There are spaces for these in Lighthouse, and some other, albums. Issued in early 1999 for the "Stamp Points" reward program; they were given, one per person, to the NZ Post customers who had met a certain level of purchases. Very hard to find now because of the one-person distribution; I am not aware of any dealer who has a big stock of these. Listed by the ACS Catalog at \$100. I believe that this will continue to increase in value.	---	---	35.00	---

Cinderellas

In philately, "Cinderellas" are a wide range of stamp-like items that are not actually postage stamps. This certainly includes labels (some are also called "poster stamps"), Christmas, TB, and charity seals, etc. The category usually also extends to include stamps issued by local posts, railways, and shipping companies; as well as revenue (tax) stamps and just about anything that resembles a stamp. The range of "Cinderella" material probably extends to the borders of "ephemera" material. One collectors Cinderellas are another collectors main interest!

Album Labels

These labels were created and sold by stamp album publishers for the purpose of placement at the top of the first page of each country in a stamp album. In the U.S. we are most familiar with those produced by the Scott company and consist of Flags, Coats of Arms, and Rulers of the World; The first Scott advertisement for them that I have seen (I have not done an exhaustive search) is in the 1902 Scott Catalog. A quick check also showed similar ads in the 1927 and 1950 catalog editions. **See the advertisements here.**

This type of label was often stuck into the albums of young collectors; they tended to tear them apart very roughly and then lick-and-stick them in the album. Examples with gum (even hinged) and in nice condition are very seldom offered! **Spellings are as shown on the label.**

Scott - Rulers Of The World

Originally sold by the Scott stamp album publishing firm. There were surely must have been different editions of them over the years, but I do not have any information on how to differentiate and identify different editions. I am first aware of the labels being offered in a 1902 Scott Catalog. **This group came from an album dated 1935 and which contained no stamps issued later than 1945. All are with full gum, hinged, and in excellent quality unless noted as SD (slightly damaged). Such nice examples are very seldom offered!**
