Covers

Item #	Description	Price
222060	Finland #276-7 [1948 Finnish translation of the New Testament by Agricola] and #B74 x2 [1946 1 mk Fishing Nets, semi-postal] on 30 October 1948 cover with PÅLSBÖLE cancel (Russian text removed; the Alandia book shows this cancel used 1919-1936, but it was used into at least the 1950s, though worn out and smudgy by this time). Extremely scarce destination from Åland.	12.00
218477	Sweden 15 öre double postal card, Facit #29a, with 6 öre additional franking (to make 20 öre rate) used both ways! Airmail 4 June 1956 from TRELLEBORG, Sweden, to the post office at MARIEHAMN, asking about postal rates. Replied 5 June 1956 airmail back to Sweden, properly utilizing the Swedish postage paid by the double/reply postal card. The reply bears an unusual handstamp of the Mariehamn post office. Though mailed by a known stamp collector, this is a very rare type of usage from Åland.	60.00
218476	Finland #402 and 464A combination pair from booklet (VF) on 25 August 1975 Åland tourist picture post card [Mariehamn harbor and ferry ships] mailed on board a ferry traveling toward Finland. Landed and put into the post at TURKU, Finland, with unclear NAVIRE ship letter (paquebot) cancellation. The booklet stamps are scarce on covers from Åland.	15.00
218430	Registered mail receipt 25 November 1983 for two registered and two insured pieces of mail from the village of TOSARBY with nice postmark, to MARIEHAMN. Such postal forms were rarely saved and are thus now seldom offered.	25.00
223924	23 May 1987 picture post card with Swedish franking and special cancellation, with violet oval "POMMERN / POSTAD OMBORD" 23-31 May 1987 ship marking. Printed cachet: official mail carrier for the Cutty Sark Tall Ships Race 1988 / Sail Mariehamn and picturing a modern Viking Line ship. The picture sides shows a dramatic painting of the Pommern under full sale in a storm. The Pommern was in Stockholm for this event. The Pommern is emblematic of the Åland Tall Ships that sailed the world; it is pictured on the 1984 2.00 stamp from the first Åland stamp issue.	8.00

221281	MARIEHAMN 1876 "arc" VF cancel Alandia #086.01 on Finland Scott #23 [32 penni Rose, Perf 11] VF, but with thin. Attractive early example. Åland cancels are not often found on this stamp, especially not on the Rose color.	35.00
223921	Scott #236 [2005 Bjorn Borg] official FDC autographed by tennis superstar Björn Borg, who is pictured on the stamp and the cachet of the FDC. Very unusual item for either the Åland collector or the tennis enthusiast.	16.00
232821	Finland #165 [1930 60p Gray M-30 Lion] Used F-VF with ÅLAND "MARIEHAMN" 20 December 1930 Superb cancellation. Such complete strikes are seldom seen on M-30 stamps.	12.00

1930-1950 Covers

Item #	Description	Price
214931	Finland #262 with TJUDÖ (Åland) bridge-style cancellation on neat cover to Stockholm. Though the year date is not clear, the 12m rate to Sweden as double rate ran only 16 January 1946 through 31 December 1946 and as single rate only 1 January 1948 through 30 November 1948. This device was the first postmark at Tjudö and it is interesting to note that Mattsen only recorded it used in 1950. If the franking is to be relied upon, then this usage moves the cancel usage range back at least a couple years. Regardless, I believe that this is the ONLY pre-1970s TJUDÖ cover I have ever had (in 32 years!) Quite scarce.	80.00

1951-1962 Covers

Item #	Description	Price
215110	Finland #331 [Founding of Lahti] (F-VF) on 1955 solo usage cover to the U.S., with PÅLSBÖLE (Åland) Russian-text-removed style cancellation. Mattsén and Hvirvikoski show this cancellation used only until 1936 and nothing again until 1962, which is obviously not correct. However, this is very late use for any Finnish or Åland Russian-text-removed postmark. Scarce solo Åland usage of commemorative stamp.	29.00
215111	Finland #345 [Boy Scouts] (VF) on 1957 solo usage cover to the U.S., with PÅLSBÖLE (Åland) Russian-text-removed style cancellation. Mattsén and Hvirvikoski show this cancellation used only until 1936 and nothing again until 1962, which is obviously not correct. However, this is very late use for any Finnish or Åland Russian-text-removed postmark. Scarce solo Åland usage of commemorative stamp; this stamp is scarce used on cover even from mainland Finland.	38.00
215112	Finland #356 [Founding of Pori / Bjorneborg; "March of the Bjorneborgiensens" by Edelfelt; drummers, soldiers] (F-VF) on 1958 solo usage cover to the U.S., with PÅLSBÖLE Russian-text-removed style cancellation. Mattsén and Hvirvikoski show this cancellation used only until 1936 and nothing again until 1962, which is obviously not correct. However, this is very late use for any Finnish or Åland Russian-text-removed postmark. Scarce solo Åland usage of commemorative stamp.	30.00

Stamps

Since starting to issue stamps in 1984, as a postally independent province of Finland, Åland has followed a conservative and postally responsible issuing policy. Åland stamps are popular the world over.

All Åland stamps are VF and fresh. These stamps have been listed in **date order** because the Scott catalog listings are quite confusing.

All issues can also be supplied in blocks, plate blocks, gutter pairs, and mini sheets (when such formats exist).

Frama Machine Stamps - Most Recent

Åland Machine Stamps are dispensed from machines manufactured by the Frama company, thus the name FRAMA stamps. These are real postage stamps, not meters or labels. They are valid from any location in Åland, at any time, by any mailer. (Unlike meter imprints which are only valid from the location and on the date imprinted, by the licensed user.) These stamps are collected in "rate sets", the most commonly used postage rates for which the machines had pre-set purchase options.

224415	2007 March 1: Peonies .55, .70, .75, .85 Euros. "Corrected" rate set : By the time the 1 February 2007 postal rate change decision had been made, the new Peony design had already been denomination imprinted with the OLD rate set values (55, 65, 75, 85) in preparation for distribution on their planned 1 March issue date. The post office decided to ship the OLD rate set to its subscribers even though that rate set was outdated. Later purchasers received this "corrected" (55, 70, 75, 85) rate set. Since most distribution happens at the time of new issue, this is probably the rate set that most collectors will have gotten (and they will not even know about the corrected rate set). VF	8.00	---

Year Sets

These year SETS are offered at a discount from the individual stamp set prices. Year SETS are NOT the same item as an official year PACK. Year SETS are simply year groupings of stamps. Year PACKS are officially issued packages (folders/packs) and are popularly collected as year packs. Unless otherwise mentioned, the year SETS I offer contain all the basic stamps and "normal" souvenir sheets expected by a collector using a Scott album, but often this will be the same as what is needed by the collector using a European-made album. Year SETS are usually more correct for given styles of albums and often contain more stamps than the officially packaged year PACKS (in which the post offices often do not include everything that they should). Older year PACKS usually cost more than year SETS. However, year SETS are offered at a discount from the total of the individual items they contain (unless they only contain one individual stamp set). Year PACKS are also available: **the earliest year packs are here and the most recent year packs are here.**

I guarantee your satisfaction and guarantee that you will always receive first quality stamps. As with almost all items I offer, you are welcome to request year sets to be sent on approval.

Please note that Scott Catalog numbers for Åland stamps have changed several times, are not in very logical order now, and will likely change again someday. If you use a Scott album with catalog numbers printed in it, the current and correct numbers listed here may not be the same as printed in your Scott album.

Year Packs

All Year PACKS are NH VF and fresh, complete as issued by the post office. The post office occasionally omits from the Year PACKS items that most people wish to have. These "extra" items are listed below, after each Year Pack, with "+" preceding the description. Order these items as well if you wish to have all the stamps issued for a given year.

Year PACKS are packages officially issued by the post office and are collected by many people as intact Year Packs. Earlier Year PACKS often sell for more than the stamps they contain. Year SETS are simply groupings of all the stamps issued in a year and sell at a discount from the total value of the stamps they contain. Depending upon what the post office has put into the Year PACKS, Year SETS often contain slightly different items than Year PACKS; because of this, direct price comparisons cannot be made -- you must look at what items each contains.

I guarantee your satisfaction and guarantee that you will always receive first quality stamps. As with almost all items I offer, you are welcome to request Year Packs or Year Sets to be sent on approval.

Year Books			
	Official year books are handsome hardbound books that contain the stamps issued during the year as well as dozens of wonderful photographs and illustrations and interesting and informative text about the stamp issues and the country. The text is usually in multiple languages; unless otherwise stated, full English text is included. Åland official year books have been issued since their first stamps of 1984. The first year book contained the first 10 years. Following that each book contains two years of stamps.

Gutter Pairs			
	All Åland gutter pairs are VF and fresh. For each issue that has gutter pairs, there are at least two types of gutter pairs (with number and either without number or with emblem). A few issues had a third type (with date). The 1999 Lichens issue was the first (and only, at the time) to have "decorated" (different for each pair in the gutter strip) gutters; this started again in 2004 and is continuing for the moment.

Full Gutter Strips

The 1999 Lichens issue was the first Åland gutter pairs issue to have a "decorated" gutter. Decorated gutters then appeared regularly starting with the 2004 Olympics issue. The highly decorated gutter of the 2004 Christmas issue, with a bird and a cat, resulted in great interest in collecting Åland gutter full strips. Some are already quite difficult to obtain; the 2004 Christmas issue is now very scarce.

With Marginal Markings

The Åland booklet issues printed by the Swedish Post printing works have the same types of "marginal markings" found (and widely collected) on Swedish booklets. (Except that the 2008 Light-

houses booklet printed by Sweden has not been found with margin markings.) There are three types of markings, resulting in four individual markings, which can then be found in double and triple combinations. (Triple combinations are usually quite rare.) The markings are Cylinder Numbers (the digits 1 or 2, called "Cyl-1" or "Cyl-2") representing the two half-cylinders of the printing plate; Counting Numbers (a serial number, called "KN" [Swedish abbreviation]) usually appearing once per revolution of the press; and Spine Print (a black rectangle appearing once per 50 booklets, on the outside of the cover, usually, but not always, across the spine; called "SP" [or "RT" in Swedish]).

If the items you seek are not listed or are listed as "wanted", please send your want list; I maintain reservations so that the clients who send their want lists will get the next example that comes in. Also, if you are interested in receiving these on a "new issue basis" as they are issued, please let me know; such clients receive them before all others.

I am often interested in buying these booklets with markings whether or not listed and whether or not listed as "wanted". Please make offers.

Revenues

As a province of Finland, Åland used Finnish revenue stamps for payment of nationally mandated taxes. However, with greater self-government, starting in the 1920s, Åland had the right to levy taxes of its own and to issue its own revenue stamps. For the most part, Finnish revenue stamps that can be identified as used in Åland are very scarce -- this is due to limited applicable use (less commercial activity), cancellations that usually did not specify location, and stamps (particularly engraved issues) that did not show cancellations clearly. Documents bearing Åland-issued revenue stamps are rare and most of the stamps are surprisingly scarce.

Ålandic and Finnish revenue stamps are cataloged (and listed here) by the 1998 Saarinen and Smith [me] catalog which is still in print and available from me. Listings that I have seen in more recently published general catalogs appears to have been taken, without permission, from our S/S work. Before that 1998 publication, I expected that the issuance of the book would result in more Åland revenues becoming available. That does not seem to have occurred. There are still many Åland revenues which I have never personally seen and more that I have seen but never actually had. Many of the 1998 prices have proven to be too low, though the relative rarity is about right with the adjustment that the rare items are even rarer than previously thought.

Often additional items are in stock but have not been put on the website or price list. All items are

available for viewing on approval. Please let me know of your interest.

1978 Issue

1978: Similar design, but much better printing and perforating quality. Perforations: Penni denominations 12.5 x 13, Mark denominations 14. Since the publication of the 1998 catalog, I have recorded some values with slightly differing paper and perforations; the range of variation is not fully known and for some denominations it is not known if they even exist in more than one variation. The variations include: Thicker (slightly yellowish) vs thinner (whiter) paper; backside more (whiter) or lesser (dull/violetish) reactive under L-W UV light; perforation tips thinner/pointed vs thicker/blunt.

Finnish Revenues Used In Åland

Finnish revenue stamps were used in Åland in all periods for nationally mandated taxes. With the exception of 1970s ammunition licenses, documents bearing Finnish revenues used in Åland are rare. Even single canceled stamps are very scarce due to: limited use; lack of location information in the cancel (true throughout Finland); and some stamp issues do not clearly show details of cancels.

These stamps are FINNISH revenue stamps with Åland cancellations and are identified by 1998 Saarinen and Smith numbers. Often I will have

items available that are not listed here; please inquire.

Finnish Revenues On Åland Ammunition Licenses

Due to a single find made by me of 1970s ammunition licenses bearing 1963-issue Finnish revenue stamps, collectors can own at reasonable prices at least one type of Finnish revenue stamp on document used in Åland. These documents bear cancellations from various Åland jurisdictions -- it seems that the police were in charge of issuing the annual licenses. Virtually all known examples of these documents have filing book punch holes; it is an exception when a punch hole missed the stamps. One or more punched stamp is normal.

Christmas Seals

The "Official National" Christmas Seals of Åland have been officially sold by the post office. There are a few other Christmas and charity seal issuers; I often have those in stock, please inquire. All Åland Christmas seals (and those of all the other Scandinavian countries) are available on approval. If you have specific topical/thematic interests, please let me know.

Scandinavia Tourist Issues

These stamps were issued in cooperation with the Swedish and other Scandinavian post offices and are valid FROM other countries TO *Sweden, Denmark, Norway, Finland, and Åland*. They are listed by the Facit catalog. There were five different stamp issues included in six different issues of booklets.

It all started in 1994 in the Canary Islands, off the coast of Spain. Many Scandinavians vacation in the Canary Islands during the dark Scandinavian winters. Unfortunately, sending an airmail letter from the Canary Islands back to friends in the Scandinavian countries used to take several weeks as it crawled through the Spanish mails. To solve this problem, Sweden Post, through a cooperative arrangement, issued special stamps, initially sold only in the Canary Islands. These stamps had international franking value for post cards (one stamp) and letters (two stamps) to *Sweden, Denmark, Norway, Finland, and Åland*. The following year, the availability of stamps and service was expanded to other tourist destinations such as Cyprus and Crete. Eventually the stamps came to be used from a number of areas, including Florida! The letters and post cards are posted with the hotels and travel agents and are carried aboard charter airliners to Stockholm where they are placed in the regular mails for delivery within Sweden or to the other countries.

This mail service ceased in the fall of 1998. The stamps have already become quite hard to find; prices are already rising. However, most collectors are not yet aware of them; as they become more well known, we can expect prices to climb.

To my knowledge, this is a completely new type of stamp: Issued by one country for postage use on letters *from* a different country, back to the home country (or to a neighboring country). These special-purpose stamps are not local issues because they have international validity and they were authorized by a national postal service. They are stamps. The items below are listed by Facit numbers.

Stamps

The Facit Catalog has already listed these stamps. European catalog and album publishers are likely to eventually include them as well. They are already being included in the Stender Albums. Obtain your stamps **now** before they are listed in all catalogs; before prices go up further! Though these stamps were printed in Sweden, they are valid for mail to Denmark, Norway, Finland, and Åland as well as Sweden. This means that collectors of all these countries are including them in their collections. You may wish to do so as well.

Covers

The Tourist Stamps were applied to post cards (one stamp) and letters/envelopes (two stamps) by the sender or perhaps a travel agency or hotel employee at the tourism location (i.e. Canary Islands, etc.). The mail was then privately transported to the nearest airport served by related Scandinavian airlines or charter airlines serving

the tourists. The airlines carried the mail to Stockholm where it was sorted for delivery in Sweden or carriage on to one of the other Scandinavian countries.

The card and envelopes were **not normally postmarked** in accordance with Swedish post office practice regarding mail that is imprinted or bears stamps bearing the statement "porto betalt" or "port payé". Postmarked covers and cards are the exception and are, of course, avidly sought after.
