and a couple others creased, as usual. Nice, fresh looking example.	---	---	---	190.00
236014	13b [1866 10 penni Roulette I, Laid Paper] Used VF with full, even margins and neat, light, well-centered ALAVO cancellation and bright color. Looks like full teeth, but two perf tips may have been reattached. Much, much nicer than usually seen. Scarce stamp.	---	---	---	245.00
238718	19a Bright Yellow Green [1875 8 penni 4-Numerals, Perf 11] Mint with Superb centering and huge margins, but no gum. A beautiful example of a color that is very scarce with nice centering and large margins. Very scarce color with gum, but would fetch \$450 with this centering.	---	---	---	180.00
237535	21 [1875 20 penni Ultramarine 4-Numerals, Perf 11] Used F-VF with sharp RAILWAY "42" 1870s cancellation. Attractive.	---	---	---	7.50
238313	Finland Scott #22 Carmine [1879 25 penni perf 11] Used with F-VF centering and bearing VF (sideways) SWEDISH 6 September 1881 "STOCKHOLM K.E." incoming ship mail cancellation. A very nice example!	---	---	---	24.00
238562	23 Deep Red [1875 32 penni 4-Numerals, Perf 11] Used Superb centered, but with mucilage mark on reverse from mounting in an ancient album (does not affect appearance on the front). Nicely struck, complete single-ring KOTKA "arc" style 7 August 1878 cancellation. Very attractive with rich color.	---	---	---	37.00
238563	23 Dark Carmine [1875 32 penni 4-Numerals, Perf 11] Used Superb centered WITH JUMBO MARGINS, but with unobtrusive margin thin. 1876 railway cancellation. Very attractive with brilliant color.	---	---	---	22.00
238564	23 Light Carmine [1875 32 penni 4-Numerals, Perf 11] Used Superb centered WITH JUMBO MARGINS, but with thin. 1877 cancellation. Very attractive.	---	---	---	18.00
238324	27 [1882 10 penni brown 4-Numerals, Perf 12.5] NEVER HINGED 4-BLOCK with perfect original gum. Single stamps of this quality are quite scarce; the surviving blocks are extremely scarce as they are too often broken up for the singles. The single stamps would each fetch \$225. Facit 2015 value for a NH block with normal centering is \$1050. Outstanding example!	---	---	---	925.00
238315	27 [1882 10 penni brown 4-Numerals, perf 12.5] Used Superb with large top and bottom margins and jumbo side margins. Unusually light and neat corner cancellation. The lower right perf tip is just lightly thinned, but mentioned only for absolute accuracy. Interesting plate variety listed in Facit 1974-75 (a large Facit edition that included such varieties) as variety Kv4 (with 50% value premium): "Lower left value circle has a large break in the top" and also with "Both upper value circles have thickening at bottom right" which is not mentioned in the catalog. Even without the varieties, a beautiful stamp in the 99.5th percentile of quality for this stamp -- rare so nice!	---	---	---	50.00
237533	28 Light Ultramarine [1882 20 penni 4-Numerals, Perf 12.5] Used Superb with VF centered arc-style LOUVISA 23 July 1883 cancellation. Very attractive.	---	---	---	8.00
236625	29, Facit #17LaaC2 [1882 25 penni ANILINE RED 4-Numerals, perf 12.5] Used VF+ with faint, but clearly readable HELSINGFORS	---	---	---	---

Item #	Description	Price	NH	Mint	Used
---	24 February 1882 arc-style cancellation. The dating is significant because it positively confirms the identification as the first printing from the Charta Stamp Office. Even more exceptional, the STAMP HAS NOT BEEN SOAKED and has some envelope remains on the reverse, thus the aniline (water soluble!) color appears exactly as it was originally printed. It is rare to find used examples of the aniline colors that have never been changed by soaking. A wonderful example that is much more significant than it first appears.	---	---	---	50.00
237539	29 Aniline Red [1882 25 Red penni 4-Numerals, Perf 12.5] Used F-VF with VF centered BLUE 2-ring LEMPO (IS) [day/month not present in device] 1884 cancellation, with tiny part of second strike. Very attractive with nice contrasting colors.	---	---	---	14.00
238561	29f, Facit 17SeeC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Superb centering, but minor mucilage mark on reverse from mounting in an ancient album (does not affect the appearance from the front). Neat 2-ring BJORNEBO (RG) 18 July 1882 cancellation. An beautiful example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	---	---	125.00
238560	29f, Facit 17SeeC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Fine centering. Neat 2-ring (B)JORNE (BORG) 26 July (most certainly 1882; cannot be earlier) cancellation. An excellent example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	---	---	145.00
238316	31 [1885 5 penni green 4-Numerals] Used Superb with perfectly balanced margins and light, neat corner cancellation. While this is normally a very common stamp, examples of this quality are scarce.	---	---	---	6.00
236626	32a Rose, Facit #21v9 [1885 10 penni Rose 4-Numerals] Mint, very lightly hinged, Superb/VF centered, 4-block. Major plate variety: "white line through PENNI" on lower left stamp. Facit 2012 value for the least costly printing in usual quality (which is not this nice!) is SEK 225 = US\$34 for singles and SEK 1000 = US\$150 for 4-block, not counting the value of the major variety. Wonderfully fresh with bright color! Existing blocks of this issue are quickly being broken up and are much harder to find now than just a few years ago. Superior quality, with a scarce variety.	---	---	---	185.00
237540	33 [1885 20 penni Orange 4-Numerals, Perf 12.5] Used F-VF with F-VF inverted 2-ring KANNU(S) 12 January 1889 cancellation. This town is somewhat scarcer (Lape 8 Euros) and I have seen very few examples of this cancel compared to others on the same tier.	---	---	---	5.00
236723	34 [1885 25 penni Ultramarine 4-Numerals] Used VF with VF+ EKENAS "FINLAND style" 3 May 189[?] cancellation. Unusually attractive. Well centered examples of this cancellation style are scarce on single stamps.	---	---	---	8.00
237537	43 [1890 1 mark 3-Numerals] Used Superb with nearly complete carved "grid" cancellation. I have not looked up the location. Very attractive.	---	---	---	8.00
232008	56 [1891 1 rubel Russian Design with Rings] Used VF+ with neat ÅBO / TURKU 1904 tri-lingual postmark. Very attractive.	---	---	---	85.00
232009	56 [1891 1 rubel Russian Design with Rings] Used VF+ with neat KRISTINESTAD / KRISTINA 1903 tri-lingual postmark. Very attractive.	---	---	---	85.00

Item #	Description	Price	NH	Mint	Used
238318	62 Orange "DIAMOND" (DOUBLE) PERFORATION [1895 20 penni orange 3-Numerals, Perf 14 x 13] Used Fine with September 1900 cancellation. The top perforation row was double-perforated in such a way that the perforation teeth are almost all gone. This issue was perforated with a comb device that was repeatedly struck on the sheet, a row at a time. The row of stamps above this one would have been similarly doubly perforated at the sides. Though one must be cautious about high prices sometimes asked for these types of varieties, this one has every indication of being completely genuine. I guarantee this item to be genuine.	---	---	---	40.00
232026	98 [1921 50 penni M-17 Saarinen Lion, Without Watermark, Perf 14x14] NH VF+. Scarce stamp grossly undercataloged by Scott.	---	---	---	15.00
232027	104 [1921 2 mark M-17 Saarinen Lion, Without Watermark] Yellow Green and Black (Facit #104b; a little scarcer) NH Superb 4-block. Beautiful.	---	---	---	44.00
237521	101 [1917 1 mark Red and Black M-17 Saarinen Lion] Used VF with partial violet GERMAN "SEEPOST" ship mail cancellation from the STETTIN-HELSINGFORS line. Extremely scarce on loose stamps (and even quite scarce on cover). The only example of this postmark that I can recall having on any M-17 Lion issue stamp.	---	---	---	30.00
237290	118 [1918 5 mark Vasa Lion] Brownish Violet and Black (First Print, Facit #83a). Used Superb with neat WASA 1918 postmark, large margins, wonderful centering, excellent perforations, and strong color. Remarkably nice!	---	---	---	130.00
232019	118 [1918 5 mark Vasa Lion] Brownish Violet and Gray (First Print, Facit #83a). Used Fine (for this issue) with neat 13 July 1918 SORTVALA / SORDVALA "LOST TERRITORIES" (now in Russia) postmark. This postmark is from the second usage period (25 June - 7 November 1918) during which the Vasa stamps could only be used on domestic mail (by anybody), but they were not sold across the counter to the public; the post office clerks were to use them up by applying them directly to mail. Lost Territory usages are quite scarce. 2008 Facit value (for either printing) is SEK 800 = US\$135 (7/08) for normal quality and typical postmark in a more common usage period. This example is much, much more unusual.	---	---	---	125.00
232020	118 [1918 5 mark Vasa Lion] Brownish Violet and Gray (First Print, Facit #83a). Used F-VF 4-BLOCK with Superb 25 July 1918 VAASA / WASA postmark. This postmark is from the second usage period (25 June - 7 November 1918) during which the Vasa stamps could only be used on domestic mail (by anybody), but they were not sold across the counter to the public; the post office clerks were to use them up by applying them directly to mail. Single stamp 2008 Facit value (for either printing) is SEK 800 = US\$135 (7/08) for normal quality and typical postmark in a more common usage period. Used blocks are very unusual and this is an extremely nice example!	---	---	---	490.00
232036	126a [1921 1-1/5 mk Surcharge on 50p M-17 Saarinen Lion] "THIN 2" variety. Used Superb with neat postmark. Nice examples can be hard to find.	---	---	---	12.00
237520	152 [1921 25 mark M-17 Saarinen Lion, Watermark Posthorn] Used VF with cancellation of the proper type and appearance, but not showing the year date, thus cannot be proven to be timely use. Tip: The watermark on used examples of this stamp is always hard to see (I can see it, but some people might not), however, both watermarked stamps are Perf 14.25 x 14.75 (which this example	---	---	---	---

	is) whereas the unwatermarked stamp is Perf 14.	---	---	---	210.00
232052	175 [1930 3 mark M-30 Lion, Olive] Mint VF+. The key value of this long set! Hard to find nicely centered.	---	---	---	40.00
232053	175 [1930 3 mark M-30 Lion, Olive] Mint VF+. The key value of this long set! Hard to find nicely centered.	---	---	---	40.00
231816	178 [1930 10 mk Lake Saimaa; first type, Facit #160I] Mint Superb, lightly hinged. Wonderful example of a stamp that is scarce in nice quality.	---	---	---	90.00
231817	178 [1930 10 mk Lake Saimaa; first type, Facit #160I] Mint VF+. Attractive example of a stamp that is scarce in nice quality.	---	---	---	75.00
232059	196 Type II, Facit #175v2 [1931-32 1,25 Surcharge on 50 penni Yellow M-30 Lion] Used Superb. With only 25,000 of Type II printed (compared to 4.4 million of Type I), nice used examples are very scarce.	---	---	---	90.00
232060	197 [1931 2 mark President Svinhufvud] Used F-VF with Superb HYVINKAA 16 (? day after issue) December 1931 postmark. This issue is quite scarce with nice postmarks.	---	---	---	25.00
237357	221-2 [1940 1:75 and 2:75 mk surcharges on 1.25 and 2 mark M-30 Lion issues] NH Superb set of 4-blocks. This set is hard to find NH with nice centering, especially in blocks.	---	---	---	62.00
238684	B1a [1922 Red Cross semi-postal, 1941 Printing with Perforation 13 x 13.5] Though not the highest catalog value semi-postal stamp/variety, this seems to be the most difficult to find. Greatly undervalued in the catalogs in my opinion -- it has been more than ten years since I was last able to offer an example! NH with VF+ centering, but with the minor typical gum bends often seen on both perforations of this stamp. Otherwise as fresh as the day it was printed.	---	---	---	28.00
231872	B200 Non-Fluorescent (Facit #756v2). The rarest of the semi-postal stamps; very few printed! NH VF+.	---	---	---	85.00
231873	B200 Non-Fluorescent (Facit #756v2). The rarest of the semi-postal stamps; very few printed! Used VF+ with first day postmark.	---	---	---	49.00
237430	C4 [1958 300 mark Airmail, "300" with horizontal background lines] NH Superb. A wonderfully fresh example, very hard to find with perfect centering.	---	---	---	37.00
237424	C9 Type I Non-Fluorescent (Facit #583Iv1, HaP paper; 17 shading lines in the zeros). NH Superb. Difficult to find in such nice quality.	---	---	---	48.00
237425	C9 Type I Non-Fluorescent (Facit #583Iv1, HaP paper; 17 shading lines in the zeros). NH Superb. Difficult to find in such nice quality.	---	---	---	48.00
221930	M8, Facit #F8 [1963 Military] NH Superb. Soldiers were allocated only 5 stamps each for use during the training maneuvers for which these stamps were issued; the stamps were apparently supplied to the soldiers in advance and then could be used by family members, etc., to send letters to the soldiers. While this stamp is usually found with VF centering, perfectly centered examples such as this are quite scarce.	---	---	---	185.00
221929	M8, Facit #F8 [1963 Military] NH VF. Soldiers were allocated only 5 stamps each for use during the training maneuvers for which these stamps were issued; the stamps were apparently supplied to the soldiers in advance and then could be used by family members, etc., to send letters to the soldiers. Pristine and bright.	---	---	---	160.00

Bargain Stamps

These bargain-priced stamps are attractive, but many have described hidden flaws. You can save a tremendous amount of money when you add such stamps to your collection. Each stamp is one of a kind, so please let me know if I may substitute a different example (that looks as good or better, for the same cost) if the stamp you order has sold. If you have any doubts, all are available for approval viewing. If you are seeking stamps of this quality and price level from any of the Scandinavian countries, just send along your want list -- I will be happy to send bargains on approval. Scott numbers have been used unless otherwise stated.

Item #	Description	Mint	Used
236169	7b [1866 8 penni Roulette II] Used F-VF centering with usual tooth problems. An attractive and lightly canceled example of the scarce Roulette II.	---	95.00
236701	8a [1866 10 penni Roulette II, ordinary paper] Used Fine appearance and teeth; with the usual tooth problems. Light cancellation.	---	60.00

238557	18 [1875 5 penni 4-Numerals, Perf 11] Mint VF+ centered, but no gum and with small thin spot. Very attractive with brilliant color.	36.00	---
238718	19a Bright Yellow Green [1875 8 penni 4-Numerals, Perf 11] Mint with Superb centering and huge margins, but no gum. A beautiful example of a color that is very scarce with nice centering and large margins. Very scarce color with gum, but would fetch \$450 with this centering.	180.00	---
238719	19a Dark Yellow Green "Moss Green" [1875 8 penni 4-Numerals, Perf 11] Mint with VF centering, but with couple tiny, expertly repaired perf flaws (requires at least a 10x glass to see) over which gum has been applied. The gum is otherwise at least disturbed, or possibly regummed. A wonderful looking example. Facit 2016 value SEK 3000 for the "Moss Green" color. Missing from most collections even in Used condition and certainly in Mint condition.	69.00	---
238558	20 [1881 10 penni 4-Numerals, Perf 11] Used VF centered, but some blunted perfs and minor toning on a couple perfs. Very attractive with very light cancel.	---	21.50
238720	21 Brilliant Ultramarine [1875 20 penni 4-Numerals, Perf 11] Mint with VF centering; with gum, but gum is at least disturbed and possibly regummed. Most printings of this stamp are quite scarce with gum. Facit 2016 value for least costly color is SEK 1250. Very pretty.	65.00	---
237508	22 [1879 25 penni Carmine 4-Numerals, Perf 11] Mint VF, but without gum. Otherwise would be \$325. Very attractive.	160.00	---
238721	22 Carmine [1879 25 penni 4-Numerals, Perf 11] Used F-VF with either faded or partially removed very small, light "X" cancel in lower right corner. It looks so close to mint that somebody regummed it! Light bend that would soak out (resulting in simply a Used F-VF stamp).	---	5.00
238562	23 Deep Red [1875 32 penni 4-Numerals, Perf 11] Used Superb centered, but with micluge mark on reverse from mounting in an ancient album (does not affect appearance on the front).	---	---

Item #	Description	Mint	Used
	Nicely struck, complete single-ring KOTKA "arc" style 7 August 1878 cancellation. Very attractive with rich color.	---	37.00
238563	23 Dark Carmine [1875 32 penni 4-Numerals, Perf 11] Used Superb centered WITH JUMBO MARGINS, but with unobtrusive margin thin. 1876 railway cancellation. Very attractive with brilliant color.	---	22.00
238564	23 Light Carmine [1875 32 penni 4-Numerals, Perf 11] Used Superb centered WITH JUMBO MARGINS, but with thin. 1877 cancellation. Very attractive.	---	18.00
238565	23a, Facit #18Sax, Dull Light Rose on Very Thin Paper [1875 32 penni 4-Numerals, Perf 11] Used with VF centering, but with thin. Neatly struck, complete 30 August 1876 WIBORG "arc" style cancellation (Lost Territory). Very attractive.	---	37.00
238566	24 (Bluish) Lilac [1877 1 mark 4-Numerals, Perf 11] Used with VF+ centering, but with very small thin spot. Small manuscript "x" cancel and unusual boxed "(WAR)DE" cancellation used only on insured mail. Attractive!	---	37.00
238722	27 [1882 10 penni 4-Numerals, Perf 12.5] Mint with VF centering and original gum, but very small thin spot. This stamp normally comes in Gray Brown or Yellow Brown; while this example falls into the Yellow Brown family, it is a much richer, deeper color than usually seen. Outstanding appearance.	39.00	---
238723	29 Aniline Rose-Red with thin/broken frame lines of the early 1882 printings. [1882 25 penni 4-Numerals, Perf 12.5] Mint with F-VF+ centering, but with minor, natural bend that is probably the result of the very thick gum that was used in this printing. The gum appears to be original, but is of quite unusual. It is thick, yellowish, and fairly well "dried out". The Handbook states of the early printings of this stamp: "Little is known about the gum. It is mainly colorless or slightly Yellowish. In 1882 thick Brownish gum was used, or it may be that it possibly turned Brownish with time." This stamp definitely has thick dark yellowish gum, but it is not, or has not turned, brownish. A very interesting and attractive example!	145.00	---
238561	29f, Facit 17SeeC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Superb centering, but minor mucilage mark on reverse from mounting in an ancient album (does not affect the appearance from the front). Neat 2-ring BJORNEBO(RG) 18 July 1882 cancellation. An beautiful example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	125.00
238567	33 Dark Orange [1885 20 penni 4-Numerals, Perf 12.5] Mint with Superb centering, but no gum and with thin spot. Very attractive and, if undamaged with gum, would otherwise be about \$50 with this centering!	14.00	---
238569	34 Ultramarine [1885 25 penni 4-Numerals, Perf 12.5] Mint with Superb centering, but with thin at upper left corner. Very attractive and, if undamaged, would otherwise be about \$100 with this centering!	22.00	---
238570	34 Ultramarine [1885 25 penni 4-Numerals, Perf 12.5] Mint with VF++ centering, but without gum and with thin and mucilage mark from an ancient album. Very attractive and, if undamaged with gum, would otherwise be about \$90 with this centering!	18.50	---
238574	45 [1890 10 mark 3-Numerals, Perf 12.5] Mint with VF centering, but no gum and with small thin spot. Very attractive.	9.50	---
238724	(65) Emergency Printing, Facit #48 [1901 5 penni Letterpress / Typography Emergency Issue] Mint F-VF+ centered example, but without gum and with tiny internal, natural crease (very common on this scarce printing). Though not listed by the Scott Catalogue, this stamp is listed as a "ma-

A very pretty example that would otherwise easily fetch \$115.	36.00	---
235866	152 [1921 25 mark M-17 Saarinen Lion, Watermark Posthorn] Used VF example with neat postmark but which does not show a date. This stamp sells for \$225 with a dated postmark!	---	40.00
232057	178 [1930 10 mark Lake Saimaa, First Type] Mint with F-VF centering, but with faint thin speck.	12.00	---

Various and Unsorted Covers

Many of the covers in this "Various and Unsorted" section have minimal descriptions. However, that does not mean that they are unworthy. There are many very interesting and scarce items here. Furthermore, **the website shows pictures of all items and has many, many more covers listed** that cannot be listed here because the written descriptions are inadequate -- but they are still very interesting covers. **Please see the expanded website listings.** Go to www.JaySmith.com -- Scandinavian Price Lists - Finland -- Covers.

225618	Official postal (internal post office mail) stampless 29 October 1919 Adresskort parcel card for a single domestic 2.36 kg parcel sent within SÄNIO utilizing the Swedish language side of the card. Marked "Rek" (registered) and with "Fripaket" written where the postage would otherwise be placed. Superb violet postal handstamp. Such items are seldom offered.	24.00
225634	Stampless 26 September 1929 Postförskött-sanvisning / Postiennakko-osoitus (cash on delivery proof of payment card) used within JOENSUU for 281.70 mk; left-side coupon has been clipped as usual with cards. Blue boxed postal handstamps: "RETOUR" (return to sender), "TAKAISIN" (refund), and on the reverse "EI LUNASTETTU" (not redeemed). This is NOT the usual type of COD parcel card; this card is the evidence that a payment was made. However, the recipient of the payment did not accept / redeem the payment; the card was returned; the payer was refunded. This type of card is extremely scarce; probably because they bore no stamps (the card was the second part of the original request for payment; the stamps were on the first part) and/or because they were usually retained by the post office or discarded. I cannot recall having another example of such a refunded COD payment card in 34 years! Very scarce and interesting postal history item.	24.00

231406	WASA Type I straight-line cancellation (used 1812 to early 1820s) VF strike on undated folded official mail "fribref" cover to Tavastehus. Remarkably fresh and attractive for an cover nearly 200 years old!	35.00
231407	HELSINGFORS straight-line cancellation (used 1812 to late 1840s, at least two types) Superb strike on undated folded official mail "fribref" cover to Tavastehus. Remarkably fresh and attractive for an cover nearly 200 years old!	30.00
237652	(Swedish) WESTERVIK straight-line cancel, used 1819-1830, (F-VF) on very interesting 4 November 1822 private folded letter, WITH CONTENTS: a complete letter from U.H. Nordenskjöld to military officer O.H. Nordenskjöld at a military post in BORGA, FINLAND (even though Finland was ceded to Russia in 1809). The Nordenskjöld family has been very important in Swedish history. With manuscript "Lösen 66 kop" Finnish postage due marking (Postage Due 66 kopek).	75.00
236639	1822 complete folded letter, with contents, from "WYBORG" with wonderful strike of "Wiborg" black straight-line (German spelling) handstamp on reverse, to Bordeaux, France. Bears at least NINE other postmarks and/or rate markings on front and back. Intact red wax seal. Nice "MEL/28 OCT." transit handstamp; this route was normally used only until 1833. Mail this early to France (and non-Russian Europe in general) is quite scarce. Wonderful quality.	225.00
236640	1847 complete folded letter, with contents, with excellent strike of "WIBORG" black low-box postmark on reverse, to Bordeaux, France. Bears at least EIGHT other postmarks and/or rate markings on front and back. Wonderful quality.	125.00

1856-1859 Ovals

Item #	Description	Price
231422	2 [1856 10 kop Oval] (square cut, three huge margins) on 1858 complete folded cover, with contents, from ÅBO to JACKOBSTAD. The stamp is pen canceled as usual, with the Åbo high-box dated postmark to the side. The stamp is not tied to the cover, but Åbo pen cancels were typically "pre-cancels" to help speed the postal clerks work. This is a typical Åbo cover for the period; years ago it was examined by expert Rolf Gummesson who stated that it was genuine and belonged on the cover. The stamp design just touches at right and at that point shows an interesting printing variety in	

Item #	Description	Price
	which there is a break in the frame line (this is NOT a defect in the stamp). The cover spent many years in a stamp mount that shrank causing some wrinkling; this could certainly be flattened out with care. The contents are interesting and were obviously printed in England (in English) by a ship and shipping management company and sent in bulk to Finland where they were mailed by the local agent of the company. Facit 2007 value SEK 8000 = \$1200 for pen canceled stamp on cover; even off-cover the most common color of the stamp is listed at SEK 3500 = \$525! Very attractive item at a very reasonable price.	690.00

1860-1875 Serpentine Rouletted

Item #	Description	Price
231423	4 [1860 5 kop Serpentine, Roulette I] VF+ with FULL TEETH on very large piece of cover front, with light ANK cancel, from HELSINGFORS to JACOBSTAD. The strong blue color suggests that it is Facit #3C1Ka, the first printing. However, because the top shows more than 1.6 mm between stamps, it is either from the top row in the sheet or it is from a later printing. If it is the first printing, the 2007 Facit value for a single stamp is SEK 7000 = \$1050 (full teeth) and on full cover SEK 35,000 = \$5250. However, even the most common printing on full cover is SEK 10,000 = \$1500!! This very fresh and attractive piece almost looks like a full cover, but is priced much, much lower, of course. A scarce item from this early era. Even the most common single stamp with FULL TEETH sells for \$225!	350.00
218461	4a, Facit 3C2 [5 kop Roulette II] Wonderful example with FULL TEETH on beautiful New Years Day 1 January 1866 cover (envelope!) from KARIS to Helsingfors, with VF "low box" KARIS cancellation. As nice an example as one could hope for. Accompanied by Mikko Ossa photo certificate stating that it is genuine and unprepared. [Facit 2006 value for more typical quality is SKE 14,000 = \$1950.	1450.00
236642	4a [1860 5 kop Serpentine, Roulette II] VF appearance with one tooth shorter, on very large piece of cover front, with neat ÅBO 21 November 1866 arc-style cancellation. The 2012 Facit value for a full cover is SEK 14,000 = \$2100. This very fresh and attractive piece looks like a full cover, but is priced much, much lower, of course. A scarce item from this early era at a very low price.	225.00
236643	5 [1860 10 kop Serpentine, Roulette I] with "K" (1.6 mm on all sides) stamp spacing. VF with FULL TEETH, on very large piece of cover front (with top back flap, but rest of back missing), with Superb TORNEÅ "D4 DEC 1861." low-box cancellation. Note the extraneous "D" in the date -- I have never seen this type of error before. The normal cancel has an "R3" rarity. The 2012 Facit value for a full cover is SEK 2200 = \$330, while a full-teeth single stamp easily sells for \$80-100. This very fresh and attractive piece looks like a full cover, but is priced much, much lower, of course. A scarce item from this early era at a very low price.	135.00
236644	5 [1860 10 kop Serpentine, Roulette I] with "K" (1.6 mm on all sides) stamp spacing. VF with FULL TEETH, on folded letter (without contents), with manuscript cancellation and BJÖRNEBORG 19 June 1862 low-box postmark ("R2" rarity) to the side. The 2012 Facit value for a full cover is SEK 2200 = \$330, while a full-teeth single stamp easily sells for \$80-100. Very attractive!	260.00
236645	5a [1860 10 kop Serpentine, Roulette II] with "L" (2.3 mm on all sides) stamp spacing. VF appearance with one tooth shorter. On very large piece of cover front that looks like a full cover, with Superb ÅBO 6 July 1865 cancellations, and "FRANCO" in oval frame side cancel (scarce). The

 return address is commercial firm in Hamburg, German, and the address includes "Finnland", both indicating that the cover originated outside of Finland and carried outside of the mails via a forwarder who placed it in the mails at the Åbo port. The 2012 Facit value for a full cover of Roulette II is SEK 7500 = \$1125! This very fresh and attractive piece looks like a full cover, but is priced much, much lower, of course. A scarce item from this early era at a very low price. 175.00

215250 6b [1866 5 Pen, Roulette III, Reddish Brown] Very attractive stamp on 29 August 1874 printed matter post card, from KUIPIO with "arc" style cancellation, to Jakobstad with ANK receiver. The teeth at top are short due to being placed at the top of the card, but otherwise the stamp is in wonderful quality. The printed card advertises the business of sales representative; the backside is blank. The card is exceptional in that everything is on one side (instead of the message being on the reverse). This type of card is fairly common from countries such as Switzerland, but this is the first Finnish example I have had. The 5 Pen denomination was primarily issued for this printed matter rate, however due to the nature of printed matter, relatively few examples have survived. Facit 2005 lists such a usage at SEK 8000 = \$1125, however this remarkable example is unusually attractive. 925.00

200667 10b [1866 40 p Roulette II] (F-VF) on attractive 1872 domestic cover with full contents: attractive illustrated billhead. The stamp is quite attractive and in better than usual quality. 225.00

1875-1881 4-Numerical Perforation 11

Item # Description Price
 200706 18 Yellow Orange, Facit #18Sa [1875 5 penni 4-Numerical, perf 11] (VF+) on wonderful 23 May 1876 printed-form business letter, complete contents, from NIKOLAISTAD with arc-style cancellation. The cancel date confirms this as Facit #18Sa, a scarce stamp on cover; 2006 Facit value SEK 2500 = \$340, for ordinary quality. This example is in beautiful quality; probably the freshest cover with the 5 penni stamp that I have had in 33 years! 350.00

225622 22 [Facit #17S] [1879 25p perf 11, Senate Printing] (F-VF) on attractive 18 July 1881 cover from WIBORG (in Karelia, Lost Territory now in Russia), with arc-style postmark, to Russia. Clear Russian receivers showing the cover being received "before" it was mailed due to the Russian use of the Julian calendar. Very neat and in unusually nice quality! 275.00

237472 22 [1875 25 p Carmine, Perf 11] (Fine) on 20 February 1881 cover to the U.S., addressed to the captain of a Russian ship and sent to the Russian Consulate in New York. From NIKOLAISTAD with "cork" cancellation and dated 2-ring side postmark. On reverse: Russian transit and New York receiver postmarks, along with intact red wax seal. The Facit 2013 lists this particular use to the U.S. at SEK 4500 = \$720! Very neat and attractive. 495.00

 231746 34 Grayish Ultramarine [1885 25p 4-Numerical] First Printing on badly worn 17 September 1885 cover FRONT ONLY from IDENSALMI with Arc-style postmark, to the U.S. (a charity organization in Ohio). Terrible condition, but if in nice condition it would fetch \$170+! 10.00
 237473 34 [1885 25 penni 4-Numerical, Ultramarine, Perf 12.5] (VF) on 1 May 1889 cover to the U.S., from IDENSALMI with "arc" style cancellation. Heavily worn, but this is quite typical for covers of the time period to emigrants to North America -- the recipients apparently often carried the "heart warming" letters in their pockets. Facit 2013 value SEK 1200 = \$190, but seldom seen. 35.00

1899-1917 Russian Stamps Used In Finland

Item # Description Price
 236662 Russia Used in Finland: 1909 3 and 7 kopek stamps, Facit #R20, R23 (VF, F-VF), on 8 June 1913 cover from KUOKKANIEMI [Lost Territory, now in Russia] with bilingual Russian-text cancellation. To the U.S. While this 3+7 combination would seem to be common to make the 10 kopek foreign rate, it is not often offered. The cancellation is scarce, with an R3 (out of 5) rarity factor. Roughly opened, but still quite nice. 19.00
 225614 Facit #RM11 [Russian 1913 Romanov Dynasty: 3 kopek Alexander III] (VF) on 29? June 1913 picture post card (view of logging scene at Muolajärvi / Wihola) canceled at PERKÄRVI (bilingual with Russian text) and with very faint rural letter carrier numeral cancel, to Russia. Located in Karelia, part of the Lost Territories. Scarce cancellation and scarce usage of a so-called Russian Co-Runners (stamps not sold by post offices in Finland, but carried into Finland by private people). 60.00

The number of parcels or weight are not indicated (unusual), but the 15 mk franking matches a single 7 kilo parcel. The 10 mk stamp is scarce on any type of cover; 2006 Facit value SEK 600 = \$80. Very fresh and nice.	45.00
225625	108, 138 [M-17 Saarinen Lions: 10 mk unwatermarked; 5 mk wtmk swastika perf 14.75] (VF) on 5 December 1927 parcel card from HELSINKI to NARPES for one 6.5 kilo parcel. The 10 mark stamp is quite scarce on any type of cover.	40.00
225626	108, 136 [M-17 Saarinen Lions: 10 mk unwatermarked; 2 mk wtmk swastika perf 14] (10 mk VF, 2 mk damaged) on 26 January 1927 parcel card from PORI to KRISTINESTAD / KRISTINA (the latter is Russian text removed type) for one 6 kilo parcel. The 10 mark stamp is quite scarce on any type of cover.	30.00
200734	110, 135x2 [1921 25 mk w/o wtmk; 1926 1.5 mk wtmk swastika M-17 Lions] on 5 June 1928 parcel card for three parcels (3, 5, and 6 kilos) from OULU to the western Lapland town of MUONIO (with Russian text removed receiving postmark on reverse), far north of the Arctic Circle. 25 mark stamps are rare on any type of cover; 2006 Facit value SEK 2500 = \$335; Norma 2002 Euros 250 = \$320. A beautiful example and with a Lapland postmark.	295.00
200744	132, 136, 151 [50 p and 2 mk wtmk swastika; 1927 10 mk wtmk posthorn M-17 Lions] on 10 August 1928 COD (925.10 mk) parcel card for one 3.5 kilo package from HELSINKI to RIIHIMÄKI.	

Item #	Description	Price
	Violet handstamp at top indicating that the package can be picked up at the post office after 14:00 hours. The stamp is perforated 14.25 x 14.75 and is used in 1928, thus it can only be the posthorn watermarked stamp with is rare on cover; 2006 Facit value SEK 3000 = \$400. Very fresh and nice... and rare.	340.00
236890	B1, 132a [1922 first Red Cross semi-postal; 1926 55 penni M-17 Lion, Swastika watermark, Perf 14.25 x 14.75] (VF) on 17 November 1928 cover used within HELSINKI. Pays correct 1.50 rate (15 Jan 1926 thru 30 April 1931). #B1 was only valid until end of 1930. Any proper in-period use of #B1 is scarce; Facit 2013 only prices B1 on cover with supplementary franking (like this one), at SEK 300 = US\$48. Attractive.	40.00
225623	134 pair [1925 1 mk M-17 Saarinen Lion, swastika wtmk, perf 14] (VF) on neat 29 September 1926 cover to the U.S. from "VIIPURI 1" (Wiborg; in Karelia, Lost Territory now in Russia). This is cancellation type 2 (for this town) with "x" on either side of the date; listed at the highest R5 rarity (very rare) in the Helkiö catalog.	30.00
200739	136, 139 [2 and 10 mk wtmk swastika M-17 Lions] on 4 April 1928 parcel card from HELSINKI to LAHTI. The number of parcels or weight are not indicated (unusual), but the 12 mk franking matches a single 6 kilo parcel. The 10 mk stamp is scarce (especially the watermarked issues) on any type of cover; 2006 Facit value SEK 1800 = \$245!	165.00
200738	137 [1926 3 mk wtmk swastika M-17 Lion] on 23 March 1927 COD (15 mk) parcel card for a COD letter from HELSINKI to the small village of Laperla (no post office), near SUOMUSJÄRVI (with Russian text removed receiver on reverse).	8.00

1918 Vasa Issue		
Item #	Description	Price
236647	111-8 [1918 "Vasa" Issue] COMPLETE SET including the 5 mark (VF) on registered 9 July 1921 philatelic cover from JÄÄSKI to PADASJOKI, with receiver on reverse. All postmarks are Russian-text-removed type. By this date the 5, 10, and 50 penni values had been demonetized, but the others were still valid until 1 May 1923. Even though completely philatelic in origin, such covers are unusual. The 5 mark Scott #118 alone could be removed from the cover and easily sold for \$130. The on-cover, genuine-use Facit 2012 values include \$150 for the 70 penni and \$1800 for the 5 mark!!! Very attractive.	225.00

730221	Finland M-30 Covers with All Different 1948-52 Town Cancellations: Impressive collection of 386 covers bearing 1930 Lion issue with ALL DIFFERENT 1948-52 town cancels. Concentrated around 1950, they have a mix of bridge-type (double-ring) and single-ring cancels. There are only a dozen or so machine cancels. There were very few cities and only a modest number of large towns in Finland in 1950, thus most of these are from small towns or tiny villages; many are likely to be scarce. Domestic genuine commercial usages on SMALL SIZE ENVELOPES (none with windows) with a nice variety of stamp frankings. Individually these sell for at least \$5 each and up to \$8-10 each (individual total around \$2300). ALL 386 DIFFERENT FOR LESS THAN \$2 PER COVER! Payment terms may be arranged. (Old #30221) <i>Shipping cost is additional for this item.</i>	770.00

229805	259, 261 [6m Orange, 10m Violet M-30] (VF) on 14 August 1947 registered local rate cover from "HELSINKI 24" to LAUTTASAARI / DRUMSÖ (Helsinki area) with receiver. The 16m rate was only in effect for 12 months. Scarce.	18.00
229806	261 pair [10m Violet M-30] (VF) on July 1947 registered cover from HILLIMÄKI to LAUTTASAARI / DRUMSÖ with receiver. This rate/franking only possible for 11 months.	18.00
214931	Finland #262 with TJUDÖ (Åland) bridge-style cancellation on neat cover to Stockholm. Though the year date is not clear, the 12m rate to Sweden as double rate ran only 16 January 1946 through 31 December 1946 and as single rate only 1 January 1948 through 30 November 1948. This device was the first postmark at Tjudö and it is interesting to note that Mattsen only recorded it used in 1950. If the franking is to be relied upon, then this usage moves the cancel usage range back at least a couple years. Regardless, I believe that this is the ONLY pre-1970s TJUDÖ cover I have ever had (in 32 years)! Quite scarce.	80.00
229817	262, 275 [12m Blue, 12/10m Surcharge Violet M-30] (F-VF) on 23 April 1948 air cover from HELSINKI to the U.S. with TIED CHARITY SEAL (blue, mother and child). Scarce.	40.00
200777	270 x3, 260 x3 (VF) [3 mark green, 7 mark carmine M-30] on 27 November 1948 airmail cover from HELSINKI to the U.S.	8.00
229808	273, 291, 294, 322 [15m Blue, 8m Green, 12m Orange Red M-30; 25m Red Lilac M-54 Lion] (VF) on 6 August 1960 cover to the U.S. with EM-SALO small town cancel.	8.00
200748	274 (VF) [24 mark M-30] solo rate usage on 16 November 1948 registered cover from Turku / Åbo to Sweden. 12 mark registry fee and 12 mark Nordic letter rate to 20 grams; both rates only valid 1 January through 30 November 1948. This 24 mark value is one of the scarcest of the solo usages of the M30 issue.	39.00
202748	274, 166B x2, 248 (VF) [24 mark red violet, 1 mark green M-30; 20 mark Post Office Building] on 11 May 1949 complete domestic parcel card for 5 kilo parcel from OLLUI to YKSRIHLAJA, with receiver. 45 mark rate for 5 kilo parcel, but what was the extra mark for? The 24 mark stamp is very scarce on cover.	27.00
200809	302, 317 [1952 10 mk Green M-30 Lion; 1954 15 mk Red M-54 Lion] on pretty mixed issues 27 September 1954 domestic cover with neat JÄMSÄ small town cancel.	8.00
229756	365, 302 [1959 30m Women Gymnastics; 10m green M-30 Lion] (VF, F-VF) on 11 December 1958 cover from HELSINKI to U.S.	6.00
229786	302, 317 [10m Green M-30; 15m Red M-54] (VF) on 1954 commercial cover. Scarce combination of issues.	6.00
229810	305 x3, 302 [40m Woodchopper; 10m Green M-30] on 1954 air cover to the U.S. This is a very high postage rate (130 marks) for a cover to the U.S. The published postage rate charts for this period are confusing and appear to have some errors. At 50 grams, the rate would likely have been 120 marks; 55 grams at 132 marks. However, I am not satisfied with this calculation and cannot say whether this cover is correctly paid or not - my experience suggests that it IS correctly paid, but I cannot quote the rate at the moment. Still, an unusual franking. Note that most uses with multiple examples of the 40m Woodchopper stamp are parcel cards, not envelopes.	30.00

236663	350 [1955-57 100 mk Helsinki South Harbor, Light Greenish Blue] (VF) solo use on 30 October 1957 KODAK advertising airmail cover to the U.S. Though Scott gives this color an issue date of 1957, there were five plates and thus five color shades printed from 1955-1957 (though it is unclear when the different printings actually went on sale). In any case, this stamp was replaced with a new 100 mk issue on 2 June 1958 and thus solo uses on cover are seldom seen. Colorful advertising cover.	14.00

Very attractive -- the 1940 seal is scarce on cover.	40.00
229823	226 pair [1941 3.50m Viborg Castle] on 15 December 1942 Continuation War Soldier Letter sent airmail to Denmark. Violet, boxed, sans-serif KENTTÄPOSTIA hand stamp (unusual type) on stamps plus "KENTTÄPOSTI / KONTTORI Nr 7" machine cancellation. Censored by Finland and Denmark (German). From Corporal S. Theslett, possibly a Danish volunteer fighting in Finland. Regardless, a very scarce usage.	55.00
229830	B50 [1943 5.50 + 35 Red Cross Semi-postal] (VF) solo use on 6 April 1943 cover from HELSINKI (machine cancellation promoting saving) to Sweden. Finnish censored. From one philatelist to another - on reverse has large red boxed hand stamp that appears (text is unclear) to signify PHILATELIC CENSORSHIP. Such philatelic censorship was also done in Norway and England, but I do not recall seeing any other Finnish examples. RARE!	100.00

WWII-Era Foreign Volunteers

In the WWII era, during the "Winter War" and the "Continuation War", many foreign volunteers joined the Finnish fight against Russia. The bulk of foreign volunteers fighting in Finland were Swedish. At times, German Nazi forces were also fighting alongside Finnish and volunteer forces, against Russians, resulting in the odd possibility that Jewish Finnish or volunteer officers could be commanding German Nazi soldiers.

Mail from Swedish volunteers can often be identified by postmarks and handstamps that include "F" and/or return addresses of "Haparanda F" and/or "S.F.K." postmarks. Markings using the Swedish-language term "fältpost" indicate Swedish-language units, senders, etc., however they do not guarantee that the item is volunteer mail. The Finnish-language term "kenttäpostia" is also (less often) seen on volunteer mail.

1955-1962 Commemoratives

Item #	Description	Price
215110	Finland #331 [Founding of Lahti] (F-VF) on 1955 solo usage cover to the U.S., with PÄLSBOLE (Åland) Russian-text-removed style cancellation. Mattsén and Hvirvikoski show this cancellation used only until 1936 and nothing again until 1962, which is obviously not correct. However, this is very late use for any Finnish or Åland Russian-text-removed postmark. Scarce solo Åland usage of commemorative stamp. 29.00	
229757	332, 340 pair [1955 10m Telegraph; 1956 Sports, Woman, Gymnastics, Soccer, etc] (VF) on 11 August 1956 air cover to the U.S. 8.00

237470	253A [1947 30 mk Bus] (VF) solo use on 31 July 1952 airmail picture post card (real photo of the Helsinki Olympic Stadium) to the U.S., with HELSINKI OLYMPIC RINGS CANCELLATION with code letter "N" below date (N = mailed at the Stadium post office). Mailed during the Games with a chatty message about the Stadium and the Olympic city. A very attractive "in real time" souvenir of the Games. Correct 30 mk franking: 15 mk surface post card rate plus 15 mk Zone 4 airmail surcharge.	30.00
229810	305 x3, 302 [40m Woodchopper; 10m Green M-30] on 10 July air cover to the U.S. This is a very high postage rate (130 marks) for a cover to the U.S. The published postage rate charts for this period are confusing and appear to have some errors. At 50 grams, the rate would likely have been 120 marks; 55 grams at 132 marks. However, I am not satisfied with this calculation and cannot say whether this cover is correctly paid or not - my ex-

229754	280 pair [1949 35mk Olavinlinna Castle] with pair of two designs of 1954 Art labels, tied on 1955 airmail cover TO MONROVIA, LIBERIA with receiver. These labels exist in several designs and colors -- I do not know much about them, however, they are very seldom seen on cover! Any usage to Liberia is RARE; it is a genuine postal usage; I purchased the familys archive of mail (the father of the addressee apparently ran the College of West Africa at the time). 236663	350 [1955-57 100 mk Helsinki South Harbor, Light Greenish Blue] (VF) solo use on 30 October 1957 KODAK advertising airmail cover to the U.S. Though Scott gives this color an issue date of 1957, there were five plates and thus five color shades printed from 1955-1957 (though it is unclear when the different printings actually went on sale). In any case, this stamp was replaced with a new 100 mk issue on 2 June 1958 and thus solo uses on cover are seldom seen. Colorful advertising cover.	14.00

237291	Group of 21 all-different Finnish railway cancellations on domestically used Finnish postal cards (Russian 1911 design, used 1911-1917), representing at least five major postmark types. Quality of the postmarks and the cards is at least mostly VF, with a couple of F-VF, but several Superb! Railway cancellations on this card design type (1911) are much less often seen than on earlier card types -- this large an all-different group is unusual. The group includes a few sub-types: different types of ornaments on either side of the date, size or appearance of text, etc. One 1916 censored card is included. Many of the cards also bear postmarks of a sending or receiving town; a few of those postmarks are scarce. The cards themselves include a variety of type, color shade, and paper texture differences. These have only been checked to be all-different, but to my knowledge they have NOT been checked against any catalogs for rarity or short period of use. There could be some scarce items in this lot! Basic railway-postmarked cards in typical quality fetch \$7-10 each (much higher when sold by some cover dealers at shows), however, with this amount of variety comes increased value. Also, there are some very pretty cards in this lot that I would ask as much as \$15-18 each for. I estimate the total of individual prices to be about \$250. Offered only as a lot. A great way to start a collection.	175.00

Ship Covers

Item #	Description	Price
229730	1951 collection of 14 Finnish NAVAL SHIP covers to the U.S. Such ships (mostly small) seem to rarely have had postal facilities, thus they are usually canceled (or sometimes not at all) at the next port of call. All with ornate cachets stating the ship name. Upon arrival in the U.S., these were forwarded which makes them look a bit messy, but as a result, most received a U.S. transit postmark on the reverse, proving that they did go through the mail -- such covers are rarely seen with arrival/transit postmarks. Individually these would sell for \$10-15 each.	120.00
229728	333 [1955 15m Telegraph] (VF) solo use on 1956 philatelic SHIP COVER with Finnish postage, sent to Sweden, presumably posted on board a ship. Upon receipt in Sweden marked with black straight-line postmark "Med båt från Finland" [by boat from Finland]. Addressed to Poste Restante [general delivery] in HÄRNOSAND, SWEDEN, and canceled there, and giving the name of a ship, the "s/s Korsholm II". Delivery not possible and could not be forwarded (marking on reverse) and returned to sender (marking on front). With Finnish receiver for the return. Though a philatelic creation, quite interesting postal documentation.	16.00
229729	473 [1968 40p Soldier; National Defense] (VF) solo use on 1969 philatelic cover from Finland to the U.S., posted on board the "s/s AAL-LOIAR" (Finnish passenger ferry) and with ship handstamp, put ashore at HELSINKI where it received a Helsinki pictorial ship NAIVRE (i.e. PAQUEBOT) cancellation. This naive / paquebot cancel is seldom seen so clearly struck.	12.00

1860-1875 "Serpentines"

Item #	Description	Used
237351	5 [1860 10 kopek Roulette I] Used VF with ample margins. This example has Facit "LK" spacing (1.6 mm horizontally and 2.3 mm vertically), the scarcest type on the Roulette I stamps (Facit 2013 value SEK 600 = US\$96). Attractive centering, neat HELSINGFORS and pen-cross cancellations, and only two teeth partially missing. Unusually attractive.	69.00
236692	8a [1866 10 penni Roulette II, ordinary paper] Used F-VF+ with just a couple of the usual tooth problems. Wonderful, sharp and well-centered, JAKOBSTAD "arc" style 14 July 1875 cancellation. Scarce so attractive!	155.00
237355	9 [1866 20 penni Roulette III] Used F-VF+, attractive centering. The Grayish Blue Thin Paper (Facit #8v2C3a) with Strong Blue ink shade (greenish, but not the Greenish Blue). Only looks like one tooth missing, but there are a couple other tooth problems under magnification. Very light cancellation. Attractive.	26.00
236696	10b [1866 40 penni Roulette II, ordinary paper] Used F-VF with a couple of the usual tooth problems. Unusually light red color. Attractive.	35.00
236698	10c [1866 40 penni Roulette II, ribbed paper] Used Fine with the usual tooth problems. Neat, light, blue cancellation. Nice color. Looks nice. Always a very sought after stamp. [Note: Ribbed paper is always hard to see. For best results.... Use a 10x magnifying glass and look AT the paper, not through it. Use oblique (low-angle) lighting and look across the stamp surface, from side to side.] This example has clear ribbing.	70.00
218460	Scott #10f variety, Facit 9IIv1C4a Carmine [40 pen ROULETTE IV, STAMP TYPE II] Used with VF+ appearance and nearly FULL TEETH; only a couple of tooth tips missing. Examples of Roulette IV are rare; examples with completely perfect teeth may not be known (Finnish expert Kaj Hellman once commented that this example may be the nicest in existence): Facit prices full teeth, but Norma does not. However, this example is STAMP TYPE II (cut in right side of bottom of crown; see Facit) which makes it a major rarity; both Facit and Norma indicate that the price of a Stamp Type II example (of even the most common roulette) should be tripled! In addition to the

	overall excellent quality, it has a full NYSLOTT June 1867 cancellation. Accompanied by a 1991 Mikko Ossa certificate stating, in his typical extremely strict and blunt fashion, that "The stamp has short teeth and some teeth have breaks [i.e. creases on teeth]. The stamp is not repaired." However, it is obvious from the appearance of the stamp that the quality is much nicer than that description suggests. The stamp was in the "Michigan" collection built by an American who lived in Finland in the 1950s-60s; he obtained many of his stamps from such eminent Finnish philatelists as E.A. Hellman. I acquired the stamp in 1991 and have since sold it twice and then repurchased the entire collections of the clients to whom I sold it. Also accompanied by a 2006 Jay Smith photo certificate with lifetime guarantee.	5000.00

1875-1882 "Four Numerals" Perforation 11

Item #	Description	Price	Mint	Used
231371	18, Facit #13Sf [1875 5 penni perf 11] Brilliant Brownish Orange 4-block with 14 April 1880 Helsingfors cancels. Centering within the block ranges from F-VF to Superb. This printing is one of the scarcer colors (Facit SEK 350 = \$55 per stamp). Used blocks are very scarce; Facit indicates values from SEK 3000 = \$450 for the most common colors, while Norma indicates a multiplier of 20x the singles price which is approximately 700 Euro = \$980! A handsome and scarce block!	675.00	---	---
231366	19 Dark Green Blue, Used with Superb centering, but tiny tear between two perfs. Very neat low-box ULEAB(ORG) cancel. Otherwise \$90+!	29.00	---	---

238718	19a Bright Yellow Green [1875 8 penni 4-Numeral, Perf 11] Mint with Superb centering and huge margins, but no gum. A beautiful example of a color that is very scarce with nice centering and large margins. Very scarce color with gum, but would fetch \$450 with this centering.	180.00	---	---
238719	19a Dark Yellow Green "Moss Green" [1875 8 penni 4-Numeral, Perf 11] Mint with VF centering, but with couple tiny, expertly repaired perf flaws (requires at least a 10x glass to see) over which gum has been applied. The gum is otherwise at least disturbed, or possibly regummed. A wonderful looking example. Facit 2016 value SEK 3000 for the "Moss Green" color. Missing from most collections even in Used condition and certainly in Mint condition.	---	69.00	---
238720	21 Brilliant Ultramarine [1875 20 penni 4-Numeral, Perf 11] Mint with VF centering; with gum, but gum is at least disturbed and possibly regummed. Most printings of this stamp are quite scarce with gum. Facit 2016 value for least costly color is SEK 1250. Very pretty.	---	65.00	---
237535	21 [1875 20 penni Ultramarine 4-Numeral, Perf 11] Used F-VF with sharp RAILWAY "42" 1870s cancellation. Attractive.	---	---	7.50
237508	22 [1879 25 penni Carmine 4-Numeral, Perf 11] Mint VF, but without gum. Otherwise would be \$325. Very attractive.	---	160.00	---
232092	22 [1875 25 penni 4-Numeral, Perf 11] Bright (Dark) Carmine. Used F-VF with neat, light 1882 cancel. Though this color does not have a higher catalog value, it is much harder to find nice examples -- and it is the prettiest of the colors.	---	---	20.00

Item #	Description	NH	Mint	Used
238324	27 [1882 10 penni brown 4-Numerals, Perf 12.5] NEVER HINGED 4-BLOCK with perfect original gum. Single stamps of this quality are quite scarce; the surviving blocks are extremely scarce as they are too often broken up for the singles. The single stamps would each fetch \$225. Facit 2015 value for a NH block with normal centering is \$1050. Outstanding example!	---	---	925.00
238722	27 [1882 10 penni 4-Numerals, Perf 12.5] Mint with VF centering and original gum, but very small thin spot. This stamp normally comes in Gray Brown or Yellow Brown; while this example falls into the Yellow Brown family, it is a much richer, deeper color than usually seen. Outstanding appearance.	---	---	39.00
238315	27 [1882 10 penni brown 4-Numerals, perf 12.5] Used Superb with large top and bottom margins and jumbo side margins. Unusually light and neat corner cancellation. The lower right perf tip is just lightly thinned, but mentioned only for absolute accuracy. Interesting plate variety listed in Facit 1974-75 (a large Facit edition that included such varieties) as variety Kv4 (with 50% value premium): "Lower left value circle has a large break in the top" and also with "Both upper value circles have thickening at bottom right" which is not mentioned in the catalog. Even without the varieties, a beautiful stamp in the 99.5th percentile of quality for this stamp -- rare so nice!	---	---	50.00
237533	28 Light Ultramarine [1882 20 penni 4-Numerals, Perf 12.5] Used Superb with VF centered arc-style LOUVISA 23 July 1883 cancellation. Very attractive.	---	---	8.00
238723	29 Aniline Rose-Red with thin/broken frame lines of the early 1882 printings. [1882 25 penni 4-Numerals, Perf 12.5] Mint with F-VF+ centering, but with minor, natural bend that is probably the result of the very thick gum that was used in this printing. The gum appears to be original, but is of quite unusual. It is thick, yellowish, and fairly well "dried out". The Handbook states of the early printings of this stamp: "Little is known about the gum. It is mainly colorless or slightly Yellowish. In 1882 thick Brownish gum was used, or it may be

	that it possibly turned Brownish with time." This stamp definitely has thick dark yellowish gum, but it is not, or has not turned, brownish. A very interesting and attractive example!			
236625	29, Facit #17LaaC2 [1882 25 penni ANILINE RED 4-Numerals, perf 12.5] Used VF+ with faint, but clearly readable HELSINGFORS 24 February 1882 arc-style cancellation. The dating is significant because it positively confirms the identification as the first printing from the Charta Stamp Office. Even more exceptional, the STAMP HAS NOT BEEN SOAKED and has some envelope remains on the reverse, thus the aniline (water soluble!) color appears exactly as it was originally printed. It is rare to find used examples of the aniline colors that have never been changed by soaking. A wonderful example that is much more significant than it first appears.	---	---	50.00
237539	29 Aniline Red [1882 25 Red penni 4-Numerals, Perf 12.5] Used F-VF with VF centered BLUE 2-ring LEMPO(IS) [day/month not present in device] 1884 cancellation, with tiny part of second strike. Very attractive with nice contrasting colors.	---	---	14.00
238561	29f, Facit 17SeeC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Superb centering, but minor mucilage mark on reverse from mounting in an ancient album (does not affect the appearance from the front). Neat 2-ring BJORNEBO(RG) 18 July 1882 cancellation. An beautiful example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	---	125.00
238560	29f, Facit 17SeeC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Fine centering. An excellent example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	---	145.00

236626	32a Rose, Facit #21v9 [1885 10 penni Rose 4-Numerals] Mint, very lightly hinged, Superb/VF centered, 4-block. Major plate variety: "white line through PENNI" on lower left stamp. Facit 2012 value for the least costly printing in usual quality (which is not this nice!) is SEK 225 = US\$34 for singles and SEK 1000 = US\$150 for 4-block, not counting the value of the major variety. Wonderfully fresh with bright color! Existing blocks of this issue are quickly being broken up and are much harder to find now than just a few years ago. Superior quality, with a scarce variety.	---	---	185.00

238318	62 Orange "DIAMOND" (DOUBLE) PERFORATION [1895 20 penni orange 3-Numerals, Perf 14 x 13] Used Fine with September 1900 cancellation. The top perforation row was double-perforated in such a way that the perforation teeth are almost all gone. This issue was perforated with a comb device that was repeatedly struck on the sheet, a row at a time. The row of stamps above this one would have been similarly doubly perforated at the sides. Though one must be cautious about high prices sometimes asked for these types of varieties, this one has every indication of being completely genuine. I guarantee this item to be genuine.	---	40.00

Though not listed by the Scott Catalogue, this stamp is listed as a "major number" by virtually all the other catalogs and there is a space for it in virtually all the European-made albums such as Stender, Lindner, Light-house, Davo, Safe, etc. Missing from most collections (or the wrong/common stamp is in this spot). Personalized Stamps - Private Designs

These particular personalized stamps are the private designs which could be ordered through the post office website. While the post office had an official central design for each type of frame, the primary intent was that individuals and organizations would design their own centers. While any particular private design is probably scarce or rare, their variation is limitless and thus they cannot be valued in the way that scarce officially issued stamps would be valued. The value may often depend upon the topicality of the design and the age of the issue (i.e. that the frames are no longer available). I encourage collectors to collect examples that interest them, but to avoid paying very high prices. In time, examples genuinely used on cover will likely be particularly sought after.

	field in war-time conditions). From 1941-43 14 different printing plates (and some different sheet sizes) were used and many different kinds of paper (which of course varied a lot during wartime) from translucent to solid, from pink to brownish red to deep red. Plate, cliché, printing, and paper varieties abound in this issue. Great for studying varieties, etc.	---	---	40.00
237843	M6-7 [1944 Small Format Military Stamps] NH Superb set of two sheets, both with remarkably good centering (quite unusual). Each sheet has been vertically folded once in the center, but otherwise is as issued (unfolded sheets are very scarce). The red-violet sheet is on whiter paper and has lines of roulette cuts in the top and bottom margin (I have never seen an explanation for this). The green sheet is on yellowish/grayish-white paper that is more translucent without any roulette cuts in the margins. These are extremely common stamps as singles and small blocks, but sheets are unusual, especially with such nice centering! There are plate varieties on these issues -- happy hunting! 2014 Facit value as singles is SEK 900 = \$140, but these are scarcer than that!	---	95.00	---
237844	M6-7 [1944 Small Format Military Stamps] NH VF/Superb set of two left-margin 10-blocks, both with remarkably good centering (quite unusual). Both are on yellowish/grayish-white paper. The green block has nearly invisible gum while the red-violet block has shiny yellow gum. Very pretty.	---	12.00	---
221930	M8, Facit #F8 [1963 Military] NH Superb. Soldiers were allocated only 5 stamps each for use during the training maneuvers for which these stamps were issued; the stamps were apparently supplied to the soldiers in advance and then could be used by family members, etc., to send letters to the soldiers. While this stamp is usually found with VF centering, perfectly centered examples such as this are quite scarce.	185.00	---	---

Scott #	Description	NH	Mint	Used
---------	-------------	----	------	------

The stamps of Scott #4-13 have exceptional quality criteria and descriptions because the serpentine rouletting was done by hand and resulted in stamps of varying size and wildly varying centering. It is completely normal and acceptable for the roulette teeth to cut the design. In practical and realistic terms, the quality (VF, F-VF, etc.) is defined as a combination of overall appearance and the number of teeth missing. A repaired tooth is counted as a missing tooth since the repaired tooth can simply be removed. Other defects (than missing teeth) to the stamp must be described.

Full Teeth: Complete teeth without any short, clipped, missing, or repaired teeth. Such stamps are very scarce to rare. Most of the stamps offered in the general market as having "full teeth" do not in fact really have full teeth.

VF: One or two teeth missing, short, or repaired. Attractive appearance. Such quality is scarce.

F-VF: Three to five teeth missing, short, or repaired.

Fine: Six to nine teeth missing, short, or repaired.

Average: Ten or more teeth missing, short, or repaired.

SD (slight defect, usually not obvious from the front) refers to defects other than missing teeth. An "SD" stamp might in fact be a very attractive example only a couple short teeth, but has a hidden defect such as a pinhole or crease.

237351	5 [1860 10 kopek Roulette I] Used VF with ample margins. This example has Facit "LK" spacing (1.6 mm horizontally and 2.3 mm vertically), the scarcest type on the Roulette I stamps (Facit 2013 value SEK 600 = US\$96). Attractive centering, neat HELSINGFORS and pen-cross cancellations, and only two teeth partially missing. Unusually attractive.	---	---	69.00

236194	8 [1870 10 penni, Ordinary Paper, Roulette III] Used with overall VF appearance, VF centering, and only one tooth missing. An unusually nice example. This particular number is underappreciated by the catalogs -- undamaged examples are very hard to find. --- --- 135.00			
236692	8a [1866 10 penni Roulette II, ordinary paper] Used F-VF+ with just a couple of the usual tooth problems. Wonderful, sharp and well-centered, JAKOBSTAD "arc" style 14 July 1875 cancellation. Scarce so attractive! --- --- 155.00

236698	10c [1866 40 penni Roulette II, ribbed paper] Used Fine with the usual tooth problems. Neat, light, blue cancellation. Nice color. Looks nice. Always a very sought after stamp. [Note: Ribbed paper is always hard to see. For best results... Use a 10x magnifying glass and look AT the paper, not through it. 236014	13b [1866 10 penni Roulette I, Laid Paper] Used VF with full, even margins and neat, light, well-centered ALAVO cancellation and bright color. Looks like full teeth, but two perf tips may have been reattached. Much, much nicer than usually seen. Scarce stamp. --- --- 245.00			

The stamps of Scott #17-24 have exceptional quality criteria and descriptions due to their method of production. The centering normally varies greatly and the size of the stamps themselves varies greatly.

VF: Well centered within whatever the size of the stamp paper. Either margins all around or perforations just touching one side if otherwise the stamp is of superior appearance.
F-VF: Fairly well centered, but off in one direction. Perforations may be just touching on two sides or cutting on one side if appearance is otherwise nice.
Fine: Centering off in two directions. Perforations can touch or cut the design.
Average: Perforations cut the design on two sides.

Major plate variety: "white line through PENNI" on lower left stamp. Facit 2012 value for the least costly printing in usual quality (which is not this nice!) is SEK 225 = US\$34 for singles and SEK 1000 = US\$150 for 4-block, not counting the value of the major variety. 238723	29 Aniline Rose-Red with thin/broken frame lines of the early 1882 printings. [1882 25 penni 4-Numerals, Perf 12.5] Mint with F-VF+ centering, but with minor, natural bend that is probably the result of the very thick gum that was used in this printing. The gum appears to be original, but is of quite unusual. It is thick, yellowish, and fairly well "dried out". The Handbook states of the early printings of this stamp: "Little is known about the gum. It is mainly colorless or slightly Yellowish. In 1882 thick Brownish gum was used, or it may be that it possibly turned Brownish with time." This stamp definitely has thick dark yellowish gum, but it is not, or has not turned, brownish. A very interesting and attractive example!	---	---	---	---	185.00	---	---	41	Fine	---	---	.25

The dating is significant because it positively confirms the identification as the first printing from the Charta Stamp Office. Even more exceptional, the STAMP HAS NOT BEEN SOAKED and has some envelope remains on the reverse, thus the aniline (water soluble!) color appears exactly as it was originally printed. It is rare to find used examples of the aniline colors that have never been changed by soaking. A wonderful example that is much more significant than it first appears.	---	---	50.00	33	(Orange) F-VF	---	---	.40	41a	VF	---	---	1.30

Though not listed by the Scott Catalogue, this stamp is listed as a "major number" by virtually all the other catalogs and there is a space for it in virtually all the European-made albums such as Stender, Lindner, Light-house, Davo, Safe, etc. Missing from most collections (or the wrong/common stamp is in this spot). 238318 62 Orange "DIAMOND" (DOUBLE) PERFORATION [1895 20 penni orange 3-Numerals, Perf 14 x 13] Used Fine with September 1900 cancellation. The top perforation row was double-perforated in such a way that the perforation teeth are almost all gone. This issue was perforated with a comb device that was repeatedly struck on the sheet, a row at a time. The row of stamps above this one would have been similarly doubly perforated at the sides. Though one must be cautious about high prices sometimes asked for these types of varieties, this one has every indication of being completely genuine. I guarantee this item to be genuine.		---	---	40.00	73 Type II, Perf 14.25 x 14.75 F-VF	---	2.60	1.05	.85	81 F-VF	.40	.30	.30

This postmark is from the second usage period (25 June - 7 November 1918) during which the Vasa stamps could only be used on domestic mail (by anybody), but they were not sold across the counter to the public; the post office clerks were to use them up by applying them directly to mail. Lost Territory usages are quite scarce. 2008 Facit value (for either printing) is SEK 800 = US\$135 (7/08) for normal quality and typical postmark in a more common usage period. 135 (Perf 14.25 x 14.75) VF		---	6.25	.60	The stamps of the M-30 Lion Design (Scott #158-1761, 195-6, 212, 221-2, 243, 250, 257-62, 270-5, 291-6, 302-4, M2-3) have exceptional quality criteria and descriptions due to their method of production. Normally printed with very small margins; stamps with design clear of the margin on all sides are the exception for many numbers. Well centered stamps with large, even margins are usually very scarce. Average or Fine is the typical centering for most stamps in the M-30 design. Some denominations are usually more poorly centered than others; on those few issues that are usually more well centered, I tighten the quality standards to your benefit.		---	---	---	---	170 VF		---	---	.50

Greatly undervalued in the catalogs in my opinion -- it has been more than ten years since I was last able to offer an example! NH with VF+ centering, but with the minor typical gum bends often seen on both perforations of this stamp. Otherwise as fresh as the day it was printed.	28.00					B15-7	Fine	7.55	1.65

Booklet Panes

Slot Machine

Slot machine booklets (and thus the panes) are the only sources for many catalog-listed stamps, including several major numbers. The booklets were often produced in lower quantities than even commemorative stamp issues; often the panes (and stamps from them) are much scarcer than other stamp issues of the time period. Unfortunately, the Scott Catalog has failed to reflect this reality.

If you are seeking complete booklets, generally speaking (but not always) the same prices will apply (for NH) for the least costly applicable HA number and/or the least costly type within the respective HA number. However, please be aware that some complete booklets contain TWO panes. In other cases (most notably Scott #462a) a pane can come from different booklets (Scott #462a comes from Facit #Ha6 OR Ha7 OR Ha8) of significantly different value. The pane price is related to the least costly booklet. If you are seeking complete booklets, please be sure to add a note specifying this.

Year Books

Official year books are handsome hardbound books that contain the stamps issued during the year as well as dozens of wonderful photographs and illustrations and interesting and informative text about the stamp issues and the country. The text is usually in multiple languages; unless otherwise stated, full English text is included. Finland official year books have been issued since 1991. Each book contains one year of stamps.

1939 Lion Issue

The 1939 booklet (Facit #H2) containing five different panes of M-30 Lion stamps exists with five possible "edition numbers" handstamped in violet on the lower right corner of the back cover: 1,

3, 7, 10, 11 (and rarely without a number). According to the literature, the purpose of these numbers is no longer known. Each of the five panes independently exists either upright (R) or inverted (I); they also exist with a fully perforated binding margin (x) or with an imperforate binding margin (y). Each pane will thus be identified as Rx, Ry, Ix, or Iy. With the cover edition numbers, these differences result a lot of theoretical combinations, however, it is probable that some of the combinations do not exist. There seems to be no information in the literature on relatively rarity of the numbers, positions, or perforations -- some are surely much scarcer or perhaps even rare. Of the edition numbers, 1 and 11 seem to be scarcer. R vs I panes seem to be roughly equal, however, perfed (x) margins seem to be a little more common than imperf (y) margins. There are many combinations that I have either never seen or have only seen one example.

All are NH, VF, complete and fresh. **If you are interested in building a specialized collection of the combinations, please let me know.**

229834	46 [1891 1 kopek Rings] (F-VF) on 20 kopek Rings postal stationery envelope (large size) [Norma 2002 #31I] used for 21 April 1893 REGISTERED 18 gram letter from KERVO, with two-rings style postmark, to St. Petersburg, Russia, with receivers. Remarkably fresh and nice. Very scarce.	250.00	---
231414	48 [1891 3 kop "Rings"] (VF) on Russian-design "Rings" 7 kopek postal stationery LETTER CARD (Norma #KK1IIa) 2 May 1906 from HELSINGFORS to Bad Nauheim, Germany, with receiver. Genuine commercial usage with message and full letter card margin attached. Large blue 2 on front probably applied by hotel at receiving end, probably not as postage due. This stamp is scarce on cover. Very attractive Russification era postal history.	110.00	---
237291	Group of 21 all-different Finnish railway cancellations on domestically used Finnish postal cards (Russian 1911 design, used 1911-1917), representing at least five major postmark types. Quality of the postmarks and the cards is at least mostly VF, with a couple of F-VF, but several Superb! Railway cancellations on this card design type (1911) are much less often seen than on earlier card types -- this large an all-different group is unusual. The group includes a few sub-types: different types of ornaments on either side of the date, size or appearance of text, etc. One 1916 censored card is included. Many of the cards also bear postmarks of a sending or receiving town; a few of those postmarks are scarce. The cards themselves include a variety of type, color shade, and paper texture differences. These have only been checked to be all-different, but to my knowledge they have NOT been checked against any catalogs for rarity or short period of use. There could be some scarce items in this lot! Basic railway-postmarked cards in typical quality fetch \$7-10 each (much higher when sold by some cover dealers at shows), however, with this amount of variety comes increased value. Also, there are some very pretty cards in this lot that I would ask as much as \$15-18 each

Maximum Cards

All maximum cards are Very Fine in fresh and attractive condition, as issued. All maximum cards are officially issued unless otherwise indicated or in a section stating that they are private or early. Some cards may bear a card or series number on the reverse, however Finland was inconsistent and there is no overall card/series numbering on all official cards.

Officially Printed Post Cards

This section has not been fully implemented. However, most officially printed stamp cards and many other types of officially printed post cards (i.e. the many types that do not actually picture stamps) are in stock. For the best service, please send your want list or describe your interests.

Stamp cards are picture post cards that picture stamps, usually officially printed; they often serve as a foundation for making maximum cards. Most are highly topical and sought after along with the stamp issues. There is also a broader category of officially printed picture/message post cards released by the post offices for several different purposes.

Mourning Stamps

The Finnish "Mourning Stamp" is actually a privately produced label without franking value. It had a purchase price of 1 penni, and "1 PENNI." is printed on the backside. It was designed by the famous Finnish artist Akseli Gallén (Gallen-Kallela) and used in protest of the Russification of Finnish stamp designs. Starting 14 August 1900,

the previous Finnish stamp designs could no longer be used on mail sent abroad; instead Russian design stamps had to be used. (Previously on 1 January 1892 Finnish design stamps had been banned from mail addressed to Russia.) On 14 January 1901, Finnish design stamps were banned from domestic mail use, completing the Russification of stamp designs.

Mourning Stamps were intended to be placed next to the postage stamp as a protest, but were quickly banned. Domestic mail bearing them is rare. However, in coastal areas, letters bearing Mourning Stamps were placed in the mail boxes of ships heading abroad; such covers were canceled upon arrival at the next (foreign) port of call, usually Stockholm, Sweden. Such covers are scarce. Used singles of Mourning stamps with readable town and date are very desirable, though it is usually very difficult to read the cancellation due to being black on black.

There were several printings of the Mourning Stamps resulting in visibly different types, though some printings are difficult to distinguish. I am not aware of any published detailed cataloging of the printings / types beyond what is listed in Facit (please let me know if you have further information). In some cases, the difference in printings can be seen in the size of the printed sheet or the appearance of sheet margin examples. Facit pictures two types which differ in the shade of the "1" on the backside. The Facit Type 1 has a long curved serif that becomes almost horizontal. The Facit Type 2 has a short, straighter serif that mostly points down. Most of the Type 1 stamps I have seen have shiny black ink. Most of the Type 2 stamps I have seen have very dull, sometimes grayish, black ink. In my experience, the Type 2 stamps are much scarcer. Large multiples are scarce as are singles or multiples with margin attached (which can help to separate printings).

236448	Mourning Stamp Facit Type I (long serif, shiny black). NH VF Sheet of 50. Though missing top margin, I have been told by somebody that should know that this is a full sheet. Narrow bottom margin unprinted. Narrow left margin printed only with red Swedish text (on stamp segment of margin missing). Narrow right margin partially printed black and partially printed with red Finnish text. Yellow gum; usually the gum on the Mourning Stamps is white; yellow is quite unusual. A couple insignificant perforation separations. A spectacular and rare sheet. To the best of my memory, this is the only such 50-sheet I have had in 38 years. Individual break up value as singles is \$600; this should be worth much more due to the marginal inscriptions and the rarity.	600.00	---

1922 Issue

Rough perforations are to be expected on the 1922 Karelia stamps and are not a defect. Only the first issue (1922) stamps are known to have been forged, however, **the vast majority of the 1922 stamps offered on the market are forged, even when offered by reputable, but non-specialist dealers.** The genuine stamps are usually easily identifiable with the right information. I only sell Karelia stamps and covers that have been properly examined. I do not consider it necessary that collectors incur the cost of certificates for these issues, if they are purchased from a knowledgeable specialist. However, if purchased from a non-specialist, they should at least be examined by a specialist. Caution is required. I am interested in buying all 1922 Karelia stamps.

For detailed information on how to identify the genuine and forged 1922 Karelia stamps, see the forgery article on the website.

East Karelia: Stamps: 1941 Issues

The small-size Lion-type stamps of the 1941 Issue exist with two types of overprints. The difference is that the middle "A" of Type I has a flat top while the Type II has a pointed top. Type I is the more common.

North Ingermanland Specialized Stamps

First Issue

Scott numbers have been used unless otherwise indicated. All items are available for viewing on approval. I am also interested in buying most North Ingermanland stamps.

Only the second North Ingermanland issue (pictorial designs) has been heavily forged. (Credible forgeries of the first issue have not been reported.) The genuine stamps are usually easily identifiable. I only sell North Ingermanland stamps and covers that have been properly examined. I do not consider it necessary that collectors incur the cost of certificates for these issues, if they are purchased from a knowledgeable specialist. However, in my experience, a large proportion of the 1922 Issue stamps offered by non-specialists or through general auctions and especially Internet auctions, are not genuine. Caution is advised.

Item # Description Price

235835 1a-7a Complete set of IMPERFORATE singles, Mint VF, with very ample margins. The 5 and 10 mark high values are NEVER HINGED, having been hinged on folded over selvage (which could easily be removed if desired). Despite the Scott listing for pairs, these are usually collected as singles. These are much, much scarcer and more difficult to obtain than any of the catalogs suggest. These should be valued much higher than the normal stamps. 595.00

235844 1 Misperforated. NH upper left corner margin block of 36 (9 columns, 4 rows) fully perforated with correct horizontal perforations. The vertical perforations are shifted about 3 mm to the right (thus cutting through the left "5"). The stamps are the normal 20 mm width except the right-most two columns which are narrower. The block also shows a variety of plate flaws, for example "white spot on N" in all the stamps of column 4. Clean perforations. Slightly cracked yellow gum (not the smooth gum type). Regular NH stamps sell for around \$7/each (\$250 total). 190.00

235850 1 Misperforation: Vertical perforation shifted to the right through the left "5". Mint Attractive. 8.00

235851 1 Misperforation: Vertical perforation shifted to the right through the left "5". Mint Attractive. 8.00

235853 1 Light Yellow Green. Mint VF. The only example of this color that I have seen; could possibly be a changeling. 15.00

235848 1 "Diamond Perforation" DOUBLE PERFORATION on left side. Used VF with fully dated (very unusual) 16 April 1920 cancellation. While in 38 years I have had a very few examples of North Ingermanland stamps with double perforations, this is the only USED double perforation stamp I can recall having. When the doubling happens in the virtually the same position, the result is called "diamond perforation" due to the resulting appearance. Outstanding example! 100.00

235852 1 Misperforation: Vertical perforation shifted to the right through the left "5". Canceled, but cancel may not be correct. 8.00

235836 2a IMPERFORATE single. Strong Red with Smooth White Gum. Mint VF lightly hinged, with very ample margins. Despite the Scott listing for pairs, these are usually collected as singles. These are much, much scarcer and more difficult to obtain than any of the catalogs suggest. These should be valued much higher than the normal stamps. 25.00

235845 2 Perforation Error. NH right margin block of 10 (5 columns, 2 rows) fully perforated with correct horizontal perforations. The vertical perforations are shifted in dramatic ways, resulting in an extremely narrow (14 mm) column of stamps on

Item # Description Price

left entirely missing the "10" on the right side. The next three columns of stamps of normal 20 mm width, but greatly misaligned due to the previous error; both "10" are on the left side of each stamp. The right column is extra-wide (24 mm) thus including the "10" of the adjacent stamp to the left; thus there are THREE "10" on the right-column stamps. Normal vertical perforation at right and left sides of the 10-block. Very clean perforations. Smooth yellow gum. A dramatic type of error including the narrowest and widest North Ingermanland stamps I can recall seeing and the only N.I. stamps I recall with only one denomination or with three denominations! Stunning item! 250.00

235855 2 Misperforation: Vertical perforation shifted to the right through the left "10". Mint Attractive. 8.00

235856 2 Misperforation: Vertical perforation shifted to the left through the right "10". Mint Attractive. 8.00

235857 2 Misperforation: Vertical perforation shifted to the left through the right "10". Mint Attractive. 8.00

235838 3a IMPERFORATE single. Light Brown with Smooth White Gum. Mint VF, with very ample margins. Despite the Scott listing for pairs, these are usually collected as singles. These are much, much scarcer and more difficult to obtain than any of the catalogs suggest. These should be valued much higher than the normal stamps. 25.00

235858 3 Misperforation: Mint top vertical perforation holes on both sides. Quite unusual; I have not previously seen this type of variety on a North Ingermanland stamp. Mint VF, attractive. 20.00

235840 4a IMPERFORATE single. Dark Blue with Smooth White Gum. Mint VF, with very ample margins. Despite the Scott listing for pairs, these are usually collected as singles. These are much, much scarcer and more difficult to obtain than any of the catalogs suggest. These should be valued much higher than the normal stamps. 25.00

235860 4 Used VF with BLUE CANCELLATION. In 38 years, I cannot recall previously seeing a blue cancellation on a North Ingermanland stamp. 25.00

Forgeries

Second Issue

The North Ingermanland forgeries or fakes that I have observed were philatelically created many years ago. Originally, the intent of the forger was probably to create "packet material" from a small country whose stamps were hard to obtain; the intent was certainly not to defraud the post office. Years ago the forgeries sold for low prices, not really in an attempt to cheat collectors, but to give an "opportunity" to have stamps from this small country. However, the real stamps are now more costly and the forgeries are of high enough quality to be "dangerous" to those collectors who do not have the real stamps for comparison.

The forgeries exist on yellowish or extremely white paper. According to the Finnish forgeries manual (available from me), the yellowish paper forgeries were printed in sheets of 10x10 and the extremely white paper forgeries in sheets of 5x5. However, I have seen 5x5 sheets that I consider to be yellowish paper, thus the subject needs fur-

ther research. In general, all can be identified by a) whiter paper; b) brighter ink colors; c) usually obvious brush marks in the gum; and d) often rough perforations (not a defect; the originals do have rough perforations too). Imperforates, missing centers, inverted centers, and other types of errors also exist (all usually never having been gummed), but are seldom seen on the market.

Scott numbers have been used unless otherwise indicated. All items are available for viewing on approval.

When gummed, the gum was roughly applied by brush. I use the condition "NH" for stamps that do not show any sign of ever having been hinged (whether gummed or ungummed), even if a gummed stamp shows gum disturbance due to the conditions of manufacture.

Scandinavia Tourist Issues

These stamps were issued in cooperation with the Swedish and other Scandinavian post offices and are valid FROM other countries TO *Sweden, Denmark, Norway, Finland, and Åland*. They are listed by the Facit catalog. There were five different stamp issues included in six different issues of booklets.

It all started in 1994 in the Canary Islands, off the coast of Spain. Many Scandinavians vacation in the Canary Islands during the dark Scandinavian winters. Unfortunately, sending an airmail letter from the Canary Islands back to friends in the Scandinavian countries used to take several weeks as it crawled through the Spanish mails. To solve this problem, Sweden Post, through a cooperative arrangement, issued special stamps, initially sold only in the Canary Islands. These stamps had international franking value for post cards (one stamp) and letters (two stamps) to *Sweden, Denmark, Norway, Finland, and Åland*. The following year, the availability of stamps and service was expanded to other tourist destinations such as Cyprus and Crete. Eventually the stamps came to be used from a number of areas, including Florida! The letters and post cards are posted with the hotels and travel agents and are carried aboard charter airliners to Stockholm where they are placed in the regular mails for delivery within Sweden or to the other countries.

This mail service ceased in the fall of 1998. The stamps have already become quite hard to find; prices are already rising. However, most collectors are not yet aware of them; as they become more well known, we can expect prices to climb.

To my knowledge, this is a completely new type of stamp: Issued by one country for postage use on letters *from* a different country, back to the home country (or to a neighboring country). These special-purpose stamps are not local issues because they have international validity and they were authorized by a national postal service. They are stamps. The items below are listed by Facit numbers.

Stamps

The Facit Catalog has already listed these stamps. European catalog and album publishers are likely to eventually include them as well. They are already being included in the Stender Albums. Obtain your stamps **now** before they are listed in all catalogs; before prices go up further! Though these stamps were printed in Sweden, they are valid for mail to Denmark, Norway, Finland, and Åland as well as Sweden. This means that collectors of all these countries are including them in their collections. You may wish to do so as well.

#TU1-4	were issued in a set of three booklets. Each booklet contains a pane of six Airplane stamps and one pane of six of one of the three other designs. The panes are line rouletted between and around all the stamps except that the right-most two stamps of a pane have a straight-edge at right, thus the right-most two stamps are in the set Facit #TU1B-4B and the other four stamps are in the set Facit #TU1C-4C. Both the B (scarcer, slightly higher price) and C types are usually available upon request.

	#TU13-18 (Hotels) and TU19-24 (Maps) were issued in two different booklets. Each booklet contains a pane of 12 stamps, consisting of two identical six-blocks. The Hotels had two printings. The first Hotels printing has glossy gum, while the second has dull gum. The Maps only had one printing, with glossy gum. The glossy gum is quite variable and sometimes has "skips" in it. While Facit is unclear if the stated issue quantities are for stamps, 6-blocks, or whole booklets, Facit states that only 3200 of the Hotels first printing were issued (the rest were destroyed due to problems with the gum) -- this is very scarce! The stamps have vertical line-rouletting and much smaller, fainter, horizontal line/dot-rouletting. The Hotels first printing and the Maps do not have vertical rouletting between the two six blocks, but the Hotels second printing does have vertical rouletting between the 6-blocks. Both Hotel printings 6-blocks can be found with a vertical line of colored-black roulette cuts at the right side of the six blocks (the binding edge of the panes). All these variations may be available, please inquire.

Covers

The Tourist Stamps were applied to post cards (one stamp) and letters/envelopes (two stamps) by the sender or perhaps a travel agency or hotel employee at the tourism location (i.e. Canary Islands, etc.). The mail was then privately transported to the nearest airport served by related Scandinavian airlines or charter airlines serving the tourists. The airlines carried the mail to Stockholm where it was sorted for delivery in Sweden or carriage on to one of the other Scandinavian countries.

The card and envelopes were **not normally postmarked** in accordance with Swedish post office practice regarding mail that is imprinted or bears stamps bearing the statement "porto betalt" or "port payé". Postmarked covers and cards are the exception and are, of course, avidly sought after.
