238158	Scott #1295a [1966 \$5 John Bassett Moore; 1973 TAGGED printing] NH VF/XF/Superb full sheet. Upper left corner, plate #28766. The left two columns, including the plate block are XF-Superb -- unusual for a stamp on which the centering usually varies greatly. There is a slight (typical for this issue) offset impression on the gum on the lower right two stamps. The upper right has some minor bending in the selvage which I think will flatten out. Otherwise pristine. This sheet is scarce; most of them were broken up and used for postage a long time ago. There were two plate numbers for this issue; both of them exist both non-tagged (#1295, a little scarcer as singles) and tagged (#1295a). It is my observation that though #1295a (tagged) singles are more common, the #1295a sheet is scarcer -- anybody who was buying such costly sheets at the time (this was a lot of money back then) had already purchased #1295 -- they either did not know about the #1295a tagged version or did not care to spend so much money again. This is a real sleeper! The searching I have done finds a couple examples of #1295 (untagged) sheets offered, but I have been unable to find any #1295a (tagged) sheets offered. My most recent Brookman does not price sheets of either, but apparently a later version lists #1295 (untagged) at \$1880 (much too high). Regardless, this #1295a (tagged) version is very scarce and is missing the vast majority of sheet collections.	690.00	---	---

This Scott-listed major plate variety (an error when making the plate) is clearly illustrated in the catalog though they do not assign sub-numbers to such items. 237730	4481f [2010 Holiday Evergreens / Christmas booklet stamps, tall format] DIE CUTS MISSING ERROR: Die cuts completely missing from the 12-stamp side AND die cuts completely missing from the bottom four stamps of the 8-stamp side. This is the DISCOVERY EXAMPLE that was submitted to Scott for the #4481f listing and about which a page-one article was published in the August 13, 2012, issue of Linns Stamp News. I have not heard of any other examples having been discovered. Found in a small-town post office in North Carolina (no, not by me!) when the discoverer overheard another post office patron complaining that the stamps (of a #4481d) could not be separated. The discoverer examined all the booklets in the post office stock and found a couple examples of 4481d, but only this one example of 4481f. This #4481f is unpriced by Scott, however, sales have been recorded for #4481e (die cuts missing on 8-stamp side) and that is listed by Scott at \$800. This #4481f is apparently the only recorded example and deserves a higher valuation.	950.00	---	---

Confederate

Confederate States of America. The stamps of CSA are fun to collect and a challenge to find. Please keep in mind that these stamps were printed and used, and later stored, under difficult and crude conditions. Quality standards are not the same for CSA stamps as they are for most other stamps. Due to climatic conditions the effects of aging are typically seen. All items are guaranteed to be as described and may be viewed on approval. Payment plans are available.

732504	Confederate States: Covers from a Confederate Officers Correspondence 1862-64: Interesting set of 8 covers from the correspondence between a Confederate officer and his family from 1862-64. Alfred Rives was an Engineer officer in the War Department in Richmond. His father and his wife Helen were at Cobham Depot in Albermarle County, Virginia. Three of the covers are addressed to "Cobham Depot Va. C.R.R." [Virginia Central Railroad] -- this is a scarce destination address; however, if these had been postmarked from Cobham Depot, they would individually each be worth the price of the entire lot! Three of the covers are addressed to him and five are from him to her. One cover from July 1862 is addressed to Captain Rives; the next in September 1862 is to Major Rives, indicating he had been promoted in the interim. A wide range of frankings shows the progression of stamp issues over the two year period. The earliest is a single 5c Davis #6 from May 29, 1862 (very scarce as a single on cover as the letter rate increased to 10 cents on July 1). Next is the July 1862 cover franked by two 5c Light Blue Davis #4 with m/s cancels, followed by three 5c Blue #6 or 7 pairs for the 10c rate and finally three with the later 10c Davis #11 or 12. Condition varies: three covers have small edge tears due to careless opening, the rest of the envelopes are sound and F-VF or better with some VF. Stamp margins vary as typical, ranging from a couple roughly separated, to F-VF, with a couple of four margin VF examples. What makes this group of covers so fascinating is not just that they are all related to one family correspondence, but also the detailed annotation and docketing of the senders and the dates they were sent, making it a much more personal record of the communications of one Civil War Confederate family!	795.00
264322	Scott #1, 1861 5c green Davis. Mint F-VF. Four margins. No gum. Typical age tone spots and crease. (Scott 2016 \$175 for no gum.)	75.00
216610	6, April 1862 Five Cents Jefferson Davis, Light Blue. Three-margin example neatly tied on reverse of a "visiting card" envelope as both postage and a letter seal. Year date not visible; appears to be canceled ROM(E), Georgia, and mailed to Atlanta. Quite an attractive cover, unusual on a small envelope, and in unusually nice quality.	125.00
258585	Scott #6, 1862 5c Light Blue Jefferson Davis. Used Fine. Three margins. Just in at right. Cancel is possibly San Antonio, Texas (quite scarce). (Scott 2014 \$28 for common cancel.)	25.00
256495	Scott #7, 1862 5c Blue Jefferson Davis. Used F-VF. Four margins, ample to close at top right. Very light cancel. (Scott 2012 \$20.)	16.00
256499	Scott #7, 1862 5c Blue Jefferson Davis. Used Fine. Three ample margins, just touching at bottom. Light cancel. (Scott 2012 \$20.)	12.00

264325	Scott #8a, 1863 2c pale red Andrew Jackson horizontal pair. Mint Fine. Bit worn and creased, but full original gum. Hinged. A rather uncommon multiple! (Scott 2015 \$160.)	39.00
216637	11 Intense Deep Blue, 1864 Keatinge and Ball Printing, Die A, 10 Cents Jefferson Davis. Typical blurred / filled background of the Keatinge and Ball printings. Used VF with four huge margins on attractive cover to Clarksville, Virginia. The cover has typical wear and a stain will away from the stamp. The stamp bears what I have been told is a "W. Army Camp grid" cancellation, however the cancel does not appear to tie the stamp to the cover. However, viewing from inside the cover, it is very clear that the stamp has been on the cover for an extremely long time. I believe that the stamp does belong on the cover and guarantee it as such, however cost of expertizing to be borne by the purchaser.	125.00
264321	Scott #11, 1864 10c blue Davis bottom margin block of 12 with plate number 1 and Keatinge and Ball imprint. Mint VF. Usual brownish gum. Lightly hinged, some NH. A couple of the typical light vertical creases. A handsome and scarce position multiple! (Scott 2015 \$425.)	400.00
264326	Scott #11, 1863 10c blue Davis. Mint VF. Four margins. Lightly hinged. (Scott 2016 \$16.)	12.00
264329	Scott #11, 1863 10c blue Davis. Used VF. Four margins. Light cancel. Tiny nick in bottom margin. (Scott 2016 \$20.)	14.00
264327	Scott #11b, 1863 10c dark blue Davis. Mint VF. Four margins. Hinged. (Scott 2016 \$25.)	20.00
216643	12 (Grayish) Blue, 1863 Archer and Daly Printing, Die B, 10 Cents Jefferson Davis. Filled-in lower corners typical of #12 (Die B) and with virtually no remnants of the additional outer frame line. Used VF, with three huge and one close margins. Neat and light cancellation, but which does cut the paper slightly. Clear and sharp printing. A remarkable color which I have not seen before and does not seem to be listed in the catalogs. Very attractive with unusual appearance!	50.00
264328	Scott #12, 1863 10c blue Davis. Mint VF. Four huge margins. Hinged. Tiny corner crease in margin. Not as often offered as the low Scott 2016 of \$20 suggests.	20.00
238352	Scott #6/7 Five Cent Davis Private Reprinting or Counterfeit with "Facsimile / No. 205" on reverse. Mint VF NH (ungummed) right margin vertical pair. Interesting and attractive.	8.00
238353	Scott 13 Private Reprinting / Facsimile. Yellowish green on yellow-brown paper, with violet "Facsimilie" on reverse. Imperforate, VF NH (ungummed). Probably from the 1935 "Springfield" facsimiles mentioned by Scott.	4.00
238685	Confederate Facsimiles: Group of 14 "mint". Sometimes described as reprints, these are facsimiles made for collectors (I believe that these date from the 1950s). On the back each bears the text "Facsimile / No. XX" (numbered 1 to 14). Imperforate, ungummed. All of consistent printing quality and appearance on thick white paper. All excellent quality with full margins. These are quite collectible.	32.00
238351	Confederate States of America Paper Money (GENUINE): #T-67 \$20 February 17, 1864 normal version (not the six month / two year variety). Serial #61107. I believe this to be in "Fine" grade: It is obviously circulated and there is significant creasing, but it is not terribly obvious from the front. The bill is complete, no pieces are missing and the corners are probably sharper than expected for Fine. The red on the front is more salmon colored, perhaps just slightly faded. The blue on the reverse is quite strong. The back has more wear than the front. Overall quite attractive. While extremely nice examples of this bill can be purchased for \$500-600, examples in ap-

237738	Scott #2041 "UNFINISHED BRIDGE" SHORT TRANSFER variety [1983 20c Brooklyn Bridge] NH VF Full Sheet Upper Left Plate #1 with variety in plate position 2. This Scott-listed major plate variety (an error when making the plate) is clearly illustrated in the catalog though they do not assign sub-numbers to such items. Only exists from plate position 2 of upper left panes (i.e. only upper right stamp of upper left plate blocks), thus theoretically 1 out of 200 stamps has the variety, but it is rarely offered. Only plate numbers 1, 4, 5, 6 exist. Wonderful example. Undervalued in Scott. I do not recall ever seeing a dealer offering a full sheet containing this variety.	28.00	---
237864	2136a [1986 25c Bread Wagon transportation series coil, IMPERFORATE] NH Superb pair.	9.00	---
237866	2281a [1988 25c Honey Bee coil, IMPERFORATE, small block tagging] NH Superb pair, miscut so that the design just go over the bottom edge. I have been able to find a couple offerings of #2281a, but not any that have been miscut.	38.00	---
237865	2281g [1988 25c Honey Bee coil, IMPERFORATE, large block tagging] NH Superb pair. I have been able to find offerings for #2281a (imperforate with small block tagging), but not #for 2281g!	45.00	---
238237	2517 [1991 "F" (29 cent) Tulip] NH VF 40-block COLOR ODDITY. Vertical 40-block, lower left plate number U1111, with dramatic RED COLOR STARVATION in top three rows (12 stamps) and then slowly increasing red intensity proceeding downward. Quite unusual type of variety, but at a very low price.	20.00	---

238238	2130a Red Precancel [1988 10.1c Oil Wagon with red bulk rate overprint] Uncanceled (no gum) MISPERFORATION; 10% of design appears on the right side. Unusual and with considerable thematic appeal.	---	---	5.00
237731	4481d [2010 Holiday Evergreens / Christmas booklet stamps, tall format] DIE CUTS MISSING ERROR: Die cuts completely missing from the 12-stamp side. Found in a small-town post office in North Carolina (no, not by me!) when the discoverer overheard another post office patron complaining that the stamps (of a different #4481d) could not be separated. The discoverer examined all the booklets in the post office stock and found a another example of 4481d (and also the discovery example of 4481f). This #4481d is still unpriced by Scott, however, sales have been recorded for #4481e (die cuts missing on 8-stamp side) and that is listed by Scott at \$800.	---	575.00	---
237730	4481f [2010 Holiday Evergreens / Christmas booklet stamps, tall format] DIE CUTS MISSING ERROR: Die cuts completely missing from the 12-stamp side AND die cuts completely missing from the bottom four stamps of the 8-stamp side. This is the DISCOVERY EXAMPLE that was submitted to Scott for the #4481f listing and about which a page-one article was published in the August 13, 2012, issue of Linns Stamp News. I have not heard of any other examples having been discovered. Found in a small-town post office in North Carolina (no, not by me!) when the discoverer overheard another post office patron complaining that the stamps (of a #4481d) could not be separated. The discoverer examined all the booklets in the post office stock and found a couple examples of 4481d, but only this one example of 4481f. This #4481f is unpriced by Scott, however, sales have been recorded for #4481e (die cuts missing on 8-stamp side) and that is listed by Scott at \$800. This #4481f is apparently the only recorded example and deserves a higher valuation.	---	950.00	---
238354	Scott #C71a TAGGING OMITTED ERROR [1967 20c John Jay Audubon "Columbia Jays" airmail]. NH Superb lower left ZIP BLOCK, untagged (tagging omitted). Though the Scott value for a single stamp is only a modest \$12.50, such tagging production "errors" are rarely offered (and usually cost well above Scott) and one might have to search for many years to find an offer of a Zip block!	85.00	---	---
264311	Scott #U481b, 1934 1-1/2c purple Washington postal stationery COLOR ERROR, legal size entire window-front envelope, Mint VF with printed return address. Typical slight wrinkling due to glassine window shrinkage. An eye-stopping and affordable U.S. color error! (Scott 2015 \$110.)	89.00	---	---

Mint Sheets - Scott 1278-1295 Prominent Americans

238161	Scott #1294a [1967 \$1 Eugene O'Neill; 1973 TAGGED printing] NH VF/XF full sheet. Lower left corner, plate #32848. This issue is scarce in a full sheet; most of them were broken up and used for postage a long time ago.	---	140.00
238158	Scott #1295a [1966 \$5 John Bassett Moore; 1973 TAGGED printing] NH VF/XF/Superb full sheet. Upper left corner, plate #28766. The left two columns, including the plate block are XF-Superb -- unusual for a stamp on which the centering usually varies greatly. There is a slight (typical for this issue) offset impression on the gum on the lower right two stamps. The upper

There were two plate numbers for this issue; both of them exist both non-tagged (#1295, a little scarcer as singles) and tagged (#1295a). It is my observation that though #1295a (tagged) singles are more common, the #1295a sheet is scarcer -- anybody who was buying such costly sheets at the time (this was a lot of money back then) had already purchased #1295 -- they either did not know about the #1295a tagged version or did not care to spend so much money again. This is a real sleeper! The searching I have done finds a couple examples of #1295 (untagged) sheets offered, but I have been unable to find any #1295a (tagged) sheets offered. My most recent Brookman does not price sheets of either, but apparently a later version lists #1295 (untagged) at \$1880 (much too high). Regardless, this #1295a (tagged) version is very scarce and is missing the vast majority of sheet collections.				press sheet (perforations on left and right sides). Rarely offered! Matched Set of Four Full Sheets: Set of four matched full sheets of the 1982 State Birds and Flowers issue, all plate number 22222, from each of the four corners. Presented in an attractive album with a very interesting (really!) small book about the development of the stamp issue. Brookman value is \$45 per sheet; I normally sell individual sheets for \$25. 732504	Confederate States: Covers from a Confederate Officers Correspondence 1862-64: Interesting set of 8 covers from the correspondence between a Confederate officer and his family from 1862-64. Alfred Rives was an Engineer officer in the War Department in Richmond. His father and his wife Helen were at Cobham Depot in Albermarle County, Virginia. Three of the covers are addressed to "Cobham Depot Va. C.R.R." [Virginia Central Railroad] -- this is a scarce destination address; however, if these had been postmarked from Cobham Depot, they would individually each be worth the price of the entire lot! Three of the covers are addressed to him and five are from him to her. One cover from July 1862 is addressed to	

Item #	Description	Price
	Captain Rives; the next in September 1862 is to Major Rives, indicating he had been promoted in the interim. A wide range of frankings shows the progression of stamp issues over the two year period. The earliest is a single 5c Davis #6 from May 29, 1862 (very scarce as a single on cover as the letter rate increased to 10 cents on July 1). Next is the July 1862 cover franked by two 5c Light Blue Davis #4 with m/s cancels, followed by three 5c Blue #6 or 7 pairs for the 10c rate and finally three with the later 10c Davis #11 or 12. Condition varies: three covers have small edge tears due to careless opening, the rest of the envelopes are sound and F-VF or better with some VF. Stamp margins vary as typical, ranging from a couple roughly separated, to F-VF, with a couple of four margin VF examples. What makes this group of covers so fascinating is not just that they are all related to one family correspondence, but also the detailed annotation and docketing of the senders and the dates they were sent, making it a much more personal record of the communications of one Civil War Confederate family!	795.00

Additional tape to seal the envelope, but the tape is in good condition. I have to assume that the 1 cent "imperfurate" has been made from a huge-margined booklet stamp, however, it makes for a very interesting cover.	10.00

	Apollo 17 astronaut Ron Evans. Though I am not an autograph expert, the signature appears to be original and hand signed, and matches images I see on the Internet. I have seen offers of Evans-signed items ranging from \$100 to \$1500; I suspect that the lower end is more appropriate. 3) Apollo-14 cacheted February 5, 1971, cover commemorating the Apollo 14 moon landing by Shepard and Mitchell. Very attractive. 4) Non-philatelic: July 21, 1969, Fayetteville, North Carolina, "The Fayetteville Observer" newspaper with bold headline "MEN LAND ON MOON". The complete newspaper, in excellent condition (not brittle), folded gently down the middle. All in all, a very interesting and historical selection. While it is difficult to price such material, I think my price is quite reasonable, especially since the two professional picture frames alone would cost about half my price. <i>Shipping cost is additional for this item.</i>	145.00

[Next President of America] / Nichols, Presidential Photographer to the Next President of America, / 385 [?] Sixth Avenue, near 23rd St., and 735 Broadway, N.Y." The photo is real and applied to the card, not printed on the card. Per Wikipedia, Train was a fascinating American character who ran for president in 1872 as an independent. He was involved in a significant range of American and world historical events, including: Building the eastern end of the Transcontinental Railroad, and in the process forming perhaps the first shady "shell" corporation to fund it; Traveling around the world three times, with his 1870 trip believed to be the foundation of the Jules Verne novel "Around the World in Eighty Days", with Phileas Fogg apparently being modeled on Train [his later 1890 trip was made in 67 days]; Railway developments in England and the U.S. including tram rails lowered to street level; support for French and Australian revolutionaries [supposedly being offered the Presidency of an Australian Republic!]; a strong supporter of Temperance, but also jailed as a defender of a newspaper publisher accused of obscenity; the primary funder of the womens rights newspaper "The Revolution" published by Susan B. Anthony and Elizabeth Cady Stanton; etc., etc. While I suspect that the card would not be classified as "rare" by experts in the field, it is certainly extremely unusual. I have only

	found a record of a somewhat similar (on the front, but with many differences including different photo) card but with a handwritten message and signature on the reverse. I have not found any record of other examples of this card or any other Train political advertising item. Though not philatelic in any way -- other than the historical connections of his business, railway, and political interests to the carriage of the mails -- it is a fascinating bit of political and social ephemera. Excellent quality.	250.00
235341	Northwestern Lithographing Co., Milwaukee, Wisconsin, demonstration card probably from the 1880s. Though looks engraved, is indeed lithographed (that is the point of the demonstration). A sales aid to presents the skill of this company.	20.00
235342	Book advertisement (page from magazine) for "Authentic History of the Ku Klux Klan 1865-1877" by Susan Lawrence Davis, published in 1924. Though an extremely unfortunate and tragic chapter of American history, it is part of American history. Poor quality, however, I suspect that such ads are many times scarcer than the actual book.	8.00

237485	1857 New York and New Orleans Magnetic Telegraph Company "The Only Direct Southern Line..." telegraph message form dateline Selma, Alabama, December 23, 1857. No indication of recipient address. A few brown spots that appear to be stains, NOT foxing. Otherwise, remarkable condition. Interesting PRE-CIVIL-WAR artifact emphasizing the connections between North and South. 5 3/8 x 8 5/8 inches (136 x 220 mm), nice size for mounting or framing.	25.00
238350	Philatelic History: Group of three uncashed checks from/to famous American philatelists. 1922 from G.A. Mackay (?) publisher of the little-known and short-lived Dirigo Philatelist of Maine, to William R. Ricketts the compiler of the Ricketts index (now held by the APRL); Ricketts did the absolutely enormous and thankless job of indexing early philatelic literature. [In late 2014, Bonnie and I were able to view part of what remained of Ricketts library, at the Atkins sale; the volume of material of just that part was breathtaking.] Two 1919 checks from the aforementioned Ricketts: to August Dietz, the "Father of Confederate Philately" and an important philatelic publisher; and to A.C. Roessler, the famous and infamous early dealer and creator of many of the early airmail and Zeppelin covers. Without Roessler, many aerophilatelic events may have no philatelic documentation. To make one of his Zeppelin covers more interesting, Roessler overprinted a U.S. stamp with a Zeppelin overprint; because of this, he was convicted of issuing counterfeit stamps and was given probation with the requirement that he leave the stamp business. He died a few years later in a mental institution. Perhaps that is what happens to stamp dealers if they are not permitted to be in the stamp business? 238351	Confederate States of America Paper Money (GENUINE): #T-67 \$20 February 17, 1864 normal version (not the six month / two year variety). Serial #61107. I believe this to be in "Fine" grade: It is obviously circulated and there is significant creasing, but it is not terribly obvious from the front. The bill is complete, no pieces are missing and the corners are probably sharper than expected for Fine. The red on the front is more salmon colored, perhaps just slightly faded. The blue on the reverse is quite strong. The back has more wear than the front. Overall quite attractive. While extremely nice examples of this bill can be purchased for \$500-600, examples in approximate

Discount Postage

Save on your mailing costs or possibly inexpensively add stamps to your collection. Discount postage are stamps that are excess to collectors or dealers needs that are offered below face value. This is a common practice everywhere in the stamp world and it is absolutely, unquestionably 100% legal and proper. The post office was originally paid the full amount for the postage (and they have had the free use of that money without yet having to provide any service). There is no difference between buying a stamp on Monday and using it on Tuesday vs buying it in 1980 and using it today (as long as you have enough postage on the envelope). People sell postage below face value if they have more than they can use -- it is a matter of supply and demand, and/or sometimes also matter of the labor costs involved with sorting stamps out and selling them individually.

As a rule, the stamps that I sell as discount postage will be virtually all in excellent collectible quality unless otherwise mentioned -- while they are priced and intended to be used as postage, many collectors buy such stamps, pick out what they want for their collections and then use the rest on their mail. You can only assume that there will only be a variety of different stamps in each group if the description says there will be. All stamps will have full gum/adhesive unless specifically stated. It is fun to use vintage postage stamps on your mail!

United States

All the U.S. discount postage I offer is usable on ANY type of mail to ANY destination, unless otherwise stated in the description. In other words: special, non-denominated, fractional, pre-canceled, service-inscribed, etc., stamps are NOT included unless the description states that the lot does include such. You may order with confidence!

U.S. Discount Postage

If you are seeking any types of stamps, denominations, different postage rate units, or larger lots, that are not listed, please inquire. I have a large amount of material available and can usually provide whatever you are looking for. (Except high denominations which I use on my own mail.)

49 Cents - One Ounce Letter Postage Rate Units

Postage Rate Units are groupings of stamps needed to meet a particular postage rate. For example, a "postage rate unit" to meet the 49-cent amount will normally consist of up to (NOT more than) 3 or 4 stamps (see specific item description) stamps that total 49 cents: For example 25 + 20 + 4 = 49. The stamps will be neatly sorted and packaged (typically in groups of 25, usually mostly the same stamps) for easy use and will be clearly labeled so you know how they are intended to be combined and used.
