

Scandinavian Philatelic Foundation

P.O. Box 39 Exton, PA 19341-0039 USA

The Scandinavian Philatelic Foundation was founded in 1978 for the purpose of translating and publishing materials related to all aspects of Scandinavian philately. The Foundation's primary objective is to make available, to the American and international collecting communities, important literature references in the English language. All of the publishing projects are related to the educational goal of bringing Scandinavian philately to the widest possible collecting audience.

The Foundation has published a number of monographs in such areas as early issues of Norway, Sweden, and Finland; Scandinavian revenue stamps;

numeral cancels of Denmark; and major sections of the AFA specialized catalogs covering the Danish area. Additional projects are currently underway. Your suggestions for future projects are welcome.

Dues are a minimum contribution of \$15 per year; larger contributions are appreciated and make possible a greater number of publishing projects. Members are kept informed of Foundation activities through the semiannual Newsletter. SPF is chartered as a 501c3 not-for-profit educational organization; as such, your contributions are potentially deductible for tax purposes (United States) and help fulfill SPF's educational objectives.
