1930-1950 Covers

Item #	Description	Price
214931	Finland #262 with TJUDÖ (Åland) bridge-style cancellation on neat cover to Stockholm. Though the year date is not clear, the 12m rate to Sweden as double rate ran only 16 January 1946 through 31 December 1946 and as single rate only 1 January 1948 through 30 November 1948. This device was the first postmark at Tjudö and it is interesting to note that Mattsen only recorded it used in 1950. If the franking is to be relied upon, then this usage moves the cancel usage range back at least a couple years. Regardless, I believe that this is the ONLY pre-1970s TJUDÖ cover I have ever had (in 32 years)! Quite scarce.	80.00

1951-1962 Covers

Item #	Description	Price
215110	Finland #331 [Founding of Lahti] (F-VF) on 1955 solo usage cover to the U.S., with PÅLSBOLE (Åland) Russian-text-removed style cancellation. Mattsén and Hvirvikoski show this cancellation used only until 1936 and nothing again until 1962, which is obviously not correct. However, this is very late use for any Finnish or Åland Russian-text-removed postmark. Scarce solo Åland usage of commemorative stamp.	29.00
218477	Sweden 15 öre double postal card, Facit #29a, with 6 öre additional franking (to make 20 öre rate) used both ways! Airmail 4 June 1956 from TRELLEBORG, Sweden, to the post office at MARIEHAMN, asking about postal rates. Replied 5 June 1956 airmail back to Sweden, properly utilizing the Swedish postage paid by the double/reply postal card. The reply bears an unusual handstamp of the Mariehamn post office. Though mailed by a known stamp collector, this is a very rare type of usage from Åland.	60.00
215112	Finland #356 [Founding of Pori / Bjorneborg; "March of the Bjorneborgiensers" by Edelfelt; drummers, soldiers] (F-VF) on 1958 solo usage cover to the U.S., with PÅLSBOLE Russian-text-removed style cancellation. Mattsén and Hvirvikoski show this cancellation used only until 1936 and nothing again until 1962, which is obviously not correct. However, this is very late use for any Finnish or Åland Russian-text-removed postmark. Scarce solo Åland usage of commemorative stamp.	30.00

218430	Registered mail receipt 25 November 1983 for two registered and two insured pieces of mail from the village of TOSARBY with nice postmark, to MARIEHAMN. Such postal forms were rarely saved and are thus now seldom offered.	25.00

Printed cachet: official mail carrier for the Cutty Sark Tall Ships Race 1988 / Sail Mariehamn and picturing a modern Viking Line ship. The picture sides shows a dramatic painting of the Pommern under full sale in a storm. The Pommern was in Stockholm for this event. The Pommern is emblematic of the Åland Tall Ships that sailed the world; it is pictured on the 1984 2.00 stamp from the first Åland stamp issue.	8.00

Stamps

Since starting to issue stamps in 1984, as a postally independent province of Finland, Åland has followed a conservative and postally responsible issuing policy. Åland stamps are popular the world over.

All Åland stamps are VF and fresh. These stamps have been listed in **date order** because the Scott catalog listings are quite confusing.

All issues can also be supplied in blocks, plate blocks, gutter pairs, and mini sheets (when such formats exist).

236665	1988 "Discount Package", Facit booklet #H1a [1988 Posten 350: 350th anniversary of Åland postal service]. Though this does not look like a traditional booklet, it is classified as a booklet by Facit. It is a post office printed envelope containing a 10-block of stamps. Sold 1 February - 31 May 1988: Every Åland household received six coupons to purchase the package for 14.00 marks, instead of the 18.00 mark face value. Then on 10 October 1988 to celebrate International Letter Writing Day, the post office gave 3200 more packages to teachers and students (of the 3200, 2747 were this stamp issue and 453 were the 1.80 mk Sailing Ship issue). These packages are quite difficult to obtain and are listed by Facit at SEK 650 = US\$100 (though they are seldom offered).

These packages with the Sailing Ship stamps are very scarce. Despite their rarity the are listed by Facit at only SEK 650 = US\$100 because it is possible to replace a Posten 350 block with a Sailing Ship block. Just the same, with only 453 issued, these Sailing ship packages are almost never seen.					97,100,107	1994 First Settlers (engraved by Slania) VF				8.75	147	single from s/s 1998 Tennis VF

Stamp Show Stamps - Most Recent

Åland Stamp Show (Exhibition) Stamps were first issued in 2008 and have been available every year since. There is one stamp design for each stamp show in which the Åland post office officially participated. The stamps are printed using the equipment of the personalized stamp printing system; originally in booklet form (of 8 stamps) and then halfway through 2010 transitioning to the new souvenir sheet form of 8 stamps. The stamps were available individually at the respective stamp shows and then as a group at the end of the year. Issue quantities have been quite low and when sold out from the post office they have quickly become very hard to obtain.

Frama Machine Stamps - Most Recent

Åland Machine Stamps are dispensed from machines manufactured by the Frama company, thus the name FRAMA stamps. These are real postage stamps, not meters or labels. They are valid from any location in Åland, at any time, by any mailer. (Unlike meter imprints which are only valid from the location and on the date imprinted, by the licensed user.) These stamps are collected in "rate sets", the most commonly used postage rates for which the machines had pre-set purchase options. **The older FRAMA stamps are also available; please send your want list.**

Year Sets

These year SETS are offered at a discount from the individual stamp set prices. Year SETS are NOT the same item as an official year PACK. Year SETS are simply year groupings of stamps. Year PACKS are officially issued packages (folders/packs) and are popularly collected as year packs. Unless otherwise mentioned, the year SETS I offer contain all the basic stamps and "normal" souvenir sheets expected by a collector using a Scott album, but often this will be the same as what is needed by the collector using a European-made album. Year SETS are usually more correct for given styles of albums and often contain more stamps than the officially packaged year PACKS (in which the post offices often do not include everything that they should). Older year PACKS usually cost more than year SETS. However, year SETS are offered at a discount from the total of the individual items they contain (unless they only contain one individual stamp set). Year PACKS are also available; see the Year PACK section.

I guarantee your satisfaction and guarantee that you will always receive first quality stamps. As with almost all items I offer, you are welcome to request year sets to be sent on approval.

Please note that Scott Catalog numbers for Åland stamps have changed several times, are not in very logical order now, and will likely change again someday. If you use a Scott album with catalog numbers printed in it, the current and correct numbers listed here may not be the same as printed in your Scott album.

Åland new issues, including year packs, are available through my Scandinavian New Issue Service at new issue prices. Convenient, guaranteed coverage with personal service.

Year Packs

All Year PACKS are NH VF and fresh, complete as issued by the post office. The post office occasionally omits from the Year PACKS items that most people wish to have. These "extra" items are listed below, after each Year Pack, with "+" preceding the description. Order these items as well if you wish to have all the stamps issued for a given year.

Year PACKS are packages officially issued by the

post office and are collected by many people as intact Year Packs. Earlier Year PACKS often sell for more than the stamps they contain. Year SETS are simply groupings of all the stamps issued in a year and sell at a discount from the total value of the stamps they contain. Depending upon what the post office has put into the Year PACKS, Year SETS often contain slightly different items than Year PACKS; because of this, direct price comparisons cannot be made -- you must look at what items each contains.

I guarantee your satisfaction and guarantee that you will always receive first quality stamps. As with almost all items I offer, you are welcome to request Year Packs or Year Sets to be sent on approval.

Year Books

Official year books are handsome hardbound books that contain the stamps issued during the year as well as dozens of wonderful photographs and illustrations and interesting and informative text about the stamp issues and the country. The text is usually in multiple languages; unless otherwise stated, full English text is included. Åland official year books have been issued since their first stamps of 1984. The first year book contained the first 10 years. Following that each book contains two years of stamps.

Mini Sheets

Starting with the first issue (but not the small-size Sailboat stamps) in 1984, the usual Åland sheet format has been a full pane of 40 divided by a gutter that resulted in two mini sheets of 20 stamps. In some later issues, if the stamps were larger-format, the number of stamps has been somewhat less. In addition to the gutter pairs and full strips, many collectors have collected the mini sheets. Though many issues are now hard to find in mini sheet form, I have an excellent stock of the mini sheets. They are not yet on the website, but I welcome your want list.

Starting with the 2010 "My Åland" [Daniel Eriksson sailing] issue, Åland has started issuing some stamps in smaller mini sheets of 8 stamps. This new format does not have gutter pairs, but the smaller mini sheets are likely to be very popular.

Gutter Pairs

All Åland gutter pairs are VF and fresh. For each issue that has gutter pairs, there are at least two types of gutter pairs (with number and either

without number or with emblem). A few issues had a third type (with date). The 1999 Lichens issue was the first (and only, at the time) to have "decorated" (different for each pair in the gutter strip) gutters; this started again in 2004 and is continuing for the moment.

Full Gutter Strips - 1999-2009

The 1999 Lichens issue was the first Åland gutter pairs issue to have a "decorated" gutter. Decorated gutters then appeared regularly starting with

the 2004 Olympics issue. The highly decorated gutter of the 2004 Christmas issue, with a bird and a cat, resulted in great interest in collecting Åland gutter full strips. Some are already quite difficult to obtain; the 2004 Christmas issue is now very scarce.

236665	1988 "Discount Package", Facit booklet #H1a [1988 Posten 350: 350th anniversary of Åland postal service]. Though this does not look like a traditional booklet, it is classified as a booklet by Facit. It is a post office printed envelope containing a 10-block of stamps. Sold 1 February - 31 May 1988: Every Åland household received six coupons to purchase the package for 14.00 marks, instead of the 18.00 mark face value. Then on 10 October 1988 to celebrate International Letter Writing Day, the post office gave 3200 more packages to teachers and students (of the 3200, 2747 were this stamp issue and 453 were the 1.80 mk Sailing Ship issue). These packages are quite difficult to obtain and are listed by Facit at SEK 650 = US\$100 (though they are seldom offered).	90.00	---
236666	1988 "Discount Package", Facit booklet #H1b [1988 1.80 mk Sailing Ship]. Though this does not look like a traditional booklet, it is classified as a booklet by Facit. It is a post office printed envelope containing a 10-block of stamps. Originally, packages containing 10-blocks of the Posten 350 stamp were sold 1 February - 31 May 1988: Every Åland household received six coupons to purchase the package for 14.00 marks, instead of the 18.00 mark face value. Then on 10 October 1988 to celebrate International Letter Writing Day, the post office gave 3200 more packages to teachers and students (of the 3200, 2747 were the Posten 350 stamp issue and 453 were THIS 1.80 mk Sailing Ship issue). Thus the packages containing THIS Sailing Ship stamp issue were not sold, but were given away -- only 453 of them! These packages with the Sailing Ship stamps are very scarce. Despite their rarity the are listed by Facit at only SEK 650 = US\$100 because it is possible to replace a Posten 350 block with a Sailing Ship block. Just the same, with only 453 issued, these Sailing ship packages are almost never seen.	WTD	---

With Marginal Markings

The Åland booklet issues printed by the Swedish Post printing works have the same types of "marginal markings" found (and widely collected) on Swedish booklets. (Except that the 2008 Lighthouses booklet printed by Sweden has not been found with margin markings.) There are three types of markings, resulting in four individual markings, which can then be found in double and triple combinations. (Triple combinations are usually quite rare.) The markings are Cylinder Numbers (the digits 1 or 2, called "Cyl-1" or "Cyl-2") representing the two half-cylinders of the printing plate; Counting Numbers (a serial number, called "KN" [Swedish abbreviation]) usually appearing once per revolution of the press; and Spine Print (a black rectangle appearing once per 50 booklets, on the outside of the cover, usually, but not always, across the spine; called "SP" or "RT" in Swedish)).

If the items you seek are not listed or are listed as "wanted", please send your want list; I maintain

reservations so that the clients who send their want lists will get the next example that comes in. Also, if you are interested in receiving these on a "new issue basis" as they are issued, please let me know; such clients receive them before all others.

I am often interested in buying these booklets with markings whether or not listed and whether or not listed as "wanted". Please make offers.

Souvenir Folders And Presentation Packs

Item #	Description	Price
253823	2009 Åland Flag Inrikes Denomination Pack contains (adhered) three different Flag stamps as well as the FDC for the Inrikes denominated stamp. This pack is the ONLY way the FDC is available. VF	20.00

First Day Covers

All Åland first day covers bear official cachets and official first day cancellations, and are VF and fresh. These FDCs have been listed in **date order** because the Scott catalog listings are quite confusing.

If you are seeking single, 4-block, or gutter pair FDCs that are not listed, please send your want list.

Revenues

As a province of Finland, Åland used Finnish revenue stamps for payment of nationally mandated taxes. However, with greater self-government, starting in the 1920s, Åland had the right to levy taxes of its own and to issue its own revenue stamps. For the most part, Finnish revenue stamps that can be identified as used in Åland are very scarce -- this is due to limited applicable use (less commercial activity), cancellations that usually did not specify location, and stamps (particularly engraved issues) that did not show cancellations clearly. Documents bearing Åland-issued revenue stamps are rare and most of the stamps are surprisingly scarce.

Ålandic and Finnish revenue stamps are cataloged (and listed here) by the 1998 Saarinen and

Smith [me] catalog which is still in print and available from me. Listings that I have seen in more recently published general catalogs appears to have been taken, without permission, from our S/S work. Before that 1998 publication, I expected that the issuance of the book would result in more Åland revenues becoming available. That does not seem to have occurred. There are still many Åland revenues which I have never personally seen and more that I have seen but never actually had. Many of the 1998 prices have proven to be too low, though the relative rarity is about right with the adjustment that the rare items are even rarer than previously thought.

Often additional items are in stock but have not been put on the website or price list. All items are available for viewing on approval. Please let me know of your interest.

1978 Issue

1978: Similar design, but much better printing and perforating quality. Perforations: Penni denominations 12.5 x 13, Mark denominations 14. Since the publication of the 1998 catalog, I have recorded some values with slightly differing paper and perforations; the range of variation is not fully known and for some denominations it is not known if they even exist in more than one variation. The variations include: Thicker (slightly yellowish) vs thinner (whiter) paper; backside more (whiter) or lesser (dull/violetish) reactive under L-W UV light; perforation tips thinner/pointed vs thicker/blunt.

Finnish Revenues Used In Åland

Finnish revenue stamps were used in Åland in all periods for nationally mandated taxes. With the exception of 1970s ammunition licenses, documents bearing Finnish revenues used in Åland are rare. Even single canceled stamps are very scarce due to: limited use; lack of location information in the cancel (true throughout Finland); and some stamp issues do not clearly show details of cancels.

These stamps are FINNISH revenue stamps with Åland cancellations and are identified by 1998 Saarinen and Smith numbers. Often I will have items available that are not listed here; please inquire.

Finnish Revenues On Åland

Ammunition Licenses

Due to a single find made by me of 1970s ammunition licenses bearing 1963-issue Finnish revenue stamps, collectors can own at reasonable prices at least one type of Finnish revenue stamp on document used in Åland. These documents bear cancellations from various Åland jurisdictions -- it seems that the police were in charge of issuing the annual licenses. Virtually all known examples of these documents have filing book punch holes; it is an exception when a punch hole missed the stamps. One or more punched stamp is normal.

Item #	Description	Price
218410	Ammunition Purchase License bearing Finnish documentary revenue stamp, issued in Åland by "Polisinrattningen i Mariehamn" 2 November 1966. 2.00 Light Brownish Lilac stamp undamaged (unusual).	19.00
218413	Ammunition Purchase License bearing Finnish documentary revenue stamp, issued in Åland by "Polisinrattningen i Mariehamn" 14 May 1971. 4.20 Light Brownish Lilac stamp undamaged (unusual).	19.00
218417	Ammunition Purchase License bearing Finnish documentary revenue stamps, issued in Åland by "Ålands Polisdistrikt" in Godby, 16 March 1981. 4.00 Red Brown stamp undamaged and 2.00 Lilac stamp punched, overlapped (this office normally overlapped the stamps). Very unusual black straight-line date cancellation; I have only recorded two examples of this cancellation.	16.00
218421	Ammunition Purchase License bearing Finnish documentary revenue stamps, issued in Åland by the local authorities in Jomala, 10 April 1972. 1.00 Light Olive Green and .20 Green Blue stamps, undamaged (the low values are scarce on documents). Violet circular Jomala cancellation. Accidentally underfranked by .20; interesting.	24.00
218423	Ammunition Purchase License bearing Finnish documentary revenue stamps, issued in Åland by the local authorities in Jomala, 29 April 1972. 1.40 Light Ultramarine stamp, undamaged (unusual). Violet circular Jomala cancellation.	19.00
218427	Ammunition Purchase License bearing Finnish documentary revenue stamps, issued in Åland by the local authorities in Sund, 4 May 1972. 1.40 Light Ultramarine stamp, undamaged (unusual). Blue circular Sund cancellation, later type.	19.00
218428	Ammunition Purchase License bearing Finnish documentary revenue stamps, issued in Åland by the local authorities in Sund, 13 April 1972. 1.40 Dark Gray Blue stamp, undamaged (unusual) with paper discoloration that seems the norm for this particular printing. Blue circular Sund cancellation, later type.	19.00

Christmas Seals

The "Official National" Christmas Seals of Åland have been officially sold by the post office. There

are a few other Christmas and charity seal issuers; I often have those in stock, please inquire. All Åland Christmas seals (and those of all the other Scandinavian countries) are available on approval. If you have specific topical/thematic interests, please let me know.

Select Stamps

Item #	Description	NH	Mint	Used
237705	1a [1856 3 cent Dark Carmine with Yellow Gum] Used VF+ (4 large margins) with most of full yellow gum still intact. A very nice example, with only very slight discoloration in upper right. (Keep in mind that the #1a yellow gum and #1 brown gum were official regumming because the original shipment #1b with white gum was damaged by sea water. Some minor discoloration is typical and expected.) Very fresh and bright example that will look great in any collection.	---	---	395.00
236362	5-Ring/Dot MUTE black postmark on Scott #1a (Facit #1b) [1855 3 cent Carmine with YELLOW GUM]. Stamp Fine with 2 full margins, but actually looks F-VF. The postmark Superb for this. Stunning example of this postmark on the brightly colored #1a.	---	---	290.00
238271	2 [1866 3 cent Rose, Imperforate] Used Superb with four ample to large margins. Outstanding Rose color. Neat, light 5-ring-dot mute cancel in the upper left corner.	---	---	95.00
238273	2 [1866 3 cent Rose, Imperforate] Used Superb with four large to very large margins. Outstanding Bright Rose color. Neat, mute in the lower left corner. It would be hard to find a prettier example!	---	---	110.00
230855	3 Used F-VF+ with nice perforations for this issue and complete mute target cancellation.	---	---	349.00
238274	3 [1872 3 cent Carmine Red, Perforated] Used F-VF with two full margins, which is typical for the issue. Remarkably nice and clean perforations (usually the perfs are terrible) and very light, neat (but correct) cancellation. An excellent example.	---	---	330.00
238576	7 [1873 4 cent Bicolor, 1878 printing with blue center] Mint VF++ (XF in U.S. terminology) with extremely good centering, perforations, color, and gum. The hinge mark is so light that a 10x magnifying glass is needed to see it. Wonderfully fresh.	---	---	36.00
230861	9a (Print I: Violet and Dark Yellow) Used VF+ with unusually neat cancellation. Very scarce so nice.	---	---	146.00
230862	9b (Inverted Frame) NH VF+. Very fresh and attractive!	235.00	---	---
234231	9/9b [1878 7 cent Red Lilac and Orange, Normal and Inverted Frames] Mint VF+ vertical pair with INVERTED FRAME on lower stamp. Sensibly reinforced. Very attractive. Facit 2010 value for Mint combination pair, but with normal centering, is SEK 1500 = US\$200 [7/10], however, this is above that grade and vertical combination pairs are much scarcer.	---	---	225.00
236074	9b + 9 [1874 7 Cent Bicolor, Perf 14 x 13.5, Inverted + Normal Frame (1878 printing)] Mint VF-Superb horizontal pair lightly hinged and sensibly reinforced for safety. Wonderful quality and freshness.	---	---	240.00
234228	9/9b [1878 7 cent Red Lilac and Orange, Normal and Inverted Frames] Mint F-VF 4-block containing INVERTED FRAME in the lower left position. The block has been lightly and sensibly reinforced [the perforations were so weak on this issue that very few unreinforced blocks have survived]. Despite the catalog value premium for blocks and frame combinations, this is reasonably priced at only the break-up value of the stamps!	---	---	235.00

Bargain Stamps

These bargain-priced stamps are attractive, but most have hidden flaws. You can save a tremendous amount of money when you add such stamps to your collection. Each stamp is one of a kind, so please let me know if I may substitute a different example (that looks as good or better, for the same cost) if the stamp you order has sold. If you have any doubts, all are available for approval viewing. If you are seeking stamps of this quality and price level from any of the Scandinavian countries, just send along your want list -- I will be happy to send bargains on approval. Scott numbers have been used unless otherwise stated.

Item #	Description	NH	Mint	Used
238268	1 [1855 1 cent Dark Carmine, Imperforate, Brown Gum] Mint VF with three very large margins and one close margin, but no gum (typical), and small thin spot. Some people have/had intentionally soaked the gum off examples of #1 to prevent the gum from damaging the paper. (The brown gum was officially applied at Christiansted after humidity or seawater [reportedly variously in the literature] damage on the trip from Denmark.) Mint VF with gum otherwise \$330. Very attractive example with wonderfully clear impression.	---	85.00	---
238270	1 [1855 1 cent Dark Carmine, Imperforate, Brown Gum] Mint VF+ appearing with four large margins and full gum, but with tiny tear at bottom (caused by internal paper stress typical of the brown gum stamps). (The brown gum was officially applied at Christiansted after humidity or seawater [reportedly variously in the literature] damage on the trip from Denmark.) Mint VF otherwise \$330. Very attractive example.	---	110.00	---
230902	1 Mint with Fine centering but with thin. Looks nice.	---	42.00	---
230901	1 Used slight defects, lightly canceled. Looks nice. (The lighter paper coloration suggests that this might be 1a, yellow gum, but cannot be determined for sure.)	---	---	42.00

	in lower right margin. Very fresh looking.		---	---
238256	2 [1866 3 cent Rose, Imperforate] Used Fine with only two margins and various small defects. Unusually "reddish" color. Interesting variety: Plate 1, Sheet Position 12: "doubling of lower half of right outer frame edge". With a double-plate of 200 subjects and a net distribution of less than 264,000 stamps, each variety represents only 0.5% of the stamp issue, thus less than 1320 examples.		---	---
230907	3 Used VF centering with usual tropical aging and tiny tear (otherwise \$393!). An inexpensive example of a very scarce stamp!		---	---
238264	4 [1873 4 cent Ultramarine, Perforated] Mint F-VF, but no gum (typical), and with small thin. Very attractive with visible margins all around (unusual). Mint F-VF with gum would be \$340! Scarce stamp.		---	---
238267	4 [1873 4 cent Ultramarine, Perforated] Mint Fine, but no gum (typical), and slightly aged. A scarce stamp in fairly typical quality.		---	---
236373	4 Used with better than usual VF centering and proper cancellation, but rough, irregular perforations at bottom apparently resulting from not being fully punched out. This stamp is often found with rough, irregular perforations. An example of this centering would otherwise sell for \$900!!! Very attractive.		---	---
236366	5a, Facit #5a First Printing; Violet (Purple) and Emerald Green on Thin Paper [1873 1 cent Bicolor] Mint no gum, Just Fine centering. Brilliant, true colors that make this an excellent example for a color comparison set. Scott lists only four colors/papers for this stamp though there are nine printings, thus nine colors/papers; Scott #5a comes the closest (because it is the listing for thin paper), but the 2012 Facit value for this stamp is SEK 1300 = US\$185! A nice example at a very reasonable price.		---	---
236069	5e [1873 1 Cent Bicolor, Perf 14 x 13.5, Inverted Frame] Mint with Superb centering, but without gum. Brilliant.		---	---
232328	7b [4c Brown and Ultramarine] Mint VF+ with partial gum remaining (mint examples of this stamp are usually found without gum or defective). Extremely pretty with wonderful color.		---	---
203955	7b Brown and Ultramarine. Mint Fine, no gum. Examples with gum are quite scarce. An attractive example.		---	---
232330	7b [4c Brown and Ultramarine] Mint Fine with partial gum remaining (mint examples of this stamp are usually found without gum or defective). Wonderful color. Scarce stamp.		---	---
230908	7b [Brown and Ultramarine] Mint Average. Fresh example; this stamp is scarce with nice centering.		---	---
232329	7b [4c Brown and Ultramarine] Mint VF with partial gum remaining (mint examples of this stamp are usually found without gum or defective). Rounded corner perf. Very pretty with wonderful color.		---	---
230910	7b [Brown and Ultramarine] Used F-VF+ centering and light cancellation (otherwise \$250!) with a few blunted perfs at top and hint of tiny thin speck. A very pretty stamp.		---	---
215157	7b Used Fine+. Nice but reperfed at right.		---	---
203956	7b Brown and Ultramarine. Used Average; typical centering. Nice, fresh color.		---	---
230909	7b [Brown and Ultramarine] Used Average. Fresh example; this stamp is scarce with nice centering.		---	---

1903 Bisect Covers		
Four cent stamps were officially allowed to be bisected due to a shortage of two cent stamps. Use started 20 January 1903 and continued until 23 May on St. Thomas and 4 June on St. Croix (Christiansted and Frederiksted). Typical use is for the two cent domestic letter rate, however two cent foreign post card rate uses do exist (very scarce). Double weight printed matter items probably also exist, but are rare. Only one bisected example of the Perf 14 Printing I (ultramarine) Bicolor is recorded. However, the second printing of the Perf 14 is available. The Perf 12.75 4 cent Bicolor had two printings (greenblue vs blue) as well as various inverted frame positions of both colors; all exist bisected though the blue color is scarcer and the inverted frame examples are very scarce. The bisects are diagonal and are often collected in all four possible positions of each of the available printings. Additionally some collectors seek examples with all the different postmarks in use at the time. First day and last day uses are also sought. Because of the exciting nature of the bisects, they were also used on "cacheted" souvenir covers which are avidly sought after. I usually have more examples available than are shown on my website and in my price list. If you are seeking printings, positions, or postmarks not listed here, please inquire. All items are available on approval.

238022	Liberia 5c Alligator stamp on 9 November 1967 SHIP MAIL cover from the MV Almaflora (Monrovia, Liberian flag), posted with machine cancellation "CHARLOTTE AMALIE / V.I." and with 4-RING TARGET CANCEL. Also with violet "PAQUEBOT" handstamp. Appears to be philatelic, to the U.S.; with U.S. sorter markings on the backside, so it did go through the mail. The use of the 4-ring target cancellation is a surprise to me; I do not know if this is the same device still in use since the DWI days (but it sure looks like it) or if it is a later device.	30.00

238256	2 [1866 3 cent Rose, Imperforate] Used Fine with only two margins and various small defects. Unusually "reddish" color. Interesting variety: Plate 1, Sheet Position 12: "doubling of lower half of right outer frame edge". 1873-1895 Perf 14 Bicolors

Item #	Description	Price	Mint	Used
236366	5a, Facit #5a First Printing: Violet (Purple) and Emerald Green on Thin Paper [1873 1 cent Bicolor] Mint no gum, Just Fine centering. Brilliant, true colors that make this an excellent example for a color comparison set. Scott lists only four colors/papers for this stamp though there are nine printings, thus nine colors/papers; Scott #5a comes the closest (because it is the listing for thin paper), but the 2012 Facit value for this stamp is SEK 1300 = US\$185! A nice example at a very reasonable price.	---	---	59.00
237891	5, Facit #5dv2 INVERTED WATERMARK, Print 4 [1 Cent Bicolor, Perf 14, Normal Frame] Used Fine with neat, well-centered 4-ring mute cancellation, but with a thin. 234231	9/9b [1878 7 cent Red Lilac and Orange, Normal and Inverted Frames] Mint VF+ vertical pair with INVERTED FRAME on lower stamp. Sensibly reinforced. Very attractive. Facit 2010 value for Mint combination pair, but with normal centering, is SEK 1500 = US\$200 [7/10], however, this is above that grade and vertical combination pairs are much scarcer.	---	---	225.00
236074	9b + 9 [1874 7 Cent Bicolor, Perf 14 x 13.5, Inverted + Normal Frame (1878 printing)] Mint VF-Superb horizontal pair lightly hinged and sensibly reinforced for safety. Wonderful quality and freshness.	---	---	240.00
234228	9/9b [1878 7 cent Red Lilac and Orange, Normal and Inverted Frames] Mint F-VF 4-block containing INVERTED FRAME in the lower left position. The block has been lightly and sensibly reinforced [the perforations were so weak on this issue that very few unreinforced blocks have survived]. Despite the catalog value premium for blocks and frame combinations, this is reasonably priced at only the break-up value of the stamps!	---	---	235.00
236867	10a (Thin Paper), Print II. Facit #10b, AFA #11 Print II. [Dark Chocolate Brown and Dark Steel Blue] Used F-VF appearance with light early-period (serif) cancellation, but a couple shorter perf teeth. Very fresh and nice example of this color (which is often faded). Because the paper is extremely thin, undamaged examples are very scarce and undercataloged. Facit 2013 value SEK 550 = US\$88 [1/2013].	---	---	39.00

Scott #	Description	NH	Mint	Used
238268	1 [1855 1 cent Dark Carmine, Imperforate, Brown Gum] Mint VF with three very large margins and one close margin, but no gum (typical), and small thin spot. Some people have/had intentionally soaked the gum off examples of #1 to prevent the gum from damaging the paper. (The brown gum was officially applied at Christiansted after humidity or seawater [reportedly variously in the literature] damage on the trip from Denmark.) Mint VF with gum otherwise \$330. Very attractive example with wonderfully clear impression.	---	85.00	---
238270	1 [1855 1 cent Dark Carmine, Imperforate, Brown Gum] Mint VF+ appearing with four large margins and full gum, but with tiny tear at bottom (caused by internal paper stress typical of the brown gum stamps). (The brown gum was officially applied at Christiansted after humidity or seawater [reportedly variously in the literature] damage on the trip from Denmark.) Mint VF otherwise \$330. Very attractive example.	---	110.00	---
1a	Fine	---	---	260.00
237705	1a [1856 3 cent Dark Carmine with Yellow Gum] Used VF+ (4 large margins) with most of full yellow gum still intact. A very nice example, with only very slight discoloration in upper right. (Keep in mind that the #1a yellow gum and #1 brown gum were official regumming because the original shipment #1b with white gum was damaged by sea water. Some minor discoloration is typical and expected.) Very fresh and bright example that will look great in any collection.	---	---	395.00

238274	3 [1872 3 cent Carmine Red, Perforated] Used F-VF with two full margins, which is typical for the issue. Remarkably nice and clean perforations (usually the perfs are terrible) and very light, neat (but correct) cancellation. An excellent example.	---	---	330.00
238264	4 [1873 4 cent Ultramarine, Perforated] Mint F-VF, but no gum (typical), and with small thin. Very attractive with visible margins all around (unusual). Mint F-VF with gum would be \$340! Scarce stamp.	---	---	110.00

Postal Stationery

In the United States, Scott numbers (Sc#) are often used for DWI stationery, however, Scott does not have complete listings, especially for the envelopes. Facit numbers (F#) are most commonly used and Facit values are the most realistic in my opinion. Ringstrom numbers (R#) are also used; Ringstrom is the stationery catalog for Danish stationery (as well as DWI, Iceland, Slesvig).

All items are available for viewing on approval. I have a large and constantly changing stock of mint and used DWI postal stationery of all types: single and double cards, and envelopes. What are you seeking?

Shipping Company Stamps

These interesting stamps are often called Ship Letter Stamps. They were sold by the agents of ship operators and paid the postage on letters carried by commercial ships, usually when government mail service was not available. The DWI Shipping Company Stamps are listed in the annual Facit Specialized Catalog which I distribute and are most comprehensively listed in the beautiful 1976 handbook and catalog by S. Ringström and H.E. Tester The Private Ship Letter Stamps of the World, Part 1, The Caribbean which I have available.

I often have a wide range of Danish West Indies (as well as Danish, Finnish, Norwegian and Swedish) shipping company stamps in stock. These usually never make it to the website or price lists and are usually only available via approvals. Please be sure to let me know of your interests.

Revenues

Often additional items are in stock but have not been put on the website or price list. All items are available for viewing on approval. Please let me know of your interest.

Danish West Indies Revenue Stamps

DWI revenues (before the U.S. Virgin Islands era) are quite simple and do not really need numbering. However, they are listed by Baird in the March 1977 American Revenuer.

U.S. Virgin Islands Christmas Seals

The Virgin Islands Christmas Seals Fund issued very attractive perforated and imperforate Christmas Seal sheets from 1987 though 1999. In some years, the perforated sheets exist with perforated and/or imperforate top (?) margins (similar to most Christmas Seals of Greenland and Faroe). For the 1988-1999 issues, there are also perforated (only one margin type) and imperforate "annual" seals which do NOT bear the legend "Christmas" or the year date -- these were issued for use throughout the year, not just during the Christmas season. In some years, the seal sheet includes illustrations of the original DWI Christmas Seals. Artist-signed sheets exist for all years (but are scarce). Progressive color proof sheet sets exist for some years. All of these seals can be quite difficult to obtain, even though they are not costly. If you are interested in these issues, please let me know -- I do get material that never makes it into the website or price lists. All items are available for viewing on approval.

Labels

The DWI labels of which I am aware are all propaganda labels that either protest or support the sale of DWI to the U.S. The sale was proposed during WWI when the German government was also interested in DWI as a submarine base (which is what the U.S. ended up building there, along with other installations). Prior to the negotiations with the U.S., as the result of a vote by the Danish legislature, there was to be a plebiscite in DWI; these seals were propaganda leading up to that vote. Some versions of the labels are scarce. Labels canceled with properly dated Danish cancel are very scarce, but examples canceled in DWI are rare if they exist (I do not recall seeing any). Labels are extremely scarce to rare used on cover; they must either be tied by the postmark or the cover must show some other convincing relationship to the label.

Patriotic and Political Labels

Stem Mod Salg af Dansk Vestindien

Item #	Description	Mint
237995	"STEM MOD SALG AF DANSK VESTINDIEN" (vote against the sale of the Danish West Indies) version is the most often seen. I am aware of only one printing: Muted colors on yellowish uncoated paper, perforation 11.5. Examples with full gum and without defects are unusual.	
237995	"STEM MOD SALG AF DANSK VESTINDIEN" (Vote against the sale...) Mint F-VF centered, without gum. Some staining, and minor other defects, from poor storage conditions (probably in the islands). This is fairly typical quality.	8.00

Dansk Vestindien Protest Mod Salget

Item #	Description	Mint
237996	"DANSK VESTINDIEN PROTEST MOD SALGET" (Danish West Indies Protest Against The Sale) version is seldom seen. This seal was issued by the Dansk Vestindisk Samfund, which seems to have been based in København. I am aware of at least two printings: a) Brilliant colors colors with ultramarine text (though sometimes greenish blue, but that may be due to light exposure), on bright white chalk coated paper, perforation 11.5. b) Strong colors (but some not as bright as on the coated paper version) with dull greenish-blue text, on yellowish uncoated paper, perforation 11.5. Examples of either printing with full gum are extremely scarce; examples without defects are quite scarce.	
237998	"DANSK VESTINDIEN PROTEST MOD SALGET" (Protest against the sale...) w/ ULTRAMARINE ON CHALK COATED PAPER. Mint VF centered, no gum, but staining from poor storage conditions.	8.00
237997	"DANSK VESTINDIEN PROTEST MOD SALGET" (Protest against the sale...) w/ ULTRAMARINE ON CHALK COATED PAPER. Mint VF, no gum. Despite missing its gum, still excellent quality for this.	45.00

Dansk Vestindien Protest Mod Salget

Item #	Description	Mint
237999	"PANAMA CANAL ST. THOMAS HARBOUR" version is seldom seen, perhaps because it was possibly produced outside of Denmark (based on the British English text) and thus not found in as many DWI collections. The Danish flag indicates that this was made in the pre-sale era. However, it is not clear if this is a supportive or protest seal, though the presence of the U.S. flag tends to indicate support (DWI Mails says "possibly promoting the sale"). I am aware of	

only one printing: Perforation 11.5. I am not sure if the paper was originally coated paper. I have only seen example that have been soaked, but I suspect they were on chalk coated paper. Examples with full gum are extremely scarce; examples without defects are scarce. Imperforate examples exist, but are extremely scarce or rare.

238002 "PANAMA CANAL / ST. THOMAS HARBOUR" believed to be in support of the sale. Mint VF, without gum, but otherwise excellent quality. Examples with gum are extremely scarce. 30.00

238003 "PANAMA CANAL / ST. THOMAS HARBOUR" believed to be in support of the sale. Mint VF centered, without gum, but with minor stain spot and/or small defects. This is fairly typical quality for this. 8.00

238004 "PANAMA CANAL / ST. THOMAS HARBOUR" believed to be in support of the sale. Mint VF centered, without gum, but with stains and defects from poor storage conditions. 5.00

238517	Boom #3.12cf, Facit #H9, AFA #2kr-2 [1935 H.C. Andersen] NH VF complete booklet in wonderful, fresh quality. This example features: "Den lille pige med svovlstikkerne" (The Little Match Girl) story on the interleaves; "Succes" chocolate advertising back cover; and the yellow rouletted coupon. The 2015 AFA value for the booklet is DKK 3500 = US\$525 [6/15]. The booklets of this issue are often "well handled" but this example is pristine!	395.00

Any types of errors are rare on modern Danish stamps; I have not before seen this type of error on any Scandinavian/Nordic stamp!	40.00	
237276	1621 BACKING PAPER VERTICAL DIE-CUTTING MISSING ERROR [2013 8.00 "Kaj and Andrea" Childrens TV characters, sheet issue] NH VF Lower PLATE BLOCK missing the vertical die-cutting in the backing paper BETWEEN the stamps (die cutting horizontally and around the perimeter is present). Any types of errors are rare on modern Danish stamps; I have not before seen this type of error on any Scandinavian/Nordic stamp!	100.00	
218538	Iceland #17a [1882 20 aur Ultramarine, Perforation 14] Used F-VF centered example Danish 3-ring numeral cancellation. The number is not readable, but is two or three digit, making is much scarcer than the typical #1 cancel. Danish numeral cancellations are occasionally seen on previously uncanceled ship mail sent to Denmark, but not often on this stamp. With a normal Icelandic postmark, this F-VF stamp is \$270!	285.00	
223856	44d, Facit #40b, AFA #25C [8 øre Perf 12.75, WATERMARK NEW CROWN, Print 121 (1902)]. Brilliant right margin NEVER HINGED 4-block from positions A29-30/39-40. Fine/F-VF centering. Appears to have been last sold in 1993 in a Christies auction where it was described as being from "the unique quarter sheet discovered by F.T.N. Carøe". Accompanied by Lasse Nielsen certificate stating "very fine item". An extremely scarce stamp as a single in Mint hinged condition and RARE as either a block or a single in NH condition. Value as singles: Facit 2007 SEK 36,000 = \$5000. AFA 2007 DKK 34,500 = \$5700. This block certainly has a break-up value of more than my price. This block is a showpiece with excellent investment potential as the value is supported by the four stamps which are constantly sought after by every serious collector of Danish stamps.	3700.00	
234642	288 "Bomb" Variety, AFA #273x, Facit #308v [1942 10 øre Round Tower] Used with Superb centering and a machine cancel that just misses the variety, but with a tiny pinhole that is extremely hard to see. Would otherwise sell for \$80! The "bomb" variety is a diagonal line in the sky to the right of the tower, just below the top rim. The tower bears a Hebrew inscription which causes this basic stamp to also be sought after by Judaica collectors.	29.00

232424	3 [2 sk square, blue] Used F-VF+. Light blue with #34 (København railway) numeral cancellation. This stamp was issued for use on local letters which meant that 95+% of the use occurred in København; while this was used in København, cancels other than the #1 are seldom seen.	56.00			
232425	3 [2 sk square, blue] Used F-VF+, fresh example. Nicely centered "S.J.P.SP. B. 2 TOG" railway cancellation; circular date stamp portion of duplex numeral canceler. This postmark is seldom seen directly struck on any stamp of the period, but it is especially scarce on this stamp which is normally found with #1 numeral cancel.	95.00

230801	12b [3 sk Arms 1870 Line Perforation 12.5] Used Superb with terrific centering, extraordinarily nice perforations (normally very rough), deep color, and neat numeral cancellation off to the side allowing the design to be fully seen. The Line Perf 12.5 stamps of this rare in such nice quality as demonstrated by the AFA 2007 DKK 6000 = \$1020 for normal quality and DKK 14,000 = \$2380 for extremely fine quality!				1100.00
234640	12b [1870 3 sk Arms Line Perforation 12.5] Used VF centered example with neat numeral cancellation, better-than-usual perforations, and strong color. However is creased, but that is not visible from the front. The Line Perf 12.5 stamps are scarce; the AFA 2010 catalog value is DKK 6000 = \$1100 [10/2010] for normal quality! Very attractive and very reasonably priced.				195.00
233169	13 [1864 4 skilling Crown and Scepter] Used Superb with perfect centering and wonderful perforations. VF #32 (Kalundborg) numeral cancellation. Even though this is a common stamp, such nice quality is not often seen.				25.00

230806	(16a) [Greenish Gray and Deep Prussian (Dark Greenish) Blue] Used F-VF centered with extremely intense color. Nice (or even just undamaged!) examples of the Prussian Blue 2 Skilling stamps are extremely hard to find.				195.00
230807	19 Used VF+ with excellent centering, intense color, and #44 (Næstved) numeral cancellation. Very attractive and very hard to find in such nice quality!				95.00
235727	22 [1870 4 skilling Bicolor, Line Perforation 12.5] Mint F-VF / VF BLOCK OF FOUR. Extremely lightly hinged; just a single extremely light mark at the center of the block. Right two stamps are VF, left two are F-VF. The perforations are strong. Lower right stamp has a minor tone spot on one perforation (some people would probably not mention it). A classic multiple with wonderfully fresh appearance. Accompanied by 1974 S. Grønlund photo certificate and 2011 Jay Smith photo certificate with lifetime guarantee. 2012 AFA Catalog value for the four singles is DKK 4800 = \$950, and the AFA 2012 prices the block at DKK 8000 = \$1600! Even as singles, this stamp is undervalued by the catalogs; it is resident on almost all the want lists I see.				950.00

Accompanied by Lasse Nielsen certificate stating "very fine item". An extremely scarce stamp as a single in Mint hinged condition and RARE as either a block or a single in NH condition. Bargain Stamps

These bargain-priced stamps are attractive, but many have described hidden flaws. You can save a tremendous amount of money when you add such stamps to your collection. Each stamp is one of a kind, so please let me know if I may substitute a different example (that looks as good or better, for the same cost) if the stamp you order has sold. If you have any doubts, all are available for approval viewing. If you are seeking stamps of this quality and price level from any of the Scandinavian countries, just send along your want list

-- I will be happy to send bargains on approval. Scott numbers have been used unless otherwise stated.

224454	Scott #22 [4 skilling Perf 12.5] (F-VF+) on 1871 cover with #181 railway duplex cancel, to Roeskilde with #58 ROESKILDE duplex as receiver. This is a very scarce stamp on or off cover and is on many want lists as a single used stamp! On-cover examples are seldom this attractive.	245.00

225621	25/25c x4 (Fine), 30 (damaged) on ca. 1875 4 øre Ultramarine postal stationery envelope. 16 øre Print 2 (damaged) and 4x 3 øre Print 2. The third 3 øre stamp is POSITION 18, INVERTED FRAME. Registered mail to Germany; upon arrival in German postal system, German registration label affixed -- this is the first time I can recall having an example of this happening on Danish-German registered mail. Cover with some wear and appears to have been professionally cleaned, but attractive and with a very scarce stamp (Facit 2007 value SEK 5000 = \$700; AFA 2002 Specialized value DKK 3800 = \$660 just for this inverted frame single used stamp). Identification confirmed by Lasse Nielsen and with his mark. Extremely scarce usage.	425.00
223423	25, 38 [3 øre Perf 14 Bicolor; 5 øre Perf 14 Arms] on 23 February 1895 cover from "KJØBENHAVN N" to Stubbkjøbing. Envelope with tear and spots, but still an unusual and colorful stamp combination.	18.00
231961	26 Print 65 pair, #28 Print 69 (VF) on ca. 1893 4 øre postal stationery envelope used as a cash-on-delivery (3 kr, 26 øre) parcel letter from RANDERS to ALLINGAABRO with "AL-LINGAABRO 3 TOG" railway receiver on reverse (Skilling-Daka 2007 #32; fairly scarce; usage so far reported 9 Nov 1883 - 20 Aug 1890). 	confirmed by Lasse Nielsen. Both printings date from 1893. This type COD parcel label (AFA #A3, COD parcels) came into use in 1887. Skilling-Daka shows the receiver recorded (so far) as used into 1890; if the stamp printing identification of this cover is correct, this cover significantly extends the known period of use for this postmark. Marked "Retour" and returned to sender. Very attractive and interesting usage with nice railway receiver. Excellent quality for such items.	95.00
231962	26 Print 10 position B75 and #28 Print 10 (Fine) on ca. 1877 4 øre Ultramarine small-format postal card, as a parcel card from HORSENS with numeral cancellations #30, to København. Some minor toning on stamps. Stamp printings confirmed by Lasse Nielsen. These early stamp printings are scarcer issues on cover; nice usages of the Ultramarine 4 øre card are scarce.	80.00
231964	26c 4 øre Print 4 and #28a 8 øre Print 3 (F-VF, Fine) on 27 November 1875 folded cover (no contents) from KJØBENHAVN to Sølvesborg, Sweden. Previous owner noted that this date is/was the earliest known use for the 4 øre Print 4. Stamp printings confirmed by Lasse Nielsen. Attractive usage of early printings; remarkably fresh and nice.	125.00
233878	26 [4 øre Bicolor Perf 14] (F-VF) FIVE-STRIP from positions B41-45 from Printings 40, 41, 42, or 44. 9 November 1887 cover from FAABORG with Lapidar-style cancels, to Hummelstown, Pennsylvania, U.S., with backstamps. While five examples on cover is not very scarce, it is quite unusual to find an intact 5-strip!	75.00
223419	26 pair [4 øre Perf 14 Bicolor] (Fine) on neat and attractive cover used from "KJØBENHAVN KB" to BORUP (with sans-serif [lapidar] receiver). Remarkably rough perforation variety; seldom seen on cover.	28.00
223855	27, Facit #30b, AFA #24. Print 3 (1880) [5 øre Bicolor] F-VF centered solo usage on wonderful 7 January 1882 printed matter cover from København to Sweden, with Swedish railway cancellation applied in transit (as fairly often seen on this particular denomination). Remarkably fresh and attractive. Quite scarce in such nice quality. Accompanied by Lasse Nielsen certificate.	675.00
223416	28, 29, 31 [8, 12, and 20 øre Perf 14 Bicolors] on ca. 1880 parcel letter (envelope accompanying a parcel post package) from HOLBÆK. 12 øre stamp seriously damaged, but otherwise sound and attractive though colors a little aged. Attractive and quite interesting.	45.00
233879	31b [1875 20 øre Bicolor, Print I, Thick Inverted Frame] (Average, tiny tear) solo use on ca. 1875-76 to the U.S., addressed to a ship fireman (boiler tender) at the Sailors Home in New York. Nice "KBHVN:NØRREBRO lapidar-style cancellations (Skilling page 147; DKK 100, fairly scarce for a København postmark). Skilling indicates recorded postmark use of 11 February 1876 through 12 November 1879. There is no year-dated postmark, but there is a 1876 docketing., which may or may not be contemporaneous. The postmark is 7 December, thus if this is 1875 (which it could be), it extends the use period. AFA 2010 value for the most common inverted frame printing on cover is DKK 1600 = \$290 [1/2010] for the most common use, which would be to Germany. Use to the U.S. is much scarcer. Very interesting cover at a very low price.	95.00
224456	26, 31b pair, 33b pair [Perf 14 Bicolors: 4 øre, pair of 20 øre inverted frames (one seriously damaged), and a very nice pair of 50 øre inverted thick frames] on 1880 privately printed parcel card for two packages from København to Vienna, Austria. This card has seen better days, however, when was the last time you saw an early Danish parcel card to Austria in good condition? With a very nice strike of the Slesvig boxed marking "Aus (uber) Danemark / via Hamburg 2 / Porto von

223417	29c, 34b strip of four [12 and 100 øre Perf 14 Bicolors, all Inverted Frames] on 1895 Adressebrev (parcel letter; envelope accompanying a parcel post package) from RINGKJØBING to København; with a stated value of 85,000 kroner (a princely sum at the time!) and with 18.47 kr cash due on delivery. A nice boxed "Talt" handstamp indicates that the postal clerk counted/verified the contents before sealing the package. Unfortunately, several stamps are missing from the reverse, believed to be 10x 100 øre stamps. Assuming that is the case, the rate works out correctly as follows, adding up to 1412 øre franking: 2-5 pound parcel 24 øre; COD fee 12 øre; insurance for 0-200 kr 16 øre, 200-1000 kr 16 øre, and 1000 to 85000 kr 1344 øre. A wonderful and attractive postal history item despite the missing stamps; at a very low price (the 100 øre stamps are listed in the 2007 AFA catalog at DKK 750 = US\$130 EACH).	395.00

Wavy Line Design -- 1913-1930, Typographed, Crosses Watermark

Item #	Description	Price
222147	89 pair [1921 5 øre Brown Wavy-Line Numeral] (VF) on 7 April 1928 seemingly ordinary picture post card to Sweden. However, the card is a very rare real-photo of Højerup Church taken on or very soon after 16 March 1928. The church, built ca. 1250-1300, is located on Stevns Klint (Stevns Cliff) on the southeast coast of the island of Zealand (Sjælland) in south Denmark. The church was originally built somewhat inland, however, by 1928, due to wave erosion, it was near the edge of the cliff. On 16 March 1928, the part of the church nearest the edge of the cliff fell into the ocean as the result of a landslide related to a storm. In this exceptionally clear real-photo card, hundreds of people (which would be a large assemblage for this rural area) are seen viewing the wreckage. The handwritten text on the card translates to: This is Højerup Church, you can see some has fallen down. Many people can also be seen on the beach below as well as a couple of boats being raised or lowered on the cliff face. This card, the

	"CNN of the day" documents the event. However, that is only part of the story: Stevns Klint is geologically world famous for clearly showing the "type locality of the Cretaceous/Tertiary boundary. In the upper part of the cliff, from here and upwards, we have the lowest part of the Tertiary, and that is called the Danian, and it is named after Denmark." This geologic boundary is found worldwide; it represents an enormously huge event, probably a cataclysmic meteor strike, that is believed to correspond to the extinction of the dinosaurs! In this photo card, at the right side, one can clearly see that the cliff is made up of two distinctly different horizontal layers of rock. [Google for "Højerup Kirke" and "Stevns Klint" for more information and current photos of the church and cliffs.] This card is rare for its timeliness and global significance.	45.00

The postal rate for a 5 kg parcel was 35; though this adressebrev does not bear any notations in this regard, it must have been a COD (cash on delivery; postopkrævning) parcel with 10-50 kroner payment due, which would explain the other 25 øre franking. The 50 øre stamp is quite scarce on cover.	45.00

238397	321, 224 [1950 25 øre brownish red Frederik IX; 1938 5 øre wine-red Wavy-Lines] (VF, Fine) on 18 January 1951 Danish picture post card (Royal Guards WITH WINDOW AND UNFOLDING PHOTOS) to Dunoon, Argyll, Scotland; from KØBENHAVN 16. It is unusual to find such "unfolding" cards in nice quality. 8.00	
238396	Denmark Scott #318, 320 [1950 10 øre green Wavy-Lines; 1950 20 øre brown Frederik IX] (VF) on 18 January 1951 Swedish picture post card (Malmö inner harbor) to an apparently British soldier in the "B.A.O.R. 1" (British Army Of the Rhine; 1 = headquarters at Bad Oeynhausen), with 20 January 1951 British FPO 328 military receiving postmark. Though the sender appears to be British and the sending from Denmark just coincidental, it is worth mentioning that the Danish military participated in the B.A.O.R. occupation operations through their "DEN DANSKE KOMMANDO I TYSKLAND" until 1958. A very unusual use relating to the Allied occupation of Germany. 16.00

1942-1947 Christian X

Item #	Description	Price
215197	280 Brownish Violet and 286B pair [Christian X 10, 50 øre] (VF) on 23.8.46 airmail 110 øre cover, from SKODSBORG, to the U.S. Surface letter rate 40 øre 0-20 grams 1 July 1940 - 31 May 1950 plus airmail surcharge of 70 øre per 5 grams ? June 1946 - 2 October 1946. The air surcharge rate started sometime in June (when is unknown per Hedelius) and the rate was in use for no more than four months! Scarce rate period. 28.00	
223435	281, 286B [1942 15 øre and 1945 50 øre Christian X] (VF) on 28 October 1946 air cover to Czechoslovakia. Correct 65 øre air rate. Unusual destination right after WWII. 9.00	
215205	282 x2 [20 øre Christian X] on 1947 cover to England. Apparently reused domestically in 1949. Not a "combination" cover in the normal sense, but fun and quite unusual! Danish stamps a little worn. 10.00	
223436	282 x2, 283 [1942 20 øre and 1943 25 øre Christian X] (VF) on 23 August 1946 air cover to Czechoslovakia. Correct 65 øre air rate. Unusual destination right after WWII. 8.00	
215198	285 dark color 287 light color [35, 60 øre Christian X] and 293 [20 øre Ole Rømer] (VF) on 15 November 1944 unsealed registered cover, from København 11, to Norway, with "Ak" Nazi censorship; sent by a stamp dealer. The Ak censor handstamp was used because the contents was likely unsealed printed matter and did not require individual censoring. The 115 øre franking puzzles me; deducting 30 øre for registration, 85 øre postage does not match up to any rate or combination of rates that I can find. If the letter contained anything other than printed matter (though obviously at least the letter rate was paid), it would have been sealed. However, I cannot imagine the sender wasting too much postage during the war with a gross overfranking. At the same time, I do not see any obvious philatelic or commemorative purpose of such a cover. 20.00	
215202	286 pair [40 øre Christian X] (VF) on 5 February 1948 cover to the U.S. Originally marked for "5 gram" rate, but was covered over with air label. The surface (or 5 gram) rate was 40 øre and the air surcharge for 5 grams (when an airmail label was applied) was 40 øre for a total of 80 øre. If this cover weighed over 5 grams, the postage would be been (at least) 120 øre, not 80 øre. The sender wanted to insure air service; at this point, the "5 gram" service was only by air when space was available. 13.00	
215203	286 3-strip [40 øre Christian X] (VF) on 21 December 1948 airmail cover to the U.S. 120 øre franking for 40 øre base surface rate plus 40 øre per 5 grams air surcharge. Attractive. 12.00	
215204	286 x5 [40 øre Christian X] on 14 December 1948 cover to the U.S. Though not marked as such, must have been airmail, between 15 and 20 grams. The base surface rate was 40 øre up to 20 grams; the air surcharge was 40 øre per 5 grams. Stamps a little soiled, but cover is VF. Covers with this amount of postage are seldom seen on smaller-size envelopes such as this. 15.00	
234900	286B [1945 Christian X 50 øre] (VF) on 1949 DKK 18.40 money order payment form from JEBJERG to SKIVE. The payment was either not deliverable or not accepted by the recipient, and

Modern Danish parcel cards to Greenland are seldom offered (they were supposed to be retained by the post office for a few years and then the stamps torn off and sold as kiloware).	10.00

It is unusual to find such "unfolding" cards in nice quality.	8.00
223438	325 x3, 323, 334, 335 [1951 55 øre Brown Frederik IX and other values of set: 25 Light Blue, 30 Brownish Red, 40 Gray] (VF) on a 25 May 1954 registered airmail business-size envelope to the U.S. The envelope is a little aged, but the stamps are all VF. The rate is correct for 20 grams: 60 for surface rate to 20 grams, 40 registry fee, 4 x 40 airmail surcharge. The net of the three rate components make this rate possible only from 1 July 1953 through 31 March 1957. This unassuming cover is an extremely scarce item! The 55 øre Brown is rare on cover: AFA 2007 lists it at DKK 1200 = US\$210 for a typical usage. This usage is much more interesting, with three examples of the stamp and the franking is "pure" Frederik IX!	175.00

232187	C2 4-BLOCK, #113 x3 [15 øre 1926 Airmail; 30 øre 1925 Blue Christian X] (block F-VF/Fine, lower left stamp with sealed tear; other stamps F-VF) on 13 September 1926 large piece of cover from "KØBENHAVN / LUFTPOST 1". Block of the airmail stamps are very scarce on cover, even on piece. Just the three sound 15 øre stamps would sell as used stamps alone for \$186 (9/08)! Priced at less than the "breakup value"!	175.00
232185	C1-3 [10, 15, 25 øre 1925 airmails] (VF, F-VF) on 17 November 1926 airmail cover from KJØBENHAVN to Germany. The used stamps alone would sell for \$197 (9/08) off cover! Very attractive!	230.00

Airmail label; may have been unsealed printed matter; however the 15 øre seems only to pay the normal letter rate to Finland, but if printed matter, the surface component was 7 øre but I have not been able to confirm the air surcharge for printed matter to Finland. Unusual.	15.00

Airmail-franked postal cards are quite scarce. The airmail label (over the edge) is the one position in the sheet showing the form number and print date. Postage Due		
Item #	Description	Price
215374	Sweden #77 (VF) [1911 5 øre Gustav in Round Frame] paying postage due on underpaid 1916 cover from Denmark, franked with Denmark #97 [1913 5 øre Christian X] to TYRINGE, Sweden. Green LÖSEN postage due label with 5 øre value written in. The sender may have been meaning to send as printed matter, but the envelope was sealed, thus the Danish 10 øre rate applied. Such postage due uses are not often offered.	35.00
231930	7 Orange Brown [1858 4 Skilling, Lined Spandrels] (VF) on 14 September 1858 small DOUBLE WEIGHT envelope with #24 numeral cancel and HELSINGØR side postmark, to København. Though this is a traditional underpaid postage due cover, not one of the terribly rare penalty usages, it is still a seldom seen usage.	190.00

Ha!). Swedish boxed "T 10 re" (somewhat unusual) handstamp, blue manuscript Danish "10", and the Danish postage due stamp. The correct postage rate was 20 øre, thus the shortage was doubled. There was no return address, thus it could not be returned to sender for additional payment.	35.00
235920	J15 [1922 10 øre Green Postage Due] (Fine+) tied by 10 November 1922 "KJØBENHAVN K. / 5" cancellation on 9 November underpaid Swedish 10 øre postal card from BORÅS (an order to a stamp dealer). Swedish rounded-box "T" handstamp, blue manuscript Danish "10", and the Danish postage due stamp. The correct postage rate was 15 øre, thus the shortage was doubled.	44.00
235921	J17 [1921 20 øre Greenish Blue Postage Due] (Fine) tied by 24 August 1927 ODENSE cancellation on 22 August underpaid envelope from Germany, franked with 15 pf (stamps worn). By Type - 3-Ring Numerals

If you are seeking specific numbers or cancellations on specific stamps, please send your want list. Many numeral cancellation numbers were re-assigned to different towns in 1864, thus some are collected in both periods. The most recent listing of different types of each numeral cancellation, as well as recorded dates of use, is a 1999 book by Jensen and Helsing -- please let me know if you are seeking this book.

202268	3 [2 sk square, blue] Used VF with even margins all around. Clear print with remarkably neat and small corner cancellation. Corner cancels are exception on the early "square" stamps as postal clerks were explicitly instructed to cancel in the middle of the stamp.	70.00	
204321	3 [2 sk square, blue] Used Fine. Light Blue with nice #5 (AARHUS) numeral cancellation. This stamp was issued for use on local letters which meant that 95+% of the use occurred in Kjøbenhavn. Postmarks from other towns are scarce and from small towns or villages are rare.	75.00	
204318	3 [2 sk square, blue] Used F-VF+ with 3.5 margins. Light blue with complete and almost upright #5 (AARHUS) numeral cancellation. 204323	3 [2 sk square, blue] Used Fine. Medium Blue with strong #34 (Kjøbenhavn railway) numeral cancellation. 232424	3 [2 sk square, blue] Used F-VF+. Light blue with #34 (Kjøbenhavn railway) numeral cancellation. This stamp was issued for use on local letters which meant that 95+% of the use occurred in Kjøbenhavn; while this was used in Kjøbenhavn, cancels other than the #1 are seldom seen.	56.00	
204324	3 [2 sk square, blue] Used Fine. Medium Blue with numeral cancellation that could be #110 (STOKKEMARKE, unrecorded by Tuffs in 1983 on this stamp), #113 (ALTONA, recorded but quite scarce), #118 (HEILIGENHAFEN, unrecorded), or #119 (ITZEHOE, unrecorded). This stamp was issued for use on local letters which meant that 95+% of the use occurred in Kjøbenhavn. Postmarks from other towns are scarce and from small towns or villages are rare, even unclear examples such as this. Of the possibilities, only #110 is now in Denmark. Altona was the Danish post office operating in the German town of Altona to facilitate mercantile trade. The other two numbers are in the Schleswig/Slesvig area now in Germany. The quality could be better, but it may be the only example.	65.00	
204325	3 [2 sk square, blue] Used Fine. Medium Blue with #121 (KIEL) numeral cancellation. This stamp was issued for use on local letters which meant that 95+% of the use occurred in Kjøbenhavn. Postmarks from other towns are scarce and from small towns or villages are rare. This is the Royal Danish Post Office in Kiel 2 skilling usage that I can recall having in 30 years. Cancel is a little faint, but it is clearly #121.	110.00	
204326	3 [2 sk square, blue] Used VF with four large margins. Medium Blue with #170 (HOLSTEIN EISENBAHN) [Schleswig-Holstein railway] numeral cancellation. 232425	3 [2 sk square, blue] Used F-VF+, fresh example. Nicely centered "S.J.P.SP. B. 2 TOG" railway cancellation; circular date stamp portion of duplex numeral canceler. This postmark is seldom seen directly struck on any stamp of the period, but it is especially scarce on this stamp which is normally found with #1 numeral cancel.	95.00

1882-1902 Arms**Item # Description Price Used**

236994 35 Printing 2 [1882 5 øre Arms with Small Corner Numerals] Used F-VF+ with nice 2-ring mute parcel post cancellation. Print 2 was confirmed by Lasse Nielsen; it is one of the scarcer printings; AFA 2008 Specialized value is DKK 1200 = \$200. The paper of the Small Numeral stamps is extremely thin, thus easily damaged; not many have survived. This example has one slightly short perforation, but it is hidden by the postmark. Fresh and attractive. --- 79.00
232438 37 Inverted Watermark. Used VF+ with neat numeral cancellation. Very attractive. 89.00
237475 39 THICK PAPER [1885 10 øre Arms with Large Corner Numerals, Perf 14 x 13.5] Used F-VF with unusually thick paper that is rarely seen on this issue. --- 6.50

Print 3 was confirmed by Lasse Nielsen. It is a very obvious color difference and is included in some printed albums. AFA 2012 value with well-centered cancellation is DKK 550 = \$93, but this example is still significantly better than that standard. An outstanding example! From the Farthington collection. --- 110.00

Wonderful quality! 165.00

1904-1906 Christian IX

Item #	Description	Mint
236726	66 [1904 20 øre blue Christian IX] SET OF TWO Mint Fine 4-BLOCKS in two distinctly different color shades: Dark Blue and Medium Blue with blue-toned paper. The darker block has one stamp (upper right) with tiny thin speck. The blue-toned-paper block is very interesting with many copper-plate-engraved plate scratches bending in all directions, likely caused by hand-wiping the plate too hard with an abrasive cloth (and probably significantly shortening the life of the plate); this is not often seen so prominently. Priced at only the value of 7 Mint Fine stamps!	129.00

235717	O5 Inverted Watermark [1871 16 skilling Official, Perf 12.5] Used SPACE FILLER, but with very scarce inverted watermark (AFA 2011 value DKK 6000 = \$1200!). Though this stamp was cut apart rather than torn, this was fairly common for this issue.	---	---	---	35.00
235718	O6 Inverted Watermark [1875 3 øre Official, Perf 14 x 13.5] Mint F-VF, but without gum and with rough perfs at bottom (fairly typical). AFA 2011 value is DKK 350 = \$70 [9/2011].	---	---	25.00	---
232459	O6 Print 1 (Dark Color) NH Fine. Remarkably fresh and with unusually nice perforations. AFA 2008 Specialized value DKK 900 = \$150 (3/09).	89.00	---	---	---
237809	O8 [1875 8 øre Perf 14 x 13.5 Official] Used with Superb centering and Superb PERFECTLY CENTERED single-ring "SLANGERUP 7/7 2 POST" cancellation (year dates were not used in most postmarks of this time). This is a very old small town from which cancellations are seldom offered. Wikipedia states "town was established by the Viking Slangir at the time of Harald Bluetooth" king of Denmark and Norway (H.B. died in 985 or 986). Nice Viking connection. The QUALITY IS EXCEPTIONAL and, even though this is an inexpensive stamp, it would likely get top billing in a Danish auction catalog! When only the best will do!	---	---	---	125.00
235706	O22 [1921 10 øre Green Official, Watermark Crosses] Used Superb 4-BLOCK with correctly dated 22 November 1923 cancellation. Scarce well centered and even scarcer with year-dated cancellation. AFA 2011 Block Catalog value is DKK 300 = \$60 [9/2011] for typical centering. This stamp had a short life as Officials were discontinued on 31 March 1924.	---	---	---	45.00
235707	O22 [1921 10 øre Green Official, Watermark Crosses] Used Superb 4-BLOCK with correctly dated 22 November 1923 cancellation. Scarce well centered and even scarcer with year-dated cancellation. AFA 2011 Block Catalog value is DKK 300 = \$60 [9/2011] for typical centering. This stamp had a short life as Officials were discontinued on 31 March 1924.	---	---	---	45.00
235709	O23 [1919 15 øre Official, Watermark Crosses] NH VF/F-VF right marginal block of six. (The stamps are NH, the selvage is hinged.) The two stamps in the center row (which is row six of the sheet, confirmed by the marginal dot between the first two rows) are both the "Wide E" variety (all of row six has this variety) listed by AFA as #TJ16x and Facit #TJ23v. Very fresh and attractive position piece. AFA 2011 value just as the six stamps is DKK 2080 = \$416 [9/2011] without the approximate 40% premium for the block! Wonderfully fresh and attractive.	---	---	---	325.00
235712	O23 Dark Lilac, AFA Specialized #TJ16 Print 2 [1919 15 øre Official, Watermark Crosses] NH Superb 4-BLOCK. Wonderfully fresh and bright. The lower left stamp has a natural inclusion (bit of the tree fiber) spot and is not counted in the value. Very scarce in NH condition and with such nice centering.	425.00	---	---	---

Cold War Emergency Stamp

In 1963, at the height of the Cold War, the Danish Post Office created a secret "Emergency Stamp" (Nødfrimærke) for use in a major crisis, such as nuclear war. In 1991, these stamps were revealed and offered to collectors with a 10-block as the largest unit. The remaining stocks were destroyed. Crudely printed by letterpress (typography) with invisible gum and often rough perforations. Centering is highly variable; Fine or F-VF is normal, whereas VF or better is quite scarce! More detailed information (including paper types and plate varieties) and pictures are on my website.

Extremely lightly hinged; just a single extremely light mark at the center of the block. Right two stamps are VF, left two are F-VF. The perforations are strong. Lower right stamp has a minor tone spot on one perforation (some people would probably not mention it). A classic multiple with wonderfully fresh appearance. Accompanied by 1974 S. VF and otherwise NH, but with gum soak staining on one corner perforation tooth (from incorrect licking of stamp mount). However, with only 140 pairs released, this is one of the rarest of these tete-beche pairs and would otherwise be \$1000! This is a very old small town from which cancellations are seldom offered. Wikipedia states "town was established by the Viking Slangir at the time of Harald Blue-tooth" king of Denmark and Norway (H.B. died in 985 or 986). Nice Viking connection. The QUALITY IS EXCEPTIONAL and, even though this is an inexpensive stamp, it would likely get top billing in a Danish auction catalog! When only the best will do!	---	---	125.00

Machine Stamps

Framas - 1990-2007

Danish 1990-2007 Machine Stamps (also called automat stamps) were dispensed from machines manufactured by the Frama company, thus the name FRAMA stamps. From 2006 onward (except for one last 2007 Frama issue), self-adhesive machine stamps from a different type of machine were issued. These are all real postage stamps, not meters or labels. They are valid from any location in Denmark, at any time, by any mailer. (Unlike meter imprints which are only valid from the location and on the date imprinted, by the licensed user.) These stamps are collected in "rate sets", the most commonly used postage rates for which the machines had pre-set purchase options and/or which the post office offered in sets. All but the first of the Frama issues are sets of three designs, typically with three standard rates; most collectors thus collect them in sets of nine stamps. The dates are the first dates that the respective design was available in the respective postage rate period. **If you are seeking items that are either noted as out of stock and/or are simply not listed, please send your want list.** When available, I offer the smaller sets of the minimum different designs as well as random singles -- in both cases, the denomination may vary from the image on the website.

Self Adhesive - Most Recent

Starting in 2006 (except for one late Framas issue in 2007), Danish Machine Stamps (automat stamps) have all been die-cut, self-adhesive, on backing paper. Normally they were dispensed in attached strips of alternating three or four multiple designs (1,2,3,1,2,3, etc.) or a few single-design issues. The first issue looked like a coil (straight edge top and bottom), but after they

they have been "perforated" on the left and part of the top and bottom, with the right end not "perforated". On some issues, it is known that different spacing of the stamps on the backing paper exists (from different variants of the dispensing machines); as these are production differences, they are collectible differences. These are all real postage stamps, not meters or labels. They are valid from any location in Denmark, at any time, by any mailer. (Unlike meter imprints which are only valid from the location and on the date imprinted, by the licensed user.)

These stamps are collected in "rate sets", the most commonly used postage rates for which the machines had pre-set purchase options and/or which the post office offered in sets. The typical issue consists of three or four designs, typically with three or four standard postal rates; most collectors thus collect them in sets of 9, 12, or 16 stamps, depending upon the number of designs and the number of rates in the standard set. The imprinting of rates could sometimes occur in an attached strip of all the same rate, or an attached strip of the four different rates; many people consider these collectible differences. On some of the issues, the denomination imprints exist in more than one typesize / typeface. The dates are the first dates that the respective design was available in the respective postage rate period. Documentation about these stamps at the time of issue was poor and there is still not much published about the production and dispensing of these stamps, thus one has the opportunity to find unexpected items.

The dates are the first dates that the respective design was available in the respective postage rate period. **If you are seeking items that are either noted as out of stock and/or are simply not listed, please send your want list.** When available, I offer the smaller sets/strips of the minimum different designs as well as random singles -- in both cases, the denominations or the order of denominations vs designs in a strip may vary from the image on the website. I am interested in buying items, formats, combinations, etc., that are not shown here.

Tete-Beche And Gutter Pairs

Starting in the 1930s, stamps for booklets were printed in special sheets (panes) that include vertical tete-beche pairs, with and without gutters. Five of these special sheets were available for general sale and thus exist mint and postally used. These "standard" issues are listed by the Scott Catalog and all other catalogs. There are also a couple other modern tete-beche pairs that were issued as part of normal booklet issues.

In 1971, postal officials sold to collectors such pairs from 19 other sheets; these are NOT listed in the Scott Catalog, but ARE listed in the Facit Catalog (after #101) and the AFA Catalog (immediately before the Official Stamps listings). While canceled examples can exist, their cancels would have to be 1971 or later, and are not considered used in the proper time period. Of these special issues, the quantities released ranged from 13 sheets to 311 sheets, thus they range from scarce to rare.

The sheet layout for typical small-size stamps was the usual sheet size of 100 (10 x 10), but the third and eighth rows were blank. The 8 rows with stamp designs have the designs oriented as follows: sheet rows 1-2 inverted, rows 4-5 upright, rows 6-7 inverted, rows 9-10 upright. This allows, per sheet, for 20 tete-beche pairs with gutter, but only 10 tete-pairs without gutter -- that is why the without-gutter pairs are always scarcer and have a higher price. There were a two larger-size stamps involved (semi-postal issues), they only exist with gutter.

All these issues are popular and my stock is constantly changing if you do not see what you need listed here, please send your want list that you can be put on the waiting list. I am always interested in buying these items.

Advertising Pairs

Danish advertising pairs and panes are listed, using identical numbering, by both Facit and AFA. The centering of the advertising labels and the stamps varies greatly within the panes and pairs; examples with VF centering are unusual in most cases; Superb centering is exceptional. The perforations of these issues were often quite variable, with small-hole perforations that resulted in rough appearance -- this is usually normal and typical. All are available for viewing on approval. **Please send your want list for any items not listed.**

Danish Advertising Pairs on cover are also available.

In 2005, an important new handbook Danish Advertising Panes by James A. Gaudet was published. It contains a great deal of new research and never-before published information on the Danish advertising label pairs/panes and booklets. The book thoroughly covers the development, printing, production, and usage of these issues, with particular emphasis on the varieties of both the labels and the stamps. The result of many years of painstaking work, this book brings new life to its subject. Completely in English, hundreds of illustrations, hardbound, 230 pages. Published by the Scandinavian Philatelic Foundation, the book can be ordered from Jay Smith and Associates, with 100% of the funds going to the SPF. Join today (minimum \$15 donation) to

Year Books

Official year books are handsome hardbound books that contain the stamps issued during the year as well as dozens of wonderful photographs and illustrations and interesting and informative text about the stamp issues and the country. The text is usually in multiple languages; unless otherwise stated, full English text is included. Denmark official year books have been issued since 1992. Each book contains one year of stamps.

Booklets

I have an extensive stock of all types and eras of Danish booklets, but they are not yet listed here. Please send your want list or let me know of your interests. The most recent specialized cataloging of Danish booklets is the 1994 catalog by Boom (used copies occasionally available; please inquire). The AFA Specialized Catalog is the next most specialized listing, followed by the annual AFA catalog, and finally the Facit Catalog. I am able to fill want lists using the numbers of any of these catalogs. All booklets are NH, VF, complete and fresh.

Classic Booklets

Hans Christian Andersen Booklets

The 1935 H.C. Andersen booklets are listed as Boom #3.11-3.16 (with variations), Facit #H9, and AFA #2kr-2. All booklets contain three 5 øre panes, two 10 øre panes, and one 15 øre pane: Scott #246b, 248b, and 249b. This booklet issue had many possible variations: five different back covers, three different "coupon" (a special interleaf) colors/separations; FIVE DIFFERENT HCA STORIES ON THE INTERLEAVES, and a special version with a simulated leather cover. According to Boom, up to 76 possible combinations of these may exist. As a result any particular combination is actually quite scarce. The possible back covers all advertise candy, chocolate, and confection products of the Galle and Jensen company: Gul Brud, Ga-Jol, Success chocolate, Lita Vert, Marcipan. The possible interleaf stories are: Den lille pige med svovlstikkerne (The Little Match Girl), Engelen (The Angel), Det er ganske vist! (Its Quite True), Flipperne (The Shirt Collar), Sommerfuglen (The Butterfly). **If you are seeking any particular version, back cover, or story, please let me know.**

The 2015 AFA value for the booklet is DKK 3500 = US\$525 [6/15]. The booklets of this issue are often "well handled" but this example is pristine!	395.00

Postal Stationery

Various

Item #	Description	Price
233880	1880s 8 øre postal stationery envelope with "J.M." PERFIN of the J. Moresco company, and with company return address. Used from KJØBENHAVN to Roeskilde, with receiver; all lapidar-style postmarks. In the world of philately, perfined postal stationery is a rare occurrence. While this particular item is not "rare", examples in such nice quality are seldom offered!	75.00
231961	26 Print 65 pair, #28 Print 69 (VF) on ca.1893 4 øre postal stationery envelope used as a cash-on-delivery (3 kr, 26 øre) parcel letter from RANDERS to ALLINGAABRO with "ALLINGAABRO 3 TOG" railway receiver on reverse (Skilling-Daka 2007 #32; fairly scarce; usage so far reported 9 Nov 1883 - 20 Aug 1890). Printings confirmed by Lasse Nielsen. Both printings date from 1893. This type COD parcel label (AFA #A3, COD parcels) came into use in 1887. Skilling-Daka shows the receiver recorded (so far) as used into 1890; if the stamp printing identification of this cover is correct, this cover significantly extends the known period of use for this postmark. Marked "Retour" and returned to sender. Very attractive and interesting usage with nice railway receiver. Excellent quality for such items.	95.00
231962	26 Print 10 position B75 and #28 Print 10 (Fine) on ca.1877 4 øre Ultramarine small-format postal card, as a parcel card from HORSSENS with numeral cancellations #30, to København. Some minor toning on stamps. Stamp printings confirmed by Lasse Nielsen. These early stamp printings are scarcer issues on cover; nice usages of the Ultramarine 4 øre card are scarce.	80.00

Nazi-German censorship handstamp applied in København. Message in Danish. Such uses are unusual.	50.00

Item #	Description	Price
201944	1930 Hans Christian Andersen essay complete imperforate sheet of 16 designs, each with different denomination. Ultramarine frames and text with brown denominations and central vignettes. This essay was designed by N. Rasmussen and was presented to the post office on 30 October 1930, with the suggestion that stamps be issued with a premium value (i.e. a semi-postal) to benefit poor people. This issue is quite scarce and very much in demand due to the many topics represented in the designs.	650.00

1920 South Jutland (Schleswig) Reunion Issue

Proofs of these three designs exist in black, in colors very close to the issued colors, and in other colors (scarce). The 10 øre pictures the Kronborg Castle in Elsinore (Helsingør) which is usually considered a lighthouse issue by lighthouse topical collectors.

Item #	Description	Price
221490	Scott #156/159 [10 øre Reunion issue: Kronborg Castle (The location for Hamlet and including what most collectors include as a lighthouse)]. Plate proof in black on thick yellowish, smooth paper. A very attractive and inexpensive plate proof and a key item sought by lighthouse thematic collectors.	39.00
221491	Scott #157 [20 øre Reunion issue: Sønderborg Castle]. Plate proof in black on thick yellowish, smooth paper. A very attractive and inexpensive plate proof.	29.00
221492	Scott #158/160 [40 øre Reunion issue: Roskilde Cathedral]. Plate proof in black on thick yellowish, smooth paper. A very attractive and inexpensive plate proof, though this denomination is somewhat scarcer than the other two.	35.00

Airmails

Proofs of the classic-design 1925-29 airmail stamps (designed by Axel P. Jensen) are very scarce and of dramatic appearance. As I look at the farmer and his horses, I have to wonder if the farmer is pleased with the progress he is witnessing or if he is annoyed that the "new fangled flying machines" are scaring his horses (something that can be a problem in our area even today, though the planes are now huge, fast monsters armed to the teeth). I have only been able to offer such proofs twice in 37 years! While proof-like imperforate forgeries do exist, they are clearly different in design and size. These proofs are absolutely guaranteed genuine.

Item #	Description	Price

Item #	Description	Price

Test Stamps

Test Stamps (also called Dummy Stamps in the U.S.) are created by stamp printers and post offices to test printing and production processes and other machines. While a few have had extensive philatelic distribution, most were never intended to be known to collectors and are very scarce. New discoveries continue to be made. Denmark has made use of several types and designs of test stamps; some of these are shown in the AFA Specialized Catalog at the start of the 1933 steel-engraved period.

All items are available for viewing on approval. I have a constantly changing stock of Danish and all Scandinavian essays, proofs, reprints, specimens, and test stamps. Most such items sell before they get to the website or price lists. What are you seeking?

1968 Grundtvig Cathedral Slania-Engraved

In June 1968, the Danish post office purchased a new Goebel printing press that could print steel-engraved stamps in one, two, or three colors. To test the press, this complex-design stamp was engraved by Slania. This is a classic Slania engraving and at least one printing belongs in every Slania collection. The stamp exists on different papers and in several color combinations and single colors, including printings of partial designs. The basic 3-color stamp that was widely distributed is inexpensive, however, some of the other printings are very to extremely scarce. Blocks of four are scarce; larger blocks are rare.

1980-1985 Horse Statue Slania-Engraved

In 1980 the Danish Post Office purchased a new Goebel "M4" printing press. To test the machine, a test stamp designed by Danish artist Mads Stage and engraved by Czeslaw Slania was produced in 1980. The design is of an imaginary view of København, with the equestrian statue in front of the Royal Palace in the center. To the left is a small fragment of the Christiansborg Palace (Parliament Building) and on the right a partial view of the Royal Residential Palace (Amalienborg).

In 1985, as a fundraising gesture for the Danish Philatelic Federation (DFF) and to support the development of philately, the post office made a special printing of these stamps which was turned over to the DFF which sold them. The marginal inscriptions were removed and stamps were only sold as singles, 4-blocks, and 4-strips. From this printing, larger units are known, but are very rare. The 1985 printing is multicolored: the black is engraved, but the "PRØVE" and all the colors are printed by offset / lithography. It is printed on white paper with greenish-yellow fluorescence and has invisible gum. This stamp is fairly common.

However, it turns out that this was only part of the story! There are two different engravings and different colors. For more information and illustrations, please see this section on the website or write for information.

[Information is wanted about other printings/colors and I wish to buy any such examples.]

1994 Postal Museum

1994 test stamp picturing the facade of the Danish Postal Museum. Printed on the "M4" printing press, using a combination of steel engraving, offset/lithography, and photogravure (dybtryk in Danish), all in a single pass through the press. Designed by Des Asmussen and engraved by Arne Kühlmann. Sold as a fundraiser for the Danish Postal Museum; issued in a booklet containing one pane of 10 stamps, contained in an attractive letter-box shaped envelope. Danish local post stamps are best cataloged by (and is the primary numbering I use in these listings) Christensen and Ringström which is in stock. The Daka Local Post Catalog is also sometimes used with numbers in [brackets]. The Daka catalog is also in stock.

Official Reprints

Officially issued Christmas Seal Reprints have been printed -- and are normally collected -- in sheets of ten seals. They have been officially issued by the Danish Christmas Seal Fund (under

the sponsorship of H.K.H. Kronprinsesse Mary) which is in charge of all matters relating to the Danish national TB / Christmas seals. The front of the sheet indicates the year of reprinting, in Danish, such as "Nytryk 1976". The back of each seal also bears the year of reprinting, in English, such as "Reprint 1976". The reprinting started in 1976 and still continues every year, normally with old two years reprinted in each new year. This has been done from the 1904 issue so far up into the 1970s. When reprints have sold out, they have been re-reprinted in a new year along with the two normally scheduled reprints. Though these are usually collected as sheets of ten, I am happy to offer singles if I have a damaged sheet.

Additionally, between 1976 and 2001, nine souvenir sheet reprints have been officially issued in conjunction with stamp shows. These have mostly consisted of five seals: One oversize design and four normal size seals, as well as marginal text. They are presented in the listings by the original year of the design.

Even if the items you seek are not currently available, please send your want list so that I may advise you when they become available. All items are available for viewing on approval. If you wish to build your collection by receiving a few of these on approval every month, I would be happy to send them. New issues of Danish Christmas seals, including these reprints, are available (in whichever format/type you desire) by subscription through my Scandinavian New Issue Service.

Christmas Seals

Christmas Seals - Locomotive Personnel Help Fund

These Christmas Seals were issued from 1914 through 1957. The design is the same for all years; the colors vary. They were printed in 1-wide sheets, 9 stamps high. The later issues are scarce to extremely scarce. I am always interested in buying almost all years.

Even if the items you seek are not currently available, please send your want list so that I may advise you when they become available. All items are available for viewing on approval.

Labels

Labels are issued for many purposes, including commercial advertising and promotion; fundraising (usually then called "seals"); propaganda, publicity, and education; non-governmental payment receipts (example: union dues); and series issued for label collectors. (Post-office issued labels will be considered separately.) In the early part of the 1900s, collecting labels issued in series was very popular, with a few issuers publishing albums (but not in Norway to my knowledge); usually one had to buy a product or visit a store to obtain a label for the album. The term "poster stamps" is often applied to many labels because they are really miniature posters. Labels often look like stamps, but can range from smaller to much larger; from boring and crude to stunning works of art; and from very inexpensive to quite valuable. Some collectors seek labels either for specific thematic appeal or for design elements of the artwork. Norwegian labels, in both overall variety and quantities printed, seem to be few and far between compared to the masses issued in many European countries during the early 1900s. (In Scandinavia, Danish issuers were by far the most prolific, with Swedish issuers well behind and the other countries with many fewer issues. Approvals are available from all Scandinavian countries.) Even the most "common" of labels is usually extremely scarce compared to the postage stamps of the same time period; there are many \$5 labels that would be worth \$500 if they were postage stamps. It is important to note that, over the years, labels have not received the same level of care usually afforded to postage stamps and thus labels are much more likely to have condition problems. Lesser condition always affects the value, but do not automatically pass up a label for that reason alone; you may never see another example of it.

Slesvig covers are very interesting due to the short period of use, several postal rate changes, mail from/to the two different zones, and the many different (often scarce) town cancellations.

204939	1 12-block (Fine to F-VF) [2 1/2 Pf Gray] on 9 February 1920 30 Pf cover from "NORBURG (ALSEN)" to Stubbekjøbing, Denmark. Minor bend in upper right corner, but an extremely scarce (large block) franking.	40.00

Scarce registry label; the only one I can recall seeing from this town in 33 years. The used stamps alone (off cover) would sell for \$19.25 and at least \$30 as postmark cuttings.	36.00
235246	1-14 (Fine to VF) [Zone II complete set] on 20 February 1920 philatelic cover from FELDST-EDT, a scarcer town postmark. The postmark appears to be "20 12" but the "1" is actually a spacer between the dates. This is priced little more than the value of the used stamps!	90.00

This cover is postmarked on the day of the ZONE I PLEBISCITE ELECTION, that resulted in the northern zone becoming Danish. Top-values covers are seldom seen. Stamps

Slesvig stamps are of interest to collectors of both Denmark and Germany. The stamps are often poorly centered with Fine or F-VF being typical. VF examples are scarce and command significant premiums.

All items are available for viewing on approval.

Take a look at the other Slesvig stamp, varieties, cover, cancellation, proofs, and postal stationery listings too.

I wish to buy the following. Unoverprinted issue: any VF mint hinged singles or sets, any VF (and most F-VF) used singles or sets. "1. Zone" Overprints: Any F-VF or better NH, Mint Hinged, or Used singles or sets. "CIS" Overprints: Any NH, Mint Hinged, or Used stamps; certificates required for CIS overprints or I can obtain them for you.

234405	3 [20 on 5 øre WWII Provisional Surcharge] Used VF on piece with THORSHAVN pictorial codfish cancellation (translates to "Eat Faroese Codfish"). This example is interesting because when viewed under 10x magnification, the surcharge appears to be slightly doubled in the way that the Type II surcharges appear, but they only exist on #2, 5, and 6, at least that is what we have long believed to be the case.	---	---	55.00

Faroe postmarks have been most recently cataloged and valued in the DAKA 2010 Faroe Islands GF10 Stamps and Postal History Catalog which I have available. The Daka postmark numbering system, which I normally use, is different from the previous Wowerm system. Scott numbers have been used for the stamps unless otherwise indicated. I have a broad stock of towns, types, and eras of Faroe cancellations including star, starless, town/bridge, ship, etc. The listed items and **much more of all types of Faroe cancellations** are available for viewing on approval; please request approvals.

Scott #	Description	NH	Mint	PUsed	Cxld
202156	Scott #2 Type I [20 øre overprint on 1 øre Numeral] NH VF horizontal 3-strip. Fresh and bright. Multiples of this issue are difficult to obtain.	190.00	---	---	---
237873	Faroe #2 Type I and Denmark #230 [Faroe 20 on 1 øre WWII Provisional Surcharge] Used VF on small piece (envelope, not parcel card) with Danish 10 øre violet Wavy-Line. The Faroe stamp has a couple shorter perforations. Single Used VF stamp normally \$115.	---	---	79.00	---
234401	2 Surcharge Type II [20 on 1 øre WWII Provisional Surcharge, Type II issued 28 May 1941] Mint F-VF example, extremely lightly hinged. In terms of relative rarity compared to the Type I surcharge of the same denomination, this is by far the scarcest of the three Type II surcharges. Very attractive and seldom offered.	---	165.00	---	---
3	VF	---	---	32.00	---
3	F-VF	---	---	26.00	---
234405	3 [20 on 5 øre WWII Provisional Surcharge] Used VF on piece with THORSHAVN pictorial codfish cancellation (translates to "Eat Faroese Codfish"). This example is interesting because when viewed under 10x magnification, the surcharge appears to be slightly doubled in the way that the Type II surcharges appear, but they only exist on #2, 5, and 6, at least that is what we have long believed to be the case.	---	---	55.00	---
202164	Scott #3 [20 øre overprint on 5 øre Numeral] Used VF well-centered THORSHAVN 19 April 1941 cancellation.	---	---	39.00	---
202162	Scott #3 [20 øre overprint on 5 øre Numeral] Used VF on large piece from cover, with attractive THORSHAVN 14 November 1942 cancellation.	---	---	39.00	---
4	VF	---	---	19.00	---
4	F-VF	---	---	16.00	---
4	SD	---	18.00	6.00	---
202174	Scott #4 [20 øre overprint on 15 øre Caravel] Used VF with SANDEVAAG "uds" or "starless" cancellation.	---	---	36.00	---
237874	Faroe #5 Type I and Denmark #230, 237 [Faroe 50 on 5 øre WWII Provisional Surcharge] Used VF on small 29 January 1941 piece (envelope, not parcel card) with Danish 10 øre violet Wavy-Line and 35 øre violet engraved Caravel. Nice higher-value franking. Very attractive. Priced the same as the plain used Faroe stamp!	---	---	135.00	---
6	Type I VF	---	---	275.00	---
235791	6 [60 on 6 øre WWII Provisional Surcharge] Used Superb looking example but with a light crease that is only visible from the reverse. Otherwise, this stamp sells readily for \$275.	---	---	89.00	---
6	Type II F-VF	---	---	200.00	---

233530	19 [1975 450 oyru Farm] "BROWN HILL" variety. This variety in which the hillside in the upper left corner is distinctly brownish has been well known since 1975 or 1976. 234406	65 Olive COLOR ERROR [1981 10 oyru Rune Stone] NH VF single in Yellowish Olive Green instead of the normal Gray Green. Our late friend and Faroe modern-issues expert Art Quarles, who had many personal contacts inside the Faroe post office, was "absolutely sure" that this color difference existed when the Faroe post office received their supply from the stamp printer and that it was not a color changeling. I last had a few examples of this error back in 2007 and all very quickly sold for \$250 each. I now have only four more examples.	250.00	---	---	---

Machine Stamps

Faroë first started issuing machine stamps on October 9, 2008. While these stamps were not made for the type of machines produced by the Frama company, many people call all machine stamps "FRAMA" stamps. Others call them "automat" stamps or ATM labels. These are real postage stamps, not meters or labels. They are valid from any location in the Faroës, at any time, by any mailer. (Unlike meter imprints which are only valid from the location and on the date imprinted, by the licensed user.)

Year Sets

These year SETS are offered at a discount from the individual stamp set prices. Year SETS are NOT the same item as an official year PACK. Year SETS are simply year groupings of stamps. Year PACKS are officially issued packages (folders/packs) and are popularly collected as year packs. Unless otherwise mentioned, the year SETS I offer contain all the basic stamps and "normal" souvenir sheets expected by a collector using a Scott album, but often this will be the same as what is needed by the collector using a European-made album. Year SETS are usually more correct for given styles of albums and often contain more stamps than the officially packaged year PACKS (in which the post offices often do not include everything that they should). Older year PACKS usually cost more than year SETS. However, year SETS are offered at a discount from the total of the individual items they con-

tain (unless they only contain one individual stamp set). Year PACKS are also available: **the earliest year packs are here and the most recent year packs are here.**

I guarantee your satisfaction and guarantee that you will always receive first quality stamps. As with almost all items I offer, you are welcome to request year sets to be sent on approval.

Faroë new issues, including year packs, are available through my Scandinavian New Issue Service at new issue prices. Convenient, guaranteed coverage with personal service.

Year Packs

All Year PACKS are NH VF and fresh, complete as issued by the post office. The post office occasionally omits from the Year PACKS items that most people wish to have. These "extra" items are listed below, after each Year Pack, with "+"

preceding the description. Order these items as well if you wish to have all the stamps issued for a given year.

Year PACKS are packages officially issued by the post office and are collected by many people as in fact Year Packs. Earlier Year PACKS often sell for more than the stamps they contain. Year SETS are simply groupings of all the stamps issued in a year and sell at a discount from the total value of the stamps they contain. Depending upon what the post office has put into the Year PACKS, Year SETS often contain slightly different items than Year PACKS; because of this, direct price comparisons cannot be made -- you must look at what items each contains.

I guarantee your satisfaction and guarantee that you will always receive first quality stamps. As with almost all items I offer, you are welcome to request Year Packs or Year Sets to be sent on approval.

Year Books

Official year books are handsome books that contain the stamps issued during the year as well as dozens of wonderful photographs and illustrations and interesting and informative text about the stamp issues and the country. Faroese official year books have been issued since 1987. Starting in 1989, the year books were issued in two language editions: Danish/Faroese and English/German. Unless otherwise stated, the edition with English text is offered below. (The other editions are sometimes available; please inquire if interested.) The 1987 and 1988 editions are hardbound; the later editions are softbound. Each book contains one year of stamps.

Souvenir Cards

With only a couple minor exceptions, the only officially issued Faroese "souvenir cards" are their so-called officially-issued "album pages". Additional items are usually in stock, but not on the website; please request approvals.

Official Souvenir Pages

Officially issued by the Faroese post office, these little-known first day-canceled souvenir cards or pages were intended to be put in a 2-post binder (I have never seen one). The opening page in the book was to be the 1975 90 øre Map issue (I have never seen pages for the rest of the 1975 issue). Following that, I have only seen a page for the 1976 Postal Service issue and one example of a page (no stamp affixed) for the 1979 Ram. Then my record jumps to 1981, with nearly full coverage until 1988. Pages may have been issued later than that, but I have never seen them or any reports of them. However, a card not listed is not necessarily scarce. My understanding is that these pages were originally intended to be for child collectors, but that they ended up having a broader interest base. In any case, while they were current, I never saw them offered in North America. Many of the pages are highly "topical", including issues engraved by Slania, but are virtually unknown to topical and Slania collectors. While these pages were apparently intended only to be offered with stamps affixed and first day canceled, I have seen just a couple "mint" pages without stamps (they may have been "errors"). While the cards are all on gray paper with lilac printing, I have seen one card (Scott #65-9) with green printing and possibly also with lilac printing. [Comments as of 7/09.]

I am generally interested in buying all these cards, whether listed or not.

Shipping Company Freight Stamps

When such stamps had been issued in other regions in earlier eras, they were often called Ship Letter Stamps. However, these stamps were intended to pay for freight shipments between the islands, particularly agricultural goods such as milk, butter, and even animals, along with all the other types of freight and parcels needed to supply daily life. The stamps were apparently not sold to the public, but were applied by the shipping company to the bill of lading at the time of shipment. Despite the primary use on freight, the earlier issues are known used on envelopes; in such cases, that may have been the quickest way to get messages or business papers transmitted. **During the WWII era the Faroe government took over freight operations; later all operations were consolidated under government control, thus the post-WWII issues are "government issued parcel stamps", not privately issued! As such they should start to receive much more respect than they have in the past** These stamps have been listed in Wowern GF14 catalogs and they are now listed in the Daka GF10 (21st edition, 2010) Catalog, which is available from me. **THE CATALOG NUMBERS HAVE CHANGED FROM CATALOG TO CATALOG; THE CURRENT NUMBERS (WHICH I HAVE USED IN THIS LISTING ARE DIFFERENT FROM PAST NUMBERING SYSTEMS. Please confirm that the numbers correlate to the stamps you actually need.** These stamps rarely make it to my website or price lists and are usually only

available via approvals. Please be sure to let me know of your interests; a good selection is usually available.

Early Issues 1915-1940s

The stamps of this period, from 1915 to approximately 1946, are almost all scarce to rare. Some are only known used, while others are only known mint. Quantities recorded range from one known example, to a dozen or two, to 40 or 75. The largest known quantity specifically mentioned by Daka 2010 is 150. Surprisingly, while any used examples are scarce to rare, many of those used stamps that have survived seem to still be on document (fragtbrev = freight letter) or envelopes or cards and do not have the large price premiums that one might expect.

Item # Description NH PUsed

236986	F26, F34, F35 [ca.1927 5 øre green; ca.1929 25 øre green and 1 kr ORANGE RED] Used VF: 5 øre lower right corner margin, 25 øre upper right corner margin, and 1 kr perforated all four sides singles (these issues had straight-edge sheet edges) with a typical minor creases, ON A FRAGTBREV (freight letter = bill of lading), dated 31 August 1934, for carriage 100 kg of melis (sugar), 15 kg of sveksker (prunes), and 15 kg of cream kiks (cream biscuits). Carried aboard the ship Dugvan to Eide. The document has only very light typical creases and wear. (Daka 2010 mentions color shades on this stamp, but Daka does not yet list them in detail). An exceptional example spanning two different issues and three denominations. In my opinion, the 5 øre stamp is considerably undervalued in the catalog. --- 350.00
236985	F34 and F35 [ca.1929 50 øre OLIVE BROWN and 1 kr ORANGE RED] Used VF: 50 øre perforated all four sides and 1 kr bottom sheet margin single (this issue had straight-edge sheet edges) with a typical minor creases, ON A FRAGTBREV (freight letter = bill of lading), dated 20 July 1934, for carriage of a drum of "Petroleum W.W. (water white = kerosene). Carried aboard the ship Dugvan to Eide. The document has only light typical creases and wear. (Daka 2010 mentions color shades on this stamp, but Daka does not yet list them in detail). --- 250.00
236984	F35 [ca.1929 1 kr CARMINE] Used VF right sheet margin single (this issue had straight-edge sheet edges) with a typical minor crease ON A FRAGTBREV (freight letter = bill of lading), dated 22 August 1932, for carriage of two 100 kg of "Vironica". Carried aboard the ship Dugvan to Eide. The document has typical creases and wear. The carmine stamp color is much scarcer than the usual orange-red (Daka 2010 mentions color shades on this stamp, but Daka does not yet list them in detail). --- 225.00
236982	F42 [ca.1935 25 øre green] NH Superb lower left corner single (this issue had straight-edge sheet edges) with "13430" printers imprint. This imprint only appears in this one position of the sheet of 25 and is quite scarce. 100.00 ---
236983	F43 [ca.1935 50 øre brown] Used VF upper left corner single (this issue had straight-edge sheet edges) with a typical minor crease ON A CARD (bill of lading) for carriage of 12.5 kg of saft (juice). Carried aboard the ship Dugvan, from ??? to Eide (Ejde). In 40 years, I have only seen a couple examples of such a card (instead of fragtbrev form); this is a very scarce use! --- 190.00

Christmas Seals National - Full Sheets

The "Official National" Christmas seals of Faroe have been officially sold by the post office. Almost all collectors of these Christmas seals collect Faroe issues as full sheets because most of the issues are multi-design. Furthermore, for most years, two perforation types exist: the top margin is either imperforate or perforated. Most collec-

tors collect both types. There is usually little or no rarity or cost difference between the types, however, sometimes one or the other is in short supply. For this reason, **where multiple types exist, I list an additional option of "JSA choice" in which I supply whichever type I have more of and thus can offer at a slightly lower price. If you only wish to have one type and do not care which, please order this option.**

Starting in 1997, and perhaps earlier [I would like to know of any earlier booklets and any languages that I do not list], the post office created informational booklets that (sometimes) accompanied the Christmas seal sheets when purchased from the post office. The booklets were produced in up to five (or more?) languages (Faroese, Danish, German, French, and English); I have not been able to learn which languages exist for each year. Distribution of these booklets was haphazard; buyers of a single sheet often, but not always, received the booklet, but buyers of quantities of sheets usually received only one or none. In my experience, some of these booklets are clearly scarcer; of some I have only seen one or two examples. Because, as an American, my supplies over the years have been English, it seems from this perspective that English is common, however, in many overseas locations, English is probably very, very scarce.

There have been a few other earlier Christmas and charity seal issuers; I often have those in stock, please inquire. All Faroese Christmas seals (and those of all the other Scandinavian countries) are available on approval. If you have specific topical/thematic interests, please let me know.

National - Singles

The "Official National" Christmas seals of Faroe have been officially sold by the post office. Though most collectors wish to have these issues in sheets, some do want singles or sets where there are just a few designs. And some collectors want to have just on representative example of the year for multiple-design issues. Others want a particular seal for topical / thematic reasons. For multiple design issues, I give the option of a random single of my ("JSA") choice OR a "random" single of your ("CLIENT") choice. In the latter case, place your order as normal but also describe which single(s) you wish to have; either by position (i.e. row 3, seal 2 -- on the web site look at the seal sheets web pages for position location) or by subject (i.e. "horse"). Please keep in mind that popular topics sell very quickly. **DISCLAIMER: If you want a specific position seal, I cannot guarantee availability. The "client choice" prices are for seals that I already have from broken sheets. There may be cases where I do not have the specific position seal you want, but I would consider breaking a sheet to get it; in that case, I may have to charge a higher price -- if that happens, I will quote the price for your consideration.**

Item #	Description	Used
218460	Scott #10f variety, Facit 9IIv1C4a Carmine [40 pen ROULETTE IV, STAMP TYPE II] Used with VF+ appearance and nearly FULL TEETH; only a couple of tooth tips missing. Examples of Roulette IV are rare; examples with completely perfect teeth may not be known (Finnish expert Kaj Hellman once commented that this example may be the nicest in existence): Facit prices full teeth, but Norma does not. However, this example is STAMP TYPE II (cut in right side of bottom of crown; see Facit) which makes it a major rarity; both Facit and Norma indicate that the price of a Stamp Type II example (of even the most common roulette) should be tripled! In addition to the overall excellent quality, it has a full NYSLOTT June 1867 cancellation. Accompanied by a 1991 Mikko Ossa certificate stating, in his typical extremely strict and blunt fashion, that "The stamp has short teeth and some teeth have breaks [i.e. creases on teeth]. The stamp is not repaired." However, it is obvious from the appearance of the stamp that the quality is much nicer than that description suggests. The stamp was in the "Michigan" collection built by an American who lived in Finland in the 1950s-60s; he obtained many of his stamps from such eminent Finnish philatelists as E.A. Hellman. I acquired the stamp in 1991 and have since sold it twice and then repurchased the entire collections of the clients to whom I sold it. Also accompanied by a 2006 Jay Smith photo certificate with lifetime guarantee.	5000.00

Select Stamps

Item #	Description	Price	NH	Mint	Used
237351	5 [1860 10 kopek Roulette I] Used VF with ample margins. This example has Facit "LK" spacing (1.6 mm horizontally and 2.3 mm vertically), the scarcest type on the Roulette I stamps (Facit 2013 value SEK 600 = US\$96). Attractive centering, neat HELSINGFORS and pen-cross cancellations, and only two teeth partially missing. Unusually attractive.	---	---	---	69.00
236194	8 [1870 10 penni, Ordinary Paper, Roulette III] Used with overall VF appearance, VF centering, and only one tooth missing. An unusually nice example. This particular number is underappreciated by the catalogs -- undamaged examples are very hard to find.	---	---	---	135.00
236692	8a [1866 10 penni Roulette II, ordinary paper] Used F-VF+ with just a couple of the usual tooth problems. Wonderful, sharp and well-centered, JAKOBSTAD "arc" style 14 July 1875 cancellation. Scarce so attractive!	---	---	---	155.00
237355	9 [1866 20 penni Roulette III] Used F-VF+, attractive centering. The Grayish Blue Thin Paper (Facit #8v2C3a) with Strong Blue ink shade (greenish, but not the Greenish Blue). Only looks like one tooth missing, but there are a couple other tooth problems under magnification. Very light cancellation. Attractive.	---	---	---	26.00
236696	10b [1866 40 penni Roulette II, ordinary paper] Used F-VF with a couple of the usual tooth problems. Unusually light red color. Attractive.	---	---	---	35.00
236698	10c [1866 40 penni Roulette II, ribbed paper] Used Fine with the usual tooth problems. Neat, light, blue cancellation. Nice color. Looks nice. Always a very sought after stamp. [Note: Ribbed paper is always hard to see. For best re-	---	---	---	---

232812	12 [5p Laid Paper, Roulette III] Mint no gum (as usual). Attractive centering. Couple teeth missing and a couple others creased, as usual. Nice, fresh looking example.	---	---	---	190.00
236014	13b [1866 10 penni Roulette I, Laid Paper] Used VF with full, even margins and neat, light, well-centered ALAVO cancellation and bright color. Looks like full teeth, but two perf tips may have been reattached. Much, much nicer than usually seen. Scarce stamp.	---	---	---	245.00
238718	19a Bright Yellow Green [1875 8 penni 4-Numerals, Perf 11] Mint with Superb centering and huge margins, but no gum. A beautiful example of a color that is very scarce with nice centering and large margins. Very scarce color with gum, but would fetch \$450 with this centering.	---	---	---	180.00
237535	21 [1875 20 penni Ultramarine 4-Numerals, Perf 11] Used F-VF with sharp RAILWAY "42" 1870s cancellation. Attractive.	---	---	---	7.50
238313	Finland Scott #22 Carmine [1879 25 penni perf 11] Used with F-VF centering and bearing VF (sideways) SWEDISH 6 September 1881 "STOCKHOLM K.E." incoming ship mail cancellation. A very nice example!	---	---	---	24.00
238562	23 Deep Red [1875 32 penni 4-Numerals, Perf 11] Used Superb centered, but with mucilage mark on reverse from mounting in an ancient album (does not affect appearance on the front). Nicely struck, complete single-ring KOTKA "arc" style 7 August 1878 cancellation. Very attractive with rich color.	---	---	---	37.00
238563	23 Dark Carmine [1875 32 penni 4-Numerals, Perf 11] Used Superb centered WITH JUMBO MARGINS, but with unobtrusive margin thin. 1876 railway cancellation. Very attractive with brilliant color.	---	---	---	22.00
238564	23 Light Carmine [1875 32 penni 4-Numerals, Perf 11] Used Superb centered WITH JUMBO MARGINS, but with thin. 1877 cancellation. Very attractive.	---	---	---	18.00
238324	27 [1882 10 penni brown 4-Numerals, Perf 12.5] NEVER HINGED 4-BLOCK with perfect original gum. Single stamps of this quality are quite scarce; the surviving blocks are extremely scarce as they are too often broken up for the singles. The single stamps would each fetch \$225. Facit 2015 value for a NH block with normal centering is \$1050. Outstanding example!	---	---	---	925.00
238315	27 [1882 10 penni brown 4-Numerals, perf 12.5] Used Superb with large top and bottom margins and jumbo side margins. Unusually light and neat corner cancellation. The lower right perf tip is just lightly thinned, but mentioned only for absolute accuracy. Interesting plate variety listed in Facit 1974-75 (a large Facit edition that included such varieties) as variety Kv4 (with 50% value premium): "Lower left value circle has a large break in the top" and also with "Both upper value circles have thickening at bottom right" which is not mentioned in the catalog. Even without the varieties, a beautiful stamp in the 99.5th percentile of quality for this stamp -- rare so nice!	---	---	---	50.00
237533	28 Light Ultramarine [1882 20 penni 4-Numerals, Perf 12.5] Used Superb with VF centered arc-style LOUVISA 23 July 1883 cancellation. Very attractive.	---	---	---	8.00
236625	29, Facit #17LaaC2 [1882 25 penni ANILINE RED 4-Numerals, perf 12.5] Used VF+ with faint, but clearly readable HELSINGFORS	---	---	---	---

Item #	Description	Price	NH	Mint	Used
---	24 February 1882 arc-style cancellation. The dating is significant because it positively confirms the identification as the first printing from the Charta Stamp Office. Even more exceptional, the STAMP HAS NOT BEEN SOAKED and has some envelope remains on the reverse, thus the aniline (water soluble!) color appears exactly as it was originally printed. It is rare to find used examples of the aniline colors that have never been changed by soaking. A wonderful example that is much more significant than it first appears.	---	---	---	50.00
237539	29 Aniline Red [1882 25 Red penni 4-Numerals, Perf 12.5] Used F-VF with VF centered BLUE 2-ring LEMPO (IS) [day/month not present in device] 1884 cancellation, with tiny part of second strike. Very attractive with nice contrasting colors.	---	---	---	14.00
238561	29f, Facit 17SecC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Superb centering, but minor mucilage mark on reverse from mounting in an ancient album (does not affect the appearance from the front). Neat 2-ring BJORNEBO (RG) 18 July 1882 cancellation. An beautiful example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	---	---	125.00
238560	29f, Facit 17SecC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Fine centering. Neat 2-ring (B)JORNE (BORG) 26 July (most certainly 1882; cannot be earlier) cancellation. An excellent example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	---	---	145.00
238316	31 [1885 5 penni green 4-Numerals] Used Superb with perfectly balanced margins and light, neat corner cancellation. While this is normally a very common stamp, examples of this quality are scarce.	---	---	---	6.00
236626	32a Rose, Facit #21v9 [1885 10 penni Rose 4-Numerals] Mint, very lightly hinged, Superb/VF centered, 4-block. Major plate variety: "white line through PENNI" on lower left stamp. Facit 2012 value for the least costly printing in usual quality (which is not this nice!) is SEK 225 = US\$34 for singles and SEK 1000 = US\$150 for 4-block, not counting the value of the major variety. Wonderfully fresh with bright color! Existing blocks of this issue are quickly being broken up and are much harder to find now than just a few years ago. Superior quality, with a scarce variety.	---	---	---	185.00
237540	33 [1885 20 penni Orange 4-Numerals, Perf 12.5] Used F-VF with F-VF inverted 2-ring KANNU(S) 12 January 1889 cancellation. This town is somewhat scarcer (Lape 8 Euros) and I have seen very few examples of this cancel compared to others on the same tier.	---	---	---	5.00
236723	34 [1885 25 penni Ultramarine 4-Numerals] Used VF with VF+ EKENAS "FINLAND style" 3 May 189[?] cancellation. Unusually attractive. Well centered examples of this cancellation style are scarce on single stamps.	---	---	---	8.00
237537	43 [1890 1 mark 3-Numerals] Used Superb with nearly complete carved "grid" cancellation. I have not looked up the location. Very attractive.	---	---	---	8.00
232008	56 [1891 1 rubel Russian Design with Rings] Used VF+ with neat ÅBO / TURKU 1904 tri-lingual postmark. Very attractive.	---	---	---	85.00
232009	56 [1891 1 rubel Russian Design with Rings] Used VF+ with neat KRISTINESTAD / KRISTINA 1903 tri-lingual postmark. Very attractive.	---	---	---	85.00

238318	62 Orange "DIAMOND" (DOUBLE) PERFORATION [1895 20 penni orange 3-Numerals, Perf 14 x 13] Used Fine with September 1900 cancellation. The top perforation row was double-perforated in such a way that the perforation teeth are almost all gone. This issue was perforated with a comb device that was repeatedly struck on the sheet, a row at a time. The row of stamps above this one would have been similarly doubly perforated at the sides. Though one must be cautious about high prices sometimes asked for these types of varieties, this one has every indication of being completely genuine. I guarantee this item to be genuine.	---	---	---	40.00
232026	98 [1921 50 penni M-17 Saarinen Lion, Without Watermark, Perf 14x14] NH VF+. Scarce stamp grossly undercataloged by Scott.	---	---	---	15.00
232027	104 [1921 2 mark M-17 Saarinen Lion, Without Watermark] Yellow Green and Black (Facit #104b; a little scarcer) NH Superb 4-block. Beautiful.	---	---	---	44.00
237521	101 [1917 1 mark Red and Black M-17 Saarinen Lion] Used VF with partial violet GERMAN "SEEPOST" ship mail cancellation from the STETTIN-HELSINGFORS line. Extremely scarce on loose stamps (and even quite scarce on cover). The only example of this postmark that I can recall having on any M-17 Lion issue stamp.	---	---	---	30.00
237290	118 [1918 5 mark Vasa Lion] Brownish Violet and Black (First Print, Facit #83a). Used Superb with neat WASA 1918 postmark, large margins, wonderful centering, excellent perforations, and strong color. Remarkably nice!	---	---	---	130.00
232019	118 [1918 5 mark Vasa Lion] Brownish Violet and Gray (First Print, Facit #83a). Used Fine (for this issue) with neat 13 July 1918 SORTVALA / SORDVALA "LOST TERRITORIES" (now in Russia) postmark. This postmark is from the second usage period (25 June - 7 November 1918) during which the Vasa stamps could only be used on domestic mail (by anybody), but they were not sold across the counter to the public; the post office clerks were to use them up by applying them directly to mail. Lost Territory usages are quite scarce. 2008 Facit value (for either printing) is SEK 800 = US\$135 (7/08) for normal quality and typical postmark in a more common usage period. This example is much, much more unusual.	---	---	---	125.00
232020	118 [1918 5 mark Vasa Lion] Brownish Violet and Gray (First Print, Facit #83a). Used F-VF 4-BLOCK with Superb 25 July 1918 VAASA / WASA postmark. This postmark is from the second usage period (25 June - 7 November 1918) during which the Vasa stamps could only be used on domestic mail (by anybody), but they were not sold across the counter to the public; the post office clerks were to use them up by applying them directly to mail. Single stamp 2008 Facit value (for either printing) is SEK 800 = US\$135 (7/08) for normal quality and typical postmark in a more common usage period. Used blocks are very unusual and this is an extremely nice example!	---	---	---	490.00
232036	126a [1921 1-1/5 mk Surcharge on 50p M-17 Saarinen Lion] "THIN 2" variety. Used Superb with neat postmark. Nice examples can be hard to find.	---	---	---	12.00
237520	152 [1921 25 mark M-17 Saarinen Lion, Watermark Posthorn] Used VF with cancellation of the proper type and appearance, but not showing the year date, thus cannot be proven to be timely use. Tip: The watermark on used examples of this stamp is always hard to see (I can see it, but some people might not), however, both watermarked stamps are Perf 14.25 x 14.75 (which this example	---	---	---	---

232060	197 [1931 2 mark President Svinhufvud] Used F-VF with Superb HYVINKAA 16 (? day after issue) December 1931 postmark. This issue is quite scarce with nice postmarks.	---	---	---	25.00
237357	221-2 [1940 1:75 and 2:75 mk surcharges on 1.25 and 2 mark M-30 Lion issues] NH Superb set of 4-blocks. This set is hard to find NH with nice centering, especially in blocks.	---	---	---	62.00
238684	B1a [1922 Red Cross semi-postal, 1941 Printing with Perforation 13 x 13.5] Though not the highest catalog value semi-postal stamp/variety, this seems to be the most difficult to find. Greatly undervalued in the catalogs in my opinion -- it has been more than ten years since I was last able to offer an example! NH with VF+ centering, but with the minor typical gum bends often seen on both perforations of this stamp. Otherwise as fresh as the day it was printed.	---	---	---	28.00

221930	M8, Facit #F8 [1963 Military] NH Superb. Soldiers were allocated only 5 stamps each for use during the training maneuvers for which these stamps were issued; the stamps were apparently supplied to the soldiers in advance and then could be used by family members, etc., to send letters to the soldiers. While this stamp is usually found with VF centering, perfectly centered examples such as this are quite scarce.	---	---	---	185.00

Bargain Stamps

These bargain-priced stamps are attractive, but many have described hidden flaws. You can save a tremendous amount of money when you add such stamps to your collection. Each stamp is one of a kind, so please let me know if I may substitute a different example (that looks as good or better, for the same cost) if the stamp you order has sold. If you have any doubts, all are available for approval viewing. If you are seeking stamps of this quality and price level from any of the Scandinavian countries, just send along your want list -- I will be happy to send bargains on approval. Scott numbers have been used unless otherwise stated.

Item #	Description	Mint	Used
236169	7b [1866 8 penni Roulette II] Used F-VF centering with usual tooth problems. An attractive and lightly canceled example of the scarce Roulette II.	---	95.00
236701	8a [1866 10 penni Roulette II, ordinary paper] Used Fine appearance and teeth; with the usual tooth problems. Light cancellation.	---	60.00
236702	9a [1866 20 penni Roulette II, ordinary paper] Used Fine appearance and teeth; with the usual tooth problems. Light, blue cancellation.	---	25.00
236706	12b [1866 5 penni Roulette I, laid paper] Used Fine appearance and teeth; with the usual tooth problems. Light, blue cancellation.	---	40.00
236707	12b [1866 5 penni Roulette I, laid paper] Used Fine appearance and teeth; with the usual tooth problems. Dark color.	---	40.00
238557	18 [1875 5 penni 4-Numerals, Perf 11] Mint VF+ centered, but no gum and with small thin spot. Very attractive with brilliant color.	---	36.00
238718	19a Bright Yellow Green [1875 8 penni 4-Numerals, Perf 11] Mint with Superb centering and huge margins, but no gum. A beautiful example of a color that is very scarce with nice centering and large margins. Very scarce color with gum, but would fetch \$450 with this centering.	---	180.00
238719	19a Dark Yellow Green "Moss Green" [1875 8 penni 4-Numerals, Perf 11] Mint with VF centering, but with couple tiny, expertly repaired perf flaws (requires at least a 10x glass to see) over which gum has been applied. The gum is otherwise at least disturbed, or possibly regummed. A wonderful looking example. Facit 2016 value SEK 3000 for the "Moss Green" color. Missing from most collections even in Used condition and certainly in Mint condition.	---	69.00
238558	20 [1881 10 penni 4-Numerals, Perf 11] Used VF centered, but some blunted perfs and minor toning on a couple perfs. Very attractive with very light cancel.	---	21.50
238720	21 Brilliant Ultramarine [1875 20 penni 4-Numerals, Perf 11] Mint with VF centering; with gum, but gum is at least disturbed and possibly regummed. Most printings of this stamp are quite scarce with gum. Facit 2016 value for least costly color is SEK 1250. Very pretty.	---	65.00
237508	22 [1879 25 penni Carmine 4-Numerals, Perf 11] Mint VF, but without gum. Otherwise would be \$325. Very attractive.	---	160.00
238721	22 Carmine [1879 25 penni 4-Numerals, Perf 11] Used F-VF with either faded or partially removed very small, light "X" cancel in lower right corner. It looks so close to mint that somebody regummed it! Light bend that would soak out (resulting in simply a Used F-VF stamp).	---	5.00
238562	23 Deep Red [1875 32 penni 4-Numerals, Perf 11] Used Superb centered, but with mucilage mark on reverse from mounting in an ancient album (does not affect appearance on the front).	---	---

	Nicely struck, complete single-ring KOTKA "arc" style 7 August 1878 cancellation. Very attractive with rich color.	---	37.00
238563	23 Dark Carmine [1875 32 penni 4-Numerals, Perf 11] Used Superb centered WITH JUMBO MARGINS, but with unobtrusive margin thin. 1876 railway cancellation. Very attractive with brilliant color.	---	22.00
238564	23 Light Carmine [1875 32 penni 4-Numerals, Perf 11] Used Superb centered WITH JUMBO MARGINS, but with thin. 1877 cancellation. Very attractive.	---	18.00
238565	23a, Facit #18Sax, Dull Light Rose on Very Thin Paper [1875 32 penni 4-Numerals, Perf 11] Used with VF centering, but with thin. Neatly struck, complete 30 August 1876 WIBORG "arc" style cancellation (Lost Territory). Very attractive.	---	37.00
238566	24 (Bluish) Lilac [1877 1 mark 4-Numerals, Perf 11] Used with VF+ centering, but with very small thin spot. Small manuscript "x" cancel and unusual boxed "(WAR)DE" cancellation used only on insured mail. Attractive!	---	37.00
238722	27 [1882 10 penni 4-Numerals, Perf 12.5] Mint with VF centering and original gum, but very small thin spot. This stamp normally comes in Gray Brown or Yellow Brown; while this example falls into the Yellow Brown family, it is a much richer, deeper color than usually seen. Outstanding appearance.	39.00	---
238723	29 Aniline Rose-Red with thin/broken frame lines of the early 1882 printings. [1882 25 penni 4-Numerals, Perf 12.5] Mint with F-VF+ centering, but with minor, natural bend that is probably the result of the very thick gum that was used in this printing. The gum appears to be original, but is of quite unusual. It is thick, yellowish, and fairly well "dried out". The Handbook states of the early printings of this stamp: "Little is known about the gum. It is mainly colorless or slightly Yellowish. In 1882 thick Brownish gum was used, or it may be that it possibly turned Brownish with time." This stamp definitely has thick dark yellowish gum, but it is not, or has not turned, brownish. A very interesting and attractive example!	145.00	---
238561	29f, Facit 17SeeC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Superb centering, but minor mucilage mark on reverse from mounting in an ancient album (does not affect the appearance from the front). Neat 2-ring BJORNEBO (RG) 18 July 1882 cancellation. An beautiful example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	125.00
238567	33 Dark Orange [1885 20 penni 4-Numerals, Perf 12.5] Mint with Superb centering, but no gum and with thin spot. Very attractive and, if undamaged with gum, would otherwise be about \$50 with this centering!	14.00	---
238569	34 Ultramarine [1885 25 penni 4-Numerals, Perf 12.5] Mint with Superb centering, but with thin at upper left corner. Very attractive and, if undamaged, would otherwise be about \$100 with this centering!	22.00	---
238570	34 Ultramarine [1885 25 penni 4-Numerals, Perf 12.5] Mint with VF++ centering, but without gum and with thin and mucilage mark from an ancient album. Very attractive and, if undamaged with gum, would otherwise be about \$90 with this centering!	18.50	---
238574	45 [1890 10 mark 3-Numerals, Perf 12.5] Mint with VF centering, but no gum and with small thin spot. Very attractive.	9.50	---
238724	(65) Emergency Printing, Facit #48 [1901 5 penni Letterpress / Typography Emergency Issue] Mint F-VF+ centered example, but without gum and with tiny internal, natural crease (very common on this scarce printing). Though not listed by the Scott Catalogue, this stamp is listed as a "ma-

A very pretty example that would otherwise easily fetch \$115.	36.00	---
235866	152 [1921 25 mark M-17 Saarinen Lion, Watermark Posthorn] Used VF example with neat postmark but which does not show a date. This stamp sells for \$225 with a dated postmark!	---	40.00

Various and Unsorted Covers

Many of the covers in this "Various and Unsorted" section have minimal descriptions. However, that does not mean that they are unworthy. There are many very interesting and scarce items here. Furthermore, **the website shows pictures of all items and has many, many more covers listed** that cannot be listed here because the written descriptions are inadequate -- but they are still very interesting covers. **Please see the expanded website listings.** Go to www.JaySmith.com -- Scandinavian Price Lists - Finland -- Covers.

225618	Official postal (internal post office mail) stampless 29 October 1919 Adresskort parcel card for a single domestic 2.36 kg parcel sent within SÄNIO utilizing the Swedish language side of the card. Marked "Rek" (registered) and with "Fripaket" written where the postage would otherwise be placed. Superb violet postal handstamp. Such items are seldom offered.	24.00
225634	Stampless 26 September 1929 Postförskott-sanvisning / Postiennakko-osoitus (cash on delivery proof of payment card) used within JOENSUU for 281.70 mk; left-side coupon has been clipped as usual with cards. Blue boxed postal handstamps: "RETOUR" (return to sender), "TAKAISIN" (refund), and on the reverse "EI LUNASTETTU" (not redeemed). This is NOT the usual type of COD parcel card; this card is the evidence that a payment was made. However, the recipient of the payment did not accept / redeem the payment; the card was returned; the payer was refunded. This type of card is extremely scarce; probably because they bore no stamps (the card was the second part of the original request for payment; the stamps were on the first part) and/or because they were usually retained by the post office or discarded. I cannot recall having another example of such a refunded COD payment card in 34 years! Very scarce and interesting postal history item.	24.00

237652	(Swedish) WESTERVIK straight-line cancel, used 1819-1830, (F-VF) on very interesting 4 November 1822 private folded letter, WITH CONTENTS: a complete letter from U.H. Nordenskjöld to military officer O.H. Nordenskjöld at a military post in BORGA, FINLAND (even though Finland was ceded to Russia in 1809). The Nordenskjöld family has been very important in Swedish history. With manuscript "Lösen 66 kop" Finnish postage due marking (Postage Due 66 kopek).	75.00
236639	1822 complete folded letter, with contents, from "WYBORG" with wonderful strike of "Wiborg" black straight-line (German spelling) handstamp on reverse, to Bordeaux, France. Bears at least NINE other postmarks and/or rate markings on front and back. Intact red wax seal. Nice "MEL/28 OCT." transit handstamp; this route was normally used only until 1833. 1856-1859 Ovals

Item #	Description	Price
231422	2 [1856 10 kop Oval] (square cut, three huge margins) on 1858 complete folded cover, with contents, from ÅBO to JACKOBSTAD. The stamp is pen canceled as usual, with the Åbo high-box dated postmark to the side. The stamp is not tied to the cover, but Åbo pen cancels were typically "pre-cancels" to help speed the postal clerks work. This is a typical Åbo cover for the period; years ago it was examined by expert Rolf Gummesson who stated that it was genuine and belonged on the cover. The stamp design just touches at right and at that point shows an interesting printing variety in

	which there is a break in the frame line (this is NOT a defect in the stamp). The cover spent many years in a stamp mount that shrank causing some wrinkling; this could certainly be flattened out with care. The contents are interesting and were obviously printed in England (in English) by a ship and shipping management company and sent in bulk to Finland where they were mailed by the local agent of the company. Facit 2007 value SEK 8000 = \$1200 for pen canceled stamp on cover; even off-cover the most common color of the stamp is listed at SEK 3500 = \$525! Very attractive item at a very reasonable price.	690.00

1860-1875 Serpentine Rouletted

Item #	Description	Price
231423	4 [1860 5 kop Serpentine, Roulette I] VF+ with FULL TEETH on very large piece of cover front, with light ANK cancel, from HELSINGFORS to JACOBSTAD. The strong blue color suggests that it is Facit #3C1Ka, the first printing. However, because the top shows more than 1.6 mm between stamps, it is either from the top row in the sheet or it is from a later printing. If it is the first printing, the 2007 Facit value for a single stamp is SEK 7000 = \$1050 (full teeth) and on full cover SEK 35,000 = \$5250. However, even the most common printing on full cover is SEK 10,000 = \$1500!!! This very fresh and attractive piece almost looks like a full cover, but is priced much, much lower, of course. A scarce item from this early era. Even the most common single stamp with FULL TEETH sells for \$225!	350.00
218461	4a, Facit 3C2 [5 kop Roulette II] Wonderful example with FULL TEETH on beautiful New Years Day 1 January 1866 cover (envelope!) from KARIS to Helsingfors, with VF "low box" KARIS cancellation. As nice an example as one could hope for. Accompanied by Mikko Ossa photo certificate stating that it is genuine and unprepared. [Facit 2006 value for more typical quality is SKE 14,000 = \$1950.	1450.00
236642	4a [1860 5 kop Serpentine, Roulette II] VF appearance with one tooth shorter, on very large piece of cover front, with neat ÅBO 21 November 1866 arc-style cancellation. Note the extraneous "D" in the date -- I have never seen this type of error before. The normal cancel has an "R3" rarity. The 2012 Facit value for a full cover is SEK 2200 = \$330, while a full-teeth single stamp easily sells for \$80-100. 215250 6b [1866 5 Pen, Roulette III, Reddish Brown] Very attractive stamp on 29 August 1874 printed matter post card, from KUIPIO with "arc" style cancellation, to Jakobstad with ANK receiver. The teeth at top are short due to being placed at the top of the card, but otherwise the stamp is in wonderful quality. The printed card advertises the business of sales representative; the backside is blank. The card is exceptional in that everything is on one side (instead of the message being on the reverse). This type of card is fairly common from countries such as Switzerland, but this is the first Finnish example I have had. The 5 Pen denomination was primarily issued for this printed matter rate, however due to the nature of printed matter, relatively few examples have survived. Facit 2005 lists such a usage at SEK 8000 = \$1125, however this remarkable example is unusually attractive. 925.00

The cancel date confirms this as Facit #18Sa, a scarce stamp on cover; 2006 Facit value SEK 2500 = \$340, for ordinary quality. This example is in beautiful quality; probably the freshest cover with the 5 penni stamp that I have had in 33 years! 350.00

214931	Finland #262 with TJUDÖ (Åland) bridge-style cancellation on neat cover to Stockholm. Though the year date is not clear, the 12m rate to Sweden as double rate ran only 16 January 1946 through 31 December 1946 and as single rate only 1 January 1948 through 30 November 1948. This device was the first postmark at Tjudö and it is interesting to note that Mattsen only recorded it used in 1950. If the franking is to be relied upon, then this usage moves the cancel usage range back at least a couple years. Regardless, I believe that this is the ONLY pre-1970s TJUDÖ cover I have ever had (in 32 years)! Quite scarce.	80.00

229810	305 x3, 302 [40m Woodchopper; 10m Green M-30] on 1954 air cover to the U.S. This is a very high postage rate (130 marks) for a cover to the U.S. The published postage rate charts for this period are confusing and appear to have some errors. At 50 grams, the rate would likely have been 120 marks; 55 grams at 132 marks. However, I am not satisfied with this calculation and cannot say whether this cover is correctly paid or not - my experience suggests that it IS correctly paid, but I cannot quote the rate at the moment. Still, an unusual franking. Note that most uses with multiple examples of the 40m Woodchopper stamp are parcel cards, not envelopes.	30.00

WWII-Era Foreign Volunteers

In the WWII era, during the "Winter War" and the "Continuation War", many foreign volunteers joined the Finnish fight against Russia. The bulk of foreign volunteers fighting in Finland were Swedish. At times, German Nazi forces were also fighting alongside Finnish and volunteer forces, against Russians, resulting in the odd possibility that Jewish Finnish or volunteer officers could be commanding German Nazi soldiers.

Mail from Swedish volunteers can often be identified by postmarks and handstamps that include "F" and/or return addresses of "Haparanda F" and/or "S.F.K." postmarks. Markings using the Swedish-language term "fältpost" indicate Swedish-language units, senders, etc., however they do not guarantee that the item is volunteer mail. The Finnish-language term "kenttäpostia" is also (less often) seen on volunteer mail.

Correctly franked 100 mk: 40 mk foreign surface letter rate; 20 mk per 5 grams airmail surcharge; both 1 Apr 1959 - 31 Dec 1962. The 1 and 4 mk stamps are scarcer on cover.	18.00

While there was technically still a domestic airmail letter surcharge, it was nominal (0.02 mk) and seems to usually have been ignored; I suspect that when airmail service was available and appropriate, letters were carried without additional charge.	10.00

These covers represent airmail rates not paid with airmail stamps. Collecting airmail rate covers including their markings and destinations can be very interesting.

229810	305 x3, 302 [40m Woodchopper; 10m Green M-30] on 1954 air cover to the U.S. This is a very high postage rate (130 marks) for a cover to the U.S. The published postage rate charts for this period are confusing and appear to have some errors. At 50 grams, the rate would likely have been 120 marks; 55 grams at 132 marks. However, I am not satisfied with this calculation and cannot say whether this cover is correctly paid or not - my ex-

229754	280 pair [1949 35mk Olavinlinna Castle] with pair of two designs of 1954 Art labels, tied on 1955 airmail cover TO MONROVIA, LIBERIA with receiver. These labels exist in several designs and colors -- I do not know much about them, however, they are very seldom seen on cover! Any usage to Liberia is RARE; it is a genuine postal usage; I purchased the familys archive of mail (the father of the addressee apparently ran the College of West Africa at the time). Extremely scarce item.	75.00

236663	350 [1955-57 100 mk Helsinki South Harbor, Light Greenish Blue] (VF) solo use on 30 October 1957 KODAK advertising airmail cover to the U.S. Though Scott gives this color an issue date of 1957, there were five plates and thus five color shades printed from 1955-1957 (though it is unclear when the different printings actually went on sale). In any case, this stamp was replaced with a new 100 mk issue on 2 June 1958 and thus solo uses on cover are seldom seen. Colorful advertising cover.	14.00

237291	Group of 21 all-different Finnish railway cancellations on domestically used Finnish postal cards (Russian 1911 design, used 1911-1917), representing at least five major postmark types. Quality of the postmarks and the cards is at least mostly VF, with a couple of F-VF, but several Superb! Railway cancellations on this card design type (1911) are much less often seen than on earlier card types -- this large an all-different group is unusual. The group includes a few sub-types: different types of ornaments on either side of the date, size or appearance of text, etc. One 1916 censored card is included. Many of the cards also bear postmarks of a sending or receiving town; a few of those postmarks are scarce. The cards themselves include a variety of type, color shade, and paper texture differences. These have only been checked to be all-different, but to my knowledge they have NOT been checked against any catalogs for rarity or short period of use. There could be some scarce items in this lot! Basic railway-postmarked cards in typical quality fetch \$7-10 each (much higher when sold by some cover dealers at shows), however, with this amount of variety comes increased value. Also, there are some very pretty cards in this lot that I would ask as much as \$15-18 each for. I estimate the total of individual prices to be about \$250. Offered only as a lot. A great way to start a collection.	175.00

Ship Covers

Item #	Description	Price
229730	1951 collection of 14 Finnish NAVAL SHIP covers to the U.S. Such ships (mostly small) seem to rarely have had postal facilities, thus they are usually canceled (or sometimes not at all) at the next port of call. All with ornate cachets stating the ship name. Upon arrival in the U.S., these were forwarded which makes them look a bit messy, but as a result, most received a U.S. transit postmark on the reverse, proving that they did go through the mail -- such covers are rarely seen with arrival/transit postmarks. Individually these would sell for \$10-15 each.	120.00
229728	333 [1955 15m Telegraph] (VF) solo use on 1956 philatelic SHIP COVER with Finnish postage, sent to Sweden, presumably posted on board a ship. Upon receipt in Sweden marked with black straight-line postmark "Med båt från Finland" [by boat from Finland]. Addressed to Poste Restante [general delivery] in HÄRNOSAND, SWEDEN, and canceled there, and giving the name of a ship, the "s/s Korsholm II". Delivery not possible and could not be forwarded (marking on reverse) and returned to sender (marking on front). With Finnish receiver for the return. Though a philatelic creation, quite interesting postal documentation.	16.00
229729	473 [1968 40p Soldier; National Defense] (VF) solo use on 1969 philatelic cover from Finland to the U.S., posted on board the "s/s AAL-LOIAR" (Finnish passenger ferry) and with ship handstamp, put ashore at HELSINKI where it received a Helsinki pictorial ship NAIVRE (i.e. PAQUEBOT) cancellation. This naive / paquebot cancel is seldom seen so clearly struck.	12.00

1860-1875 "Serpentines"

Item #	Description	Used
237351	5 [1860 10 kopek Roulette I] Used VF with ample margins. This example has Facit "LK" spacing (1.6 mm horizontally and 2.3 mm vertically), the scarcest type on the Roulette I stamps (Facit 2013 value SEK 600 = US\$96). Attractive centering, neat HELSINGFORS and pen-cross cancellations, and only two teeth partially missing. Unusually attractive.	69.00
236692	8a [1866 10 penni Roulette II, ordinary paper] Used F-VF+ with just a couple of the usual tooth problems. Wonderful, sharp and well-centered, JAKOBSTAD "arc" style 14 July 1875 cancellation. Scarce so attractive!	155.00
237355	9 [1866 20 penni Roulette III] Used F-VF+, attractive centering. The Grayish Blue Thin Paper (Facit #8v2C3a) with Strong Blue ink shade (greenish, but not the Greenish Blue). Only looks like one tooth missing, but there are a couple other tooth problems under magnification. Very light cancellation. Attractive.	26.00
236696	10b [1866 40 penni Roulette II, ordinary paper] Used F-VF with a couple of the usual tooth problems. Unusually light red color. Attractive.	35.00
236698	10c [1866 40 penni Roulette II, ribbed paper] Used Fine with the usual tooth problems. Neat, light, blue cancellation. Nice color. Looks nice. Always a very sought after stamp. [Note: Ribbed paper is always hard to see. For best results.... Use a 10x magnifying glass and look AT the paper, not through it. Use oblique (low-angle) lighting and look across the stamp surface, from side to side.] This example has clear ribbing.	70.00
218460	Scott #10f variety, Facit 9IIv1C4a Carmine [40 pen ROULETTE IV, STAMP TYPE II] Used with VF+ appearance and nearly FULL TEETH; only a couple of tooth tips missing. Examples of Roulette IV are rare; examples with completely perfect teeth may not be known (Finnish expert Kaj Hellman once commented that this example may be the nicest in existence): Facit prices full teeth, but Norma does not. However, this example is STAMP TYPE II (cut in right side of bottom of crown; see Facit) which makes it a major rarity; both Facit and Norma indicate that the price of a Stamp Type II example (of even the most common roulette) should be tripled! In addition to the

	overall excellent quality, it has a full NYSLOTT June 1867 cancellation. Accompanied by a 1991 Mikko Ossa certificate stating, in his typical extremely strict and blunt fashion, that "The stamp has short teeth and some teeth have breaks [i.e. creases on teeth]. The stamp is not repaired." However, it is obvious from the appearance of the stamp that the quality is much nicer than that description suggests. The stamp was in the "Michigan" collection built by an American who lived in Finland in the 1950s-60s; he obtained many of his stamps from such eminent Finnish philatelists as E.A. Hellman. I acquired the stamp in 1991 and have since sold it twice and then repurchased the entire collections of the clients to whom I sold it. Also accompanied by a 2006 Jay Smith photo certificate with lifetime guarantee.	5000.00

231371	18, Facit #13Sf [1875 5 penni perf 11] Brilliant Brownish Orange 4-block with 14 April 1880 Helsingfors cancels. Centering within the block ranges from F-VF to Superb. This printing is one of the scarcer colors (Facit SEK 350 = \$55 per stamp). Used blocks are very scarce; Facit indicates values from SEK 3000 = \$450 for the most common colors, while Norma indicates a multiplier of 20x the singles price which is approximately 700 Euro = \$980! A handsome and scarce block!	675.00	---	---

238718	19a Bright Yellow Green [1875 8 penni 4-Numeral, Perf 11] Mint with Superb centering and huge margins, but no gum. A beautiful example of a color that is very scarce with nice centering and large margins. Very scarce color with gum, but would fetch \$450 with this centering.	180.00	---	---
238719	19a Dark Yellow Green "Moss Green" [1875 8 penni 4-Numeral, Perf 11] Mint with VF centering, but with couple tiny, expertly repaired perf flaws (requires at least a 10x glass to see) over which gum has been applied. The gum is otherwise at least disturbed, or possibly regummed. A wonderful looking example. Facit 2016 value SEK 3000 for the "Moss Green" color. Missing from most collections even in Used condition and certainly in Mint condition.	---	69.00	---
238720	21 Brilliant Ultramarine [1875 20 penni 4-Numeral, Perf 11] Mint with VF centering; with gum, but gum is at least disturbed and possibly regummed. Most printings of this stamp are quite scarce with gum. Facit 2016 value for least costly color is SEK 1250. Very pretty.	---	65.00	---

1882-1884 "Four Numerals" Perforation 12.5

Item #	Description	NH	Mint	Used
238324	27 [1882 10 penni brown 4-Numerals, Perf 12.5] NEVER HINGED 4-BLOCK with perfect original gum. Single stamps of this quality are quite scarce; the surviving blocks are extremely scarce as they are too often broken up for the singles. The single stamps would each fetch \$225. Facit 2015 value for a NH block with normal centering is \$1050. Outstanding example!	---	---	925.00
238722	27 [1882 10 penni 4-Numerals, Perf 12.5] Mint with VF centering and original gum, but very small thin spot. This stamp normally comes in Gray Brown or Yellow Brown; while this example falls into the Yellow Brown family, it is a much richer, deeper color than usually seen. Outstanding appearance.	---	---	39.00
238315	27 [1882 10 penni brown 4-Numerals, perf 12.5] Used Superb with large top and bottom margins and jumbo side margins. Unusually light and neat corner cancellation. The lower right perf tip is just lightly thinned, but mentioned only for absolute accuracy. Interesting plate variety listed in Facit 1974-75 (a large Facit edition that included such varieties) as variety Kv4 (with 50% value premium): "Lower left value circle has a large break in the top" and also with "Both upper value circles have thickening at bottom right" which is not mentioned in the catalog. Even without the varieties, a beautiful stamp in the 99.5th percentile of quality for this stamp -- rare so nice!	---	---	50.00
237533	28 Light Ultramarine [1882 20 penni 4-Numerals, Perf 12.5] Used Superb with VF centered arc-style LOUVISA 23 July 1883 cancellation. Very attractive.	---	---	8.00
238723	29 Aniline Rose-Red with thin/broken frame lines of the early 1882 printings. [1882 25 penni 4-Numerals, Perf 12.5] Mint with F-VF+ centering, but with minor, natural bend that is probably the result of the very thick gum that was used in this printing. The gum appears to be original, but is of quite unusual. It is thick, yellowish, and fairly well "dried out". The Handbook states of the early printings of this stamp: "Little is known about the gum. It is mainly colorless or slightly Yellowish. In 1882 thick Brownish gum was used, or it may be

	that it possibly turned Brownish with time." This stamp definitely has thick dark yellowish gum, but it is not, or has not turned, brownish. A very interesting and attractive example!	---	---	145.00
236625	29, Facit #17LaaC2 [1882 25 penni ANILINE RED 4-Numerals, perf 12.5] Used VF+ with faint, but clearly readable HELSINGFORS 24 February 1882 arc-style cancellation. The dating is significant because it positively confirms the identification as the first printing from the Charta Stamp Office. Even more exceptional, the STAMP HAS NOT BEEN SOAKED and has some envelope remains on the reverse, thus the aniline (water soluble!) color appears exactly as it was originally printed. It is rare to find used examples of the aniline colors that have never been changed by soaking. A wonderful example that is much more significant than it first appears.	---	---	50.00
237539	29 Aniline Red [1882 25 Red penni 4-Numerals, Perf 12.5] Used F-VF with VF centered BLUE 2-ring LEMPO(IS) [day/month not present in device] 1884 cancellation, with tiny part of second strike. Very attractive with nice contrasting colors.	---	---	14.00
238561	29f, Facit 17SeeC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Superb centering, but minor mucilage mark on reverse from mounting in an ancient album (does not affect the appearance from the front). Neat 2-ring BJORNEBO(RG) 18 July 1882 cancellation. An beautiful example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	---	125.00
238560	29f, Facit 17SeeC4 [1881 25 penni Dull Carmine 4-Numerals, COMPOUND PERF 12.5 x 11] Used with Fine centering. Neat 2-ring (B)JORNE(BORG) 26 July (most certainly 1882; cannot be earlier) cancellation. An excellent example of a very seldom-offered stamp that is missing from the vast majority of collections.	---	---	145.00

236626	32a Rose, Facit #21v9 [1885 10 penni Rose 4-Numerals] Mint, very lightly hinged, Superb/VF centered, 4-block. Major plate variety: "white line through PENNI" on lower left stamp. Facit 2012 value for the least costly printing in usual quality (which is not this nice!) is SEK 225 = US\$34 for singles and SEK 1000 = US\$150 for 4-block, not counting the value of the major variety. Wonderfully fresh with bright color! Existing blocks of this issue are quickly being broken up and are much harder to find now than just a few years ago. 238318	62 Orange "DIAMOND" (DOUBLE) PERFORATION [1895 20 penni orange 3-Numerals, Perf 14 x 13] Used Fine with September 1900 cancellation. The top perforation row was double-perforated in such a way that the perforation teeth are almost all gone. This issue was perforated with a comb device that was repeatedly struck on the sheet, a row at a time. The row of stamps above this one would have been similarly doubly perforated at the sides. Though one must be cautious about high prices sometimes asked for these types of varieties, this one has every indication of being completely genuine. I guarantee this item to be genuine.	---	40.00

238704	712a, Facit #Ha18 [1987 "Finlandia 88" Lions Definitive Booklet] Collection of 12 Booklet Varieties Each of the 12 booklets with varying plate varieties on the stamps and/or labels and or with different marginal markings. Though modern, this issue had some interesting plate varieties as well as printing/coloring variations resulting from the position on the printing cylinder, plus a variety of potential marginal markings. The stamps from this booklet issue are only found from the booklet -- there are no equivalent sheet-format stamps. Individual booklets/panes sell for at least \$11, more with certain varieties or markings. A very unusual selection, offered at only the price of 12 basic booklets.	130.00

Personalized Stamps - Private Designs

These particular personalized stamps are the private designs which could be ordered through the post office website. While the post office had an official central design for each type of frame, the primary intent was that individuals and organizations would design their own centers. While any particular private design is probably scarce or rare, their variation is limitless and thus they cannot be valued in the way that scarce officially issued stamps would be valued. The value may often depend upon the topicality of the design and the age of the issue (i.e. that the frames are no longer available). I encourage collectors to collect examples that interest them, but to avoid paying very high prices. In time, examples genuinely used on cover will likely be particularly sought after.

238684	B1a [1922 Red Cross semi-postal, 1941 Printing with Perforation 13 x 13.5] Though not the highest catalog value semi-postal stamp/variety, this seems to be the most difficult to find. Greatly undervalued in the catalogs in my opinion -- it has been more than ten years since I was last able to offer an example! NH with VF+ centering, but with the minor typical gum bends often seen on both perforations of this stamp. Otherwise as fresh as the day it was printed.	28.00	---	---

From 1941-43 14 different printing plates (and some different sheet sizes) were used and many different kinds of paper (which of course varied a lot during wartime) from translucent to solid, from pink to brownish red to deep red. Plate, cliché, printing, and paper varieties abound in this issue. Great for studying varieties, etc.	---	---	40.00
237843	M6-7 [1944 Small Format Military Stamps] NH Superb set of two sheets, both with remarkably good centering (quite unusual). Each sheet has been vertically folded once in the center, but otherwise is as issued (unfolded sheets are very scarce). The red-violet sheet is on whiter paper and has lines of roulette cuts in the top and bottom margin (I have never seen an explanation for this). The green sheet is on yellowish/grayish-white paper that is more translucent without any roulette cuts in the margins. These are extremely common stamps as singles and small blocks, but sheets are unusual, especially with such nice centering! There are plate varieties on these issues -- happy hunting! 2014 Facit value as singles is SEK 900 = \$140, but these are scarcer than that!	---	95.00	---
237844	M6-7 [1944 Small Format Military Stamps] NH VF/Superb set of two left-margin 10-blocks, both with remarkably good centering (quite unusual). Both are on yellowish/grayish-white paper. 221930	M8, Facit #F8 [1963 Military] NH Superb. Soldiers were allocated only 5 stamps each for use during the training maneuvers for which these stamps were issued; the stamps were apparently supplied to the soldiers in advance and then could be used by family members, etc., to send letters to the soldiers. While this stamp is usually found with VF centering, perfectly centered examples such as this are quite scarce.	185.00	---	---

Scott #	Description	NH	Mint	Used
---------	-------------	----	------	------

The stamps of Scott #4-13 have exceptional quality criteria and descriptions because the serpentine rouletting was done by hand and resulted in stamps of varying size and wildly varying centering. It is completely normal and acceptable for the roulette teeth to cut the design. In practical and realistic terms, the quality (VF, F-VF, etc.) is defined as a combination of overall appearance and the number of teeth missing. A repaired tooth is counted as a missing tooth since the repaired tooth can simply be removed. Other defects (than missing teeth) to the stamp must be described.

Full Teeth: Complete teeth without any short, clipped, missing, or repaired teeth. Such stamps are very scarce to rare. Most of the stamps offered in the general market as having "full teeth" do not in fact really have full teeth.

VF: One or two teeth missing, short, or repaired. Attractive appearance. Such quality is scarce.

F-VF: Three to five teeth missing, short, or repaired.

Fine: Six to nine teeth missing, short, or repaired.

Average: Ten or more teeth missing, short, or repaired.

SD (slight defect, usually not obvious from the front) refers to defects other than missing teeth. An "SD" stamp might in fact be a very attractive example only a couple short teeth, but has a hidden defect such as a pinhole or crease.

237351	5 [1860 10 kopek Roulette I] Used VF with ample margins. This example has Facit "LK" spacing (1.6 mm horizontally and 2.3 mm vertically), the scarcest type on the Roulette I stamps (Facit 2013 value SEK 600 = US\$96). Attractive centering, neat HELSINGFORS and pen-cross cancellations, and only two teeth partially missing. Unusually attractive.	---	---	69.00

238723	29 Aniline Rose-Red with thin/broken frame lines of the early 1882 printings. [1882 25 penni 4-Numerals, Perf 12.5] Mint with F-VF+ centering, but with minor, natural bend that is probably the result of the very thick gum that was used in this printing. The gum appears to be original, but is of quite unusual. It is thick, yellowish, and fairly well "dried out". The Handbook states of the early printings of this stamp: "Little is known about the gum. It is mainly colorless or slightly Yellowish. In 1882 thick Brownish gum was used, or it may be that it possibly turned Brownish with time." This stamp definitely has thick dark yellowish gum, but it is not, or has not turned, brownish. A very interesting and attractive example!	---	---	145.00
236625	29, Facit #17LaaC2 [1882 25 penni ANILINE RED 4-Numerals, perf 12.5] Used VF+ with faint, but clearly readable HELSINGFORS 24 February 1882 arc-style cancellation. The dating is significant because it positively confirms the identification as the first printing from the Charta Stamp Office. Even more exceptional, the STAMP HAS NOT BEEN SOAKED and has some envelope remains on the reverse, thus the aniline (water soluble!) color appears exactly as it was originally printed. It is rare to find used examples of the aniline colors that have never been changed by soaking. A wonderful example that is much more significant than it first appears.	---	---	50.00

The stamps of Scott #46-82 have exceptional quality criteria and descriptions due to their method of production. Many of these "Russian design" stamps were printed with extremely small margins, often with hardly enough space for the stamp design itself. The following information applies only to the small-margin issues (which are most of #46-82).				
VF: Well centered within whatever the size of the stamp paper. Either has margins all around or perforations just touching one side if otherwise the stamp is of superior appearance.				
F-VF: Fairly well centered, but off in one direction. Perforations may be just touching on two sides or cutting on one side if appearance is otherwise nice.				
Fine: Centering off in two directions. Perforations can touch or cut the design.				
Average: Perforations cut the design on two sides.

238318 62 Orange "DIAMOND" (DOUBLE) PERFORATION [1895 20 penni orange 3-Numerals, Perf 14 x 13] Used Fine with September 1900 cancellation. The top perforation row was double-perforated in such a way that the perforation teeth are almost all gone. This issue was perforated with a comb device that was repeatedly struck on the sheet, a row at a time. The row of stamps above this one would have been similarly doubly perforated at the sides. Though one must be cautious about high prices sometimes asked for these types of varieties, this one has every indication of being completely genuine. 135 (Perf 14.25 x 14.75) VF		---	6.25	.60	The stamps of the M-30 Lion Design (Scott #158-1761, 195-6, 212, 221-2, 243, 250, 257-62, 270-5, 291-6, 302-4, M2-3) have exceptional quality criteria and descriptions due to their method of production. Normally printed with very small margins; stamps with design clear of the margin on all sides are the exception for many numbers. Well centered stamps with large, even margins are usually very scarce. Average or Fine is the typical centering for most stamps in the M-30 design. Some denominations are usually more poorly centered than others; on those few issues that are usually more well centered, I tighten the quality standards to your benefit.					170 VF		---	---	.50

236230	1999 Finnish Roads officially issued combination postal cards / maximum cards set of four. Maximum card official #42-45. The maximum (picture) card side exists with either perforation 14 stamps or the very scarce perforation 12.75 stamps. The perforation 12.75 stamps were "accidentally" created by the stamp printer who was also the manufacturer of the first day covers, maximum cards, and other such philatelic products; they were not specified by the postal authorities -- the decision was made by the stamp printer. Because the vast majority of the perforation 12.75 stamps were used on canceled philatelic products, and were not generally sold in mint condition, they are very rare in mint. [The Scott catalog value for mint (or used) perforation 12.75 stamps is impossibly low; the 2012 Facit value is SEK 2400 (US\$340) for mint set or pane or for a canceled complete pane -- even so, they are "impossible" to obtain.] To the best of my knowledge, virtually all the canceled single perforation 12.75 stamps come from FDCs or maximum cards -- supplies of those are extremely limited. When the maximum card sets were made, the set components were handled randomly, with the result that most sets seem to contain a MIX of perf 14 and perf 12.75 stamps. This MINT POSTAL CARD SET bears the perforation 12.75 Scott #1104a-1170b COMPLETE SET of single canceled stamps on the maximum card side. Booklet Panes

Slot Machine

Slot machine booklets (and thus the panes) are the only sources for many catalog-listed stamps, including several major numbers. The booklets were often produced in lower quantities than even commemorative stamp issues; often the panes (and stamps from them) are much scarcer than other stamp issues of the time period. Unfortunately, the Scott Catalog has failed to reflect this reality.

If you are seeking complete booklets, generally speaking (but not always) the same prices will apply (for NH) for the least costly applicable HA number and/or the least costly type within the respective HA number. However, please be aware that some complete booklets contain TWO panes. In other cases (most notably Scott #462a) a pane can come from different booklets (Scott #462a comes from Facit #Ha6 OR Ha7 OR Ha8) of significantly different value. The pane price is related to the least costly booklet. If you are seeking complete booklets, please be sure to add a note specifying this.

1939 Lion Issue

The 1939 booklet (Facit #H2) containing five different panes of M-30 Lion stamps exists with five possible "edition numbers" handstamped in violet on the lower right corner of the back cover: 1, 3, 7, 10, 11 (and rarely without a number). According to the literature, the purpose of these numbers is no longer known. Each of the five panes independently exists either upright (R) or inverted (I); they also exist with a fully perforated binding margin (x) or with an imperforate

binding margin (y). Each pane will thus be identified as Rx, Ry, Ix, or Iy. With the cover edition numbers, these differences result a lot of theoretical combinations, however, it is probable that some of the combinations do not exist. There seems to be no information in the literature on relatively rarity of the numbers, positions, or perforations -- some are surely much scarcer or perhaps even rare. Of the edition numbers, 1 and 11 seem to be scarcer. R vs I panes seem to be roughly equal, however, perfed (x) margins seem to be a little more common than imperf (y) margins. There are many combinations that I have either never seen or have only seen one example.

All are NH, VF, complete and fresh. **If you are interested in building a specialized collection of the combinations, please let me know.**

This stamp is scarce on cover. Very attractive Russification era postal history.	110.00	---
237291	Group of 21 all-different Finnish railway cancellations on domestically used Finnish postal cards (Russian 1911 design, used 1911-1917), representing at least five major postmark types. Quality of the postmarks and the cards is at least mostly VF, with a couple of F-VF, but several Superb! Railway cancellations on this card design type (1911) are much less often seen than on earlier card types -- this large an all-different group is unusual. The group includes a few sub-types: different types of ornaments on either side of the date, size or appearance of text, etc. One 1916 censored card is included. Many of the cards also bear postmarks of a sending or receiving town; a few of those postmarks are scarce. The cards themselves include a variety of type, color shade, and paper texture differences. These have only been checked to be all-different, but to my knowledge they have NOT been checked against any catalogs for rarity or short period of use. There could be some scarce items in this lot! Basic railway-postmarked cards in typical quality fetch \$7-10 each (much higher when sold by some cover dealers at shows), however, with this amount of variety comes increased value. Also, there are some very pretty cards in this lot that I would ask as much as \$15-18 each for. I estimate the total of individual prices to be about \$250. Offered only as a lot. A great way to start a collection.	175.00	---

236230	1999 Finnish Roads officially issued combination postal cards / maximum cards set of four. Maximum card official #42-45. The maximum (picture) card side exists with either perforation 14 stamps or the very scarce perforation 12.75 stamps. The perforation 12.75 stamps were "accidentally" created by the stamp printer who was also the manufacturer of the first day covers, maximum cards, and other such philatelic products; they were not specified by the postal authorities -- the decision was made by the stamp printer. Because the vast majority of the perforation 12.75 stamps were used on canceled philatelic products, and were not generally sold in mint condition, they are very rare in mint. [The Scott catalog value for mint (or used) perforation 12.75 stamps is impossibly low; the 2012 Facit value is SEK 2400 (US\$340) for mint set or pane or for a canceled complete pane -- even so, they are "impossible" to obtain.] To the best of my knowledge, virtually all the canceled single perforation 12.75 stamps come from FDCs or maximum cards -- supplies of those are extremely limited. When the maximum card sets were made, the set components were handled randomly, with the result that most sets seem to contain a MIX of perf 14 and perf 12.75 stamps. This MINT POSTAL CARD SET bears the perforation 12.75 Scott #1104a-1170b COMPLETE SET of single canceled stamps on the maximum card side. This is "rare" as a complete set; the FDC postal card set is quite scarce regardless.	---	150.00

236231	1999 Finnish Roads officially issued combination postal cards / maximum cards set of four. Maximum card official #42-45. The maximum (picture) card side exists with either perforation 14 stamps or the very scarce perforation 12.75 stamps. The perforation 12.75 stamps were "accidentally" created by the stamp printer who was also the manufacturer of the first day covers, maximum cards, and other such philatelic products; they were not specified by the postal authorities -- the decision was made by the stamp printer. Because the vast majority of the perforation 12.75 stamps were used on canceled philatelic products, and were not generally sold in mint condition, they are very rare in mint. [The Scott catalog value for mint (or used) perforation 12.75 stamps is impossibly low; the 2012 Facit value is SEK 2400 (US\$340) for mint set or pane or for a canceled complete pane -- even so, they are "impossible" to obtain.] To the best of my knowledge, virtually all the canceled single perforation 12.75 stamps come from FDCs or maximum cards -- supplies of those are extremely limited. When the maximum card sets were made, the set components were handled randomly, with the result that most sets seem to contain a MIX of perf 14 and perf 12.75 stamps. Officially Printed Post Cards

This section has not been fully implemented. However, most officially printed stamp cards and many other types of officially printed post cards (i.e. the many types that do not actually picture stamps) are in stock. For the best service, please send your want list or describe your interests.

Stamp cards are picture post cards that picture stamps, usually officially printed; they often serve as a foundation for making maximum cards. Most are highly topical and sought after along with the stamp issues. There is also a broader category of officially printed picture/message post cards released by the post offices for several different purposes.

Mourning Stamps

The Finnish "Mourning Stamp" is actually a privately produced label without franking value. It had a purchase price of 1 penni, and "1 PENNI." is printed on the backside. It was designed by the famous Finnish artist Akseli Gallén (Gallen-Kallela) and used in protest of the Russification of Finnish stamp designs. Starting 14 August 1900, the previous Finnish stamp designs could no longer be used on mail sent abroad; instead Russian design stamps had to be used. (Previously on 1 January 1892 Finnish design stamps had been banned from mail addressed to Russia.) On 14 January 1901, Finnish design stamps were banned from domestic mail use, completing the

Russification of stamp designs.

Mourning Stamps were intended to be placed next to the postage stamp as a protest, but were quickly banned. Domestic mail bearing them is rare. However, in coastal areas, letters bearing Mourning Stamps were placed in the mail boxes of ships heading abroad; such covers were canceled upon arrival at the next (foreign) port of call, usually Stockholm, Sweden. Such covers are scarce. Used singles of Mourning stamps with readable town and date are very desirable, though it is usually very difficult to read the cancellation due to being black on black.

There were several printings of the Mourning Stamps resulting in visibly different types, though some printings are difficult to distinguish. I am not aware of any published detailed cataloging of the printings / types beyond what is listed in Facit (please let me know if you have further information). In some cases, the difference in printings can be seen in the size of the printed sheet or the appearance of sheet margin examples. Facit pictures two types which differ in the shade of the "1" on the backside. The Facit Type 1 has a long curved serif that becomes almost horizontal. The Facit Type 2 has a short, straighter serif that mostly points down. Most of the Type 1 stamps I have seen have shiny black ink. Most of the Type 2 stamps I have seen have very dull, sometimes grayish, black ink. In my experience, the Type 2 stamps are much scarcer. Large multiples are scarce as are singles or multiples with margin attached (which can help to separate printings).

236448	Mourning Stamp Facit Type I (long serif, shiny black). NH VF Sheet of 50. Though missing top margin, I have been told by somebody that should know that this is a full sheet. Narrow bottom margin unprinted. Narrow left margin printed only with red Swedish text (on stamp segment of margin missing). Narrow right margin partially printed black and partially printed with red Finnish text. Yellow gum; usually the gum on the Mourning Stamps is white; yellow is quite unusual. A couple insignificant perforation separations. A spectacular and rare sheet. To the best of my memory, this is the only such 50-sheet I have had in 38 years. Individual break up value as singles is \$600; this should be worth much more due to the marginal inscriptions and the rarity.	600.00	---

1922 Issue

Rough perforations are to be expected on the 1922 Karelia stamps and are not a defect. Only the first issue (1922) stamps are known to have been forged, however, **the vast majority of the 1922 stamps offered on the market are forged, even when offered by reputable, but non-specialist dealers.** The genuine stamps are usually easily identifiable with the right information. I only sell Karelia stamps and covers that have been properly examined. I do not consider it necessary that collectors incur the cost of certificates for these issues, if they are purchased from a knowledgeable specialist. However, if purchased from a non-specialist, they should at least be examined by a specialist. Caution is required. I am interested in buying all 1922 Karelia stamps.

For detailed information on how to identify the genuine and forged 1922 Karelian stamps, see the forgery article on the website.

East Karelia: Stamps: 1941 Issues

The small-size Lion-type stamps of the 1941 Issue exist with two types of overprints. The difference is that the middle "A" of Type I has a flat top while the Type II has a pointed top. Type I is the more common.

North Ingermanland Specialized Stamps

First Issue

Scott numbers have been used unless otherwise indicated. All items are available for viewing on approval. I am also interested in buying most North Ingermanland stamps.

Only the second North Ingermanland issue (pictorial designs) has been heavily forged. (Credible forgeries of the first issue have not been reported.) The genuine stamps are usually easily identifiable. I only sell North Ingermanland stamps and covers that have been properly examined. I do not consider it necessary that collectors incur the cost of certificates for these issues, if they are purchased from a knowledgeable specialist. However, in my experience, a large proportion of the 1922 Issue stamps offered by non-specialists or through general auctions and especially Internet auctions, are not genuine. Caution is advised.

Item #	Description	Price
235835	1a-7a Complete set of IMPERFORATE singles, Mint VF, with very ample margins. The 5 and 10 mark high values are NEVER HINGED, having been hinged on folded over selvaige (which could easily be removed if desired). Despite the Scott listing for pairs, these are usually collected as singles. These are much, much scarcer and more difficult to obtain than any of the catalogs suggest. These should be valued much higher than the normal stamps.	595.00
235844	1 Misperforated. NH upper left corner margin block of 36 (9 columns, 4 rows) fully perforated with correct horizontal perforations. The vertical perforations are shifted about 3 mm to the right (thus cutting through the left "5"). The stamps are the normal 20 mm width except the right-most two columns which are narrower. The block also shows a variety of plate flaws, for example "white spot on N" in all the stamps of column 4. Clean perforations. Slightly cracked yellow gum (not the smooth gum type). Regular NH stamps sell for around \$7/each (\$250 total).	190.00
235850	1 Misperforation: Vertical perforation shifted to the right through the left "5". Mint Attractive.	8.00
235851	1 Misperforation: Vertical perforation shifted to the right through the left "5". Mint Attractive.	8.00
235853	1 Light Yellow Green. Mint VF. The only example of this color that I have seen; could possibly be a changeling.	15.00
235848	1 "Diamond Perforation" DOUBLE PERFORATION on left side. Used VF with fully dated (very unusual) 16 April 1920 cancellation. While in 38 years I have had a very few examples of North Ingermanland stamps with double perforations, this is the only USED double perforation stamp I can recall having. When the doubling happens in the virtually the same position, the result is called "diamond perforation" due to the resulting appearance. Outstanding example!	100.00
235852	1 Misperforation: Vertical perforation shifted to the right through the left "5". Canceled, but cancel may not be correct.	8.00
235836	2a IMPERFORATE single. Strong Red with Smooth White Gum. Mint VF lightly hinged, with very ample margins. Despite the Scott listing for pairs, these are usually collected as singles. These are much, much scarcer and more difficult to obtain than any of the catalogs suggest. These should be valued much higher than the normal stamps.	25.00
235845	2 Perforation Error. NH right margin block of 10 (5 columns, 2 rows) fully perforated with correct horizontal perforations. The vertical perforations are shifted in dramatic ways, resulting in an extremely narrow (14 mm) column of stamps on	

Item #	Description	Price
	left entirely missing the "10" on the right side. The next three columns of stamps of normal 20 mm width, but greatly misaligned due to the previous error; both "10" are on the left side of each stamp. The right column is extra-wide (24 mm) thus including the "10" of the adjacent stamp to the left; thus there are THREE "10" on the right-column stamps. Normal vertical perforation at right and left sides of the 10-block. Very clean perforations. Smooth yellow gum. A dramatic type of error including the narrowest and widest North Ingermanland stamps I can recall seeing and the only N.I. stamps I recall with only one denomination or with three denominations! Stunning item!	250.00
235855	2 Misperforation: Vertical perforation shifted to the right through the left "10". Mint Attractive.	8.00
235856	2 Misperforation: Vertical perforation shifted to the left through the right "10". Mint Attractive.	8.00
235857	2 Misperforation: Vertical perforation shifted to the left through the right "10". Mint Attractive.	8.00
235838	3a IMPERFORATE single. Light Brown with Smooth White Gum. Mint VF, with very ample margins. Despite the Scott listing for pairs, these are usually collected as singles. These are much, much scarcer and more difficult to obtain than any of the catalogs suggest. These should be valued much higher than the normal stamps.	25.00
235858	3 Misperforation: Mint top vertical perforation holes on both sides. Quite unusual; I have not previously seen this type of variety on a North Ingermanland stamp. Mint VF, attractive.	20.00
235840	4a IMPERFORATE single. Dark Blue with Smooth White Gum. Mint VF, with very ample margins. Despite the Scott listing for pairs, these are usually collected as singles. These are much, much scarcer and more difficult to obtain than any of the catalogs suggest. These should be valued much higher than the normal stamps.	25.00
235860	4 Used VF with BLUE CANCELLATION. In 38 years, I cannot recall previously seeing a blue cancellation on a North Ingermanland stamp.	25.00

Forgeries

Second Issue

The North Ingermanland forgeries or fakes that I have observed were philatelically created many years ago. Originally, the intent of the forger was probably to create "packet material" from a small country whose stamps were hard to obtain; the intent was certainly not to defraud the post office. Years ago the forgeries sold for low prices, not really in an attempt to cheat collectors, but to give an "opportunity" to have stamps from this small country. However, the real stamps are now more costly and the forgeries are of high enough quality to be "dangerous" to those collectors who do not have the real stamps for comparison.

The forgeries exist on yellowish or extremely white paper. According to the Finnish forgeries manual (available from me), the yellowish paper forgeries were printed in sheets of 10x10 and the extremely white paper forgeries in sheets of 5x5. However, I have seen 5x5 sheets that I consider to be yellowish paper, thus the subject needs fur-

ther research. In general, all can be identified by a) whiter paper; b) brighter ink colors; c) usually obvious brush marks in the gum; and d) often rough perforations (not a defect; the originals do have rough perforations too). Imperforates, missing centers, inverted centers, and other types of errors also exist (all usually never having been gummed), but are seldom seen on the market.

Scott numbers have been used unless otherwise indicated. All items are available for viewing on approval.

When gummed, the gum was roughly applied by brush. I use the condition "NH" for stamps that do not show any sign of ever having been hinged (whether gummed or ungummed), even if a gummed stamp shows gum disturbance due to the conditions of manufacture.

237293	Scott #Q3a, Facit #P2IIBv, Daka-Wowern #4b [5 øre Pakke-Porto, Perforation 12.25, Printing II, 1910 Light Red Brown] Mint with Superb centering and lightly hinged, but with small thin spot at top. Wonderful example of the "ball above nose of bear" variety from position 24 -- listed by all the specialized catalogs. Straight edge at bottom, which it MUST have for this variety on this printing (unless it is officially reperforated of which only 25 originally existed). Only 375 of this variety on this printing (not officially reperforated) could have originally existed. The vast majority were either used, badly damaged, discarded, or lost to time. This is as nice looking an example of the variety as one could hope to find (and remember, on this printing, it must have the straight edge at bottom). Without the thin spot, this would command \$1100! Seldom offered and especially not at such a low price.	---	365.00
236216	Set of two 1957 covers BEARING EVERY REGULAR GREENLAND STAMP ISSUED UP TO THAT TIME. Matched pair of registered covers, to the U.S. with backstamps, canceled at SDR . STRØMFJORD (the location of the airport) on 16 April 1957. The most spectacular of the two covers bears both complete "American" sets, Scott #10-18 without overprint and #19-27 with overprint. Just as used singles removed from the cover, those two sets of stamps alone would sell for \$1545! Though Scott #10-18 and #19-27 are not often seen canceled this late, we know for certain that (at least) some of the stamps were still in postal stocks at the time and were being used in daily use for high-denomination frankings. These two sets are particularly nice as they were CANCELED IN GREENLAND and not at the KGH office in København. The other cover bears all the other regular stamps issued to that time. I have never before had (in 38 years) such a set of Greenlandic covers. An exceptional pair of covers priced at only the value of the used singles of Scott #10-18 and #19-27!	1545.00	---

236743	Scott #Q2, Facit #P5IB, Daka #7IB, Wowern #7b [2 øre Pakke-Porto, 1915 Printing I, Perforation 11.5, Imperforate one side] Mint with VF+ centering, but with thins and a crease. Though 400 sheets if the 1915 printing were originally printed, 200 of those had their outer margins officially reperforated in 1918. Thus only 200 sheets of this printing were left with their original imperforate outer margins, which results in only 600 each originally existing with one imperforate margin on any particular side -- only 600 examples of this stamp imperforate top side could possibly exist, but I doubt that more than 200-300 still exist today in any condition or quality. Facit 2013 value is SEK 2700 = US\$400 which is low for such a scarce stamp! Despite the quality problems, the centering this nice is very scarce for this stamp.	---	60.00	---	---
202058	Scott #Q2, Facit #P5IC2, Wowern #13a, the First Printing on thick white paper, Officially Reperforated on the right side. Used with Superb centering and light cancellation. 202295	Scott #Q2, Facit #P5IC2, Wowern 13a, Daka 7IE Used VF Officially reperforated at bottom with extraordinarily nice perforation "tips" at bottom. Accompanied by Lasse Nielsen photo certificate. Beautiful color, fresh appearance.	---	210.00	---	---
236299	Q2, Facit #P5IC2 [1915 2 øre, Perforation 11.5, OFFICIALLY REPERFORATED] Used VF. Officially reperforated at left -- this printing was first made with imperforate sheet margins; 200 sheets had those margins officially reperforated to make them look more like other stamps. Only 600 of each side originally existed -- probably fewer than 250 of this left position remain today. Excellent quality, especially for a Used example.	---	---	---	220.00

Bargain Stamps

These bargain-priced stamps are attractive, but many have described hidden flaws. You can save a tremendous amount of money when you add such stamps to your collection. Each stamp is one of a kind, so please let me know if I may substitute a different example (that looks as good or better, for the same cost) if the stamp you order has sold. If you have any doubts, all are available for approval viewing. If you are seeking stamps of this quality and price level from any of the Scandinavian countries, just send along your want list -- I will be happy to send bargains on approval. Scott numbers have been used unless otherwise stated.

234096	106 [1977 1.00 Jorgen Brønlund, explorer] (VF) on 1 February 1979 picture post card (helicopters at Sdr. Strømfjord airport) from SDR. STRØMFJORD to Denmark. The card bears a circular handstamp in black: "POSTAGE PAID / * PORTO BETALT **", type 2c (with the asterisks) listed in GF5 1999 [valued at DKK 400, but I have only ever seen three examples]. This handstamp was used May-June 1978 in the gift shop at the Sdr Strømfjord airport to indicate that the purchaser was paying for both the post card and the postage -- the postage was applied later and the card mailed by gift shop personnel. This was to save time and trouble and to allow senders to buy the postage even when the post office was closed. Uses of this handstamp are extremely scarce. This example is a bit odd, but is explained by the accompanying handwritten (in English) explanation by the Danish military officer who had purchased the card on a Sunday in May-June 1978. He forgot about them until February 1979 at which time he tried to mail them. The postal clerk was unwilling to accept that the postage had already been paid (and indeed, the gift shop had probably not paid the post office for a stamp) and thus required the sender to pay for and apply a postage stamp.	60.00

 and thus caught and postmarked in Denmark, OR it was posted by a traveler from Greenland upon arrival at the airport in Denmark (might have been allowed as "paquebot" type mail). I have only seen one or two uses of a similar nature (completely different sender, stamp, etc.) in 38 years. The stamp issue is a Greenland - Denmark joint issue and is also of interest to Judaica thematic collectors due to the Hebrew inscription on the front of the Round Tower in København. It may seem odd to refer to a 1969 cover as a "rare" use, but I believe it to be so. 45.00

 236918 "Greenland Expedition" of the 1940 United States Coast Guard Cutter "NORTHLAND". In August 1940 this Coast Guard cutter was sent to Greenland to survey the coastline, develop maritime charts, etc., in planning for the coming war in Europe and to counter German presence around Greenland (the Germans were reporting on weather systems and ship movements in the area). This cover is a "Crosby" cacheted cover for the 150th anniversary of the Coast Guard, with "GREENLAND EXPEDITION" typed on it. The cover has a typed address which was then changed by hand, but erased. The reverse bears a "Northland" return address at the Boston Navy Yard. There is no specific indication that the cover went through the mail, though it was sealed and opened. This cover is a puzzle to me. I do not know if it was prepared and never carried or posted, or if it was carried and then sent to subscribers in an outer envelope??? It is the only such example I have seen. It comes from the James Kerr collection and he had noted that he paid \$200 for it at a formal public auction. Without more documentation, I offer it at a much lower price. 100.00
 231701 Dansk Nordostgrønlands Ekspedition 1938-39 (Danish Northeast Greenland Expedition 1938-39) official expedition fundraising post card with the official expedition 18 May 1939 postmark on various Danish stamps as usual. From 10 July 1938 to 16 September 1939, about 7000 cards were carried by the expedition. At the conclusion, the expedition was picked up at Mørkefjord by the ship Gustav Holm (see Scott #35-38) and taken via Scoresbysund (Greenland), to Isafjord, Iceland; from there they traveled directly back København, Denmark. Thus expedition cards also relate to Icelandic postal history! As listed by Wowern and DAKA GF6 catalogs... There are two types of the post card: A = short "i" in "Pris" and B = tall "i" in "Pris". There are two types of the postmark which the catalogs list but do not assign a type number, thus I assign: JSA Type 1 = 8 mm bridge and unbroken outer circle; JSA Type 2 = 7 mm bridge and break in outer circle over "OS" of "NORDOST". Upon arrival back in København, five different receiving postmarks are known. As of Wowern GF3 1976, only 15 of the possible 20 three-way combinations were known. DAKA GF6 1997 lists all 20 combinations almost all having identical prices, but I suspect that not all were known/documented. This example is: A-1-19: Card A (short i), Cancel 1 (8 mm), København 19 receiver. VF condition. 55.00

Modern Danish parcel cards to Greenland are seldom offered (they were supposed to be retained by the post office for a few years and then the stamps torn off and sold as kiloware). 10.00

Cancellations

Avane Postal Savings Cancellations on Pakke-Porto Stamps

The numbered Avane cancellations of Greenland are not often offered, but are very actively collected. Avane cancellations were applied to stamps placed into postal savings books, starting in 1927 until the end of the 1930s. Each number represents a different village post office. 38 numbers were assigned, though four numbers (10, 14, 21, and 34) have not yet been recorded. They were typically struck in black or violet (no catalog

seems to have given values for the different colors). With only a couple exceptions, the two-line design is "Nr. 1 / avane". The vast majority of Avane cancels were applied to 20 øre stamps; use on 1 krone stamps is sometimes found; use on any other value is extremely rare. It is common for stamps to have additional pencil or crayon lines as this is often how the books were "canceled" when redeemed. Complete and well-centered examples are scarce and demand premiums, especially when on well-centered stamps. Beyond the few common numbers, most of these cancellations are scarce.

The cancellations and associated villages are listed per the Wowern 1988 GF1 Pakke-Porto catalog (most recent edition; available for purchase; see the Literature section), while the stamps are cataloged by Scott numbers.

This 15 øre stamp had been replaced in 1950, but though it is still occasionally seen used at this late date, it is seldom seen used so late from small villages. Because this post office opened July 1, 1958, though the postmark was in use until 1989, this postmark is extremely scarce on First Issue stamps. --- --- 15.00

Q1	VF	---	---	65.00

235793	Q2 Mint with F-VF centering, but with only partial gum and a hint of a tiny thin speck only visible under a 10x magnifying glass. Otherwise, Mint F-VF is normally \$295!	---	79.00	---
236743	Scott #Q2, Facit #P5IB, Daka #7IB, Woweren #7b [2 øre Pakke-Porto, 1915 Printing I, Perforation 11.5, Imperforate one side] Mint with VF+ centering, but with thins and a crease. Though 400 sheets if the 1915 printing were originally printed, 200 of those had their outer margins officially reperfored in 1918. Thus only 200 sheets of this printing were left with their original imperforate outer margins, which results in only 600 each originally existing with one imperforate margin on any particular side -- only 600 examples of this stamp imperforate top side could possibly exist, but I doubt that more than 200-300 still exist today in any condition or quality. Facit 2013 value is SEK 2700 = US\$400 which is low for such a scarce stamp! Despite the quality problems, the centering this nice is very scarce for this stamp.	---	60.00	---
236299	Q2, Facit #P5IC2 [1915 2 øre, Perforation 11.5, OFFICIALLY REPERFORATED] Used VF. Officially reperfored at left -- this printing was first made with imperforate sheet margins; 200 sheets had those margins officially reperfored to make them look more like other stamps. Only 600 of each side originally existed -- probably fewer than 250 of this left position remain today. Excellent quality, especially for a Used example.	---	---	220.00

238128	Scott #Q3, Facit #P6II, Daka #8II, Woweren #23 [5 øre Pakke-Porto, 1924 Printing II, Light Red Brown, Perforation 11.5] Mint with Superb centering and has the usual vertical light gum bend often present on this printing. Very fresh and attractive; very reasonably priced. Mint VF is normally \$160, but this example has Superb (perfect) centering!	---	129.00	---

237395	Scott #Q3 THICK PAPER. Facit #P6I, Daka 8I, Woweren #16. The Light Red Brown, 1918 Thick Paper first Perf 11.5 printing. Used Superb with light cancellation. Seldom seen so nice.	---	---	350.00
238151	Scott #Q3 THICK PAPER. Facit #P6I, Daka 8I, Woweren #16. The Light Red Brown, 1918 Thick Paper first Perf 11.5 printing. This example is from sheet position 1, with the Woweren "Ce" variety: cut in top frame line near left corner. Used F-VF++ with light but well-centered and complete cancellation. Not often seen so nice. Accompanied by Woweren certificate.	---	---	245.00
237293	Scott #Q3a, Facit #P2IIBv, Daka-Woweren #4b [5 øre Pakke-Porto, Perforation 12.25, Printing II, 1910 Light Red Brown] Mint with Superb centering and lightly hinged, but with small thin spot at top. Wonderful example of the "ball above nose of bear" variety from position 24 -- listed by all the specialized catalogs. Straight edge at bottom, which it MUST have for this variety on this printing (unless it is officially reperfored of which only 25 originally existed). Only 375 of this variety on this printing (not officially reperfored) could have originally existed. The vast majority	---	---	---

This is as nice looking an example of the variety as one could hope to find (and remember, on this printing, it must have the straight edge at bottom). Has large adhesion (from album page?) on back, but otherwise original gum, etc. No other defects of any sort. Excellent appearance, with intact squared-off perf tips at top as is expected. Machine Stamps

Greenland first started issuing machine stamps on August 17, 2009. While these stamps were not made for the type of machines produced by the Frama company, many people call all machine stamps "FRAMA" stamps. Others call them "automat" stamps. These are real postage stamps, not meters or labels. They are valid from any location in Greenland, at any time, by any mailer. (Unlike meter imprints which are only valid from the location and on the date imprinted, by the licensed user.)

Special Fee

Prior to 1960, when Greenlandic postal services were extended to offer post giro and money orders, such payments were made through the Royal Greenland Trading Company [KGH]. Starting January 1, 1944, senders of money order payments to Denmark had to pay a special 5 øre fee, for the service provided by the KGH office in Denmark to transfer the money into the Danish postal system. The fee was paid by the 5 øre First Issue stamp (Scott #2). From September 28, 1945, these 5 øre stamps were to be canceled with a normal postal canceler. However, from January 1, 1944, to that date, straight-line and oval "office handstamps", in black or violet, were used; these have been recorded from more than 10 locations. These cancellations are avidly collected; they are scarce.

On July 1, 1955, the fee was raised to 25 øre and a purpose-specific "gebyrmærke" stamp was issued. Only one design (with no variations) has been recorded in the literature. However, I have recorded two colors: Brownish Olive Green (seems to be the more common) and a very bright Light Olive Green (seems to be the much scarcer). They were printed in sheets of 25 with margins all around and a serial number in the upper right corner. The fee was discontinued December 31, 1959.

Year Sets

These year SETS are offered at a discount from the individual stamp set prices. Year SETS are NOT the same item as an official year PACK. Year SETS are simply year groupings of stamps. Year PACKS are officially issued packages (folders/packs) and are popularly collected as year packs. Unless otherwise mentioned, the year SETS I offer contain all the basic stamps and "normal" souvenir sheets expected by a collector using a Scott album, but often this will be the same as what is needed by the collector using a European-made album. Year SETS are usually more correct for given styles of albums and often contain more stamps than the officially packaged year PACKS (in which the post offices often do not include everything that they should). Older year PACKS (Greenland started year packs in 1977) usually cost more than year SETS. However, year SETS are offered at a discount from the total of the individual items they contain (unless they only contain one individual stamp set).

I guarantee your satisfaction and guarantee that you will always receive first quality stamps. As with almost all items I offer, you are welcome to request year sets to be sent on approval.

Year Packs

All Year PACKS are NH VF and fresh, complete as issued by the post office. The post office occasionally omits from the Year PACKS items that most people wish to have. These "extra" items are listed below, after each Year Pack, with "+" preceding the description. Order these items as well if you wish to have all the stamps issued for a given year.

Year PACKS are packages officially issued by the post office and are collected by many people as intact Year Packs. Earlier Year PACKS often sell for more than the stamps they contain. Year SETS are simply groupings of all the stamps issued in a year and sell at a discount from the total value of the stamps they contain. Depending upon what the post office has put into the Year PACKS, Year SETS often contain slightly different items than Year PACKS; because of this, direct price comparisons cannot be made -- you must look at what items each contains.

I guarantee your satisfaction and guarantee that you will always receive first quality stamps. As with almost all items I offer, you are welcome to request Year Packs or Year Sets to be sent on approval.

Private Booklets

Greenland semi-official and private booklets are quite scarce; most have been made in very small or extremely small quantities. Almost all of these booklets contain stamps that have been engraved by Slania and they are avidly sought after by Slania collectors as well as Greenland collectors.

All booklets are Never Hinged and Very Fine in fresh and attractive condition.

Dafila 73 Issue Booklets

Booklet # Description NH
The numbering such as "PF-G1" printed on the back of the booklet cover. Privately issued by the committee for the DAFILA 73 stamp show in cooperation with the Greenland post office. If you have mounting variations not mentioned here, I would like to know about them.

Set #PF-G1 to 16 The complete set of 16 booklets in fresh and VF condition. With only 100 each issued of some of these booklets, sets are only rarely offered; I can count only three times in the last 29 years that I have been able to offer the complete set. This price represents a significant discount from the total of the individual booklets. VF

Slot Machine Booklets

Booklet # Description NH
The numbering is printed on the top front of the booklet cover. Privately issued by stamp dealer, apparently in cooperation with the Greenland post office. **Some of these booklets exist with panes made up of horizontal or vertical pairs/strips (even a few 4-blocks and a few 2x pairs instead of 4-strips) and may be mounted upright and/or inverted, i.e.**

mounted by right or left margins with the margins to the center of the booklet. The order of the panes may vary. I have even discovered a previously unlisted variety using a face-different stamp in the booklet. If you seek specific mounting positions, please inquire. Though some of the mountings are surely scarcer than others, so far we do not know enough to differentiate them in terms of price. I am always interested in buying these booklets.

Packs - Folders - Books

The Greenland Post Office has issued a range of packs, souvenir folders, and books (some containing stamps or for specific stamp issues) over the years. This listing is not yet complete; most not-yet-listed items are in stock and are available on approval.

Books Issued By The Post Office

These books were officially issued by the post office and were only available through the post office. Some of them, as described, do contain

stamps as originally issued. The issue quantities for such books tends to be remarkably small and it often takes many years for collectors to become aware that the books were issued -- by then they are usually sold out from the post office and I am not aware of any other dealer that attempts to stock them.

Book shipping rates apply to these items.

234019	100th Anniversary of Parcel Post Stamps in Greenland: (Flemming Petersen, 2005) A handsome, officially sponsored book detailing the development, design, production, and use of the Pakke-Porto stamps, affectionately termed the Polar Bears. Hardbound, 64 pages, and packed with wonderful color illustrations, many of which have not been seen before. Text fully in Danish, German, and ENGLISH. INCLUDES ALL THREE STAMPS AND THE SOUVENIR SHEET commemorating the Pakke-Porto issues (the three stamps and s/s alone sell for \$129.50)! A wonderful, important, and beautifully produced book! Now very difficult to obtain. [O/S #16030] <i>Shipping cost is additional for this item.</i> WTD	
234021	Ships in Greenlandic Waters Over 1000 Years: Set of Two Volumes: (Ventegodt, Greenland Post Office, 2003) Officially issued by the post office set of two books detailing and illustrating the history of navigation in Greenlandic waters. Each volume hardbound, each 64 pages, and each completely IN ENGLISH. Fascinating and informative text, and accented with relevant stamp illustrations. Includes all 16 stamps issued for this subject in 2002-2005. Original post office issue cost was approximately \$68! Wonderful books for Greenland philatelists and Nordic and Arctic and/or ship history buffs. These should be (but are not) in most major public libraries. [O/S #16031] <i>Shipping cost is additional for this item.</i> 135.00	
234020	Stamps Tell the Story of Greenland: (Lindgaard, 2000) A magnificent English-language book melding wonderful images of Greenlandic stamps with beautiful photographs of Greenland and Greenlandic life, fauna, and flora. The accompanying text weaves together the story of all aspects of Greenland life, history, geography, etc. If you collect Greenland, you will want this outstanding book. Souvenir Cards

FGB Souvenir Cards

The "FGB", Foreningen Grønlandske Børn or Society for Greenlandic Children, in conjunction with Danske Filatelisters Fællesfond, issued mindeark (souvenir cards) starting with #1 in 1973 and ending with #20 in 1993. In January 1974, a second version of #1 was issued, #1A, making a total of 21 cards. Issue quantities are as low as only 5200 cards! The cards were widely distributed, meaning that there are very few dealer stocks of them. For each card, a Greenlandic stamp is affixed and bears a first day cancellation for that stamp. It is important to note that the first day of the cancellation is before, and does NOT coincide with, the issue date of the souvenir card.

Cards #1, #1A, and #2-6 also exist as official reproductions. (Others may exist as well, but I have not seen them.) The appearance of the reproductions is the same as the original cards, but in the upper left margin there is text "Reproduktion" and the stamp and cancel are images printed on the card. The official reproductions seem to be much scarcer than the originals.

Extensive additional information about these cards, issue dates, issue quantities, stamp engravers, and illustrations of official information

about the program and the individual card issues can be viewed on the **Greenland FGB Souvenir Cards page in the Resource area of the website**. To my knowledge, this web page has the most complete information on these cards ever published in any form.

All items are fresh and in VF condition. All items are available for viewing on approval. If an item you are seeking is not listed or is out of stock, please send your want list.

Essays

First Issue

The essays that many have ascribed to the first issue of Greenland were actually submitted in a competition for issue of Danish stamps. The essays come in two forms: The first are very rare and were printed on off-white paper with only one color per essay. The second, which are what are normally called the essays, are still scarce, however were printed after the competition with several colors per design. Regardless of their background, 75+ years later the Greenlandic connection in the design makes them very much sought after by collectors of Greenland.

Locals

Thule

Stamps of the Thule Local Post are quite popular and attractive. They served postal duty 1935-37 and exist (scarce) on postally used covers. The 25 øre (#3) was issued a little later than the others and has a significantly taller design but the same stamp / perforation size, thus it always has smaller margins and is always less well centered. The numbering is from the Facit Catalog.

Saving Stamps

Postal Savings

Greenlandic authorities made extensive use of a post-office-based savings system to help the citizens get through the lean winter months when fishing and hunting were not as productive.

Wownern states [1988] that this system was introduced in 1927 in Northern Greenland; I have not seen any information indicating if the system was expanded beyond Northern Greenland. From the beginning until 1938, when Pakke-Porto stamps were discontinued, the Pakke-Porto (parcel post) stamps were used as the postal savings stamps. They were supposed to be canceled with a numbered "Avane" canceler, however, various other postal cancellations were used as well. **I offer the Avane Savings Cancellations here.**

After the Pakke-Porto stamps were discontinued, in 1939 [Daka 1999] purpose-specific postal savings stamps "sitdlimat" (in Greenlandic) or "sparemærke" (in Danish) were issued. They have denominations of 25 øre (blue) and 1 krone (Orange), with the denomination as the central feature of the design. Since the next design was not issued until 1962, there was the opportunity for multiple printings of the first postal savings stamps. Very little has been formally recorded about the differences between printings, but I have documented significant color differences in the 25 øre stamps. In Used condition, the 25 øre stamps are scarce and the 1 krone stamps are extremely scarce. In Unused/Mint condition, the 25 øre are very scarce and the 1 krone are rare. Used blocks exist, but are quite scarce.

In 1962, a new design with a central map of Greenland was issued, with the same denominations and roughly the same colors. They were printed in sheets of 50 (which are extremely scarce, but do exist). Though different printings or perforations have not previously been documented in the literature, these two stamps obviously exist printed at different times. The 25 øre is on yellowish paper with line perforation 10.75 while the 1 krone is on very white paper with line

perforation 11.75. In Mint, the 1 krone may be somewhat scarcer than the 25 øre. However, used examples of either are rare. Daka states that the system was discontinued in 1967.

From 1957 to 1976 a school-based savings system was also in use and issued a set of 10 pictorial School Savings Stamps which are very scarce.

Christmas Seals

Display Signs And Literature

Most (or all?) of the Scandinavian National seal issuing organizations utilized point-of-purchase display signs to be shown in post offices, store fronts, etc. While I expected that such were used in Greenland as well, I did not see my first example of such from Greenland until 2013 -- 39 years after the first seals were issued. While they are considered an area of ephemera, they are extremely scarce.

KGH Picture Post Cards

The KGH (Den Kongelige Grønlandske Handel; The Royal Greenland Trading Company) was the main entity operating postal and governmental activity in Greenland prior to postal and independence and home rule. KGH was the post office. Over the years, KGH issued one or more series of picture post cards for tourist and local use. On the address side, all such cards bear KGH text and/or the KGH polar bear logo. The cards were produced for KGH by various picture post card printers; it is quite possible that the same picture card may have been produced by more than one printer in different eras. I know of no catalog listing for these cards. Many (most?), but probably not all, of the cards have a KGH card number printed on the address side of the card; where present, I have noted it. These cards were officially issued by the same entity that operated by the post office, thus they have a close postal connection. These cards are inexpensive, but it is very difficult to find specific cards if you are looking for them.

Dear Doctor Picture Post Cards

In the 1950s and 1960s, several drug companies, but principally Abbott, created pharmaceutical printed-message picture post cards that were mailed from locations around the world to doctors. These cards usually promoted specific drugs. A few other non-drug advertising cards used the same approach. The cards often exist in multiple language and textual (for example, cards to Canada are different than to the U.S., though both are in English) versions appropriate for the doctors in the receiving countries. Because large quantities of these cards were mailed, the post offices often cooperated by creating a fixed-date postmark device. In the case of Greenland, there were several such postmarks created and they are appropriately cataloged in GF6 1997 at DKK 600 (approximately \$95-120 depending upon current conversion rates) each on card. This valuation does not take into account that certain card language versions and destination countries are much scarcer. There is an active collector society for these (worldwide) cards; they keep records of all the variations that exist.

234096	106 [1977 1.00 Jørgen Brønlund, explorer] (VF) on 1 February 1979 picture post card (helicopters at Sdr. Strømfjord airport) from SDR. STRØMFJORD to Denmark. The card bears a circular handstamp in black: "POSTAGE PAID / * PORTO BETALT *", type 2c (with the asterisks) listed in GF5 1999 [valued at DKK 400, but I have only ever seen three examples]. This handstamp was used May-June 1978 in the gift shop at the Sdr Strømfjord airport to indicate that the purchaser was paying for both the post card and the postage -- the postage was applied later and the card mailed by gift shop personnel. This was to save time and trouble and to allow senders to buy the postage even when the post office was closed. Uses of this handstamp are extremely scarce. This example is a bit odd, but is explained by the accompanying handwritten (in English) explanation by the Danish military officer who had purchased the card on a Sunday in May-June 1978. He forgot about them until February 1979 at which time he tried to mail them. The postal clerk was unwilling to accept that the postage had already been paid (and indeed, the gift shop had probably not paid the post office for a stamp) and thus required the sender to pay for and apply a postage stamp.	60.00

218538	Iceland #17a [1882 20 aur Ultramarine, Perforation 14] Used F-VF centered example Danish 3-ring numeral cancellation. The number is not readable, but is two or three digit, making is much scarcer than the typical #1 cancel. Danish numeral cancellations are occasionally seen on previously uncanceled ship mail sent to Denmark, but not often on this stamp. With a normal Icelandic postmark, this F-VF stamp is \$270!	285.00
238147	438 [1972 250 kr Herdubreid Mountain] Imperforate PLATE PROOF in Very Dark Blue. All engraved portions are present (lithographed areas are not). Appears to be final design; probably made to check that the impressions laid down from the transfer roll to the plate cylinder were all successful. The proof impression is on uncoated, un-gummed, grayish-white paper instead of the high-white coated paper of the stamp issue. The ink seems to have soaked in more and/or the pressure was turned up (to better show plate defects if there were any), thus the impression is heavier/darker. Bottom marginal 4-block with printer notes in margin; left vertical pair with vertical crease (such is not unusual as sheets were folded when being placed into the printing company filing system). I have seen a single of a similar (but apparently not identical) proof offered by a dealer at \$150. That is probably quite cheap, but this 4-block is priced very even more reasonably. Accompanied by an issued stamp for comparison.	395.00
234711	048 [1930 2 kr Christian X Official] and a 9-block of Scott #231 [1945 10 kr Viking, Perf 14] on piece of 28 July 1945 INSURED parcel wrapping from REYKJAVIK to Miklabæ. The official stamp and a couple of the 10 kr stamps are damaged, however, the official stamp is rare on any sort of cover (2011 Facit value SEK 9000 on cover) and the 10 kr stamps are also scarce on cover (2011 Facit SEK 1200). Even the pink "V" insured label is seldom seen. Furthermore, it is extremely rare to find a cover or piece bearing any combination of official and regular stamps. If this were a full cover, or at least a full parcel wrapping, it would easily sell for more than \$2000, however, I very much doubt that such an item exists. As it is, it is attractive and rare -- probably unique.	175.00

236595	2 [1873 4 skilling Perf 14 x 13.5] Used F-VF+ centered, with neat sans-serif (REYKJ)AVIK cancellation. Cancellations types of this style can be used in period or after period, however, there is not enough of the cancel present to see the usual indicators to determine period of use. Thus I must assume that this example was used after the proper period and have priced it as such. Despite this, the stamp is an extremely nice looking example with unusually intense, deep color. Facit 2012 value for in-period use is SEK 9000 = US\$1350 or after-period SEK 950 = US\$140 [09/2012], however, after-period examples seldom look this nice.	---	---	---	160.00

234590	10, Facit #11a First Printing [1876 6 aur, Perf 14 x 13.5] Mint F-VF, original gum. With color described by Facit as "dark gray (violet tinge), blurred print", the first printing stamps have very distinctive appearance. Because this printing was on an extremely thin paper most examples that are encountered are damaged, usually badly, and usually without gum too. This example is not only in sound condition, but it fresh and attractive -- this must be the freshest mint example I have had in 37 years. The 2010 Facit value is SEK 2600 = \$365 [9/10], but this value does not properly reflect the scarcity of undamaged examples. 25% fewer of these were printed than Iceland #1, which has a value four times as much!	325.00	---	---	---
234592	13, Facit #14a First Printing, Pale Violet [1876 20 aur Pale Violet, Perf 14 x 13.5] Used Fine, with a small, light crease only visible from the backside. Proper, genuine, mostly complete REYKJAVIK cancellation. A nice-looking example of a very scarce stamp; due to the extremely thin paper, the vast majority of examples are heavily damaged. 2010 Facit value is SEK 4400 = \$615 [9/10].	195.00	---	---	---
237277	15, Facit #8a Brownish Yellow Blurred Print, Thin Paper [1882 3 aur, Small 3, Perf 14 x 13.5, First Printing] Mint Superb, OG lightly hinged. Perfect centering, wonderfully fresh color and gum, perfect perforations. An outstanding example of a printing that is extremely scarce mint undamaged and extremely scarce with nice centering. This must be the best example I have had in 40 years! [Image looks grayish when on black background due to very thin paper of this printing.]	---	---	225.00	---
237724	15, Facit #8a [1882 3 aur Numeral, Perf 14 x 13.5] Mint F-VF with original gum. The first printing: Orangish Brown on Thin Paper. Some slightly blunted perf teeth as typical of this printing. Facit 2014 value SEK 1400 = \$220! The paper of this first printing is so thin that the watermark can be seen from the front of the stamp! Very fresh and attractive.	---	---	119.00	---

237308	24 varieties: AFA 1997 Iceland Specialized #13B with all four* of the AFA-listed plate varieties [1896 5 aur Numeral, perforation 12.75] NH F-VF/Fine upper left corner margin 25-block (quarter sheet) containing the four* of the catalog-listed varieties. Almost all of the Numeral stamps were printed in four quarters (four times into the press!) with a 25-subject plate, thus this block shows all 25 cliché types/varieties. The four varieties are (per AFA): "x" Sheet Position 1 "Dent in upper frame line, cut off upper right corner, dent in lower frame"; "z" Sheet Position 32 "Left frame line bends inward at top and bottom"; "æ" Sheet Position 34 "Cut off lower left corner, upper left corner dented on left side"; and "ø" Sheet Position 33 "Short right leg of A of ISLAND". *For the 5 aur stamps, AFA also lists a variety "y" (right and left frame lines bend inward), but I have not been able to locate this variety in the perforation 12.75 stamps; it is likely that the cliché was replaced. AFA values the varieties at 4 to 13 times the normal value. However, it is very unusual to obtain all four varieties in one block (and those values are over 15 years old). Very fresh and attractive with strong perforations. Current Facit value for 25 NH stamps is SEK 2500 = US\$375 plus the 15-year-old AFA premium of DKK 1500 (\$270) for the varieties, for an approximate total of \$645+!	---	---	---	345.00
237312	24 plate varieties "z, ø, and æ" [1896 5 aur Numeral, perforation 12.75] NH F-VF lower left corner margin 8-block containing three of the four AFA-listed plate varieties (there is a fifth listed variety, but I think that listing was in error). The block is positions 81-84/91-94 with the three varieties in positions 82-83-84. Variety "z" in sheet position 82 "Left frame line bends inward at top and bottom"; "ø" in sheet position 83 "Short right leg of A of ISLAND"; and "æ" in sheet position 84 "Cut off lower left corner, upper left corner dented on left side". The 15-year-old AFA Iceland Specialized listing values the three varieties at a total of DKK 1500 = US\$270, plus the other five stamps sell for a total of about \$70 in their respective centering. A very unusual block!	---	---	---	235.00

237818	50 Full Sheet, Overprint Setting I, with plate varieties: AFA 1997 Specialized #23B with all four of the AFA-listed plate varieties (on underlying AFA #22) [1902 "I GILDI" black overprint on 3 aur Large Numeral, perforation 12.75] NH with centering varying from Superb to Fine as usual. Especially nice about such a sheet is that the four types of the I GILDI overprint (thickness of the zeros: thin-thin, thin-thick, thick-thin, thick-thick) is represented in TWO 4-STRIPS (positions 34-37 and 84-87) and TWO 4-BLOCKS (15-16/25-26 and 65-66/75-76). These highly significant 4-strips and 4-blocks containing all four overprint types have really only recently started to come to the attention of collectors. This was the only single-color "oval" issue for which the underlying stamps were printed in a single pass through the press, using a 100-subject plate (instead of a	---	---	---	---

	25-subject plate, printed four times). Thus each of the underlying plate varieties only exist from one position in the sheet (making them scarcer than plate varieties from the 25-subject plates). The four varieties are (per AFA): "x" Sheet Position 17 "Defective R of POSTFRIM"; "y" Sheet Position 4 "color spot on M of POSTFRIM"; "z" Sheet Position 53 "Upper frame line cut off, becoming thinner toward left side"; and "æ" Sheet Position 16 "Color spot in A of ISLAND". The overprinting shows a horizontal and vertical shift between rows five and six, demonstrating that the overprinting was done in two operations, 50 stamps at a time. On the unoverprinted stamps, AFA values the varieties at 9 to 10 times the normal value! Wonderful quality! Very fresh and attractive; strong perforations, NO separations and NO creases. Priced well below the break up value of the listed varieties and stamps. --- 275.00 --- ---					238373	103 [1918 6 aur Two Kings, Crosses Watermark] NH F-VF/F-VF+ upper left corner margin plate #93-H block of four. The handbook on this issue (Regeling) lists only four frame flaws on the underlying 25 aur stamp -- this block contains two of them! One of the varieties is "white spot in "h" of "Chr" in position 31 (and 81) and another is colored line to right of "N" of "ISLAND" in position 24 (and 74). This issue was printed by two impressions of a 50-subject plate, thus each variety usually appears twice in the sheet (though on this stamp, the other two recorded varieties each exist only in one position, 15 and 48). Medallion varieties of this stamp are only recorded in positions 7 and 73. The sheet positions of this block are also confirmed because it was taken out of a larger marginal block. This surcharged issue is known for the "35" (the "3" not covered by the surcharge) and the "55" variety (the "5" not covered by the surcharge). [To qualify, the underlying numeral must be completely clear of the surcharge.] These varieties can occur as a result of the surcharge of the whole sheet being shifted. However, as this block demonstrates, certain surcharge positions are not aligned with other positions in the sheet; some of the underlying numerals are more and less exposed than others in the rows above and below. Even the pink "V" insured label is seldom seen. Furthermore, it is extremely rare to find a cover or piece bearing any combination of official and regular stamps. If this were a full cover, or at least a full parcel wrapping, it would easily sell for more than \$2000, however, I very much doubt that such an item exists. As it is, it is attractive and rare -- probably unique.	---	---	---	175.00

Bargain Stamps

These bargain-priced stamps are attractive, but most have hidden flaws. You can save a tremendous amount of money when you add such stamps to your collection. Each stamp is one of a kind, so please let me know if I may substitute a different example (that looks as good or better, for the same cost) if the stamp you order has sold. If you have any doubts, all are available for approval viewing. If you are seeking stamps of this quality and price level from any of the Scandinavian countries, just send along your want list -- I will be happy to send bargains on approval. Scott numbers have been used unless otherwise stated.

236595	2 [1873 4 skilling Perf 14 x 13.5] Used F-VF+ centered, with neat sans-serif (REYKJ)AVIK cancellation. Cancellations types of this style can be used in period or after period, however, there is not enough of the cancel present to see the usual indicators to determine period of use. Thus I must assume that this example was used after the proper period and have priced it as such. Despite this, the stamp is an extremely nice looking example with unusually intense, deep color. Facit 2012 value for in-period use is SEK 9000 = US\$1350 or after-period SEK 950 = US\$140 [09/2012], however, after-period examples seldom look this nice.		---	160.00	231033	12 Used with VF+ appearance, but faint crease.		---	14.00	236877	17a [1882 20 aur Ultramarine, Perf 14 x 13.5] Used with F-VF centering, but tiny thin spot. 229300	133 [20 aur on 25 aur Two Kings] (Fine) on April 1922 domestic cover. Nice early usage; stamp was issued late in January 1922. The return address is Reykjavik, but the unclear postmark does not quite look like Reykjavik. To Porshofn, with VOPNAFJORDUR (single ring provincial postmark) transit and PORSHOFN (bridge postmark) receiver. While this example is a little worn, solo usages are seldom offered; the Facit SEK 600 = US\$80 (12/08) figure seems far too low.	30.00

Correct 35 aur franking, made up in a spectacular manner. Neat cancellations and with 1 June 1927 receiving postmark on reverse. Somewhat worn, but very attractive. Sent from a Dr. F.K. 235910	112 pair, 120 [1922/1920 5 aur Olive Green and 25 aur Brown/Green Christian X] (VF) on 13 July 1931 PAQUEBOT cover to the U.S. machine canceled at "EDINBURGH / 1931 B", Scotland, and with Edinburgh italicized black "PAQUEBOT" handstamp. While generally typical of Icelandic "fishing boat mail" posted at Edinburgh, I have not previously encountered this machine postmark on Icelandic mail.	150.00
235911	Iceland #112 [1922 5 aur Olive Green Christian X] and Denmark #94 [1921 10 øre Green Wavy-Line] (F-VF) on ICELANDIC - DANISH - NORWEGIAN TRIPLE COUNTRY cover hand canceled on 17 June 1929 at BERGEN and with black Bergen "Paquebot" handstamp, to København, Denmark. The sender may have been confused about what stamps were required or perhaps simply used whatever stamps were at hand. I have never before in 38 years had such a use. Spectacular!	225.00

235913	Iceland #117 [1920 15 aur Christian X, still in active use at the time] (F-VF) on 7 July 1934 Icelandic picture post card (real photo of Leif Ericsson statue) mailed aboard and WITHIN the SWEDISH cruise ship M/S Kungsholm, as it crossed the Arctic Circle, presumably after most recently having visited Iceland. Small spot near top. Canceled and handstamped with the seemingly full range (five different) of the official postal cancellations and handstamps available in the ship post office. Though I have handled hundreds of Kungsholm covers mailed at sea around the world, this is the first in 38 years that I can recall being mailed WITHIN the ship and probably one of less than five that have borne Icelandic stamps or markings.	150.00
222304	121 [1921 25 aur red Christian X] (VF) on 7 July 1922 picture post card from REYKJAVÍK (machine cancel) to the U.S. Nice locally printed card picturing part of Reykjavík "Skólavörðan við Reykjavík", with insignificant tear at top. This stamp is quite scarce on cover/card: Facit 2006 value is SEK 1600 = \$220 and the used stamp alone is \$67 in Facit and \$45 in Scott!	170.00
229303	170, 184 (VF, F-VF) on 1936 (?) airmail cover to Italy with backstamp with unusual air labels (with marginal inscription). Postmark dates are unclear, but the 60 aur franking places the cover in the 14 April 1934 - 28 February 1937 rate period. Unusual combination of stamps and an unusual destination.	160.00

Typical of "fishing boat mail" posted en-route on the North Atlantic or handed to fishing boat captains at small coastal villages. Very attractive.	110.00
235909	147 [1925 35 aur Reykjavik, Esja Mountain] (VF) on 1929 PAQUEBOT cover to the U.S. (addressed to the Hudson Motor Car Company, Detroit), hand canceled at "KØBENHAVN / OMK 7", Denmark, and with Danish "FRA ISLAND" handstamp. 235897	229 [1939 2 kr Perf 14, Viking (Thorfinnur Karlsefni, "first" colonist in America from Europe)] (VF) SOLO USE on March 1947 INSURED cover from EGLSSTADIR with SEYDISFJÖRDUR (31 March) transit and AKUREYRI (14 April) receiver cancellations. Hand-written "Eg" insured label. Insured for 105 kroner; probably a money letter, though is not marked "talið" (counted). Correct rate: 50 aur for letter postage to 20 grams plus 150 aur insurance fee (up to 300 kronur). Inconsequential light crease and tiny opening tears. Icelandic insured covers, especially before 1960, are extremely scarce. Solo uses of this stamp are also very scarce.	90.00
234711	O48 [1930 2 kr Christian X Official] and a 9-block of Scott #231 [1945 10 kr Viking, Perf 14] on piece of 28 July 1945 INSURED parcel wrapping from REYKJAVÍK to Miklabæ. The official stamp and a couple of the 10 kr stamps are damaged, however, the official stamp is rare on any sort of cover (2011 Facit value SEK 9000 on cover) and the 10 kr stamps are also scarce on cover (2011 Facit SEK 1200). Even the pink "V" insured label is seldom seen. Furthermore, it is extremely rare to find a cover or piece bearing any combination of official and regular stamps. If this were a full cover, or at least a full parcel wrapping, it would easily sell for more than \$2000, however, I very much doubt that such an item exists. As it is, it is attractive and rare -- probably unique.	175.00

229375	433, 435 (Facit #492, 494) on 24 November 1972 registered air cover to the U.S. Total franking 35 kr. The registry fee was 16 kr, the balance of 19 kr is probably for 15 grams -- but (my copy of) the Flack book seems to have some problems in this year with duplicated or incorrectly labeled tables. The 30 kr stamp is quite scarce on cover.	15.00
229306	436 7 kr on 1972 internal letter, to 20 gram, with VF PORSHOFN cancel.	10.00

Airmail Stamps On Cover

Item #	Description	Price
234146	C1 x10 (two pairs and a 6-block, all VF), 170 (VF), and 184 (F-VF) on 2 June 1932 airmail COVER FRONT ONLY to the U.S. with air label and notation "Via Air Mail / Oslo-London". The fourth C1 from the left has Facit-listed variety #160v1 "ME on left side connected". Though just a front, this is a spectacular item with high-value franking. If the stamps were simply removed from the paper, they would individually sell for about \$200, not counting a premium for the #C1 6-block. While first flight covers bearing #C1 are fairly standard items, 10-C1-stamp frankings such as this are quite exceptional.	270.00
238389	C3, C5 [1930 10 aur triangle Airmail; 20 aur Parliament Airmail] (VF) on 26 June 1930 first flight cover from THINGVELLIR (the site of the first Icelandic Parliament in 930, which these

	stamps commemorate 1000 years later!) to REYKJAVIK. A scarce first flight cover and particularly nice because of the relationship between the postmarks and the stamp issues. The two stamps, off cover, would sell for \$135! Excellent example.	190.00
235898	C9, C10 [1931 30 aur, 1 kr ZEPPELIN Overprints] (F-VF) on 30 June 1931 registered post card to Belgium (Baldvin Palsson), with usual green triangular handstamp and Friedrichshafen machine receiver. If the stamps were removed from the cover, they would sell for \$288 [1/2012] with this centering. Correct franking for a post card. Very fresh and attractive.	325.00
235899	C9, C10 [1931 30 aur, 1 kr ZEPPELIN Overprints] (VF, Fine+) on 30 June 1931 registered post card to Germany (Heinrich Keimel), with usual green triangular handstamp and Friedrichshafen machine receiver. If the stamps were removed from the cover, they would sell for \$310 [1/2012] with this centering. Correct franking for a post card. Very fresh and attractive.	325.00
235901	C15, C16a, C17-20 [1934 Airmail Scenes] (VF) on 5 December 1934 registered (label on reverse) airmail cover to AALBORG, Denmark, with receiving postmark. If removed from the cover, the stamps would sell for over \$100! A very pretty, neat little cover.	140.00
235902	C15, C17-20, 219 [1934 10, 25, 50 aur, 1, 2 kr Airmail Scenes and 5 aur Fish] (VF) on 12 November 1945 registered airmail cover TO CANADA. Though the sender was a well-known stamp dealer, this cover, addressed to a person at a bank, could very reasonably be a totally commercial use (and if not, then it is still a commercial philatelic use). If this was a philatelic cover, the dealer would have used a 20 aur Airmail to complete the set instead of the 5 aur Fish. The rate is exactly correct for a 15 gram registered airmail cover at this time (60 aur surface to 20g, 60 aur registration, 90 aur per 5g air surcharge). The stamps on the cover would sell for about \$90 [1/2012]. A very unusual use.	170.00
229388	C29, 219, 249 (VF) on 1951 airmail business size cover to the U.S.	14.00
235903	C29 [1952 3.30 kr Airmail (Oræfajökull Mountain, Vatnajökull Glacier)] (VF) on Superb ca.1952 (cancel unclear) airmail cover to the U.S. The 3.30 rate was correct for a 10 gram airmail letter to the U.S. from 23 March 1950 through 30 September 1953 (and there was no later 3.30 rate), thus this stamp only had a solo use rate period of 2 May 1952 through 30 September 1953.	24.00

Airmail Postal Rates And Usages

Item #	Description	Price
229303	170, 184 (VF, F-VF) on 1936 (?) airmail cover to Italy with backstamp with unusual air labels (with marginal inscription). Postmark dates are unclear, but the 60 aur franking places the cover in the 14 April 1934 - 28 February 1937 rate period. Unusual combination of stamps and an unusual destination.	160.00
229397	206, 229 (VF, 229 creased) on 1945 air cover to U.S. Scarce high-postage rate; the 40 aur is scarce on cover. Business size envelope. Small toned spots.	35.00
229395	203 pair, 208B, 229 (VF) on 1945 air cover to the U.S. Scarce franking!	85.00
229394	208A 4-strip (VF) on 1945 air cover to U.S. on business size envelope. Scarce usage.	35.00
229358	208B on ca.1945 air cover to Sweden (back flap missing). The airmail postal rates were EXTREMELY confusing after the end of the war as service was resumed in bits and pieces. I have not been able to properly "rate" this cover, but rates are not fully reconstructed for airmail to Sweden at this time. Very unusual usage.	25.00

Official Stamps On Cover

Item #	Description	Price
234711	O48 [1930 2 kr Christian X Official] and a 9-block of Scott #231 [1945 10 kr Viking, Perf 14] on piece of 28 July 1945 INSURED parcel wrapping from REYKJAVIK to Miklabæ. The official stamp and a couple of the 10 kr stamps are damaged, however, the official stamp is rare on any sort of cover (2011 Facit value SEK 9000 on cover) and the 10 kr stamps are also scarce on cover (2011 Facit SEK 1200). Even the pink "V" insured label is seldom seen. Furthermore, it is extremely rare to find a cover or piece bearing any combination of official and regular stamps. If this were a full cover, or at least a full parcel wrapping, it would easily sell for more than \$2000, however, I very much doubt that such an item exists. As it is, it is attractive and rare -- probably unique.	175.00

Self-censored by a major with the "Hdqts 2ND INF", with greenish blue round #60 censor handstamp. The return address states "ICELAND" which certainly must have been against regulations. Scarce machine cancellation.	49.00
204755	APO 810 (Baldurshagi) machine cancel "FEB 2 / 9 - AM / 1942" with the 810 at the bottom of the circle. This APO operated for less than a year in Iceland. Sent by a private with "Co. B 392nd O.M. Bn. (Post)" [?] and with a black rectangular #604 censor handstamp. Franked with 3 cents postage, but I believe should have been free. The return address states "Iceland" which certainly must have been against regulations. Scarce machine cancellation.	55.00
204756	APO 810 (Baldurshagi) return address on a cover sent by a serviceman, to himself, using the Icelandic post office. Franked with Iceland Scott #219 and 224 on a U.S. 3 cent postal stationery envelope. The letter inside (which must have originally been in an outer envelope) requests the Icelandic post office to cancel the envelope and to send it to him and for the APO post office to cancel it as well. An interesting example of a enterprising philatelist trying to make an interesting cover.	29.00

Military - British - WWII-Era

Condition of British soldier mail is usually less wonderful than that of U.S. soldier mail and is not especially noted unless particularly poor or good. For security reasons, the sender name and unit information was NOT normally written on the envelope, thus one must rely on the FPO (Field Post Office) number and date of use shown by the postmark and/or the censor handstamp number (listed by Cornelius).

Though I have handled hundreds of Kungsholm covers mailed at sea around the world, this is the first in 38 years that I can recall being mailed WITHIN the ship and probably one of less than five that have borne Icelandic stamps or markings.	150.00

Vatnajökull Glacier Expedition Covers

From 1959 to 1964 annual research expeditions on the Vatnajökull Glacier were undertaken by the Icelandic Glaciological Society (IGS). This glacier covers one-thirteenth of the total area of Iceland and is the largest glacier in the world between the Arctic and Antarctic Circles, with the exception of southern Greenland. The total area is approximately 3200 square miles and the highest peak is 6950 feet. Active volcanos under the glacier cause massive under-glacier lakes which can periodically discharge causing catastrophic flooding. During these expeditions, temporary postal service was maintained at Grimsfjall on a "1300 feet high precipitous crater rim, 5600 feet above sea level." The expedition "post office" had its own bridge-type cancellation and pre-printed registry labels. In 1963, the IGS stated that annually, from 1959-1963, 5000 cacheted covers were created. The cachet is different each year. Despite the quantity issued, these covers are very hard to find, with 1964 items being the scarcest. As of 1/2012, I have only had one item (non-postal) from a 1965 expedition.

In 1936, a Swedish-Icelandic Expedition also had a postal cancellation, used only for a short time in 1936. I am interested in buying 1936 covers.

All items (and possibly others not listed) are available for viewing on approval. If you are seeking anything not listed, please send your want list.

Cancellations

Numeral Cancellations

The numeral cancellations of Iceland are not often seen but are very actively collected. These cancellations are collected both by the numbers and by the stamp issues. Many of the numbers represent different post offices in different time periods; for example #42 was used at six different locations over the years. Thus most collectors seek most numbers in different time periods (on different stamp issues). Numeral cancellations are only rarely seen on Official stamps. Well centered examples are scarce and demand large premiums.

Town - Classic

The early town (single ring with town name) cancellations of Iceland are remarkably difficult to obtain in nice condition. Beyond the largest communities, most of the cancellations are scarce to rare.

The stamps are cataloged by Scott numbers. All items may be viewed on approval; regular approval groups of Icelandic town cancellations (including later periods) are also available.

Town - Bridge Type

Most of the bridge-type town cancellations of Iceland are listed in the Facit Catalog; the most recent listings in the 2006 and later editions are more complete than in previous editions. However, type B7 and B8b are still not listed by Facit. The primary reference handbook for bridge-type cancellations is Iceland Cancellations - Bridge, Roller, and Machine Cancellations 1894-2003 available from me.

Beyond the largest communities, most of the bridge-type cancellations are scarce to rare. Many collectors are actively building collections of these interesting cancellations.

The stamps are cataloged by Scott numbers. All items may be viewed on approval; regular approval groups of Icelandic town cancellations (including earlier periods) are also available.

Town - Machine Type

The primary reference handbook for machine-type cancellations is Iceland Cancellations - Bridge, Roller, and Machine Cancellations 1894-2003 available from me.

Beyond the largest communities, most of the machine-type cancellations are unusual to scarce. Many collectors are quietly but actively building collections of these interesting cancellations.

The stamps are cataloged by Scott numbers. All items may be viewed on approval; regular approval groups of Icelandic town cancellations of all types (including earlier periods) are also available.

1876-1895 Numerals Perforation 14

Item #	Description	Price	Mint	Used
234590	10, Facit #11a First Printing [1876 6 aur, Perf 14 x 13.5] Mint F-VF, original gum. With col- or described by Facit as "dark gray (violet tinge), blurred print", the first printing stamps have very distinctive appearance. Because this printing was on an extremely thin paper most examples that are encountered are damaged, usually badly, and usually without gum too. This example is not only in sound condition, but it fresh and attractive -- this must be the freshest mint example I have had in 37 years. The 2010 Facit value is SEK 2600 = \$365 [9/10], but this value does not properly reflect the scarcity of undamaged examples. 25% fewer of these were printed than Iceland #1, which has a value four times as much!	325.00	---	---

Item #	Description	Price	Mint	Used
222024	10, Facit #11a (First Printing) Mint no gum (as usual for the first printing) with Fine+ centering and tiny thin spot. Facit 2006 value SEK 2200 = \$300 (and SEK 1200 = \$165 for the cheapest printing)! Scarce printing in mint condition.	69.00	---	---
237273	10, Facit #11e [1876 6 aur, Perf 14 x 13.5, 1895 Printing] Mint Superb, OG lightly hinged. Wonderful example showing 4th horizontal hole blind Perforation "Error" as listed or mentioned in the specialized catalogs. Perfect centering, wonderfully fresh color and gum, perfect perforations (with the Perf Error). An outstanding example. The Perf Errors are quite hard to find in such nice quality.	235.00	---	---
222028	10, Facit #11e with catalog-listed Perforation Error: Horizontal hole 4 filled (between perfs 4 and 5). Used Fine+ example. Only found on this 6 aur printing and one printing each of the 3 and 10 aur stamps.	22.00	---	---
233835	10, Facit #11e [6 aur Numeral, perforation 14 x 13.5] Printing 5 Greenish Gray, Thick Paper, with perforation error: blind perforation in hole 4, between teeth 4-5. Only this printing of the 6 aur (and one printing each of the 3 and 10 aur) has the perforation errors. Used Fine with neat cancellation.	22.00	---	---
235828	10 Perforation error, Facit #11e [1876 6 aur, Perforation 14, 1895 printing] Used VF with perforation error: blind hole 6; on this denomination, only exists on the 1895 Greenish Gray, Thick Paper printing. Very nice example.	---	---	42.00
236873	11 [1876 10 aur, Perf 14 x 13.5] Mint with Average centering, but no gum. Facit #14a (one of the first four printings) with very thin paper. No gum is typical on the early printings of this stamp. Facit 2013 value SEK 3800 = US\$600 [1/2013]. Very fresh and attractive with deep color.	135.00	---	---
222029	11, Facit #12b (Print 5: Rose carmine on medium thick paper; light orange-red under UV light) Used F-VF. Facit 2006 value SEK 300 = \$50! Also with unlisted plate variety: dent in center of bottom frame line and thinning of bottom frame line at lower left corner.	34.00	---	---
235832	11 Perforation error, Facit #12d [1876 10 aur, Perforation 14, 1895 printing] Used VF with perforation error: blind hole 2; on this denomination, only exists on the 1895 Thick Paper printing. Very nice example.	---	---	13.00
236875	12 [1876 16 aur, Perf 14 x 13.5] Mint with F-VF centering, but no gum. Facit #13c, 1886 printing on in a clean brown color on medium thickness paper. Facit 2013 value SEK 2000 = US\$320. Very fresh and attractive with wonderful color.	79.00	---	---
222033	12, Facit #13a (Print 1: Dark brown, blurred grainy print on thin paper) Used Fine with couple minor perf flaws but still attractive. Facit 2006 value SEK 2200 = \$300! A remarkably scarce stamp at a very low price.	39.00	---	---
222034	12, Facit #13b (Print 2: Deep brown, very clear print on thin paper) Used F-VF with neat, light cancel. Facit 2006 value SEK 800 = \$110! An unusually nice example!	85.00	---	---
234592	13, Facit #14a First Printing, Pale Violet [1876 20 aur Pale Violet, Perf 14 x 13.5] Used Fine, with a small, light crease only visible from the backside. Proper, genuine, mostly complete REYKJAVIK cancellation. A nice-looking example of a very scarce stamp; due to the extremely thin paper, the vast majority of examples are heavily damaged. 2010 Facit value is SEK 4400 = \$615 [9/10].	195.00	---	---
218536	15 "Double 3", Facit #8cv1 [1886 3 aur, Perforation 14] Used F-VF appearing example of the scarce "Double 3" variety (bottom half of three doubled), but with crease only visible from the re-

237277	15, Facit #8a Brownish Yellow Blurred Print, Thin Paper [1882 3 aur, Small 3, Perf 14 x 13.5, First Printing] Mint Superb, OG lightly hinged. Perfect centering, wonderfully fresh color and gum, perfect perforations. An outstanding example of a printing that is extremely scarce mint undamaged and extremely scarce with nice centering. This must be the best example I have had in 40 years! [Image looks grayish when on black background due to very thin paper of this printing.]	225.00	---	---
237724	15, Facit #8a [1882 3 aur Numeral, Perf 14 x 13.5] Mint F-VF with original gum. The first printing: Orangish Brown on Thin Paper. Some slightly blunted perf teeth as typical of this printing. Facit 2014 value SEK 1400 = \$220! The paper of this first printing is so thin that the watermark can be seen from the front of the stamp! Very fresh and attractive.	119.00	---	---
236876	15 GOLDEN YELLOW, Facit #8v3, AFA Iceland Specialized #12.3b, 1884 printing [1882 3 aur, Small 3, Perf 14 x 13.5] Mint with Average centering, but no gum. A very scarce stamp. AFA 1997 value DKK 6000 = US\$1000 [1/2013] and Facit 2013 value SEK 8000 = US\$1280 [1/2013]. Very fresh and attractive with wonderful color.	225.00	---	---
235822	15 Perforation error, Facit #8e [1882 3 aur, Perforation 14, 1895 printing] Mint F-VF with perforation error: blind hole 4; on this denomination, only exists on the 1895 printing. Priced about the same as a normal mint stamp!	79.00	---	---
218538	Iceland #17a [1882 20 aur Ultramarine, Perforation 14] Used F-VF centered example Danish 3-ring numeral cancellation. The number is not readable, but is two or three digit, making is much scarcer than the typical #1 cancel. Danish numeral cancellations are occasionally seen on previously uncanceled ship mail sent to Denmark, but not often on this stamp. With a normal Icelandic postmark, this F-VF stamp is \$270!	285.00	---	---
236568	17a, Facit #15a [1882 20 Aur ULTRAMARINE, Perforation 14 x 13.5] Used Superb with neat ISAFJORDUR provincial cancellation. Crisp color and wonderful appearance.	365.00	---	---
236877	17a [1882 20 aur Ultramarine, Perf 14 x 13.5] Used with F-VF centering, but tiny thin spot. Neat (DA)LASYSL(A) provincial cancellation, listed by Facit with R4 rarity on the Perf 14 x 13.5 Numeral issues (that is very scarce). Attractive, with delicate color. A normal F-VF example would sell for around \$270!	79.00	---	---
237278	18, Facit #17b Light Lilac [1882 40 aur Lilac, Perf 14 x 13.5, 1886 Printing] Mint Superb, OG lightly hinged. Perfect centering with extraordinary margins, wonderfully fresh color and gum, perfect perforations. An outstanding example of a printing that is scarce mint undamaged and scarce with nice centering. This must be the best example I have had in 40 years!	300.00	---	---
222043	18, Facit #17b (Print 2: Light lilac) Mint F-VF. This printing is the scarcest in mint condition: Facit 2006 value SEK 1500 = \$210! Fresh and attractive; seldom offered.	170.00	---	---

237314	24 [1896 5 aur Numeral, perforation 12.75] NH VF/F-VF 4-block (sheet position 63-64/73-74). Wonderfully fresh.	58.00	---
237308	24 varieties: AFA 1997 Iceland Specialized #13B with all four* of the AFA-listed plate varieties [1896 5 aur Numeral, perforation 12.75] NH F-VF/Fine upper left corner margin 25-block (quarter sheet) containing the four* of the catalog-listed varieties. Almost all of the Numeral stamps were printed in four quarters (four times into the press!) with a 25-subject plate, thus this block shows all 25 cliché types/varieties. The four varieties are (per AFA): "x" Sheet Position 1 "Dent in upper frame line, cut off upper right corner, dent in lower frame"; "z" Sheet Position 32 "Left frame line bends inward at top and bottom"; "æ" Sheet Position 34 "Cut off lower left corner, upper left corner dented on left side"; and "ø" Sheet Position 33 "Short right leg of A of ISLAND". *For the 5 aur stamps, AFA also lists a variety "y" (right and left frame lines bend inward), but I have not been able to locate this variety in the perforation 12.75 stamps; it is likely that the cliché was replaced. AFA values the varieties at 4 to 13 times the normal value. However, it is very unusual to obtain all four varieties in one block (and those values are over 15 years old). Very fresh and attractive with strong perforations. Current Facit value for 25 NH stamps is SEK 2500 = US\$375 plus the 15-year-old AFA premium of DKK 1500 (\$270) for the varieties, for an approximate total of \$645+!	345.00	---
237311	24 plate variety "x" [1896 5 aur Numeral, perforation 12.75] NH F-VF single from sheet position 56 "Dent in upper frame line, cut off upper right corner, dent in lower frame". This was taken from a larger block, thus the position is confirmed. AFA values this variety at 4 times the normal value. Very fresh.	46.00	---
237312	24 plate varieties "z, ø, and æ" [1896 5 aur Numeral, perforation 12.75] NH F-VF lower left corner margin 8-block containing three of the four AFA-listed plate varieties (there is a fifth listed variety, but I think that listing was in error). The block is positions 81-84/91-94 with the three varieties in positions 82-83-84. Variety "z" in sheet position 82 "Left frame line bends inward at top and bottom"; "ø" in sheet position 83 "Short right leg of A of ISLAND"; and "æ" in sheet position 84 "Cut off lower left corner, upper left corner dented on left side". The 15-year-old AFA Iceland Specialized listing values the three varieties at a total of DKK 1500 = US\$270, plus the other five stamps sell for a total of about \$70 in their respective centering. A very unusual block!	235.00	---
236541	28 [20 aur Blue Numeral, Perf 12.5, 1891 Green-Blue printing] Mint F-VF+ AFA-listed plate variety: AFA # 14Bz "upper left corner cut off and white spot before I of ISLAND". The printing plate consisted of 25 clichés, thus this variety is found four times in the sheet, in positions 22, 27, 72, 77. AFA Specialized 1997 value DKK 600 = US\$100 (8/2012) for mint hinged, but a plain Mint VF example now sells for \$70! Wonderful example.		95.00

Very fresh and attractive. AFA values normal overprinted stamps at one-quarter the value of unoverprinted stamps, thus the varieties are valued at a similar ratio; the AFA 1997 varieties value on unoverprinted stamps totals DKK 1600 = \$280, thus the 1997 equivalent on overprinted stamps is around \$70. Especially nice about such a sheet is that the four types of the I GILDI overprint (thickness of the zeros: thin-thin, thin-thick, thick-thin, thick-thick) is represented in TWO 4-STRIPS (positions 34-37 and 84-87) and TWO 4-BLOCKS (15-16/25-26 and 65-66/75-76). These highly significant 4-strips and 4-blocks containing all four overprint types have really only recently started to come to the attention of collectors. This was the only single-color "oval" issue for which the underlying stamps were printed in a single pass through the press, using a 100-subject plate (instead of a 25-subject plate, printed four times). Thus each of the underlying plate varieties only exist from one position in the sheet (making them scarcer than plate varieties from the 25-subject plates). The four varieties are (per AFA): "x" Sheet Position 17 "Defective R of POSTFRIM"; "y" Sheet Position 4		---	236331	54 varieties: AFA 1997 Specialized #28B PRINT 9, with all of the AFA-listed plate varieties (on underlying AFA #8B) [1902 "I GILDI" black overprint on 10 aur Numeral, perforation 12.75] NH F-VF lower left corner margin 25-block (quarter sheet) containing the varieties. They are all now fully documented for Printing 9 in the article in the Resource section of my website. On the unoverprinted stamps, AFA values the varieties at 2 to 3 times the normal value (this compares to 4 to 13 times on the 5 aur stamps, due to the higher value to start with -- a 4 to 6 times multiple is more appropriate on the lower-value 10 aur overprinted stamps). 238709	152 [1930 3 aur (Parliament Building) Parliament]. OFFSET PRINT of Foreground. Mint F-VF+ centered, but without gum and with one rounded corner perf. Seldom-seen type of variety from Iceland.	---	---	24.00
238711	158 IMPERFORATE plus WHITE DOT variety, Facit #179v Imperf [1930 25 aur (Vikings Carrying Log) Parliament]. NH VF example with large margins. White dot below left "25" variety listed by all the specialized catalogs. While the catalogs downplay the scarcity and value of any of the 1930 Parliament imperforate stamps, they are much, much scarcer and more valuable than the catalogs suggest. While normal perforated sets can be easily had at any time if you have the money, the imperforates are really quite difficult to obtain. Imperforate examples with varieties are even scarcer.	75.00	---	---

236561	205 [1938 35 aur Geyser] Used VF 4-block with neat, central 1946 cancellation (still within normal period of use). Nice, well-centered blocks are unusual.	---	---	8.00

237975	207 Thin Paper (Facit #231v) [1940 45 aur Geyser] NH Superb / VF / F-VF full sheet of 50. Folded once vertically in the center. Plate #1 in the lower left corner and printer imprint at bottom center. This issue had three printings: 1940 on thick paper; 1941 on thin paper (this example); and 1942 on thick paper. The two thick paper printings were 300,000 each, while this thin paper printing was only 200,000 stamps. The Facit value for NH thin paper is four times that of the thick paper (thus one cannot just go by the Scott value). NH VF singles sell for \$9.25 (\$462.50 for the sheet). Priced far below the break-up value!	235.00	---	---

237972	209-11 [1938 University of Reykjavik set] NH VF / Superb 4-block set. Hard to find nicely centered. Priced just below the NH VF break-up value! Very pretty and wonderfully fresh.	159.00	---	---
237962	212 [1939 5 (aur) Surcharge on 35 aur 1935 Jochumsson] NH VF Group of two stamps showing excess black surcharge ink (which is unusual on these), probably from spacers in the surcharge plate rising up. One of the excess marks looks like an "8" in the left margin. Not a constant type of variety, but interesting on this issue. NH VF stamps are normally \$2.50 each.	8.00	---	---
237964	212 [1939 5 (aur) Surcharge on 35 aur 1935 Jochumsson] NH VF / Superb upper right 25-block (quarter sheet). This surcharged issue is known for the "35" (the "3" not covered by the surcharge) and the "55" variety (the "5" not covered by the surcharge). [To qualify, the underlying numeral must be completely clear of the surcharge.] These varieties can occur as a result of the surcharge of the whole sheet being shifted. However, as this block demonstrates, certain surcharge positions are not aligned with other positions in the sheet; some of the underlying numerals are more and less exposed than others in the rows above and below. Not "scarce" (though large mint blocks are not often offered), but quite interesting. NH VF stamps are normally \$2.50 each. Priced below the \$62.50 break-up value.	48.00	---	---

This is the most commonly found Orlof overprinted stamp, however, well centered examples are scarce. The underlying stamp exists with three perforation types, logically however, the only overprinted version recorded is the last one printed. Theoretically other perforations could exist.	38.00	---	---
236805	Orlof 10 aur Overprint on Scott #221 (Facit #245C2) [10 aur green Fish, comb perf 14x14 thin tooth at top] Used F-VF with neat manuscript cancellation. As of 12/2012, this is only the third used example (and the only manuscript canceled) I have had in 39 years. Even though the 12 aur only has one perforation type (thus it proves the visual appearance of the type) it is nice to have a block because on these issues the perforation difference is most easily seen in a block.	4.00	---	---
236808	Orlof 20 aur Overprint on Scott #224 (Facit #248C2) [25 aur red Fish, comb perf 14x14 thin tooth at top] Used VF with neat violet hand-tamped cancel. The underlying stamp exists with three perforation types, logically however, the only overprinted version recorded is the last one

238147	438 [1972 250 kr Herdubreid Mountain] Imperforate PLATE PROOF in Very Dark Blue. All engraved portions are present (lithographed areas are not). Appears to be final design; probably made to check that the impressions laid down from the transfer roll to the plate cylinder were all successful. The proof impression is on uncoated, un-gummed, grayish-white paper instead of the high-white coated paper of the stamp issue. The ink seems to have soaked in more and/or the pressure was turned up (to better show plate defects if there were any), thus the impression is heavier/darker. Bottom marginal 4-block with printer notes in margin; left vertical pair with vertical crease (such is not unusual as sheets were folded when being placed into the printing company filing system). I have seen a single of a similar (but apparently not identical) proof offered by a dealer at \$150. That is probably quite cheap, but this 4-block is priced very even more reasonably. Accompanied by an issued stamp for comparison.395.00	---	---	---

The official stamp and a couple of the 10 kr stamps are damaged, however, the official stamp is rare on any sort of cover (2011 Facit value SEK 9000 on cover) and the 10 kr stamps are also scarce on cover (2011 Facit SEK 1200). Even the pink "V" insured label is seldom seen. Furthermore, it is extremely rare to find a cover or piece bearing any combination of official and regular stamps. If this were a full cover, or at least a full parcel wrapping, it would easily sell for more than \$2000, however, I very much doubt that such an item exists. 236594	1 [1873 2 skilling] Mint, without gum, Average centering, but with two rounded corner perforations and light marginal crease (not obvious at all). Facit 2012 Mint value is SEK 9500 = US\$1425 [09/2012]. A reasonable looking example at a great price.		145.00	
231022	1 Used space filler with various defects, but genuine and proper cancellation.		125.00	
236573	2 [1873 4 skilling Perf 14 x 13.5] NEVER HINGED, original gum, but with Average centering (perforations just barely touch the design). One shorter perf. NH is very scarce on this stamp. Facit 2012 NH value is SEK 4000 = US\$600 [09/2012].		225.00	
236595	2 [1873 4 skilling Perf 14 x 13.5] Used F-VF+ centered, with neat sans-serif (REYKJ)AVIK cancellation. Cancellations types of this style can be used in period or after period, however, there is not enough of the cancel present to see the usual indicators to determine period of use. Thus I must assume that this example was used after the proper period and have priced it as such. Despite this, the stamp is an extremely nice looking example with unusually intense, deep color. Facit 2012 value for in-period use is SEK 9000 = US\$1350 or after-period SEK 950 = US\$140 [09/2012], however, after-period examples seldom look this nice.		160.00

221945	3 Used with Average centering and a couple faults (tiny sealed tear, perfs improved on left). It bears both a pen cancel (unusual) and a small portion of what appears to be a correct serif-style cancel. It is a real #3 used in the proper time period. Facit 2006 value for Used Fine is SEK 10,000 = \$1400!		188.00

237980	132 [1921 "20 aur" Surcharge on 25 aur Christian IX] NH VF 8-block containing sheet positions 21-24 / 31-34. The handbook on this issue (Regeling) lists only four frame flaws on the underlying 25 aur stamp -- this block contains two of them! One of the varieties is "white spot in "h" of "Chr" in position 31 (and 81) and another is colored line to right of "N" of "ISLAND" in position 24 (and 74). This issue was printed by two impressions of a 50-subject plate, thus each variety usually appears twice in the sheet (though on this stamp, the other two recorded varieties each exist only in one position, 15 and 48). Medallion varieties of this stamp are only recorded in positions 7 and 73. The sheet positions of this block are also confirmed because it was taken out of a larger marginal block. Very bright and attractive; extremely fresh. Even ordinary nice NH singles are difficult to find. The break-up value as normal NH VF stamps is \$272!	270.00	---	---	140	F-VF	---	---	385.00	153	VF	5.90	3.95	12.00

237964	212 [1939 5 (aur) Surcharge on 35 aur 1935 Jochumsson] NH VF / Superb upper right 25-block (quarter sheet). This surcharged issue is known for the "35" (the "3" not covered by the surcharge) and the "55" variety (the "5" not covered by the surcharge). [To qualify, the underlying numeral must be completely clear of the surcharge.] These varieties can occur as a result of the surcharge of the whole sheet being shifted. However, as this block demonstrates, certain surcharge positions are not aligned with other positions in the sheet; some of the underlying numerals are more and less exposed than others in the rows above and below. Not "scarce" (though large mint blocks are not often offered), but quite interesting. NH VF stamps are normally \$2.50 each. 200643	1970s Postal Seal. NH VF single. A remarkable, elegant, and colorful CIRCLE-IN-SQUARE seal picturing the National Coat of Arms and the post office emblem. The text includes REYKJAVIK, thus we assume that is where it was normally used. It was printed in the same manner as stamps, on stamp paper, by the famous stamp printer De La Rue! The date of issue is not known to me, but I believe it to be from the 1970s. It has probably been used as a letter seal on official correspondence and/or as seal to repair damaged mail.	19.00

NH VF complete sheet of 50, sensibly folded in half. The individual seals sell for \$19 each (total \$950)! A terrific deal at a very low price. Superb	490.00
	The circle-in-square ca.1970s Official Postal Seal was issued in sheets of five (10 wide by 5 high). Printed by De La Rue in the same manner as regular stamps, the plate number is in the lower left corner of the sheet and the DLR imprint is in the lower right.	

Conservation Stamps

Duck Stamps

Icelandic Duck Stamps were issued in 1991-1995 by a national conservation organization to raise funds to preserve and maintain duck and goose habitats, very much like the U.S. Duck Stamps. Each stamp is inscribed (shown here in "English" characters) on the left "NATTURUVERND" and on the right "FRIDLYSINGARSJODUR", except for 1991 which states "FUGLAR OG VOTLENDI" on the right. Each year bears a denomination, except that the 1992 stamps were originally, accidentally printed without denomination -- the stamps were issued and then recalled; a denomination was added, printed by letterpress, and then reissued. Not all the stamps without denomination were successfully recalled, thus they are available, but scarcer. All the years were issued in sheets of 8 stamps and are often collected both in singles and sheets.

Date Blocks 1975-1985

The engraved stamps issued 1975-85 were apparently printed by the same printer as engraved French stamps and thus have the same avidly-collected corner margin date blocks as engraved French stamps. These date blocks are listed by the Facit Catalog, though no reference that I have seen lists the known dates. Where multiple dates are known to exist (the website listing includes all dates I have recorded), it is completely reasonable to think that some dates are much scarcer than others; some are probably quite scarce. Printings of the stamps in this era continued until at least March 1991 (Scott #544, Facit #605). Significantly different print dates sometimes show differences in paper color and when viewed under long-wave UV light. Only one corner of the sheet bears the date. The only exception to the type of date blocks in the 1975-85 period is Scott #503 which appears to have had a different printer; it does have a date, but of a different style. I am always interested in buying date blocks. Date blocks are seldom offered. I often have more items in stock than are on the website; please email if you are seeking Icelandic blocks of any type.

Booklets

All are NH VF in fresh condition and completely intact, as issued.

Some Icelandic booklets contain individual stamps that are the same as individual stamps from sheets, however the panes in the booklets were specially printed for booklets and are thus in formats that could not have come from the regular sheet stamps.

VF	13.00	9.50	202887	Scott #974b booklet/souvenir sheet (First Printing), special booklet containing Fish souvenir sheet. : 2002 Fish booklet/souvenir sheet issue The souvenir sheet in this booklet is a "major number in the catalogs" and was only issued in this booklet. I predict that it will become quite scarce. The First Printing of 5,000 booklets (out of a total of 10,000) sold out quickly and is scarce. First Printing: the binding "tape" very rough and a little shiny; the rouletting between the souvenir sheet and the binding tab is very fine / frequent, like the Third Printing. I predict that it will become quite scarce. This Second Printing was only of 3,000 booklets (out of 10,000 total); the Second Printing was not announced and seems to have mostly been sold to tourists, not to stamp collectors. Second Printing: the binding is "tape" smooth (still a little roughness), like the Third Printing; the rouletting between the souvenir sheet and the binding tab is coarser / less frequent than either the First or Third Printings. I predict that it will become quite scarce. This Third Printing was only of 2,000 booklets (out of 10,000 total); the Third Printing was not announced and seems to have mostly been sold to tourists, not to stamp collectors. Third Printing: the binding "tape" is smooth (still some roughness), like the Second Printing; the rouletting between the souvenir sheet and the binding tab is very fine / frequent, like the First Printing. Thus the booklet stamps could not have come from the regular sheets of ten stamps since they are printed one denomination per sheet. VF	15.00	17.00
202871	Facit #H52, Scott #924b and 924c special panes of 10. : 2000 Christmas Goblins booklet issue A very interesting issue because these stamps (#924a) are a different perforation and size than the regular sheet stamp issue. Additionally, the #924c pane of 6 is three stamps high, while the regular sheet stamps (sheets of 10) are only two stamps high. I predict that this will become a scarce booklet as most were used for postage and many will be broken to obtain #924a singles. VF	16.00	---	202889	Facit #H65, special pane of 10. : 2002 Christmas 45.00 value booklet issue This vertical pane of 10 stamps was specially printed for the booklet, with margins all around, and thus could not have come from the regular horizontally oriented sheet of ten stamps. The straight-edge stamps (four Facit BB pairs and one corner-cut Facit DD pair) are considered completely different stamps from the sheet stamps and will be in all European-made albums. I expect this booklet to quickly increase in price; most Christmas booklets sell out very quickly (for normal use mailing cards) and this will sell out long before most collectors realize that they need two pairs (thus the entire booklet) for their album. Proofs

Item #	Description	Price
238147	438 [1972 250 kr Herdubreid Mountain] Imperforate PLATE PROOF in Very Dark Blue. All engraved portions are present (lithographed areas are not). Appears to be final design; probably made to check that the impressions laid down from the transfer roll to the plate cylinder were all successful. The proof impression is on uncoated, un-gummed, grayish-white paper instead of the high-white coated paper of the stamp issue. The ink seems to have soaked in more and/or the pressure was turned up (to better show plate defects if there were any), thus the impression is heavier/darker. Bottom marginal 4-block with printer notes in margin; left vertical pair with vertical crease (such is not unusual as sheets were folded when being placed into the printing company filing system). I have seen a single of a similar (but apparently not identical) proof offered by a dealer at \$150. That is probably quite cheap, but this 4-block is priced very even more reasonably. Accompanied by an issued stamp for comparison.	395.00

Forgeries

Classic Issues

Virtually all of the complete (i.e. fake in all aspects, not just a fake overprint) forgeries of Ice-

landic stamps were created more than 100 years ago by stamp "dealers" / "reproduction printers" / "packet makers" who were more interested in supplying quantities of inexpensive examples of stamps from unusual countries than in fooling anybody. Collections formed before 1920 often include such forgeries; sometimes they can be worth more than the real stamps. The literature describing Icelandic forgeries is very sparse; some references seem to just repeat previous sources and may not be correct. The Spiro Brothers (in Hamburg, Germany) were active from approximately 1864 to 1880, making forgeries of about 500 different stamps, from many different countries. The information I have encountered has usually assigned classic Icelandic forgeries to the Spiro Brothers. Spiro forgeries are almost always rather crude, often on coarse paper, and are virtually always "canceled". However, I have seen forgeries in somewhat varying styles that suggest that they are the work of more than one forger. Illustrations of the "album" of the famous forger Fournier (operated 1904 to about 1914) included some Icelandic forgeries, however, based on my general (but yet unproven to my satisfaction) information, the rather crude Icelandic forgeries are probably the work of the Spiro Brothers; I have seen references claiming that Fournier did sell Spiro forgeries alongside his own. Forgeries created by Fournier tend to be very sophisticated and "dangerous". (To those that think repairing and regumming are a modern practice, Fournier operated a well-staffed workshop offering these services!)

Customs Cancels - Tollur

From August 1924 through 30 November 1938, "Tollur" cancellations were used to cancel postage stamps that were used to pay customs / import duties / taxes. Because the duty amounts collected were often large, Tollur cancellations are more common on high denomination stamps than low denomination stamps. Due to patterns of use and issue dates of the stamps, many stamps are significantly scarcer with Tollur cancels than with postal cancels.

Well-struck, well-centered Tollur cancellations are unusual, and especially on well-centered stamps -- such items command significant premiums even on otherwise common stamps. Tollur-canceled blocks of some stamp issues range from scarce to rare, especially in undamaged condition.

This is just a sampling of unusual and high-quality items from my stock. Want lists are welcome for all stamps that exist with Tollur cancellations.

235076	Tollur Piece of Document: 142 Fine 3-strip and 186 VF pair with Tollur cancellations; 174 F-VF with postal cancellation (date unclear). On back of piece of import invoice, showing the normal practice that several stamps will have a Tollur cancellation and one stamp always has a dated postal cancellation. Such pieces are extremely scarce as they were usually destroyed to obtain the postal-canceled stamp. Even though the individual Tollur-canceled stamps on this piece total only around \$50, on the piece they have much greater value. I have only been able to offer such pieces four or five times in the last 38 years!	190.00

Customs Cancels - Sewing Machine

Some of the Icelandic postage stamps in current use between 15 April 1920 and 31 December 1921 (which includes some of the Two Kings stamps issued as early as 1907 -- it is primarily the Two Kings stamps that are found), are known bearing postal-type cancellations and additional **"sewing machine and needle" cancellations**. Such stamps were used as revenue stamps, to pay import duties on packages coming in through the mail, as precursors to Tollur-canceled stamps. They are very scarce because most were discarded by collectors as being "damaged". Most uses are of high-value stamps (as is true of Tollur cancels as well), thus sewing machine cancels on low-value stamps are extremely scarce. One can find

examples of sewing machine cancels as either randomly positioned holes (usually canceled before 29 June 1920) or in straight lines (usually from 29 June 1920 onward, when the post office acquired a sewing machine to do the canceling). Very often the holes are not visible from the front of the stamp. See the **article in the Resources section** for more information.

Vacation Savings Stamps - Orlof Overprints

Extensive information and images of all the overprinted stamps is available on the website, including on the Orlof Overprints stamp listing page and an article in the Resources section. Only 3 of the 19 overprinted stamps are seen with any frequency; virtually all the others are extremely scarce or rare. Though the listings below of *available* items may not include all that you are seeking, please send your want list so that you will be on the waiting list when I can next offer the scarcer stamps.

I am interested in buying these overprints and all Icelandic revenue material.

235998	Orlof Book: Complete 1943-44 ORLOFS-BÓK, serial numbered "No 09860". Contains 19 OVERPRINTED STAMPS: 10x 1 krona on 60 aur Gulfoss Waterfall; 4x 10 aur on 10 aur Fish (green); 4x 20 aur on 25 aur Fish (red); and 1x 50 aur on 25 aur Christian X (red). The outer cover of the book is worn and with an ink stain, but the interior pages are all in excellent condition. The stamps are mostly VF with a couple F-VF; under magnification I do NOT see any defects on the stamps. The total of the individual selling prices of the stamps is approximately \$3400!!!! The pages of the book include 9 pages of Orlof law and regulations (it would be great if somebody would volunteer to translate this). My understanding is that THIS 1943-44 BOOK IS THE ONLY BOOK IN WHICH THE OVERPRINTED STAMPS WERE USED. In 38 years I do not recall ever seeing an-

The book is rare and contains \$3400 in intrinsic value of the stamps (which could be removed and easily sold); it should sell for much more than \$3400, however, to keep the book intact I offer it for less than the value of the stamps.	2950.00

235913	Iceland #117 [1920 15 aur Christian X, still in active use at the time] (F-VF) on 7 July 1934 Icelandic picture post card (real photo of Leif Ericsson statue) mailed aboard and WITHIN the SWEDISH cruise ship M/S Kungsholm, as it crossed the Arctic Circle, presumably after most recently having visited Iceland. Small spot near top. Canceled and handstamped with the seemingly full range (five different) of the official postal cancellations and handstamps available in the ship post office. Though I have handled hundreds of Kungsholm covers mailed at sea around the world, this is the first in 38 years that I can recall being mailed WITHIN the ship and probably one of less than five that have borne Icelandic stamps or markings.	150.00

Ziehr Stamp Cards

Item #	Description	Price
	Ziehr stamp cards were originally issued 1895-1914 by Ottmar Zieher an art dealer and post card publisher in Munich (Bavaria) Germany. The cards were first issued with embossed simulated perforations. Multiple printings over the years have different color shades, etc.; carefully compare for possible differences. The cards were reprinted ca.1920, but as the embossing plates had been melted down during WWI, the reprints do not have the embossed simulated perforations (they are still very much sought after). Used cards, especially used from the country whose stamps are pictured, are very scarce.

237906	Postal Card (Double) #21 Used VF from BERGEN 11 September 1885 to København with 15 Sept receivers (address was corrected). Intact double card correctly used in-period for the correct Nordic (except Sweden) rate to Denmark. The reply card was addressed by the sender, but the recipient never used the reply portion. After postal card #1, this is one of the scarcest used Norwegian postal cards (on par with the similar 6 øre brown double card). Seldom offered, especially not in nice quality used in the proper period. From the Norman Gary collection and previously from a 1984 Danam auction. It might be another 30 years before I can offer such an example!	900.00

233184	1 Medium Blue on Crisp Thin Paper. Three enormous margins and on small margin. Unusually nice, light cancel nicely shows the design.	150.00	---	---	---
238229	1 Medium Blue on Thin Paper. VF++ example with four large to enormous margins and incredibly crisp MOL(DE) town cancellation. A beautiful example.	---	---	---	175.00
238230	1 Dark Blue on Thin Paper. VF+ example with four large, even margins and neat #25 (Bergen) numeral cancellation. A very attractive example with great color.	---	---	---	175.00
238299	1 Used VF (four even, medium margins) Medium Blue, very thin paper. Plate position B8 (rounded upper right corner and elongated lower right leaf). This may be an early stage of the lower right leaf elongation; this shows the leaf plus a separate white sliver. Position B8 is also interesting because it is one of the positions included in the so-called "manuscript retouches" mentioned in the 1955 monograph, etc., but which were later discredited. For the full story, see Norway Number One, Second Edition (pages 50-51). Neat, virtually complete 12-bar (slightly scarcer) cancellation. Very attractive.	---	---	---	145.00
238300	1 Used VF++ (four large to huge margins) Dark Blue, thin paper. Plate position B5 (white line above top left ornament, etc.). Neat, complete 11-bar cancellation. Very attractive.	---	---	---	165.00
238301	1 Used VF+ appearance (four large to huge margins) Greenish Blue, with partial bar cancellation. The paper is a bit odd with variable thickness, probably caused by very thin paper combined with a very thin partial adhesion that fails to soak off. At first glance it gives the impression of having a thin, but under magnification it is clear that the paper surface has not been thinned. A nice looking example.	---	---	---	80.00
238302	1 Used VF (three ample and one large margins) Light Blue, thin paper. Neat, nearly-complete #42 (Christiania) numeral cancellation. Plate position D3 (upper right curl of top left ornament quite thick and a blob); variety well away from the cancellation. Very attractive example.	---	---	---	145.00
238304	1 Used Fine (three ample margins, but touching at top) Medium Blue, thin paper. Superb SANDEFJORD 1 June 1856 town cancellation.

	Wonderful cancellation.	---	---	---	125.00
238305	1 Used Fine (two very large margins, one small margin, but touching at top) Light Blue, thin paper. Probably plate position A11. Superb KRAGERO 17 March 1856 town cancellation. Beautiful cancellation.	---	---	---	195.00
238306	1 Used Fine+ (one large, one ample, and two small margins) Medium Blue, very thin paper. Well centered TRONDHJEM 20 January 1856 town cancellation. Nice example.	---	---	---	140.00
234412	3 [1857 3 sk Oscar] Used VF+ with neat postmark. An unusually fresh and clean example with the correct lilac-gray color.	110.00	---	---	---
231894	Partial BLUE "...UND" town cancellation and very faint black postmark on Scott #5 with Superb centering. Colored cancellations are scarce on the Oscar stamps other than the 4 skilling. Even ignoring the cancellation, this is a very pretty stamp.	68.00	---	---	---
231895	Grid cancellation, showing 9 of the bars but not complete, on Scott #5 F-VF+. Nice face-free strike on attractive stamp. Facit 2008 value from SEK 1000 = \$170 (6/08). Quite scarce and very attractive!	135.00	---	---	---
237364	5 [1856 8 skilling Oscar] Used Fine with full BERGEN 24 January 1859 cancellation. Very attractive; very reasonable price.	---	---	---	45.00
234413	6 [1863 2 sk Coat of Arms] Used VF horizontal PAIR with neat HAMAR postmarks. Wonderfully rich color and freshness. This issue is scarce in multiples; none of the catalogs value pairs and pairs are not "rare", but to give some perspective, only 7 used 3-strips and only 2 used blocks have been recorded. This stamp is quite difficult to find, even as singles, with such nice color, centering, and freshness. If divided, these stamps would quickly sell for a total of at least \$500, but as a pair it is much, much scarcer.	600.00	---	---	---
234478	8 PAIR (Plate II, Type VIII and VII) Mint with F-VF+ centering, but with only small trace of gum remaining. Each stamp has a thin and the left stamp has a vertical crease on the right frame line that is very hard to see without 10x magnification. Otherwise would sell for around \$600 as two singles. Wonderfully bright color and overall fresh appearance.	135.00	---	---	---
234487	10 Mint Superb 4-BLOCK in wonderfully fresh condition. Blocks are seldom seen with such nice centering!	240.00	---	---	---
237562	10 [1863 24 skilling Lion] Mint with VF+ centering and great color. Has major plate variety and retouch: Break in left frame line and background by RK, BACKGROUND OBVIOUSLY RETOUCHE in that area. Cliche Type 4. Though the illustration is not great and there is no direct pointer from the illustration to the text, the 1963 Handbook appears to show this retouch as being Plate III, Position 20. It is surprising that such an obvious variety and retouch is not include in the NK listing of varieties on this stamp. There were eight plate settings of this stamp; this retouch only exists in one position of one setting. Extremely scarce.	---	---	---	100.00
234489	10 Deep Red Brown. Mint F-VF with unusually deep, intense color. The scarcest of the colors on this stamp.	75.00	---	---	---
234491	10 Mint F-VF. Fresh and attractive.	43.00	---	---	---

	period. Unfortunately, this beautiful stamp has a hint of a thin, however, the appearance is absolutely wonderful with perfect centering, deep rich Reddish Brown (the scarcest) color, and perfect cancellation. Without the hint of a thin, this would easily command \$500, if not more.	125.00	---	---	---
234486	10 Used VF with VF DRAMMEN 1890s two-ring cancellation, used in the later period. A very attractive example; this stamp is scarce used in such nice condition, even from the later period.	65.00	---	---	---
234363	10 [1863 24 skilling Coat of Arms] Used F-VF on large piece of cover (including part of cover backside) with May 1872 cancellation. Red French "PD" marking and French postmarks on backside indicate that this was sent to France. Though the full cover would be rare and costly, this is priced at only the value of the properly used stamp. Very attractive.	130.00	---	---	---
231889	12 Used VF+ with neat, clearly-dated 3 November 1869 cancellation (in the proper time period) and remarkably deep, strong color. One short perf, as is typical of this stamp. An exceptional example of a stamp that is usually poorly centered, has washed-out color, and is used later. Outstanding! 2008 Facit value for "top quality" is SEK 1200 = \$205 (6/08).	65.00	---	---	---
233189	12 Used with Superb centering and with proper 23 November 1871 CHRISTIANIA cancellation. One shortish perf, but quite scarce so well centered and with nice cancellation.	60.00	---	---	---
237579	13 Red Violet Clear Print, Facit #31b, NK #13a [1868 "3 SKILL 3" Lion Coat of Arms] Used Average-Fine centered example of the very scarce Red Violet color with light, fully dated 1871 cancellation. Very fresh appearance with intense color. This stamp is much harder to find than the catalog values suggest. A VF example would be about \$350!	---	---	---	145.00
234506	15 Violetish Carmine. Used F-VF with one shorter corner perf. Very attractive.	40.00	---	---	---
234508	15a (Facit #15b: Rose, Clear Print) Used Superbly centered and with light cancel, but a couple missing perfs and faint crease (not visible from front). This is probably the nicest centered example I have ever had! Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	160.00	---	---	---
234509	15a (Facit #15b: Rose, Clear Print) Used Fine centered, but a couple faint thins. Small orange mark from a postal rate marking on a foreign letter. Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	115.00	---	---	---
231893	15a (Facit #15b: Rose, Clear Print) Used Average centered example with unusually light cancel. A pretty example of a very scarce stamp, at a terrific price! Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	175.00	---	---	---
234507	15a (Facit #15b: Rose, Clear Print) Used Average/Fine centered example with light cancel. A nice example of a very scarce stamp, at a great price! Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	190.00	---	---	---
234511	16a (Blue Green) Used with just Fine centering and light cancellation (but proper type for time period). Wonderful color. Great price. Facit 2010 value SEK 600 = \$84 (9/10).	44.00	---	---	---

234514	17 (Ultramarine) Used with VF+ centering and light, but complete BERGEN 1871 cancellation (proper type for the period), giving the overall appearance of Superb. A remarkably nice example!	80.00					with pen-cross cancellation. This color is very scarce, undervalued in all the catalogs. Furthermore, though the catalogs give a 1.5 to 2 times multiple for the Type 9 (without period after FRIM) stamps, they are in much, much greater demand than that multiple suggests. Lower right corner perf rounded, but easily compensated for by an obvious plate variety "lower right frame line corner open". Very scarce stamp in several respects.	125.00					233208	37, Facit #50a NUT BROWN, Vertical Watermark [1891 2 øre 20 mm Posthorn] Used Superb, light cancellation. Wonderful example of this rare color.	90.00			
237560	17b (Gray Blue) [1872 2 skilling Posthorn, Gray Blue with White Gum] Mint, hinge remnant, with Superb centering. Rough perforation variety that is seldom seen.			22.00		236462	24 Major Variety, Facit #25, NK 35 [1879 5 øre Shaded Posthorn with SMALL 5 in oval band, With Period] Used with Fine centering and light cancellation, but small faults only seen from the backside. Attractive.				19.00		233223	37, Facit #50a, NUT BROWN [1891 2 øre 20 mm Posthorn] Used VF 5-strip with "KONGSVINGER POSTEXP. B" railway cancellations. Facit 2009 lists 4-blocks at SEK 5000 = \$700 [9/09]; larger units are even scarcer, but strips are probably more often seen than blocks. This is a very scarce stamp even as singles and has a break-up value of about \$375 [9/09].				475.00
234520	18a Carmine on Yellowish Paper. Worn Plate, Faint Print. Used with F-VF with neat cancellation. Very unusual example showing high degree of plate wear.	22.00				236463	24 Major Variety, Facit #25, NK 35 [1879 5 øre Shaded Posthorn with SMALL 5 in oval band, With Period] Used with VF centering and light cancellation, but with crease and repair, rounded corner perf. Looks nice from front. Nice Strong Ultramarine color shade. Otherwise, VF would be around \$130!				12.00		236656	45, Facit/NK #55 [1886 25 øre 20 mm Posthorn] Used VF with unlisted plate variety: "white line parallel to right side of N of NORGE". This interesting variety really should be listed by NK. Neat November 1890 cancellation well away from the variety area. Very pretty.				45.00
237561	19 [1872 4 skilling Posthorn, Light Violet, Thin White Paper] Mint with Superb centering and enormous margins for this issue. Though a common stamp, examples this nice are seldom offered.			25.00		237576	29 Deep Blue Green, Clean Print [1878 35 øre Shaded Posthorn] Used with Superb centering but extremely faint, nearly invisible, ironed out corner crease. With Superb 2-ring (no bridge) CHRISTIANIA 6 October 1887 cancellation. This dark color with a clean print is not listed in the catalogs; it is much scarcer than the typical range of color shades. As beautiful an example as one could hope to find.				90.00		234556	45, Facit/NK #55 [1886 25 øre 20 mm Posthorn] Used F-VF horizontal PAIR with neat cancellations. One stamp with hint of thin spot on two perfs, but this is a very scarce multiple. While a pair is certainly not as rare as a block, the Facit value for a used 4-block is 55 times that of a single! Scarce!	95.00			
233192	19 (Facit #19b, NK #19Id; per Enger) Used VF with very nice, delicate color and neat, clear, proper-period 1874 cancellation.	90.00				237578	(29a) Sea Green, Facit #31c, NK #29a [1878 35 øre Shaded Posthorn] Used Average centered example of the scarce Sea Green color. Well centered and complete CHRISTIANIA 9 March 1893 cancellation. (Used VF would sell for around \$300.)				125.00		233227	47a Central Print, Facit/NK #59 [1895 1 øre Posthorn, Perf 13.5 x 12.5, Central Printing] Used VF/F-VF centered 4-block with Superb KISTRAND 2-ring 1903 town cancellation. One stamp with crease and small tear, but not noticeable from front. Very pretty and very scarce block.				95.00
234522	19, Facit #19c Violet on Thin White Paper. Used VF+ with 1873 (proper period) cancellation. Unusually fresh, attractive, and well centered. Scarce with such nice centering.	90.00				234542	30 Used VF+ with neat cancellation, very strong color, and a sharp print. Unusually attractive example.	22.00					234565	(53) Facit #58, NK #58A [1893 20 øre Posthorn C-Print Perf 14.5 x 13.5] Used Superb with light cancellation. Outstanding quality.				19.00
234523	19, Facit #19ab Dull Violet on Grayish Paper. Used Fine+ with 1876 (proper period) cancellation. This is the scarcest of the Facit listed colors with a 2010 value of SEK 2000 = \$280 (9/10). Attractive example.	185.00				237397	41 [1883 12 øre Olive Green 21 mm Posthorn] Used Superb with very neat and clear 1884 cancellation, exceptional centering, excellent perforations, and strong color. However, this beauty has a shallow thin that is hard to see, and which some might not notice. One could search for many years and not find a nicer looking example! Otherwise \$600+ for this quality!				345.00		234575	57a C-Print Facit/NK #64 with Perforation Error 3 [1894 50 øre Posthorn, Central Printing, Perforation 13.5 x 12.5] Used F-VF nicely showing perf error 3. Nice confirming 1896 KABELVAAG two-ring cancellation.45.00				
236711	19a, Facit #19aa, NK #19Ia Dark Violet on Thin Grayish/Bluish Paper. [1872 4 skilling Posthorn] Used F-VF+ with 1873 (proper period) cancellation. Remarkably intense color. Facit 2013 value SEK 1500 = US\$225 [10/2012] for normal quality. This example has much nicer, centering, color, and appearance than is usually seen for this color.				225.00	237586	41 [1883 12 øre Green] Used Superb looking example with very neat cancellation, but with a couple faults so small that 99% of people would not find them: Two very tiny thin spots near center and another in bottom margin, shorter perforation tooth where cancellation crosses bottom margin, and upper right corner tooth has been creased. This stamp looks terrific -- much, much better than most examples in the market. Without the insignificant problems, this would easily fetch \$600+.				345.00		234560	49a K-Print. [1896 3 øre Posthorn, Knudsen Printing, Perf 13.5 x 12.5] Used VF+ with unusually rough perforation variety. Very nice.				40.00

Very attractive example!	95.00				234422	35, Facit #48, NK 49 Plate Variety [1891 1 øre 20 mm Posthorn, Dark Olive Brown] Used Superb with light cancellation and major, but unlisted plate variety: Upper and lower right frame corners are open. (NK lists a similar variety for the upper left corner at 3 times the price of the normal stamp).	65.00					233230	51, Facit #77 Type II [1899 10 øre Posthorn] Used F-VF 4-block with neat rectangular parcel cancels. 234537	21 Used F-VF with well-centered, nearly full, "(NORD)BANERNES POSTEXP II" later period RAILWAY cancellation (but still valid for postage). Beautiful example. Railway postmarks are seldom seen on the later-used skilling stamps. Very pretty.	65.00				233205	36 [1893 1 øre Light Brownish Gray 20 mm Posthorn] Used Superb with neat 1894 cancellation.	20.00					234570	56 [1900 35 øre Posthorn] Used VF+ with full KRISTIANIA cancellation. Excellent quality.				12.00

Bargain Stamps

These bargain-priced stamps are attractive, but most have hidden flaws. You can save a tremendous amount of money when you add such stamps to your collection. Each stamp is one of a kind, so please let me know if I may substitute a different example (that looks as good or better, for the same cost) if the stamp you order has sold. If you have any doubts, all are available for approval viewing. If you are seeking stamps of this quality and price level from any of the Scandinavian countries, just send along your want list -- I will be happy to send bargains on approval. Scott numbers have been used unless otherwise stated.

Item #	Description	Price	Mint	Used
238301	1 Used VF+ appearance (four large to huge margins) Greenish Blue, with partial bar cancellation. The paper is a bit odd with variable thickness, probably caused by very thin paper combined with a very thin partial adhesion that fails to soak off. At first glance it gives the impression of having a thin, but under magnification it is clear that the paper surface has not been thinned. A nice looking example.	80.00	---	---
231878	2 Used with Superb centering but very tiny tear between two perfs and tiny thin spot. Remarkably neat, light cancel and perfect centering. Seldom is such a pretty example offered for such a low price.	49.00	---	---
237893	2 [1857 2 sk Oscar] Used with Average (nearly Fine) centering, but NO faults. Wonderful complete LAURVIG 8 Jan 1862 cancellation and brilliant, fresh color.	69.00	---	---

Item #	Description	Price	Mint	Used
231879	3 Used F-VF+ with faded pen cancellation, thus the stamp looks virtually mint! Very pretty.	49.00	---	---
237894	3 [1857 3 sk Oscar] Used with VF+ centering and neat, well-centered #48 (Drammen) 3-ring cancellation, but a tiny bit of toning on two perforations. A pretty stamp.	39.00	---	---
231880	5 Used with VF centering and full, neat town cancellation, but faint thin spot. Near perfect centering.	13.00	---	---
237396	6 [1863 "2 SKILL" Coat of Arms] Used F-VF with neat 1867 cancellation, but with some blunted perfs on right near top. Strong color and overall quite attractive. Otherwise \$190!	65.00	---	---
231882	6 Used with Average centering and thin, but strong color. Normally \$75 for this centering and \$190 for F-VF!	39.00	---	---
231822	7 Used with Fine centering. A nice looking stamp, but with a small thin spot that some would not even notice. Otherwise would be around \$400! This stamp is missing from most collections.	125.00	---	---
234472	7 Used with F-VF centering, but with a few blunted perfs and small faults not visible from the front. A nice looking example at a great price. A key stamp missing from most collections.	90.00	---	---
234478	8 PAIR (Plate II, Type VIII and VII) Mint with F-VF+ centering, but with only small trace of gum remaining. Each stamp has a thin and the left stamp has a vertical crease on the right frame line that is very hard to see without 10x magnification. Otherwise would sell for around \$600 as two singles. Wonderfully bright color and overall fresh appearance.	135.00	---	---
231886	9 Used F-VF+ centered with VF+ centered THRONDEHEIM 1864 cancellation, but small thin spot. A very pretty stamp that would otherwise be \$90 with such a nice postmark!	25.00	---	---
234482	9 Bright Pink. Used with F-VF+ centering, but with a spot. This color is exceptionally strong and rich; seldom seen.	34.00	---	---
204810	10 Used F-VF centering with small thin spot. Neat pre-1880s style cancel, deep color. Normally \$125 for F-VF in proper period.	24.00	---	---
215336	10, Facit #10a Light Grayish Brown. Used Fine with thin. Somewhat unusual usage in 1877, after the currency change, but while still valid (and with single-ring cancel, still considered used in the correct period). (Facit 2005 value SEK 1100 = \$154.)	32.00	---	---
215337	10, Facit #10b Dark Brown (scarce color). Used with Superb centering and Superb 1865 LAURVIG cancellation, but with small tear in top margin above E of NORGE. (Facit 2005 value SEK 1300 = \$180 for normal quality; without the defect, a stamp of this appearance would easily fetch \$600!!)	60.00	---	---
215338	10, Facit #10c Dark Red Brown (scarcest color). Used F-VF with thin and couple short perfs, but still attractive. Used in 1880 after the currency change, but with early period type single ring cancellation. (Facit 2005 value SEK 1500 = \$210.)	29.00	---	---
234485	10 Used Superb with Superb DRAMMEN 1875 single-ring cancellation, used in the proper period. Unfortunately, this beautiful stamp has a hint of a thin, however, the appearance is absolutely wonderful with perfect centering, deep rich Reddish Brown (the scarcest) color, and perfect cancellation. Without the hint of a thin, this would easily command \$500, if not more.	125.00	---	---
234486	10 Used VF with VF DRAMMEN 1890s two-ring cancellation, used in the later period. A very attractive example; this stamp is scarce used in

233213	11 Used F-VF+, but small thin spot, with nice "X" pen manuscript cancellation. Very neat and attractive.	19.00	---	---
234494	11 Used with VF centering, but small thin spot. VF centering is scarce on this stamp. Otherwise would be \$70!	17.00	---	---
204813	12 Used Fine centered with crease. Unusual "X" pen cancel and very unusual dark brownish orange color.	11.00	---	---
234499	12 Used Average. Normal centering for this stamp. Used in proper period. Very nice color.	13.00	---	---
237579	13 Red Violet Clear Print, Facit #31b, NK #13a [1868 "3 SKILL 3" Lion Coat of Arms] Used Average-Fine centered example of the very scarce Red Violet color with light, fully dated 1871 cancellation. Very fresh appearance with intense color. This stamp is much harder to find than the catalog values suggest. A VF example would be about \$350!	---	---	145.00
234508	15a (Facit #15b: Rose, Clear Print) Used Superbly centered and with light cancel, but a couple missing perfs and faint crease (not visible from front). This is probably the nicest centered example I have ever had! Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	160.00	---	---
234509	15a (Facit #15b: Rose, Clear Print) Used Fine centered, but a couple faint thins. Small orange mark from a postal rate marking on a foreign letter. Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	115.00	---	---
231893	15a (Facit #15b: Rose, Clear Print) Used Average centered example with unusually light cancel. A pretty example of a very scarce stamp, at a terrific price! Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	175.00	---	---
234507	15a (Facit #15b: Rose, Clear Print) Used Average/Fine centered example with light cancel. A nice example of a very scarce stamp, at a great price! Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	190.00	---	---
234511	16a (Blue Green) Used with just Fine centering and light cancellation (but proper type for time period). Wonderful color. Great price. Facit 2010 value SEK 600 = \$84 (9/10).	44.00	---	---
234512	(16), Facit #16c, Deep Yellow Green. Used with Fine centering, but couple tiny tears. Proper cancel for time period. Wonderful color; this color is greatly underappreciated. Facit 2010 value SEK 400 = \$56 (9/10).	14.00	---	---
234517	17b (Gray Blue) Used with F-VF centering and heavy 1898 cancellation (later period, but still valid for postage). This was clearly postally used.	19.00	---	---
234525	19b, Facit #19a Brownish Violet on Thin Bluish Paper. Used Average with proper period cancellation. Tiny tear in bottom margin. Red mark in upper right corner from postal rate marking on a foreign cover. This example is an unusual light color shade for the Brownish Violet and perhaps deserves a listing of its own.	40.00	---	---
234535	21 Used VF+ with neat, later period cancellation (but still valid for postage). Wonderful appearance.	55.00	---	---
234536	21 Used VF with neat, later period cancellation (but still valid for postage). Beautiful example.	48.00	---	---
237582	24, Facit #24Ia [1877 5 øre Posthorn, Ultramarine, Vertical Watermark, Not Re-Engraved] Used with Superb centering but with a pulled perf. Nice 21 July 1877 "CHRA BYP" (Christiania local

237583	(24), Facit #24IIb, NK #24IIb [1878 5 øre Posthorn, Dull Blue, Horizontal Watermark, Not Re-Engraved] Used with Average centering and slight aging. Of the "basic" Facit listings for #24, this is the scarcest printing/color. This printing/color is usually very poorly centered. A F-VF example would be around \$175.	---	---	39.00
236463	24 Major Variety, Facit #25, NK 35 [1879 5 øre Shaded Posthorn with SMALL 5 in oval band, With Period] Used with VF centering and light cancellation, but with crease and repair, rounded corner perf. Looks nice from front. Nice Strong Ultramarine color shade. Otherwise, VF would be around \$130!	---	---	12.00
236462	24 Major Variety, Facit #25, NK 35 [1879 5 øre Shaded Posthorn with SMALL 5 in oval band, With Period] Used with Fine centering and light cancellation, but small faults only seen from the backside. Attractive.	---	---	19.00
237578	(29a) Sea Green, Facit #31c, NK #29a [1878 35 øre Shaded Posthorn] Used Average centered example of the scarce Sea Green color. Well centered and complete CHRISTIANIA 9 March 1893 cancellation. (Used VF would sell for around \$300.)	---	---	125.00
237572	31 [1878 60 øre Shaded Posthorn] Mint Fine but without gum. Attractive with intense color. Otherwise would be \$50.	---	---	26.00
237397	41 [1883 12 øre Olive Green 21 mm Posthorn] Used Superb with very neat and clear 1884 cancellation, exceptional centering, excellent perforations, and strong color. However, this beauty has a shallow thin that is hard to see, and which some might not notice. One could search for many years and not find a nicer looking example! Otherwise \$600+ for this quality!	---	---	345.00
237586	41 [1883 12 øre Green] Used Superb looking example with very neat cancellation, but with a couple faults so small that 99% of people would not find them: Two very tiny thin spots near center and another in bottom margin, shorter perforation tooth where cancellation crosses bottom margin, and upper right corner tooth has been creased. This stamp looks terrific -- much, much better than most examples in the market. Without the insignificant problems, this would easily fetch \$600+.	---	---	345.00
237589	42 [1884 12 øre Orange Brown] Used with F-VF centering and nicely centered HAUGESUND 13 January 1885 cancellation, but with tear. Looks nice.	---	---	9.00
237590	42a [1883 12 øre Grayish Brown] Used with Superb centering and well-centered FREDERIKSHALD 2 June 1885 "Swiss bridge type" cancellation, but tiny thin speck. Very pretty. Otherwise would be \$85!	---	---	22.00
234572	57a C-Print Facit/NK #64 [1894 50 øre Posthorn, Central Printing, Perforation 13.5 x 12.5] Used F-VF but with small thin spot. Pretty.	13.00	---	---
202958	370-4 nfl, Mint VF. 370 no gum, 371-1 NH with very slight tropical toning. Regularly priced at \$73.	15.00	---	---

222844	40 21 mm Frame PAIR [NK 37II, Facit 39b: 12 February 1882 10 øre Reengraved Posthorn] (F-VF+) on 27 April 1882 cover from DRAMMEN with bridge-type postmark, to Jmmenstadt, AUSTRIA, with receiving postmark. Cover somewhat aged stained, but overall appearance is quite nice. Remarkably unusual destination in the 1880s. NK 2003 does not record ANY covers to Austria bearing this stamp and only record five 20 øre covers (total of all franking combinations) in the 1879-1883 period. While the cover, at first, looks unremarkable, it is quite scarce.	275.00
222846	45 21 mm Frame [1884 25 øre 21 mm Frame Posthorn] (F-VF) on 3 November 1884 cover from HEGRE (NK rarity "e" in the period) to the U.S. (Appleton, Minnesota and then forwarded to Roscoe Centre). Typical wear and aging for an emigrant cover. Scarce stamp on cover; Facit 2006 value for the most common possibility and usage on envelope, (not just to U.S.) is SEK 5000 = US\$700!	325.00
222845	44 21 mm Frame [NK 40IIb, Facit 44Bb; 1883 20 øre Posthorn, Electrotpe new plate, Prussian Blue] (Fine) solo usage on 20 October 1885 cover from BERGEN to France. NK 2003 only records nine covers to France bearing solo usage of any of the various printings of NK #40. This is assumed to be the least costly printing of #40IIb. Attractive; usages to France in this period are uncommon. Facit 2006 value for the most common possibility and usage (to any location, not to France) is SEK 2500 = US\$350!	195.00
222843	39 21 mm Frame TWO PAIRS (VF) [1883 5 øre Blue Green, 21 mm Frame] on 5 August 1886 cover from GJØVIG with 2-ring postmark, to the U.S. With "MISSENT" marking applied at Richland Center, Wisconsin, before reaching Wiota, Wisconsin, to which it was addressed -- both with dated postmarks. A handsome cover in very much better quality than usually seen for emigrant mail. As of 2003, only THREE covers bearing four examples of this stamp (specific color or printing were not identified nor were singles vs pairs, etc.) were recorded to the U.S. Those examples are from 1887-89, making this cover the earliest such usage. (The rate to the U.S. was reduced from 25 to 20 øre on 1 April 1886.) Furthermore, a very interesting and seldom seen postal history item.	575.00
222905	C3 [1941 45 øre Airmail, without watermark] (VF) on 14 March 1946 airmail advertising cover from BERGEN to Belgium. Back flap damaged, but outstanding appearance from front.	12.00

I cannot get the rate to work out to 215 øre; however, covers with the 2kr are quite scarce.	10.00
215046	363 (VF) [45 øre Olav] 14 May 1962 solo usage on airmail post card from FORNEBU to U.S., but insufficiently franked. With Norwegian blue "T 45 Cts." in circle postage due handstamp.	15.00

This is a scarce cancellation, much in demand from Whaling thematic collectors but virtually impossible to obtain when you try to find an example. Philatelic cover (as always), neat and attractive, with one stamp (varies) and two strikes of the cancel, one of which is not on the stamp (for clarity).	8.00

1964 Lottery Stamp on Covers

Issued 1 June 1964 and on sale through 15 July 1964, as a fundraising device for the UN refugee program, these stamps were valid for use for domestic letters up to 20 grams, only 6 June 1964 through 10 August 1964. They were not valid for use to other countries, but such examples do exist. The stamp has three parts: at top, the stub (usually kept by the seller); in the center, the receipt kept by the buyer; and at bottom, the postage stamp. Covers normally and correctly bear only the bottom stamp portion. Series A and B (prefixing the serial number) stamps were issued and are collected as two different stamps. In my experience, the A stamp is scarcer used (or on cover) while the B stamp is scarcer in mint condition. Most Norwegian stamp albums do include at least a space for one 3-part stamp. All items are available for viewing on approval. If you are seeking something not currently listed, please let me know. **Also see the stamp section.**

Arctic Expedition - Wilkins-Ellsworth Submarine

1931 attempt to reach the North Pole via submarine, with an intended meeting with the Graf Zeppelin airship at the North Pole. With cooperation from wealthy explorer Lincoln Ellsworth, a O-class WWI-era submarine was leased from the U.S. Navy, christened Nautilus, and extensively modified (but little tested). Leaving U.S. waters in June, the submarine had many breakdowns. Foundering in the Atlantic, the sub was rescued and towed to Ireland and then taken to England for further repair; eventually the sub reached Bergen, Norway. Leaving Bergen on 5 August, the sub reached ice on 19 August. When first attempting to dive under the ice on 22 August, it was discovered that the stern planes had apparently been sabotaged. On 31 August an attempt to make a short dive under the ice using ballast and ramming the ice was "successful", but did extensive further damage. (The sub was thought lost and rescue plans were formulated.) The sub arrived at Longyearbyen, Svalbard (Spitzbergen) on 8 September. Storms and further major damage forced the sub back to Bergen instead of England; the hulk was returned to the U.S. Navy and, due to the damage, it was scuttled on 20 November at Bergen.

Fundraising philatelic covers were created to support the expedition. Most covers bear a hand-stamped cachet picturing the sub, usually in shades of magenta. They bear additional handstamps such as "NEW YORK TO NORTH POLE", "NEW YORK TO BERGEN", and "NEW YORK TO SPITSBERGEN". They have dual addresses and postage; first sent (normally originating with U.S. stamps) to Wilkins at New York, and then mailed back to the original sender from Bergen, Longyearbyen (Spitzbergen), and England.

1855 Number One

Item #	Description	Price	Used
233184	1 Medium Blue on Crisp Thin Paper. Three enormous margins and on small margin. Unusually nice, light cancel nicely shows the design.	150.00	---
238229	1 Medium Blue on Thin Paper. VF++ example with four large to enormous margins and incredibly crisp MOL(DE) town cancellation. A beautiful example.	---	175.00
238230	1 Dark Blue on Thin Paper. VF+ example with four large, even margins and neat #25 (Bergen) numeral cancellation. A very attractive example with great color.	---	175.00
238299	1 Used VF (four even, medium margins) Medium Blue, very thin paper. Plate position B8 (rounded upper right corner and elongated lower right leaf). This may be an early stage of the lower right leaf elongation; this shows the leaf plus a separate white sliver. Position B8 is also interesting because it is one of the positions included in the so-called "manuscript retouches" mentioned in the 1955 monograph, etc., but which were later discredited. For the full story, see Norway Number One, Second Edition (pages 50-51). Neat, virtually complete 12-bar (slightly scarcer) cancellation. Very attractive.	---	145.00
238300	1 Used VF++ (four large to huge margins) Dark Blue, thin paper. Plate position B5 (white line above top left ornament, etc.). Neat, complete 11-bar cancellation. Very attractive.	---	165.00
238301	1 Used VF+ appearance (four large to huge margins) Greenish Blue, with partial bar cancellation. The paper is a bit odd with variable thickness, probably caused by very thin paper combined with a very thin partial adhesion that fails to soak off. At first glance it gives the impression of having a thin, but under magnification it is clear that the paper surface has not been thinned. A nice looking example.	---	80.00
238302	1 Used VF (three ample and one large margins) Light Blue, thin paper. Neat, nearly-complete #42 (Christiania) numeral cancellation. Plate position D3 (upper right curl of top left ornament quite thick and a blob); variety well away from the cancellation. Very attractive example.	---	145.00
238304	1 Used Fine (three ample margins, but touching at top) Medium Blue, thin paper. Superb SANDEFJORD 1 June 1856 town cancellation. Wonderful cancellation.	---	125.00
238305	1 Used Fine (two very large margins, one small margin, but touching at top) Light Blue, thin paper. Probably plate position A11. Superb KRAGERO 17 March 1856 town cancellation. Beautiful cancellation.	---	195.00
238306	1 Used Fine+ (one large, one ample, and two small margins) Medium Blue, very thin paper. Well centered TRONDHJEM 20 January 1856 town cancellation. Nice example.	---	140.00

1863-1864 Coat Of Arms

Item #	Description	Price	Mint
234413	6 [1863 2 sk Coat of Arms] Used VF horizontal PAIR with neat HAMAR postmarks. Wonderfully rich color and freshness. This issue is scarce in multiples; none of the catalogs value pairs and pairs are not "rare", but to give some perspective, only 7 used 3-strips and only 2 used blocks have been recorded. This stamp is quite difficult to find, even as singles, with such nice color, centering, and freshness. If divided, these stamps would quickly sell for a total of at least \$500, but as a pair it is much, much scarcer.	600.00	---

Item #	Description	Price	Mint
234478	8 PAIR (Plate II, Type VIII and VII) Mint with F-VF+ centering, but with only small trace of gum remaining. Each stamp has a thin and the left stamp has a vertical crease on the right frame line that is very hard to see without 10x magnification. Otherwise would sell for around \$600 as two singles. Wonderfully bright color and overall fresh appearance.	135.00	---
233212	9 horizontal pair with Average centering but quite remarkable Brownish Orange color and neat HOLMESTRAND cancellation. One stamp thinned, but the color is extremely scarce and any pairs or this issue are unusual.	29.00	---
237562	10 [1863 24 skilling Lion] Mint with VF+ centering and great color. Has major plate variety and retouch: Break in left frame line and background by RK, BACKGROUND OBVIOUSLY RETOUCHE in that area. Cliche Type 4. Though the illustration is not great and there is no direct pointer from the illustration to the text, the 1963 Handbook appears to show this retouch as being Plate III, Position 20. It is surprising that such an obvious variety and retouch is not include in the NK listing of varieties on this stamp. There were eight plate settings of this stamp; this retouch only exists in one position of one setting. Extremely scarce.	---	100.00
234489	10 Deep Red Brown. Mint F-VF with unusually deep, intense color. The scarcest of the colors on this stamp.	75.00	---
234485	10 Used Superb with Superb DRAMMEN 1875 single-ring cancellation, used in the proper period. Unfortunately, this beautiful stamp has a hint of a thin, however, the appearance is absolutely wonderful with perfect centering, deep rich Reddish Brown (the scarcest) color, and perfect cancellation. Without the hint of a thin, this would easily command \$500, if not more.	125.00	---
234486	10 Used VF with VF DRAMMEN 1890s two-ring cancellation, used in the later period. A very attractive example; this stamp is scarce used in such nice condition, even from the later period.	65.00	---
234487	10 Mint Superb 4-BLOCK in wonderfully fresh condition. Blocks are seldom seen with such nice centering!	240.00	---
234363	10 [1863 24 skilling Coat of Arms] Used F-VF on large piece of cover (including part of cover backside) with May 1872 cancellation. Red French "PD" marking and French postmarks on backside indicate that this was sent to France. Though the full cover would be rare and costly, this is priced at only the value of the properly used stamp. Very attractive.	130.00	---
215335	10, Facit #10a Light Yellowish Brown. Used Fine+ with tiny thin spot. Correctly used in proper time period with 1868 cancellation. (Facit 2005 value SEK 1100 = \$154.)	42.00	---

1867-1868 Coat Of Arms

Item #	Description	Price	Used
233213	11 Used F-VF+, but small thin spot, with nice "X" pen manuscript cancellation. Very neat and attractive.	19.00	---
233189	12 Used with Superb centering and with proper 23 November 1871 CHRISTIANIA cancellation. One shortish perf, but quite scarce so well centered and with nice cancellation.	60.00	---
237579	13 Red Violet Clear Print, Facit #31b, NK #13a [1868 "3 SKILL 3" Lion Coat of Arms] Used Average-Fine centered example of the very scarce Red Violet color with light, fully dated 1871 cancellation. Very fresh appearance with intense color. This stamp is much harder to find than the catalog values suggest. A VF example would be about \$350!	---	145.00

Item #	Description	Price	Used
234506	15 Violetish Carmine. Used F-VF with one shorter corner perf. Very attractive.	40.00	---
233217	15 Used Fine, but extremely tiny thin spot, with unusual cross-hatched pen manuscript cancellation. Very neat and attractive. I cannot recall previously in 36 years having a Norwegian cancel that looked quite like this.	55.00	---
234508	15a (Facit #15b: Rose, Clear Print) Used Superbly centered and with light cancel, but a couple missing perfs and faint crease (not visible from front). This is probably the nicest centered example I have ever had! Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	160.00	---
234509	15a (Facit #15b: Rose, Clear Print) Used Fine centered, but a couple faint thins. Small orange mark from a postal rate marking on a foreign letter. Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	115.00	---
234507	15a (Facit #15b: Rose, Clear Print) Used Average/Fine centered example with light cancel. A nice example of a very scarce stamp, at a great price! Facit 2010 value is SEK 3500 = \$490 (9/10). (See article on web site for more information about this issue.)	190.00	---

1871-1875 Skilling Posthorns

Item #	Description	Price	Mint	Used
236457	(16) Facit #16c, NK #16Ib Dark Yellow Green [1873 1 skilling Posthorn] Used VF with light cancellation (definitely of proper period). Nice examples of the Dark Yellow Green are quite hard to find.	---	---	60.00
236458	16, Facit #16d, NK #16IIa Yellow Green [1873 1 skilling Posthorn] Used F-VF with light, later-period cancellation (as usual for this color). Very pretty.	---	---	20.00
237560	17b (Gray Blue) [1872 2 skilling Posthorn, Gray Blue with White Gum] Mint, hinge remnant, with Superb centering. Rough perforation variety that is seldom seen.	---	---	22.00
234520	18a Carmine on Yellowish Paper. Worn Plate, Faint Print. Used with F-VF with neat cancellation. Very unusual example showing high degree of plate wear.	22.00	---	---
237561	19 [1872 4 skilling Posthorn, Light Violet, Thin White Paper] Mint with Superb centering and enormous margins for this issue. Though a common stamp, examples this nice are seldom offered.	---	---	25.00
233192	19 (Facit #19b, NK #19Id; per Enger) Used VF with very nice, delicate color and neat, clear, proper-period 1874 cancellation.	90.00	---	---
234522	19, Facit #19c Violet on Thin White Paper. Used VF+ with 1873 (proper period) cancellation. Unusually fresh, attractive, and well centered. Scarce with such nice centering.	90.00	---	---
234523	19, Facit #19ab Dull Violet on Grayish Paper. Used Fine+ with 1876 (proper period) cancellation. This is the scarcest of the Facit listed colors with a 2010 value of SEK 2000 = \$280 (9/10). Attractive example.	185.00	---	---
236711	19a, Facit #19aa, NK #19Ia Dark Violet on Thin Grayish/Bluish Paper. [1872 4 skilling Posthorn] Used F-VF+ with 1873 (proper period) cancellation. Remarkably intense color. Facit 2013 value SEK 1500 = US\$225 [10/2012] for normal quality. This example has much nicer, centering, color, and appearance than is usually seen for this color.	---	---	225.00
233194	21 Dark Brown, White Paper. Used VF+ with neat, proper-period cancellation.	90.00	---	---

1877-1882 Shaded Posthorns

Item #	Description	Price	Used
233219	23 [1877 3 øre Shaded Posthorn] Used VF with very clear plate variety "diagonal white plate scratch through frame at wing 7 and down through the frame line below M of FRIM." Some blunted perfs, but very unusual.	28.00	---
237582	24, Facit #24Ia [1877 5 øre Posthorn, Ultramarine, Vertical Watermark, Not Re-Engraved] Used with Superb centering but with a pulled perf. Nice 21 July 1877 "CHRA BYP" (Christiania local post) cancellation that confirms that this has to be Plate I. Very low price.	---	9.00
238516	24, Facit/NK #24IIa [1878 5 øre Posthorn with shaded numeral: Horizontal Watermark, Grayish Ultramarine, with period after FRIM,] Used F-VF with nice, full 16 November 1883 cancellation. There are several different colors under this catalog number umbrella. Pretty example.	22.00	---
234417	(24) Facit/NK #24IIb WITHOUT PERIOD (Type 9) [1877 5 øre Shaded Posthorn, Horizontal Watermark, BLACKISH BLUE] Used Average with pen-cross cancellation. This color is very scarce, undervalued in all the catalogs. Furthermore, though the catalogs give a 1.5 to 2 times multiple for the Type 9 (without period after FRIM) stamps, they are in much, much greater demand than that multiple suggests. Lower right corner perf rounded, but easily compensated for by an obvious plate variety "lower right frame line corner open". Very scarce stamp in several respects.	125.00	---
236454	(24a/c) Facit/NK #24IIb [1877 5 øre Shaded Posthorn, Without Period, Horizontal Watermark, Dull Blue] Used Just Fine with light cancellation. This is the NOT-reengraved stamp WITHOUT the period after the M, with horizontal watermark. While this printing is a MUCH SCARCER than the most common 5 øre printing, the WITHOUT PERIOD is grossly under valued in all the catalogs on any printing (it is only approximately one-ninth of the stamps issued, but is usually only cataloged with a 50% premium). This is on virtually every Norwegian want list that comes along.	---	130.00
237583	(24), Facit #24IIb, NK #24IIb [1878 5 øre Posthorn, Dull Blue, Horizontal Watermark, Not Re-Engraved] Used with Average centering and slight aging. Of the "basic" Facit listings for #24, this is the scarcest printing/color. This printing/color is usually very poorly centered. A F-VF example would be around \$175.	---	39.00
204908	24, Facit #25 [small 5 in oval band]. Used F-VF. Attractive with light cancel.	95.00	---
237576	29 Deep Blue Green, Clean Print [1878 35 øre Shaded Posthorn] Used with Superb centering but extremely faint, nearly invisible, ironed out corner crease. With Superb 2-ring (no bridge) CHRISTIANIA 6 October 1887 cancellation. This dark color with a clean print is not listed in the catalogs; it is much scarcer than the typical range of color shades. As beautiful an example as one could hope to find.	---	90.00
237578	(29a) Sea Green, Facit #31c, NK #29a [1878 35 øre Shaded Posthorn] Used Average centered example of the scarce Sea Green color. Well centered and complete CHRISTIANIA 9 March 1893 cancellation. (Used VF would sell for around \$300.)	---	125.00
236474	30 Pale Brownish Carmine [1877 50 øre Shaded Posthorn] Used F-VF centering with KRAGERØ 1878 cancellation, but with a thin. This extremely scarce color is not listed in the catalogs and is rarely offered. Despite the thin, a very desirable stamp.	---	26.00

	perb with light cancellation and major, but unlisted plate variety: Upper and lower right frame corners are open. (NK lists a similar variety for the upper left corner at 3 times the price of the normal stamp).	65.00	---
233205	36 [1893 1 øre Light Brownish Gray 20 mm Posthorn] Used Superb with neat 1894 cancellation.	20.00	---
234545	36 Horizontal STRIP OF FIVE. Used F-VF, but right stamp with small hidden tear. With 1895 cancels. Attractive and scarce. Facit 2010 value for a 4-block is SEK 1000!	75.00	---
234546	36 Horizontal STRIP OF THREE. Used F-VF+, but right stamp with some short perfs. With 1895 cancels. Priced just a little more than two singles.	29.00	---
234547	36 Horizontal STRIP OF THREE. Used F-VF, but left stamp with defects. With 1895 cancels. CENTER STAMP MISSING PERIOD after "POSTFRIM".	39.00	---
233208	37, Facit #50a NUT BROWN, Vertical Watermark [1891 2 øre 20 mm Posthorn] Used Superb, light cancellation. Wonderful example of this rare color.	90.00	---
233223	37, Facit #50a, NUT BROWN [1891 2 øre 20 mm Posthorn] Used VF 5-strip with "KONGSVINGER POSTEXP. B" railway cancellations. Facit 2009 lists 4-blocks at SEK 5000 = \$700 [9/09]; larger units are even scarcer, but strips are probably more often seen than blocks. This is a very scarce stamp even as singles and has a break-up value of about \$375 [9/09].	475.00	---
234367	(39) Facit/NK #52I plate variety [1890 5 øre 20 mm Posthorn: Plate I, Gray Green] Used F-VF with obvious plate variety: Upper right corner broken open. Fresh and attractive with light Christiania Bypost (local post) cancellation. Though not a "scarce" stamp, attractive examples are surprisingly hard to find.	14.00	---
234364	(39) Facit/NK #52Ic [1890 5 øre 20 mm Posthorn: Plate II, Blue Green, Vertical Watermark] Used F-VF in BLACKISH GREEN shade; the darkest color shade of this stamp that I can recall seeing. Very clear watermark, in fact unusually so; the paper seems different from the other vertical watermarks I have seen. While the vertical watermark is quite a bit scarcer than the normal horizontal watermark, this dark color is extremely scarce.	35.00	---
234371	(40) Facit/NK #53I variety [1886 10 øre 20 mm Posthorn: Plate I (Brownish Red, drawn-out corners)] Used Fine with neat 17 September 1887 cancellation. Large plate variety: White area below small "10" filled in. I have not previously seen this variety. Small defect on lower left corner perf, but not relevant in light of the variety.	15.00	---
237397	41 [1883 12 øre Olive Green 21 mm Posthorn] Used Superb with very neat and clear 1884 cancellation, exceptional centering, excellent perforations, and strong color. However, this beauty has a shallow thin that is hard to see, and which some might not notice. One could search for many years and not find a nicer looking example! Otherwise \$600+ for this quality!	---	345.00
236656	45, Facit/NK #55 [1886 25 øre 20 mm Posthorn] Used VF with unlisted plate variety: "white line parallel to right side of N of NORGE". This interesting variety really should be listed by NK. Neat November 1890 cancellation well away from the variety area. Very pretty.	---	45.00
234556	45, Facit/NK #55 [1886 25 øre 20 mm Posthorn] Used F-VF horizontal PAIR with neat cancellations. One stamp with hint of thin spot on two perfs, but this is a very scarce multiple. While a pair is certainly not as rare as a block, the Facit value for a used 4-block is 55 times that of a single! Scarce!	95.00	---

234374	(47a) Facit/NK #59 [1895 1 øre Central Printing, Perforation 13.5 x 12.5] Used VF with 13 February 1897 cancellation that confirms the Central Print and with Perforation Error #1 (4th horizontal perf tooth missing).	---	36.00
234565	(53) Facit #58, NK #58A [1893 20 øre Posthorn C-Print Perf 14.5 x 13.5] Used Superb with light cancellation. Outstanding quality.	---	19.00
234375	57a [1894 50 øre Central Printing, Perforation 13.5 x 12.5] Used VF with wonderful TRIANGULAR 19 May 1896 parcel post cancellation that confirms the Central Print. While the cancel is not unusual, such nice struck examples are seldom seen.	---	45.00
234575	57a C-Print Facit/NK #64 with Perforation Error 3 [1894 50 øre Posthorn, Central Printing, Perforation 13.5 x 12.5] Used F-VF nicely showing perf error 3. Nice confirming 1896 KABELVAAG two-ring cancellation.	---	45.00

Slight translucence in the top margin and just into the two upper left stamps; I am not sure if this is a "natural" paper condition or something else, but it probably would not be noticed if I had not mentioned it. Attractive and very unusual. [The upper left 6-block alone can be purchased for \$390.]	---	550.00	---

1991 50 Kr King Olav - Rarest Modern Norwegian Stamp

Scott #543 INVISIBLE GUM (NK #941II Hs5 Paper) is an extremely scarce stamp, probably destined to become the scarcest, most valuable post-1960 Norwegian stamp. For the full story of this stamp, see this section on the website or request details by postal mail.

1964 Lottery Stamps

Issued 1 June 1964 and on sale through 15 July 1964, as a fundraising device for the UN refugee program, these stamps were valid for use for domestic letters up to 20 grams, only 6 June 1964 through 10 August 1964. They were not valid for use to other countries, but such examples do exist. The stamp has three parts: at top, the stub (usually kept by the seller); in the center, the receipt kept by the buyer; and at bottom, the postage stamp. Covers normally and correctly bear only the bottom stamp portion. Series A and B (prefixing the serial number) stamps were issued and are collected as two different stamps. In my experience, the A stamp is scarcer used (or on cover) while the B stamp is scarcer in mint condition. Most Norwegian stamp albums do include at least a space for one 3-part stamp. All items are available for viewing on approval. If you are seeking something not currently listed, please let me know. **Also see the cover section.**

Early Booklet Stamps

The first Norwegian booklets were issued starting in 1904; from then through 1928, the booklet panes had completely cut straight-edges (no perforations at all on the sides of the pane and one end of the pane) -- these straight-edged stamps are listed in the specialized catalogs. After that time, until the first modern-era booklet started in 1976, the panes were fully perforated, but trimmed, resulting in perforations that were either straight-cut or partially cut off. This listing is of singles and pairs from booklets in both the early periods.

The full Norway Stamps section will be coming soon. However, I do have a very comprehensive stock of NH, Mint Hinged, and Used Norwegian stamps and would be happy to send stamps on approval from your want list, using your choice of Scott, Facit, or NK numbers.

Scott #	Description	NH
1558 S/S	"Posten / Bring" Standard officially issued Personalized Souvenir Sheet of two stamps. Norway has the distinction of creating what I believe to be the first souvenir sheet of "Standard Personalized Stamps" containing more than one stamp design. This was issued in late 2008 and contains two stamps (same frame design) with two different logos for Posten and Bring. The designs mark the division of Norway Post into two parts: Posten - what we think of as the standard "post office" and Bring - a package delivery, freight, and logistics company (similar to UPS in the U.S.). Only 275,000 of this souvenir sheet were printed and distributed free of charge to people in Oslo and other cities around Norway, sometimes in post offices, but also given away to people on the street. Because the souvenir sheet was NOT sold to collectors and distribution was wide, but one to a person, these souvenir sheets are extremely difficult to obtain. The Scott Catalog editors HAVE reserved a catalog number for this souvenir sheet; such a catalog listing will result in large demand that cannot possibly be filled. VF	31.00

Year Books

Official year books are handsome hardbound books that contain the stamps issued during the year as well as dozens of wonderful photographs and illustrations and interesting and informative text about the stamp issues and the country. The text is usually in multiple languages; unless otherwise stated, full English text is included. Norway official year books have been issued since 1988. Each book contains one year of stamps.

Plate Blocks

All types and eras of Norwegian plate, date, NK, cylinder (dot or number), serial-number, and other imprint or marginal blocks are available. If you seek such please, please let me know of your interest.

Classic Date Blocks

The "classic" period of Norwegian Date Blocks runs from 1896 to 1937. Only the typographed definitive-issue stamps of this period have date imprints in the margin. The dates usually correspond with the specific printings. The practice was started as a security measure after a printing plant worker tried to replace a newly printed imperforate sheet with a sheet he had purchased at a post office. The known dates are listed, but not priced, by the NK catalog. Such marginal blocks are quite popular, but even the low-cost stamps are remarkably scarce in date block form. If you are seeking such blocks, please let me know; they usually sell before I have time to list them in price lists or on the website. Scott numbers have been used.

Postal Stationery

Oslo Filatelistklubb (OFK) 1996-97 catalog numbers have been used unless otherwise indicated. This catalog is in stock and available from me.

A "POST" watermark was used from approximately 1936 to 1964 and can theoretically appear in up to eight positions. Certainly some positions are much scarcer than others -- and I list the differences -- however, my prices are the same for all positions. Unlike stamps, the postal stationery watermark positions are defined as viewed from the front of the item. See this illustration (on website).

Quality is VF unless otherwise indicated. In the case of postal stationery, the quality (VF, F-VF, Fine) refers to the quality of the card itself, not postmarks, etc. A "F-VF" might have slightly soiling or aging. A "Fine" item may have a crease or filing hole, etc.

All items are available for viewing on approval. I have a large stock of mint and used postal stationery of all types and from all time periods. What are you seeking?

Intact double card correctly used in-period for the correct Nordic (except Sweden) rate to Denmark. The reply card was addressed by the sender, but the recipient never used the reply portion. After postal card #1, this is one of the scarcest used Norwegian postal cards (on par with the similar 6 øre brown double card). Seldom offered, especially not in nice quality used in the proper period. From the Norman Gary collection and previously from a 1984 Danam auction. It might be another 30 years before I can offer such an example!	900.00

Because of this, sales of the card were stopped early in the show and the card was withdrawn before fewer than 300 had been sold [I have heard quantities sold as low as only 100]. Most of the sales may have been to mailorder buyers to whom cards had been mailed before the show opening. Certainly one of the rarest "regularly issued" Norwegian souvenir cards.	WTD

Engraver Signature Souvenir Cards

Starting in 1978 the post office began to officially issue "signeringkort", a type of souvenir card that presents that the artwork of a stamp designer and/or the engraving of a specific engraver. Issued in conjunction with stamp shows and Stamp Day events at which a stamp designer or engraver was present, many examples, but not all, of the cards were hand signed. All but a couple of the cards were issued by the post office (the couple others were issued by the Norwegian Banknote Printing Works). Most of the cards bear printed images of stamps with a space for the actual stamp to be affixed. Card may exist in multiple forms: with or without a stamp affixed and/or with or without a related postmark and/or with and without an engraver signature. All forms are collectible and sought after. The cards are listed in the 2004 book "The Little Library of Norwegian Philately, Volume 1" which is available from me. That references shows the last issue recorded was in 1997; it lists a total of 30 issues. Most of the cards are quite scarce. All items are fresh and

1913 Akershus Castle and Geiranger Waterfalls

On May 5, 1913, the Kristiania Philatelic Club "issued" proposals for two well-designed 5 øre stamps: Akershus Castle and the Geiranger Waterfalls. Engraved by W. Lindgren and printed by the firm of Emil Moestue the submitted printed essays were actually lithographed. Each design exists in red, blue, and green; perforated and imperforate (scarcer). Both perforated and imperforate stamps are found gummed and un gummed (they were seemingly "issued" both ways); gummed is scarcer. Prints and mirror prints also exist in black (very scarce). Also also exist with "essay postmarks" to show how they would look canceled (scarce).

1938 Tourism

The 1938 Tourism stamps (Scott #181-186) were the result of a design competition which also yielded some other designs that still exist in the form of essays. The German company Goebel produced two designs (girl blowing a horn overlooking valley; waterfalls). The Norwegian firm of Emil Moestue used the opportunity to showcase its new photogravure equipment with several designs, each in multiple colors: Svalbard (Spitzbergen) map; Reindeer; North Cape (Nordkap); and King Håkon.

Svalbard - Spitzbergen Map

The Svalbard / Spitzbergen Map exists in Sepia Brown and Blue. Paul Jensen once told me that the "issued" quantities (just one sheet of 50 stamps each; fewer than that may actually have reached the market) were equal, but in my experience, the Blue is rarely seen.

230067	1938 Svalbard / Spitzbergen Map essay for 1938 Tourism issue. Sepia Brown. Perforated and gummed, NH VF. A very popular thematic subject of great interest to all collectors of Polar, Exploration, Mining and Minerals, Coal, Maps, Russia (they have had a presence on Svalbard), etc. Only 50 or fewer examples are believed to have reached the market.	250.00

Reindeer

The Reindeer exists in Orange, Green, Sepia Brown, Blue, Violet, and Rose. Paul Jensen once told me that the "issued" quantities (just two 50-stamp sheets of each color; fewer than that may actually have reached the market) were equal, but in my experience, the Rose seen less often than the others.

1943 Edvard Grieg

One actual essay design for the 1943 Edvard Grieg issue (Scott #255-8) is known and available to collectors. This is of a small-size stamp design with the same lettering appearance as the issued stamp, but a much different portrait. The essays are only recorded imperforate on extremely smooth yellowish-white paper, in red and black. The printing quality is superior, giving the impression of an engraved stamp, but the essays are surface printed, not engraved.

There is another another Grieg stamp design often sold as an essay; very similar to the brownish red 20 øre value, but without country name or denomination. This item is NOT an essay. It is a Test Stamp issued later, and is highly collectable as such. [In stock, but not yet on the website; please inquire if interested.]

Test Stamps

Test Stamps (also called Dummy Stamps in the U.S.) are created by stamp printers and post offices to test printing and production processes and other machines. While a *few* have had extensive philatelic distribution, most were never intended to be known to collectors and are very scarce. New discoveries continue to be made.

All items are available for viewing on approval. I have a constantly changing stock of Norwegian and all Scandinavian essays, proofs, reprints, specimens, and test stamps. Most such items sell before they get to the website or price lists. What are you seeking?

1943 Edvard Grieg Design

The 1943 Edvard Grieg stamp design, in the Brownish Red of the 20 øre value, was used as a test stamp in 1951 by a British printing press manufacturer that was hoping to sell a press to the Norwegians. The test stamp does not have the country name or denomination. Though sometimes seen in auctions (that should know better) offered as a "proof", this is a test stamp of relatively modest value. Usually seen imperforate, however perforated examples do exist but are quite scarce.

1961 NB Norges Bank Design

ca.1961 "NB" Norges Bank Test Stamp design printed by printing press manufacturer Goebel of Darmstadt, Germany, for the Norges Banks Seddeltrykkeri (NBS) bank note printing works. NBS was responsible for printing Norwegian currency and the *engraved* Norwegian stamps of the era. NBS needed to purchase a new printing press for a new series of steel engraved definitive stamps to be issued December 1962. To convince NBS to buy their press, the Goebel company printed test stamps with a design consisting of a central "NB" in script, surrounded by frame of complex patterns of shading lines, that demonstrated the high quality of their printing press. The test stamps were printed, gummed, and perforated in sheets of 100, just like the subsequently issued postage stamps. I have only recorded examples on non-fluorescent paper, with shiny

white gum. Some examples show colorless areas where the ink did not adhere to the paper; under magnification, these areas do show the impression of the design. I have had a marginal piece showing a printing date of 31 May 1961, thus confirming that the printing was done (at least) in 1961. NBS purchased the press in autumn of 1961. Though the Goebel press had the capability to print in at least two colors (the central "NB" of the test stamps is sometimes in a different color), the issued postage stamps were printed in only a single color.

These test stamps are now 50+ years old, however, I first learned of their existence in the spring of 2012! Prior to that I had never even seen any mention of them in the literature. Most, if not all, of the extant examples are known to have come from the estate of the family that owned the now-defunct Goebel company. The total number of different colors/combinations is not known (I have recorded 11 different), nor are the quantities printed, nor how many were in the Goebel archive, though the quantities must have been very small. If nothing had come on the market in the prior 50 years, they must be quite rare (if any at all) in collectors hands prior to the archive being opened. I have only a few examples to offer, some only one or two examples of a particular color/combination.

1986 Edvard Grieg Europa Design

1983 Edvard Grieg Europa Test Stamp design printed in 1986 by Norges Bank Seddeltrykkeri (Norwegian Banknote Printing Company) as a test and demonstration of new printing equipment. The design was apparently not first "discovered" by philatelists until 1997. These are true test stamps, intended for internal purposes and were never officially made available to the public. These test stamps are rare and of interest to collectors of test stamps, composers and music, and Europa. For extensive details, please see the website or request further information.

These test stamps are rare and of interest to collectors of test stamps, composers and music, and Europa. The engraved design is taken from the 1983 EUROPA issue and pictures composer Edvard Grieg; with the country name, text, and denomination cut out. Normally with a "PROVE" underprint, but printed in such a way that the foreground and underprint only line up well at the horizontal center of the sheet. Red Engraved Foreground with Blue and Yellow "PROVE" lithographed Underprint. Fully perforated single with typical centering and the expected mis-alignment of the foreground and underprint of stamps not at horizontal center of sheet. I believe that only 4 such-aligned single stamps have reached the market-place.	300.00

Signed By Designer

Each FDC has been autographed by the issue designer / artist / engraver. If more than one designer is involved, usually all have signed. Such signed FDCs are scarce from any of the Scandinavian countries. Other than one or two occasional covers, this is the only grouping of signed FDCs that I have had in 36 years. Most, if not all, of these artists are deceased. Signed covers add great interest to a Norwegian collection or a thematic / topical collection. All are in excellent quality and may be viewed on approval. Scott numbers have been used.

Perfins

Though never seen by most collectors, Norway does have perfins. (Perfins are perforated initials punched into stamps for security and control purposes, usually to prevent stamp theft by employees.) Unlike most countries, Norway had official perfins in addition to the usual private / commercial perfins. Various government departments used official perfins in the 1898-1933 period -- they are listed by the **Norgeskatalogen (NK)** immediately preceding the official stamp section; minimum prices are given for each issuer and the known stamps are listed. References for the more familiar private / commercial perfins are hard to find, but philatelically inspired perfins have been cataloged in **Little Library of Norwegian Philately - Volume 2 - 2005**.

Books are available from me. Unlike the perfins of many countries, Norwegian perfins greatly **increase** the value of stamps upon which they are found. Most perfin designs can theoretically exist right- and wrong-reading (viewed from the front side) and/or upright or inverted. By design or positioning, perfins can also have vertically oriented lettering in four possible positions and diagonally oriented lettering in eight possible positions. All such possibilities are collectible differences. **This listing is just a small sample; stock is changing all the time. Please request approvals.**

235612	Scott #33 [1875 1.50 kr Oscar] Used F-VF with CB&K (Christiania Bank og Kreditkasse) perfin wrong-reading from front. Cancellation date appears to be 1900 (this issue was not replaced until 1907). This is both generally an early perfin for Norway and any perfin on this issue is extremely scarce . This is the only perfin I have had on this issue in 38 years.	100.00

Locals

Norwegian local post stamps have most recently been cataloged in 2005; the catalog is **available from me**. The 2005 numbers are often different from the 1963 Pihl numbers, but many people still use the 1963 numbering which was the previous standard reference. Condition standards for locals are not the same as for regular stamps. In some issues thins are the norm. In general, defects that affect the value or appearance of the stamps will be mentioned. As always, all items are guaranteed, as is your satisfaction.

I have a wide range of Norwegian (and all other Scandinavian) revenue stamps in stock. Because they are usually only one of a kind (and also usually quite inexpensive), these are usually only available via approvals. Please let me know of your interests.

Christmas Seals - Local

Norway has had a variety of national, regional, and local seal issuing organizations in addition to the National TB (the "official" Christmas seals) and National Red Cross issuers. I attempt to stock the singles, as well as blocks, sheets, imperforates, proofs, etc. from all issuers. I wish to purchase any items not listed (and many that are listed). All types of Norwegian Christmas and Charity Seals (and those of all the other Scandinavian countries) are available on approval. If you have specific topical/thematic interests, please let me know.

Norwegian Seamen Homes In Foreign Ports

The charity seals of this issuer have great topical / thematic subjects, including ships, shipping, and lighthouses. Many of the seals were crudely produced, especially during the WWII years. VF centering is the exception; Fine or Average centering is typical. Many stamps have rough perforations; some issues seem only to exist with rough perforations -- this should not be considered a defect on these stamps.

ment receipts (example: union dues); and series issued for label collectors. (Post-office issued labels will be considered separately.) In the early part of the 1900s, collecting labels issued in series was very popular, with a few issuers publishing albums (but not in Norway to my knowledge); usually one had to buy a product or visit a store to obtain a label for the album. The term "poster stamps" is often applied to many labels because they are really miniature posters. Labels often look like stamps, but can range from smaller to much larger; from boring and crude to stunning works of art; and from very inexpensive to quite valuable. Some collectors seek labels either for specific thematic appeal or for design elements of the artwork. Norwegian labels, in both overall variety and quantities printed, seem to be few and far between compared to the masses issued in many European countries during the early 1900s. (In Scandinavia, Danish issuers were by far the most prolific, with Swedish issuers well behind and the other countries with many fewer issues. Approvals are available from all Scandinavian countries.) Even the most "common" of labels is usually extremely scarce compared to the postage stamps of the same time period; there are many \$5 labels that would be worth \$500 if they were postage stamps. It is important to note that, over the years, labels have not received the same level of care usually afforded to postage stamps and thus labels are much more likely to have condition problems. Lesser condition always affects the value, but do not automatically pass up a label for that reason alone; you may never see another example of it.

Patriotic, Political, and Military Labels

Norwegian Legion for Finland Labels

Item # Description Price
 1941 fundraising label to support the Nazi-sympathetic Norwegian Legion which was formed with the intent to help defend Finland against the Soviet Union. [Much more information is on my website.] The labels were crudely printed and perforated; size and centering varies greatly with only Fine as the norm. VF or better examples are scarce.

230837 Norwegian Legion label with Fine centering (which for the label means that the perfs may cut/touch on two sides or be significantly cut on one side). This is the typical centering for this crudely produced issue. 28.00

Otherwise completely genuine. STOCKHOLM 16 April 1858 cancellation. The vast majority of #3 on the market are either damaged or repaired. Facit 2014 value for sound examples of the most common color is SEK 12,000 = \$1900 and for this scarce color, SEK 24,000 = US\$3840! A nice looking example at a very reasonable price. 237718	Lx1, Facit #6a1 [1856 1 skilling Black Local] Used Fine with Superb starburst postmark. Typical centering for the issue, but with nicer than usual perforations (which are normally irregular prior to 1858). Beautifully postmarked example with very nice impression. (The carmine colors, Scott #12a, were perforated on an older machine with many bent or missing teeth, resulting in an irregular perforation appearance. These are referred to as "1855 perforations" in the literature. The machine was replaced in 1865.) The Facit 2015 value (with gum) for the Carmines ranges SEK 6000-8000 (12/14 US\$900-1200). 217977	13 Type I, Facit #14A [1862 3 öre Brown Lion, Type I] Used Average centering, with 1863 WARBERG cancel and part of a red foreign cancellation. 233143	13 Type II, Facit #14B. Plate variety "Large scallop out of left frame line above the large 3". [1862 3 öre Brown Lion, Type II] Used VF with nice, strong orange-brown color. Postmark well away from the variety.	26.00	---	---	---
236658	13 Type II, Facit #14B [1863 3 öre Lion] Used F-VF with neat cancellation. Unusual plate variety: "several breaks / white spots in top frame line, near left corner and above RIG". I have not previously seen this obvious variety or any report of it. I suspect that the cliché was quickly repaired, thus making this variety quite scarce.	---	---	---	36.00
236990	17, Facit #17a Grayish Yellow Brown on Yellowish Translucent Paper [1872 3 öre Ringtype, Perforation 14] Mint F-VF example, but without gum (as typical for this very scarce color. Facit 2012 value SEK 1000 = \$155. Seldom offered color/printing.	---	---	---	70.00
217921	18 [1876 4 öre Gray Ringtype Perforation 14] Used F-VF+ with absolutely Superb 1878 "STOCKHOLM NORR" cancellation; perfectly centered and perfectly struck. 233127	20a Ultramarine Violet, Smooth Print, Facit #20c [1872 6 öre Ringtype, Perf 14] Used VF with 1873 cancellation. Great color; the smooth print is scarce.	140.00	---	---	---
238533	23b [1876 20 öre Ringtype Perf 14 DOUBLE PRINTING] Used F-VF with fully dated cancellation. Strong orange color, and best of all... clearly visible (for these) underlying yellow printing. Usually this stamp is dingy and it is hard to see the underlying printing (it is light yellow after all -- that is why they printed it again) because the printing registration is so close. This example shows obvious doubling with the yellow to the right and above the orange; clearly visible at both the top and right frame lines and in the central "20". Such obvious examples are scarce.	---	---	---	45.00
238534	24 Brilliant Orange [1872 24 öre Ringtype, Perf 14] Used VF++ with neat and attractive cancellation (scarce on this stamp). Superb overall appearance, color, and perforations. Certainly one of the nicest examples I have had in many years.	---	---	---	50.00
238535	31a Red Violet [1877 6 öre Ringtype, Perf 13] Mint F-VF+ centered, but without gum. Wonderful color and overall appearance. If had gum would be priced at \$210.	---	---	---	74.00
233430	33 Mint Fine++, original gum. Very fresh and nice with nice color and pretty good centering for this issue. This stamp is scarce in undamaged mint condition!	295.00	---	---	---
238537	33 Facit #33a Carminish Dull Red [1877 20 öre Ringtype, Perf 13] Mint F-VF centered, but without gum. Strong, distinctive red color of the first printing; completely unlike the orange-family later printings. I have just proposed a sub-number listing for this stamp to the Scott Catalog editors - I should have done it years ago. If had gum would be priced at \$360, but original gum examples are extremely scarce.	---	---	---	140.00

233467	44 Reddish Lilac [6 öre Ringtype with Posthorn on back] Used F-VF centered with perfectly centered and complete "SÖDERH-KILAFORS" 5 January 1895 RAILWAY postmark. This is a scarcer postmark and one that we seldom see nicely struck. Furthermore, this stamp is seldom seen with railway postmarks.	95.00	---	---	---	238598	202a (Greenish Blue) [1924 30 öre greenish blue UPU Congress] Mint with F-VF+ centering, excellent perforations, and great color. 236657	48 Colors [1886 50 öre Ringtype, with posthorn on back] Group of 7 used stamps, all VF or better centered, with all-different colors/shades and/or papers. The star of this group is a VERY UNUSUAL "SOOTY CARMINE" that I cannot recall previously seeing -- the color does not match any catalog listing I know of and is not represented in the color page from the 1970s/1980s SFT. It is probably a variation of Facit #48e Dark Violetish Carmine, but it is quite unusual.	---	---	---	55.00	238602	203 [1924 35 öre UPU Congress] Mint, lightly hinged, with Superb centering and huge margins, and perfect perforations. Bargains

These bargain-priced stamps are attractive, but most have lesser centering or perhaps hidden flaws. You can save a tremendous amount of money when you add such stamps to your collection. Each stamp is one of a kind, so please let me know if I may substitute a different example (that looks as good or better, for the same cost) if the stamp you order has sold. If you have any doubts, all are available for approval viewing. This is just a small sampling, thus if you are seeking stamps of this quality and price level from any of the Scandinavian countries, just send along your want list -- I will be happy to send bargains on approval. Scott numbers have been used unless otherwise stated.

These are referred to as "1855 perforations" in the literature. The machine was replaced in 1865.) The Facit 2015 value (with gum) for the Carmines ranges SEK 6000-8000 (12/14 US\$900-1200). 236684	58 [1891 10 öre Engraved Oscar] (VF) on 14 August 1908 picture post card (photo scene from town of Säfsjö) to the U.S., with RAILWAY cancellation "PKXP. No 2 A. INR. U.", Danish transit postmark (unusual on mail to the U.S.), and red U.S. New York "DEFICIENCY / IN / ADDRESS / SUPPLIED / BY / NYPO - I.D." handstamp. The so-called deficiency is that somebody could not read "Mass" as the state, even though it was right there. What makes this card especially interesting is that it is a HAND-DRAWN DIVIDED BACK card. Prior to 1 October 1907 divided back cards to the U.S. were charged at the letter rate. This sender was utilizing an earlier undivided-back card, dividing the back so that a message could be written without obscuring the picture on the other side. I do not recall previously seeing a Swedish hand-drawn divided-back card. This is an important type of item in the time line of the postal history of Swedish post cards.	25.00

215373	Scott #77 (F-VF) on (1914?) wrapper front from UDDEVALA to France, and then forwarded to Belgium (seemingly without additional postage). (the Linnegatan [Linne Street] station -- nice Linne thematic item) to the US (with backstamps). 60 öre 5th weight class (to 100 grams) letter rate and 15 öre registered fee. This medium size cover is extremely unusual in that it is both so small and such a heavy foreign rate; I have seen very few such covers.	45.00
201696	84 (VF) [25 öre Gustaf] solo usage on attractive 1917 registered cover from "STOCKHOLM 6 / B / 3 / ODENG" (with registry label) to Nättrabyhamn, with backstamp (post office did not open until 1910 and postmark is very scarce in this time period). 10 öre letter rate and 15 öre registered fee. Excellent rate usage.	27.00

From 1 February 1921 thru 30 September 1925, the Nordic registry fee was 30 öre, one of the very few times the registry fee has not been the same as the domestic registry fee. Examples are hard to find. Nice solo letter usage of a stamp that is mostly

Overpaid by 3 öre. 50 öre double foreign letter rate and 20 öre registry fee. Though overpaid, the 65 öre stamp is extremely scarce on cover (envelopes) because virtually all the use was on parcel cards.	39.00

WWII Censored Covers

233492	297, 297a, 297a/297 BC PAIR [1939 10 öre Berzelius, chemist] on 25 December (Christmas Day) 1939 cover from ÖRTOFTA to London, England, via airmail. Correct 40 öre franking. Though this cover does not show signs of censorship, England was already at war with Germany and thus anticipating censorship, the sender noted "In English" on the reverse. The single #297a sells for around \$20 OFF cover and the BC pair around \$300 OFF cover. On cover the BC pair is extremely scarce. The fact that the entire franking is paid with the same stamp design makes it all the more important as a CHEMISTRY THEMATIC cover. This must be the nicest Berzelius cover I have had in 36 years!	350.00
224721	1941 Forbidden ("förbjuden") censored Mint photographic picture post card montage picturing bridges, locks, dams, and power station in the Trollhättan area. In the WWII era, the Swedish Defense Department censored picture post cards (as was the case in most countries, but it is not well known). Vital potential strategic targets (especially bombing targets) were not allowed, especially subjects such as dams, bridges, locks, industrial and power facilities, railway yards, etc. In the examples I have seen, a blue handstamp including the text "tillåten" was applied to "allowed" cards and a red handstamp including the text "förbjuden" was applied to "forbidden" cards; forbidden cards seem to be quite unusual (most publishers were wiser than to try to submit them). These markings were probably only applied to proofs submitted by the card publishers and thus are probably unique for each card. Closely related to postal censorship and a little known aspect of postal history.	45.00

With extremely bold receiving text-machine cancellation making this a very dramatic looking cover. Lwów has a long and interesting history: signs of human habitation going back 12,000 years; many wars and occupations; returned to Poland after WWI; 1939 occupied by Soviets; 1941-44 occupied by Germans; 1945 ceded by Poland to the USSR, became part of the Ukrainian SSR (as Lvov); 1991 Ukraine became independent, name changed to Lviv.	16.00

rectly franked 140 öre: 30 öre surface rate plus 55 öre per 5 grams airmail surcharge. The 120 öre stamp is rare on correctly franked covers / envelopes; the stamp is usually seen on overfranked envelopes or on parcel cards. (There is no known solo usage rate for this stamp. A cover such as this is as close as one can get to a solo usage.) This letter would have likely been carried by the British secret night flights to Scotland; it may have also still been in transit on December 7, 1941 at the time of the Pearl Harbor attack; it is unusual that it does not bear any British censor markings. The cover is missing the back flap, but this is probably the nicest correctly franked on-envelope usage I have had in many, many years. 180.00

This popular Nobel stamp issue is very much sought after on cover. 16.00

Postage Due

Item # Description Price

215374 Sweden #77 (VF) [1911 5 öre Gustav in Round Frame] paying postage due on underpaid 1916 cover from Denmark, franked with Denmark #97 [1913 5 öre Christian X] to TYRINGE, Sweden. Green LÖSEN postage due label with 5 öre value written in. The sender may have been meaning to send as printed matter, but the envelope was sealed, thus the Danish 10 öre rate applied. Such postage due uses are not often offered. 35.00

235918 J15 [1922 10 öre Green Postage Due] (VF) tied by 26 July 1922 KJØBENHAVN cancellation on 24 July picture post card posted aboard the Swedish naval ship H.M.S. SVERIGE (apparently near Båstad, Sweden, at the time). There appears to have been a stamp affixed and canceled at lower right, but it must have quickly come off; there is a Swedish octagonal-boxed "T." handstamp, a blue manuscript Danish "10", and the Danish postage due stamp. If there had been a stamp that had fallen off, this should not have been rated as postage due. 39.00

Swedish rounded-box "T" handstamp, blue manuscript Danish "10", and the Danish postage due stamp. The correct postage rate was 15 öre, thus the shortage was doubled. 44.00

235922 J18 [1930 20 öre Gray Postage Due] (VF) tied by 31 August 1932 KØGE cancellation on 31 July seemingly unpaid (a stamp could have fallen off) picture post card (Kärnan tower in Hälsingborg, Sweden). No Swedish postage due markings, thus was probably mailed on the ferry or train between Hälsingborg, Sweden, and Helsingør, Denmark. Official Stamps - Large Format

Item # Description Price

201931 O20 (VF) [20 öre Blue perf 13 Official] on 1906 cover to the U.S. A remarkable INCORRECT AND/OR ILLEGAL USAGE of a Swedish Official stamp. These stamps were not valid on mail outside of Sweden (except sometimes to Denmark or Norway). The address and handwriting shows every indication of being "emigrant mail". Also there is no return address and the Halmstad Lbr cancellation indicates that the letter was deposited in an letter box, typical for emigrant mail. There are stick-pin holes in the cover and a manuscript number in the lower left corner, perhaps suggesting that it was attached to paperwork as part of an investigation of the mailing. Much emigrant mail of the era was sent unpaid (without return address) because the American cousins could supposedly better afford to pay the postage. Quite remarkable and the only such example I have seen in 29 years. 135.00

This medium size cover is extremely unusual in that it is both so small and such a heavy foreign rate; I have seen very few such covers. 45.00

A rate not often offered and an unusual combination of stamps. 26.00

From 1 February 1921 thru 30 September 1925, the Nordic registry fee was 30 öre, one of the very few times the registry fee has not been the same as the domestic registry fee. Examples are hard to find. Nice solo letter usage of a stamp that is mostly seen only on money orders and parcel cards. 30.00	
201723	91, 79 (F-VF) [65, 8 öre Gustaf] on attractive double weight August 1926 registered cover from Ängelholm (with registry label) to Wilhelmshavn, Germany, with backstamp. Overpaid by 3 öre. 50 öre double foreign letter rate and 20 öre registry fee. Though overpaid, the 65 öre stamp is extremely scarce on cover (envelopes) because virtually all the use was on parcel cards. 39.00	
201701	104, 115, 116 Type II, 138 [or 134] (VF) [27/80 öre Gustaf ovpt, 3 öre Bandmarken Arms, 5 öre Lion, 10 öre Lion perf 13] on attractive 1930 registered cover from "Hälsingborg 1 / K" (with registry label) to Krakow, Poland. 25 öre foreign letter rate and 20 öre registered fee. 205057	8 (F-VF) [12 öre Vapen blue] on attractive 6 March 1870 cover to Denmark with Superb "PKXP N:r 2" railway cancellation. Fresh and nice. Seldom seen so neat and clear.	75.00

Ship

Item #	Description	Price
233512	46 [1886 20 öre Ringtype Posthorn on Back] (F-VF) on June 1891 cover to Finland, with Finnish "FRÅN UTLANDET" cancellation and NIKOLAISTAD "Finland style" 5 June 1891 receiver. Unobtrusive tear at top, away from the stamp. Either posted in Sweden uncanceled (doubtful), or handed to a ship leaving harbor (typical), or posted on board a Swedish-flag ship enroute to Finland (typical). Very attractive with brilliant orange stamp and sharp postmark.	145.00

Item #	Description	Price
215377	80 (VF) [1911 10 öre Gustav in Round Frame] on neat 1911 ship cover with ÅNGBÅTS PXP No 114 ship cancel (confirmed by illustration on page 81 of Ångbåtspost, by MacFie), to HORN, with clear receiver on reverse.	30.00
235918	J15 [1922 10 öre Green Postage Due] (VF) tied by 26 July 1922 KJØBENHAVN cancellation on 24 July picture post card posted aboard the Swedish naval ship H.M.S. SVERIGE (apparently near Båstad, Sweden, at the time). There appears to have been a stamp affixed and canceled at lower right, but it must have quickly come off; there is a Swedish octagonal-boxed "T." handstamp, a blue manuscript Danish "10", and the Danish postage due stamp. If there had been a stamp that had fallen off, this should not have been rated as postage due.	39.00
235913	Iceland #117 [1920 15 aur Christian X, still in active use at the time] (F-VF) on 7 July 1934 Icelandic picture post card (real photo of Leif Ericsson statue) mailed aboard and WITHIN the SWEDISH cruise ship M/S Kungsholm, as it crossed the Arctic Circle, presumably after most recently having visited Iceland. Small spot near top. Canceled and handstamped with the seemingly full range (five different) of the official postal cancellations and handstamps available in the ship post office. Though I have handled hundreds of Kungsholm covers mailed at sea around the world, this is the first in 38 years that I can recall being mailed WITHIN the ship and probably one of less than five that have borne Icelandic stamps or markings.	150.00

215373	Scott #77 (F-VF) on (1914?) wrapper front from UDDEVALA to France, and then forwarded to Belgium (seemingly without additional postage). Though the 5 öre foreign printed matter rate is quite common, wrapper use to foreign destinations is seldom seen even in this "modern" period; forwarded wrappers are much scarcer.	20.00

221121	10, Facit #10d2 Orange. Used VF+ with VF+ FALUN cancellation, but one corner perf improved. Facit ID was confirmed by HOW. A beautiful example that would otherwise fetch at least \$100.	29.00	---	---
236050	11 [1858 30 öre Coat of Arms] Used F-VF with almost perfect SKENINGE 17 March 1871 cancellation. A handsome example.	---	---	65.00
221138	13 Type II. Used F-VF+ with Superb ES-KILSTUNA 1871 cancellation. Lower left corner perf rounded, but a beautiful stamp!	26.00	---	---
217921	18 [1876 4 öre Gray Ringtype Perforation 14] Used F-VF+ with absolutely Superb 1878 "STOCKHOLM NORR" cancellation; perfectly centered and perfectly struck. Unfortunately two corner perf tips have been expertly repaired. A stunning stamp that would otherwise sell for at least \$500.	75.00	---	---
217924	25a Black Brown, Facit #25v3 [1872 30 öre Brown Ringtype Perforation 14] Used Fine with the Shaded Numerals variety and a neat OUSBY cancel. Fresh.	22.50	---	---
233467	44 Reddish Lilac [6 öre Ringtype with Posthorn on back] Used F-VF centered with perfectly centered and complete "SÖDERH-KILAFORS" 5 January 1895 RAILWAY postmark. KJØBENHAVN (Denmark)	October 1920 cancellation. While Danish cancellations (from incoming ship and train mail) on Swedish stamps are not scarce, by 1920 they were much less common and are extremely scarce on this stamp design.	12.00	---	---
238621	209 [1924 1 kr UPU Congress] Used with VF centering and almost perfectly centered NORR-KÖPING cancellation, but a few blunted perfs at top and a thin speck on one perf tooth. Otherwise would be at least \$120 with such nice centering and postmark.	---	---	32.00
238622	209 [1924 1 kr UPU Congress] Used with VF+ centering and nice special STOCKHOLM UNIVERSAL POSTAL UNION 25 August 1924 cancellation. Has a couple blunted perfs and small thin. Appears to be a genuinely postally used example of the special UPU cancellation -- seldom seen on the high values (or really any values).	---	---	39.00
238645	224 [1924 80 öre UPU Anniversary] Used with Superb centering, enormous margins, and excellent perforations, except for one pulled perf. Nice HOGANÅS cancellation. Very attractive.	---	---	13.00
231860	226 Used with Superb centering and extraordinarily unusual 12 December 1924 OVAL CANCEL "POSTKONTORET / GÖTEBORG 1 PAK". This is a parcel post postmark, but it was rarely struck on stamps; I can only recall seeing a couple other examples struck on stamps and certainly none on UPU issue stamps. The stamp itself is an excellent example, but the postmark is much scarcer than the stamp!	---	---	225.00
238590	229 [1931 5 kr Stockholm Royal Palace] Used VF+ with excellent perforations and Superb SÖDERTÄLJE 14 June 1935 cancellation. Because this issue was most often used on money letters (which have irregular thickness) and parcel cards, perfectly struck cancellations are extremely scarce. An outstanding example; certainly one of the nicest I have had in 42 years.	---	---	45.00
238591	229 [1931 5 kr Stockholm Royal Palace] Used Superb with excellent perforations and well-centered KÄVLINGE 8 June 1934 small village cancellation. Because this issue was most often used on money letters (which have irregular thickness) and parcel cards, well centered cancellations and those from small villages are scarce. An excellent example.	---	---	28.00
237718	Lx1, Facit #6a1 [1856 1 skilling Black Local] Used Fine with Superb starburst postmark. Typical centering for the issue, but with nicer than usual perforations (which are normally irregular prior to 1858). Beautifully postmarked example with very nice impression. 233134	12 Rose [1858 50 öre Coat of Arms] Mint Fine+, but with only small traces of gum remaining (typical; otherwise \$500+). Great perforations, brilliant color; a beautiful stamp!	290.00	---	---
238227	12a Dark Carmine, "1855 Perforations" [1858 50 öre Coat of Arms] Mint VF, but without gum (typical). Great "1855" perforations (variable tooth size and blind perfs) and incredible color! (The carmine colors, Scott #12a, were perforated on an older machine with many bent or missing teeth, resulting in an irregular perforation appearance. These are referred to as "1855 perforations" in the literature. The machine was replaced in 1865.) The Facit 2015 value (with gum) for the Carmines ranges SEK 6000-8000 (12/14 US\$900-1200). Very pretty!	---	---	340.00

217919	13 Type I, Facit #14A [1862 3 öre Brown Lion, Type I] Used Fine with Stockholm city delivery cancel. Facit 2006 value is SEK 5500 = \$770! A very scarce stamp.	190.00	---
217977	13 Type I, Facit #14A [1862 3 öre Brown Lion, Type I] Used Average centering, with 1863 WARBERG cancel and part of a red foreign cancellation. This stamp is scarce with cancellations other than Stockholm and extremely scarce used from covers leaving the country. Facit 2006 value is SEK 5500 = \$770! A very scarce stamp in any quality.	145.00	---
217913	13 [1863 3 öre Brown Lion, Type II] Mint F-VF+ OG, fresh with small crease. Strong color and very attractive.	39.00	---
233143	13 Type II, Facit #14B. Plate variety "Large scallop out of left frame line about the large 3". [1862 3 öre Brown Lion, Type II] Used VF with nice, strong orange-brown color. Postmark well away from the variety.	26.00	---
236658	13 Type II, Facit #14B [1863 3 öre Lion] Used F-VF with neat cancellation. Unusual plate variety: "several breaks / white spots in top frame line, near left corner and above RIG". I have not previously seen this obvious variety or any report of it. I suspect that the cliché was quickly repaired, thus making this variety quite scarce.	---	36.00

Item #	Description	Price	Mint	Used
236990	17, Facit #17a Grayish Yellow Brown on Yellowish Translucent Paper [1872 3 öre Ringtype, Perforation 14] Mint F-VF example, but without gum (as typical for this very scarce color. Facit 2012 value SEK 1000 = \$155. Seldom offered color/printing.	---	70.00	---
217921	18 [1876 4 öre Gray Ringtype Perforation 14] Used F-VF+ with absolutely Superb 1878 "STOCKHOLM NORR" cancellation; perfectly centered and perfectly struck. 238533	23b [1876 20 öre Ringtype Perf 14 DOUBLE PRINTING] Used F-VF with fully dated cancellation. Strong orange color, and best of all... clearly visible (for these) underlying yellow printing. Usually this stamp is dingy and it is hard to see the underlying printing (it is light yellow after all -- that is why they printed it again) because the printing registration is so close. This example shows obvious doubling with the yellow to the right and above the orange; clearly visible at both the top and right frame lines and in the central "20". Such obvious examples are scarce.	---	---	45.00

238536	32, Facit #32v5 "Shaded Numerals" [1877 12 öre Ringtype, Perf 13] Mint Fine centered, but without gum. Clearly visible shading in "1" of "12". Wonderful deep color. If had gum would be priced at \$45.	---	18.00
238537	33 Facit #33a Carminish Dull Red [1877 20 öre Ringtype, Perf 13] Mint F-VF centered, but without gum. Strong, distinctive red color of the first printing; completely unlike the orange-family later printings. I have just proposed a sub-number listing for this stamp to the Scott Catalog editors - I should have done it years ago. If had gum would be priced at \$360, but original gum examples are extremely scarce.	---	140.00

233467	44 Reddish Lilac [6 öre Ringtype with Posthorn on back] Used F-VF centered with perfectly centered and complete "SÖDERH-KILAFORS" 5 January 1895 RAILWAY postmark. 236657	48 Colors [1886 50 öre Ringtype, with posthorn on back] Group of 7 used stamps, all VF or better centered, with all-different colors/shades and/or papers. The star of this group is a VERY UNUSUAL "SOOTY CARMINE" that I cannot recall previously seeing -- the color does not match any catalog listing I know of and is not represented in the color page from the 1970s/1980s SFT. It is probably a variation of Facit #48e Dark Violetish Carmine, but it is quite unusual.	---	55.00
233469	50 [1889 10/12 Surcharges] NH top margin 16-block. Centering ranges from Fine to F-VF. Upper left stamp has defect, but looks great. Lots of "spots and dots" varieties in the surcharges. Fresh! Price at break-up value.	65.00	---

238613	202a (Greenish Blue) [1924 30 öre greenish blue UPU Congress] Used with Fine centering, but with a non-obvious crease and a few blunted perfs. This major color variety is grossly under-appreciated. Facit 2016 value is SEK 1200!	---	24.00	
238621	209 [1924 1 kr UPU Congress] Used with VF centering and almost perfectly centered NORR-KÖPING cancellation, but a few blunted perfs at top and a thin speck on one perf tooth. Otherwise would be at least \$120 with such nice centering and postmark.	---	32.00	
238622	209 [1924 1 kr UPU Congress] Used with VF+ centering and nice special STOCKHOLM UNIVERSAL POSTAL UNION 25 August 1924 cancellation. Has a couple blunted perfs and small thin. 238633	225 [1924 1 kr UPU Anniversary] Used VF right-marginal 4-BLOCK with neat light central cancellation, large margins, and excellent perforations. The left two stamps have noticeable gum-soak staining (the gum soaked into the paper, making it slightly translucent); this is only barely noticeable on the right two stamps (and if removed from the block, the right two stamps would look normal). A very attractive accent piece; used blocks of the high values are seldom seen. Priced mostly for the right two stamps.	---	260.00	
231860	226 Used with Superb centering and extraordinarily unusual 12 December 1924 OVAL CANCEL "POSTKONTORET / GÖTEBORG 1 PAK". This is a parcel post postmark, but it was rarely struck on stamps; I can only recall seeing a couple other examples struck on stamps and certainly none on UPU issue stamps. The stamp itself is an excellent example, but the postmark is much scarcer than the stamp!	---	225.00

Postage Paid Stamps

In early 2003, with very little public notice, the Swedish post office created a new type of Swedish stamp, the "Porto Betalt" or Postage Paid stamp. While post offices officials do not use the word "stamp" to describe these stamps, to collectors they are stamps. Two stamps were issued to be used by companies having a "special agreement" with the post office. I have not been able to obtain the details of such agreements nor the exact rules for the use of the stamps. The stamps are intended to be used by companies making mass mailings (the American term is Bulk Mail or Advertising Mail). The concept is that if a stamp is applied to the envelope, the recipient will be more likely to open the envelope and read the advertising. The United States uses similar types of stamps that have a nominal cost with the majority of the postage being paid in cash according to count and weight; such United States stamps are listed in the Scott Catalog and are collected as "normal" stamps. It is not known to philatelists if further stamps will be issued. These first two stamps were presumably made available to large mailers in full rolls (size unknown to me). However, the post office also, relatively quietly, made them available to collectors as a set of two strips of five; singles were not made available. I have not recorded any units larger than a 5-strip. The

stamps do bear the name of the post office, "Posten Sverige AB", but not the name of the country, "Sverige", in the usual form found on "normal" postage stamps. The stamps may not be used by individuals or anybody without a "special agreement" with the post office. Any such use would be an "illegal use", however, I have already recorded one cover, used by an individual, that passed through the mail at first uncanceled and then canceled by the receiving post office. I have yet to see an advertising mail cover bearing one of these stamps. Add these stamps to your collection while they are still available at reasonable prices. **The best buy is the set of two stamps;** the prices of the individual items are different due to topical demand for the Lighthouse stamp and the fact that the stamps were only made available to collectors as sets.

Frama And Klussendorf Machine Stamps

Sweden issued machine stamps from 1991 through 1997. The 1991-92 Machine Stamps were dispensed from three machines manufactured by the Swiss-based Frama company, thus the name FRAMA stamps. Starting in December 1992 the Frama machine were replaced by 200 German-made Klussendorf machines. These are real postage stamps, not meters or labels. They were and still are valid from any location in Sweden, at any time, by any mailer. (Unlike meter imprints which are only valid from the location and on the date imprinted, by the licensed user.) These Swedish machines were variable denomination (not fixed rate), but these stamps are customarily collected in "rate sets", as issued by the post office philatelic department, which were the most commonly used postage rates of each period.

Year Books		
	Official year books are handsome hardbound books that contain the stamps issued during the year as well as dozens of wonderful photographs and illustrations and interesting and informative text about the stamp issues and the country. The text is usually in multiple languages; unless otherwise stated, full English text is included. Sweden official year books have been issued since 1987-88. From the start until the 2003-2004 book, each book contains the stamps from mid-year through mid-year. Starting with the 2005-titled book, the books contain the stamps of the calendar year.

Line Pairs

This section is not complete; many other mint and used line pairs are in stock and available on approval. Please inquire.

From 1920-1936, Sweden used a Stickney printing press; the same type of press used in the United States in the 1920s. The rotary Stickney press utilized two half-cylinders; lines result between the stamps at the two joins between these halves. These lines are found on both the coil and sheet (or booklet) stamps in the range Scott #115-263, #B32-36, and #C6-7. On the 1924 UPU stamps (#197-228) lines are seen on single stamps, but they are not found as pairs due to the sheet layout. Though they are not widely collected in Sweden itself, line pairs are avidly sought by collectors and they are quite difficult to find in nice condition.

The other two designs are from the 1995 Films booklet: Scott #2141 and #2143 The Apple War. Only 2000 of these cards were printed! Extremely scarce! 209598	Postal Card Facit #89a 1995 Motorcycle Riders. Canceled 12 October 1995, the first day of the exhibition, with the exhibition postmark. Though supposedly issued on 7 October, I have never seen a cancel earlier than 12 October and I believe it to be the actual FD cancellation. VF. 25.00	

Postal Card Facit #89b 1995 Greta Garbo in Gösta Berlings Saga. The indicia is from the 1981 souvenir sheet, Scott #1386. The picture side includes two stamp designs from the 1981 Film souvenir sheet (Scott #1386): same as the indicia and a scene from Intermezzo. The other two designs are from the 1995 Films booklet: Scott #2141 Anglagard (House of Angels) and #2143 The Apple War. These cards were valid for domestic postage (the PORTO BETALT [postage paid] in the indicia). However, as the cards were intended to also be valid for international usage, some were handstamped PORT PAYÉ (normally in violet, but black also exists) to comply with UPU regulations. **Only 6000 "exhibition invitation" cards were printed and the vast majority were immediately mailed to the members and guests of the Postal Museum to announce the exhibition. I doubt that more than a few hundred, if that many, unmailed (i.e. mint or FD canceled) remain in existence. Furthermore, perhaps half the**

remaining cards were handstamped PORT PAYÉ. Extremely scarce in any form! As of 1/1/2006, I have never seen any cards of this issue offered for sale. The handstamping was done by the office and shop staff at the Postal Museum; just government employees, not "regular" postal staff or philatelists, thus they may not have realized the implication of the handstamp being done in a different color (it was normally violet) to say nothing of doubled or inverted! RARE!

Though the card was supposedly issued 21 September (presumably the date mailed to the Museum membership), I have never seen a cancel earlier than 12 October [the post office typically did/does not postmark mailings that use a "porto betalt" indicia] and thus I believe the 12 October cancellation to effectively be the first day cancellation. I would be surprised if more than 100 of these canceled cards ever existed. VF. 30.00

Officially Printed Post Cards

This section has not been fully implemented. However, most officially printed stamp cards and many other types of officially printed post cards (i.e. the many types that do not actually picture stamps) are in stock. For the best service, please send your want list or describe your interests.

Stamp cards are picture post cards that picture stamps, usually officially printed; they often serve as a foundation for making maximum cards. Most are highly topical and sought after along with the stamp issues; many stamp cards have been issued for Slania-engraved stamps. There is also a broader category of officially printed picture/message post cards released by the post offices for several different purposes. Sweden has many such officially printed cards. The last catalog of Swedish stamp cards (actually picturing stamps) was a special stamp card catalog produced by Facit in 1985. Stamp cards and all the other types of cards were cataloged in 1982 (with a 1983-84 supplement) by Weiss and Öberg: Förteckning över Postverkets Vykort t.o.m. 1982. Both of these catalogs are in stock and available for purchase.

Souvenir Cards and Sheets

Collector Sheets: Stamps

Sweden started issuing collector sheets (samlarbladet) in 1991. They have very attractive, artistic designs and include a set of mint, never hinged, stamps in clear stamp mounts. Very few dealers stock the collector sheets and it can be extremely difficult to obtain specific issues.

Scott numbers have been used unless otherwise indicated. The listings are in order by issue date of the stamps, not by Scott number.

Due to the size of collector sheets (210 x 295 mm, 8.25 x 11.6 inches), additional packing is required for proper protection in the mail. Smaller orders may be subject to an additional postage charge.

Proofs

Gustav V in Round Frame

Swedish proofs are generally very scarce and are seldom offered. Whether they are used to add "spice" to a collection or to document the development of a stamp issue, they are quite interesting, attractive, and difficult to obtain.

Scott numbers (of the basic stamps) have been used unless otherwise indicated. All items are available for viewing on approval.

This was probably a color trial proof -- the color appears to be that of the issued 15 øre stamp. A spectacular item! 160.00

Test Stamps

Test Stamps (also called Dummy Stamps in the U.S.) are created by post offices, stamp printers, and printing press manufacturers to test printing and production processes and machines. While a few test stamps have had extensive philatelic distribution, most were never intended to be known to collectors and are very scarce. Some test stamps exist in both common mass-produced and philatelically distributed versions and also visually different "real use" versions that range from unusual to scarce to rare. New discoveries continue to be made.

The first Swedish test stamps of which I am aware date from the mid-to-late 1930s and include the well-known 1937 "Miranda" design (used at least up into the 1970s or early 1980s).

Early designs also include the 1935 60 øre Riksdagen and the 1936 5 øre Postal Service issues, using defaced dies and overprinted "MUSTER"; and the 1941 St. Bridget using a defaced die. The 1960s and 1970s-1980s designs include the well-known "Uppsala Cathedral" interior by engraved by SLANIA. Lesser-known modern designs include "Snurran" (rotating design), "Classic Bust" by Jorpes, the "Postman", "Drottningholm Theater" engraved by Jakus, and a "PFA" design engraved by Jorpes combined with a geometric designs stamp in a combination plate. Though not all of these designs are yet included on the website, I do have many of them in stock and available for approval viewing.

All test stamp items, whether or not listed on the website, are available for viewing on approval. I have a constantly changing stock of Swedish and all Scandinavian essays, proofs, reprints, specimens, and test stamps. Most such items sell before they get to the website or price lists. What are you seeking?

Private Reprints

Private reprints have not been authorized by the post office. They are usually made by stamp clubs. The Swedish Philatelist Forbund (SFF), at the time the publisher of the SFF Catalog which was merged into the Facit Catalog, and then for a short time, the Facit publisher, printed small "reprint" sheetlets containing one stamp reproduction. The "stamp" bore either a backprint or a perfin.

Blackprints

All are NH, VF and fresh as officially issued.

Since 1974, or perhaps earlier (?), Sweden has issued a surprising number of "proof prints" commonly called "black prints", "color prints", or in some cases referred to by the post office as, "test stamps".

These items are officially produced by the post office for a number of uses and generally find their way to collectors, though usually in very limited distribution. Often they are only available one-to-a-person or are included in a larger, more costly item such as a year book and thus one has to buy the entire year book just to get this special item.

In most cases, the "proof prints" from Sweden have been made using the engraved portions of issued stamps. They are usually imperforate, printed in one color (different than the issued stamp), and often do not include any denomination or country name. Many of these "proof prints" are of Slania-engraved issues.

Most items are only available in very limited numbers. If you know of items that are not included in this listing, please share the information with me. (I am also a buyer of this type of material.)

In 1995 the Swedish Postal Museum published an article reprint the form of a 40-page book: Postens Frimärks Tryckeri Under 75 år 1920-1995 (75 Years of Post Office Stamp Printing 1920-1995). This covers the time from installation of the first Swedish rotary stamp printing press (a U.S.-made Stickney press). Only a small quantity of the books were printed and distribution seems to have been very limited -- I am a member of the Museum Friends organization and I did not even know the Film blackprint or the book contains existed until around 2000 or that the book was the source of the blackprint until 2003 and it was not until 2006 that I learned that the book also contains proofs of the 1920-28 issues. The book and the blackprint / proof items it contains are extremely scarce.

The book contains a blackprint of the engraved portion of the 1995 Film stamps (Scott #2138-43), which includes designs ENGRAVED BY SLANIA, SJÖÖBLOM, and NASZARKOWSKI.

The book also contains blackprints / proofs of three 1920-28 issues (Scott #115, 116 Type II, and #168 Type II).

	The book states that both blackprint / proof items are printed from the ORIGINAL ENGRAVINGS, thus not from secondary transfers or plates. The result is prints of incredibly clarity and detail; the 1920-28 stamp designs especially are unbelievably sharp and detailed. 	While the existence of the Film and 1920-28 blackprints is known to some in the Slania collecting community, though few have ever seen an example, they are virtually unknown to collectors of Sweden including collectors in Sweden. The two coil stamp designs are engraved by Naszarkowski and the two booklet design stamps are engraved by Lars Sjööblom. The book is a beautiful production with great photographs and interesting text, all of which is fully in Swedish, German, and English. The book also includes the issued 2007 Linne stamps and is encased in a dust cover. The book sold out quickly and is virtually impossible to obtain. 120.00	
219003	2000 Slania 1000th Stamp issue. Scott #2374. For his thousandth stamp, Slania chose to engrave a stamp for Sweden that would also supposedly be the largest regular postal stamp in the world. The stamp design is the center of the David Kloker Ehrenstral ceiling painting "Great Deeds by Swedish Kings". The blackprint of this wonderful issue was only offered in a folder / pack that also contains the mint stamp (souvenir sheet) and the official first day cover. The pack bears a portrait of Slania and an image of a larger area of the ceiling painting. A very nice item! The complete pack. Postal Art Prints

Postal Art Prints are officially produced and sold by the post office, often with a postal connection and/or the work of post-office employed artists or engravers, but are not actually related to specific stamp issues. This is the only comprehensive listing of them of which I am aware.

- 233343 2001 Slania-engraved Postal Art Print in folder: "Gustav II Adolf Death At The Battle of Lützen (1632)" from a famous painting by Carl Wahlbom. Officially printed and offered by the Swedish post office. Wonderfully detailed 75 x 55 mm engraving, in violet, portraying the frenetic scene of war and death. Revenues

Documentary 1968 Slania Design

This design, engraved by Slania, came into use in 1968. They were sold, at least through the post office (?), until 1 April 1989 and validity (and use of adhesive documentary revenue stamps) entirely ceased as of 1 July 1992.

Swedish revenue stamps have most recently been cataloged in the 2009 Facit Scandinavian Specialized Catalog.

Mint stamps range from very scarce to rare. Some mint stamps are known (at least) with white dull gum and some with "flat" invisible gum; it is unclear to me if any are known with both. The invisible gum examples I have seen have a slight horizontal wavyness in the gum.

At least some of the low-denomination BROWN stamps are known in both (Dark) Brown and (Light) Orange Brown.

Christmas Seals - National

The full listing of Swedish Christmas seals is still under development. However, I have a very comprehensive stock and will be happy to send approvals from your want list. Please let me know of your interest.

Seals

Flag Day Seals

Swedish Flag Day seals were first issued for 1916-17 and since 1918 have been issued annually. The seals usually bear the text "Svenska Flaggans Dag" or "Stiftelsen Svenska Flaggan" or "Nationaldagen". They are colorful, patriotic, and often great works of miniature art. For a few of the years matching picture post cards also exist. Because most years do not indicate the year of issue, the seals can be difficult to identify without an il-

lustrated catalog (such as this website). This is the only on-line illustrated listing of them of which I am aware. The early issues are generally scarce, some very scarce, and some of the modern issues, from the 1960s onward, can be frustratingly difficult to find. Used examples are quite scarce and seals used (tied by postmark) on cover or card are extremely scarce.

All items are available for viewing on approval. Even if the items you seek are not currently listed, please send your want list so that I may advise you when they become available.

Item #	Description	NH
236752	Royal Air Defense Society ("Riks Luftskydds Förbundet") 10 öre in red, blue, and black. Soldier holding shield against formation of airplanes. Denomination and text in white. Small format, design 17 x 22 mm. Perforation 11. NH VF SHEET OF 50 (10 columns x 5 rows). Has irrelevant small ink stain on lower right corner of selvage; otherwise perfect quality. In 38 years I can only recall seeing one or two mint with-gum singles of this label, perhaps 5-10 no-gum singles, and one or two canceled singles. I do not recall ever seeing an example on cover (untied or tied). If I had a NH VF single of this label, I would price it at \$5, making the break-up value of this sheet \$250! And I certainly have never seen anything as stunning as this sheet! An important Swedish WWII-era artifact that helps illustrate one of the reasons why the Germans bypassed Sweden.	95.00

236684	58 [1891 10 öre Engraved Oscar] (VF) on 14 August 1908 picture post card (photo scene from town of Säfsjö) to the U.S., with RAILWAY cancellation "PKXP. No 2 A. INR. U.", Danish transit postmark (unusual on mail to the U.S.), and red U.S. New York "DEFICIENCY / IN / ADDRESS / SUPPLIED / BY / NYPO - I.D." handstamp. The so-called deficiency is that somebody could not read "Mass" as the state, even though it was right there. What makes this card especially interesting is that it is a HAND-DRAWN DIVIDED BACK card. Prior to 1 October 1907 divided back cards to the U.S. were charged at the letter rate. This sender was utilizing an earlier undivided-back card, dividing the back so that a message could be written without obscuring the picture on the other side. I do not recall previously seeing a Swedish hand-drawn divided-back card. This is an important type of item in the time line of the postal history of Swedish post cards.	25.00

Tourist Issues

These stamps were issued in cooperation with the Swedish and other Scandinavian post offices and are valid FROM other countries TO Sweden, Denmark, Norway, Finland, and Åland. They are listed by the Facit catalog. There were five different stamp issues included in six different issues of booklets.

It all started in 1994 in the Canary Islands, off the coast of Spain. Many Scandinavians vacation in the Canary Islands during the dark Scandinavian winters. Unfortunately, sending an airmail letter from the Canary Islands back to friends in the Scandinavian countries used to take several weeks as it crawled through the Spanish mails. To solve this problem, Sweden Post, through a cooperative arrangement, issued special stamps, initially sold only in the Canary Islands. These stamps had international franking value for post cards (one stamp) and letters (two stamps) to Sweden, Denmark, Norway, Finland, and Åland. The following year, the availability of stamps and service was expanded to other tourist destinations such as Cyprus and Crete. Eventually the stamps came to be used from a number of areas, including Florida! The letters and post cards are posted with the hotels and travel agents and are carried aboard charter airliners to Stockholm where they are placed in the regular mails for delivery within Sweden or to the other countries.

This mail service ceased in the fall of 1998. The stamps have already become quite hard to find; prices are already rising. However, most collectors are not yet aware of them; as they become more well known, we can expect prices to climb.

To my knowledge, this is a completely new type of stamp: Issued by one country for postage use on letters from a different country, back to the home country (or to a neighboring country). These special-purpose stamps are not local issues because they have international validity and they were authorized by a national postal service. They are stamps. The items below are listed by Facit numbers.

Stamps

The Facit Catalog has already listed these stamps. European catalog and album publishers are likely to eventually include them as well. They are already being included in the Stender Albums. Obtain your stamps **now** before they are listed in all catalogs; before prices go up further! Though these stamps were printed in Sweden, they are valid for mail to Denmark, Norway, Finland, and Åland as well as Sweden. This means that collectors of all these countries are including them in their collections. You may wish to do so as well.

The panes are line rouletted between and around all the stamps except that the right-most two stamps of a pane have a straight-edge at right, thus the right-most two stamps are in the set Facit #TU1B-4B and the other four stamps are in the set Facit #TU1C-4C. Both the B (scarcer, slightly higher price) and C types are usually available upon request.

#TU13-18 (Hotels) and TU19-24 (Maps)	were issued in two different booklets. Each booklet contains a pane of 12 stamps, consisting of two identical six-blocks. The Hotels had two printings. The first Hotels printing has glossy gum, while the second has dull gum. The Maps only had one printing, with glossy gum. The glossy gum is quite variable and sometimes has "skips" in it. While Facit is unclear if the stated issue quantities are for stamps, 6-blocks, or whole booklets, Facit states that only 3200 of the Hotels first printing were issued (the rest were destroyed due to problems with the gum) -- this is very scarce! The stamps have vertical line-rouletting and much smaller, fainter, horizontal line/dot-rouletting. The Hotels first printing and the Maps do not have vertical rouletting between the two six blocks, but the Hotels second printing does have vertical rouletting between the 6-blocks. Both Hotel printings 6-blocks can be found with a vertical line of colored-black roulette cuts at the right side of the six blocks (the binding edge of the panes). All these variations may be available, please inquire.

The stamps have vertical line-rouletting and much smaller, fainter, horizontal line/dot-rouletting. There is vertical line of colored-black roulette cuts at the right side of the pane at the binding edge. The pair with this line may be available, please inquire.

Covers

The Tourist Stamps were applied to post cards (one stamp) and letters/envelopes (two stamps) by the sender or perhaps a travel agency or hotel employee at the tourism location (i.e. Canary Islands, etc.). The mail was then privately transported to the nearest airport served by related Scandinavian airlines or charter airlines serving the tourists. The airlines carried the mail to Stockholm where it was sorted for delivery in Sweden or carriage on to one of the other Scandinavian countries.

The card and envelopes were **not normally postmarked** in accordance with Swedish post office practice regarding mail that is imprinted or bears stamps bearing the statement "porto bealt" or "port payé". Postmarked covers and cards are the exception and are, of course, avidly sought after.
